## **FVSN Initiatives Discussion**

- BIP Best Practices
  - 36-52 weeks long
    - Some county BIPs evaluate at the 18-week mark to decide length of program
  - Everyone in the same groups, regardless of risk level
  - Josephine Co in house program
    - Separates risks
    - Follows OAR
- Jon Hansen and Scott Hyde – Best Practice for BIP
  - Lane Co has contracted BIP to have a say in treatment
    - Fully covers BIP for offenders
    - Has BIP follow corrections requirements
  - Hood River pilot program with Innterworks
    - BIP all online
    - 36-40 weeks long
  - Have Probation Judgements read, do DV assessment and follow recommendations, rather than just mandate DVTX
  - Helps BIP if they are sent the ODARA and LS/CMI to help separate risk groups
  - Re-writing OAR to hopefully change current BIP practices
  - Veterans are the highest growing population for DV offenses followed by homosexual relationships – national statistics
  - Ideal DV package
    - Wants
      - Treatment in DOC
      - Assessment to properly gauge risk for both supervision and DVTX
      - Have release counselors start conversation regarding no contact prior to release – possible policy \*will have further discussion on this
      - State wide DV package
        - No contact

- GPS tracking if needed
- Electronic Search condition
- No intimate relationships without prior approval
- Polygraph funding for at least 2 tests while on supervision
- Victim info and photo
- Offer couples counseling towards end of BIP
- Barriers
  - Funding for DV treatment
  - DV treatment not provided in DOC
  - Offenders allowed contact with victim while in DOC
  - LS/CMI is not great to project risk for DV offenders
