

Your CIS (Corrections Information System) adventure begins here!

If you've never worked with this system before and are now wondering what you've gotten yourself into, don't panic; just take a deep breath! While the field of community corrections and this computer system are ever-changing, the support system you have both with this manual and your SOON Reps (Statewide Office Operations Network) is consistent. SOON Reps are more than happy to assist you by answering your questions, offering advice, or simply lending an ear when you feel overwhelmed or frustrated.

Learning how to do this job correctly is an enormous challenge, but it is possible, and it is an accomplishment of which you should be very proud! This manual was designed to assist you in entering, modifying, and transferring offender data within CIS, and it has some tips for navigating a few other systems like LEDS and e-Courts. You will find screen prints with detailed directions and quick reference checklists to help ensure you complete each specific task accurately and in its entirety.

This system is known by many different names: CIS, DOC400, AS400, DOC, ISIS, etc. Just as there are different ways of referring to this system, there are likewise a variety of different ways to navigate within it. One method is to utilize the shortcuts found within the Menu Bar at the top of the screen (found by pressing F11); another is to select an option from the Main Menu and press the "Enter" key to make your way through the screens one by one until you've reached the desired screen. For the most part, this manual uses the steps that appear within the Main Menu.

As you now begin to navigate through the community corrections and CIS worlds, **remember that you are not alone!!** Here are some tips to keep in mind that may help you on your journey:

- Take a deep breath and remember that there is nothing you can do within the system that cannot be undone!
- Read the screen and take your time; don't rush your work. Quality trumps quantity here.
- Read this manual and use the quick reference checklists found within it.
- If you still can't find the answer to your question, contact a SOON Rep. You can find a current list of SOON Representatives under the "Information Links" header on the OACCD website:

<https://oaccd.net/charters-minutes/#1621543909097-107c3ac4-2d22>

or email:

dlsoon-soonrepsonly-useccb-allcf@doc.oregon.gov

Good luck!

***THANK YOU** to the current, and previous, Manual Committee members for their ongoing support and contributions that help make this manual possible.*

Introduction

Table of Contents

OPS 1 – Public Information

1.1	Public Information Screen	1-1
1.2	Public Information Screen -Confidential Record Warning.....	1-2

OPS 2 –

Part A – Reading a Court Order 2-1

2.1	Uniform Criminal Judgements	2-1
2.1.1	Heading and Caption	2-1
2.1.2	Description of Defendant	2-2
2.1.3	Description of Court Officers.....	2-2
2.1.4	Offenses	2-3
2.1.5	Sentencing Guidelines (Felony only)	2-3
2.1.6	Court Language.....	2-4
2.1.7	Sentence	2-5
2.1.8	Conditions.....	2-5
2.1.9	Jail as a Condition	2-6
2.1.10	Statutory Provisions.....	2-7
2.1.11	Court Fees and Fines	2-7
2.1.12	Compensatory Fine/Restitution	2-7
2.1.13	Counts Disposed	2-8
2.1.14	Money Award.....	2-8
2.1.15	Judge’s Signature	2-9
2.1.16	Footer	2-10
2.1.17	Incarceration Sentence.....	2-10
2.1.18	Tricky Language	2-11
2.2	Conditional Discharge and Diversion.....	2-11
2.3	Probation Violation Order	2-11
2.4	Other Judgements (Temporary and Handwritten)	2-12
2.5	Data Entry – Who does which entry?	2-13

Part B – Admitting AOS in CIS

2.6	Should an AOS be Admitted to CIS?	2-15
2.7	AOS Admission	2-16
2.8	Compact Admission.....	2-31
2.9	Local Control Admission.....	2-31
2.10	Admitting Parole/PPS/Leave/Second Look Cases	2-32
2.11	Admitting Post-Prison Cases from County Jails (Local Control)	2-37
2.12	Admitting New AOSs convicted on Same Date to Probation and Institution Sentences	2-37
2.13	Admitting Cases Converted from Bench to Formal Supervision	2-38
2.14	Commutation Releases	2-39
2.14.1	Admitting Commutation Releases	2-40

2.14.2 AOS Returns to Prison on Commutation Revoke	2-40
2.14.3 Rerelease of AOS Returned to Prison on Revoke	2-41
2.14.4 Double-Check Expiration Dates on Board PPS Order	2-41
2.14.5 Key Data Points	2-43

OPS 3 – Interstate Compact

3.1 Reporting Instructions/Investigation Requests	3-1
3.1.1 Reporting Instructions (RFRI aka RI) Admission Process – AOS with Previous Discharge Status	3-2
3.1.2 Reporting Instructions (RFRI aka RI) Admission Process – New AOS	3-4
3.1.3 Reporting Instructions (RFRI aka RI) Admission Process – AOS on Active Supervision in Oregon	3-5
3.1.4 Reporting Instructions (RFRI aka RI) Admission Process – AOS currently on “IV” Status	3-6
3.2 Rescinding of Reporting Instructions for AOSs Supervised Here on RFRIs	3-6
3.3 Denial of Transfer Request for Those Here on RFRIs	3-6
3.4 Compact Transfer Request for Offenders Here on Approved RFRI (Who are Already Entered into DOC400/CIS on the RFRI)	3-7
3.5 Compact IV Admission Process – AOSs with Previous Discharge Status – For AOSs who Stay in the Sending State During Investigation	3-7
3.6 Compact Investigation Admission Process (IV) – New AOSs – For AOSs who Stay in the Sending State During Investigation	3-8
3.7 Data Entry upon Acceptance and Arrival in Oregon	3-9
3.8 CIS Data Entry upon Investigation Rejection	3-10
3.9 Oregon Cases Accepted by Another State – Outgoing Compact (CMPO)	3-10
3.10 General Information Regarding Outgoing Compact	3-10
3.11 CMPO Return	3-12
3.12 Additional Information	3-13
3.13 If/Then chart	3-18

OPS 4 – DOC and Institution Release Data

4.1 Retrieving a Board PPS Order	4-1
4.2 Board/LC Supervisory Override	4-2
4.2.1 Petition the Board	4-2
4.2.2 Re-Released Following Revocation	4-4
4.2.3 Parole Board Closes Interest	4-5
4.2.4 Local Control Back to Board	4-7
4.3 Description of Parole and Post-Prison Closures	4-9
4.3.1 Pre-Ballot Measure 10 Parolees	4-10
4.3.2 Ballot Measure 10 Parolees	4-10
4.3.3 Post-Prison Supervision	4-10
4.3.4 Unsupervised Status	4-11
4.4 Second Look Conditional Release	4-11
4.4.1 Suspension or Revocation of Second Look Conditional Release	4-12
4.4.2 Second Look Conditional Release Escape	4-12

OPS 5 – LEDS

5.1	TACs (aka LEDS REPS) by County	5-1
5.2	Law Enforcement Data System (LEDS)	5-1
5.3	General Information	5-1
5.4	Creating an EPR.....	5-1
5.5	Caution Codes (CMC Field).....	5-2
5.6	Sex Offender Registration as Part of an EPR.....	5-3
5.7	EPR Expiring Reports.....	5-3
5.8	EPRP Reports	5-3
5.9	Person of Interest Records	5-4
5.10	Data Entry Tips and Tricks	5-4

OPS 6 – ORS listing with NCIC codes

6.1	Listed by Crime, Alphabetically.....	6-1
6.2	999 Substitute ORS Codes	6-22

OPS 7 – Modifying Offender Records

7.1	Outcount Returns	7-1
7.2	Adding an Offense.....	7-4
7.3	Closing a Single Offense Line	7-5
7.4	Transferring from Leave (AIP or STTL) Status to Post-Prison Status.....	7-7
7.5	Extending a Probation Sentence	7-11
7.6	Inactive Probation (INPR) and Unsupervised Local Control PPS (UNSU) closure	7-13
7.7	Conditional Discharge/Diversion Revoked/Convicted to Probation	7-15
7.8	Conditional Discharge Revoked/Convicted Directly to Local Control.....	7-16
7.9	Adding a second “P” (or Compact “I”) Line	7-16
7.10	Order Received that Changes a Supervision Term after it has Ended	7-17
7.11	PV Pending on a Case that is Past its MAX Date.....	7-18

OPS 8 – Closing AOS Records in CIS

8.1	Absconds/warrants	8-1
	8.1.1 Citation to Appear Warrants	8-2
	8.1.2 ABSC/REVP Scenario	8-2
8.2	Permanent File Closures for Probation & PPS	8-3
8.3	Probation Revocations to Prison (More than 12 months)	8-7
	8.3.1 Sentenced to Prison with a TSI date	8-8
8.4	Parole/Leave Returns to Prison.....	8-8
8.5	Commutation Returns to Prison.....	8-8
8.6	Felony Probation Revocations to Jail (12 months or less) (Local Control)	8-8
8.7	Parole/Post-Prison Revocations to Jail – PAROVIOL/PPSVSANC (12 months or less) (Local Control)	8-8
8.8	Unsupervised for Parole Board and Local Control cases (Body closure only)...	8-8
8.9	Inactive Probation (Temporary Body Closure Only)	8-9
8.10	Earned Discharge.....	8-10
8.11	Inactive (Temporary Body Closure Only for AOSs in Another State Prison) ...	8-15

8.12	REVP (Temporary Body Closure - AOS Revoked to a Federal Prison).....	8-15
8.13	Conditional Discharge or Diversion	8-16
8.13.1	Instructions when Conditional Discharge or Diversion is Revoked	8-16
8.13.2	Instructions when Conditional Discharge or Diversion is Expired Naturally	8-16
8.13.3	Instructions for Closure of Conditional Discharge or Diversion prior to Scheduled Max Due to Court Order	8-17
8.14	Psychiatric Security Review Board (body closure only).....	8-17
8.15	Immigration Cases.....	8-18
8.16	Case Accepted by Another State – CMPO	8-18
8.17	Process for Closing Non-Oregon (Incoming) Compact Cases	8-19
8.17.1	Incoming Compact Cases Issued an Oregon SID	8-20
8.18	AOSs with Appeals who are Compacting Out	8-22
8.18.1	If any open offenses are not part of an appeal and continue with supervision, nothing more to do until resentencing. No data changes, no Compact notifications required	8-22
8.18.2	If all open offenses are part of an appeal and supervision is suspended until resentencing, please follow these steps:	8-22
8.19	AOSs who Die while on Leave	8-23
8.20	Closure Codes Explained	8-23

OPS 9 – Transfers and Field Investigations

9.1	Inter-County Transfer Investigations (IRTs)	9-1
9.2	Out-of-State Investigations (Compact)	9-1
9.3	Field Investigations (Release Plans from Institution or Local Control)	9-1
9.4	Acceptance/Rejection Steps.....	9-3
9.5	Transferring to Another County	9-3
9.6	Transfer-In from Another County	9-5
9.7	New Case Transfer/90-Day Rule.....	9-6
9.8	Northwest Regional Transfer Agreement	9-7

OPS 10 – CIS Movement History/Maintenance

10.1	Auto Cycle/Summary Maintenance	10-1
10.2	Changing “Admission From” location.....	10-1
10.3	Changing Status, when Entered in Error	10-2
10.4	Changing Admission Date	10-3
10.5	Changing Current Admission Location	10-4
10.6	Deleting Outcount Admission Portion of Housing/Location Records	10-5
10.7	Deleting Release Portion of Housing/Location Records	10-7
10.8	Deleting the Last Location Admission.....	10-8
10.9	Steps to Inserting County AIC Movement.....	10-11
10.10	Removing a Custody Cycle Opened in Error	10-14
10.11	Tips and Reminders	10-15

OPS 11 – Caseload History Maintenance

11.1	Changing Incorrect Caseload Number	11-1

11.2	Inserting Caseload Number.....	11-2
11.3	Removing an Incorrect Record.....	11-4
11.4	Caseload History/Removing a Release.....	11-5
11.5	Caseload History/Removing an Admission.....	11-6
11.6	Secondary Caseload Indicator.....	11-7

OPS 12 – Miscellaneous Data Entry

12.1	Changing SID Numbers (from Block to SID or Wrong/Discontinued SID to Correct/Current SID).....	12-1
12.2	Offenses, Copying.....	12-2
12.3	Conditions, Copying.....	12-4
12.4	Offenses, Re-sequencing.....	12-7
12.5	Conditions Table, Re-sequencing.....	12-9
12.6	Multiple Caseload Changes.....	12-12
	12.6.1 To Change Entire Caseload.....	12-12
	12.6.2 To Change More than One AOS from One Caseload to Another.....	12-13
12.7	Duplicate Docket Number with Same Count Numbers.....	12-14
12.8	AOS's status, to Change or Correct.....	12-14
	12.8.1 Legal Status Change – Higher to Lower Status: To be Used when Offenses Added or Closed.....	12-14
	12.8.2 Legal Status Change – Lower to Higher Status.....	12-15
	12.8.3 Correcting the Status – Not a Legal Status Change.....	12-15
	12.8.4 If Status is Still Incorrect.....	12-17
12.9	Abscond Warrants, How to Check.....	12-17
12.10	Felony Convictions with Misdemeanor Treatment.....	12-18
	12.10.1 Scenario #1 - FMP - at Time of Conviction.....	12-18
	12.10.2 Scenario #2 - MFP – at Successful Completion.....	12-18
	12.10.3 Scenario #3 - MFP – Earned During Course of Supervision.....	12-19
12.11	Indicating Misdemeanors as Sanctionable.....	12-19
12.12	Designators.....	12-20
	12.12.1 Designator Table.....	12-22
12.13	Notifier, How to Enter.....	12-23
	12.13.1 Notifier Type Codes & Guidelines.....	12-24
12.14	Offender notes in CIS.....	12-25
	12.14.1 How to Read an Offender Note.....	12-26
	12.14.2 Notification of Note Delivery: How will you Know a Note has been Sent and By Whom?.....	12-27
12.15	Expungements & Sealing of Files/Records and/or Setting Aside Convictions/Arrests.....	12-28
12.16	ORS Table – How to Access.....	12-28
12.17	Treatment Module Entry.....	12-29
12.18	Searching Absconders for Indication of Death.....	12-30
12.19	Tips & Tricks.....	12-31
	12.19.1 How to Find Another Employee's Email Address, Phone Number and Extension Throughout the State in CIS.....	12-31
	12.19.2 How to Use the Navigation Bar.....	12-31

12.19.3 What Goes in the Offender Remarks Screen	12-31
12.19.4 How to Change Judge's Name to LC Authority or BOPPPS.....	12-32
12.19.5 How to Recognize a Conditional Discharge Order and Conditional Discharge Revoke Order	12-32
12.19.6 How to get a Release Date for an AIC in a Federal Prison.....	12-33
12.19.7 Cleaning Up Expired Offenses after an AOS has been Released from the Institution or Local Control Jail Sentence	12-33
12.19.8 DMV ID Number	12-33
12.19.9 Delete an Offense First before Backing Out an Admission.....	12-33
12.19.10 Kardex 'From' Field Explanation	12-33
12.19.11 Searching Specific County Location for AOS on the Name Search Screen	12-34
12.20 Vine Information	12-34
12.21 Vinewatch	12-36
12.22 Changing Legal Name.....	12-37
12.23 Changing Legal Sex	12-37
12.24 How to Create a PSI Facesheet and Generate a PSI Number.....	12-37
12.25 How to Enter Veteran Information	12-40
12.26 How to Read Chronos without Adding as a Secondary.....	12-40

OPS 13 – Data Entry Requiring a SUN User

13.1 Duplicate AOS Records – merging/purging in CIS	13-2
13.2 AOSs Returning to Supervision from Natural Expiration (Appeal Return), Bench Closure, Conditional Discharge Closure, Compact Closure	13-5
13.2.1 Field User Steps	13-5
13.2.2 CCSUN steps	13-8
13.2.3 Field User Steps	13-8
13.3 Admitting to County Location instead of L Location.....	13-10
13.4 Insertion into Movement History/Maintenance.....	13-11
13.6 Adding an ORS to the ORS Table	13-11

OPS 14 – Odd Scenarios

14.1 Felony Reduced to Misdemeanor at Time of Sentencing	14-1
14.2 Conditional Discharge Revoked and Reduced to a Misdemeanor Probation ..	14-2
14.3 AOS Opting Out of Drug Court or other Treatment Program that has No Conviction.....	14-2
14.4 Sanction End Date is Greater than the Max Date.....	14-2
14.5 Sentence line shows L F???, P F???, or I F???	14-2
14.5.1 L F?? or P F??.....	14-2
14.5.2 I F??	14-3
14.6 Expired Offense Conditions still Showing on Kardex.....	14-3
14.7 AOS on Outcount IMMI, REVP, or INAC; a Case Expires, and Status Change is Necessary – Message on Bottom of Screen “Status Does Not Match Offenses”	14-3
14.8 Compact Probation Case Closed to COMP comes Back as Parole Case.....	14-4
14.9 AOS is a Company rather than Individual.....	14-4

14.10	Probation Ordered with Partial Consecutive Term of Probation	14-4
14.11	Bollinger Cases	14-4
14.12	Felony Probation Terminated, Sentenced to Jail, but No PPS Ordered	14-5
14.13	Probation Extended in Error, Judgment Issued later with Earlier Expiration Date	14-6
14.14	Warrants – Rescinded, Lifted, Quashed, etc.	14-6
14.15	Line Closure Code CDPR Explained	14-7
14.16	FDO Case Type = Dangerous Offender	14-7
14.17	Offense with Missing * Listed instead of Case Number	14-8
14.18	Adjusted Inception Release Date	14-8
14.19	Max Indeterminate Sentence	14-9
	14.19.1 Resentencing that Includes a Max Indeterminate Sentence.....	14-9
14.20	Found out a case was to have come to your office for supervision but would have already Expired.....	14-9

OPS 15 – Local Control data entry

15.1	Felony Probation Revocation.....	15-4
	15.1.1 Admit to ‘L’ Location (Jail).....	15-4
	15.1.2 Open ‘L’ Sentence	15-7
	15.1.3 Supervision Status (aka County AIC Movement) and Housing Movement Changes while still on Local Control Status.....	15-12
	15.1.4 County AIC Movements (Supervision Status Change) while still on Local Control	15-13
	15.1.5 Completion of the Local Control Obligation (Close ‘L’ Sentence)	15-15
	15.1.6 Releasing the Body to LCMP (<u>L</u> ocal <u>C</u> o <u>M</u> plete).....	15-17
	15.1.7 Admitting AIC to Post-Prison Supervision.....	15-18
	15.1.8 Open Post Prison Supervision Sentence (add ‘O’ line).....	15-20
15.2	New Local Control Admission (AIC May or May Not be Currently Under Supervision).....	15-22
15.3	Post-Prison and Parole Supervision Revocation Sentences – Parole Board- Controlled AIC and/or Local Controlled AIC	15-28
	15.3.1 Admit to ‘L’ Location (Jail).....	15-28
	15.3.2 Open PPSVSANC Sentence Line	15-30
	15.3.3 County AIC Movement (Moving the AIC from One Supervision Status to Another).....	15-34
	15.3.4 Completion of the PPS Revo Sentence	15-34
	15.3.5 Release the Body to “LCMP”	15-36
	15.3.6 Returning AOS to Post-Prison Supervision	15-37
15.4	Parole Revocation (PAROVIOL).....	15-39
15.5	Parole and Post-Prison Revocation (PPSVSANC and PAROVIOL).....	15-39
15.6	Contract Back	15-40
15.7	County Rental.....	15-40
15.8	Less Common Sentencing Scenarios.....	15-41
	15.8.1 Sentences Run Consecutive and Concurrently	15-41
	15.8.2 Sentenced to PPS with No Jail Time Imposed	15-41
	15.8.3 Felony Conditional Discharge Revoked to Local Control.....	15-41

15.8.4	Revoked Probations with No PPS Ordered	15-41
15.8.5	Data Entry Responsibilities for LC Cases with DOC cases	15-43
15.8.6	Adult in Custody (AIC) escapes	15-44
15.8.7	Auto Revoke	15-45
15.9	Data Entry Errors	15-46
15.10	Uncommon Scenarios	15-46
15.11	Frequently Asked Questions	15-49
15.12	Local Post-Prison (SB156)	15-52
15.12.1	Inactive Status (UNSU)	15-52
15.12.2	State Board Authority Reverts to the Local Supervisory Authority	15-52
15.12.3	Waiver of Residency	15-53
15.13	Offender Information Sentence Calculation (OISC) Records Division also known as Central Records	15-53
15.14	Extraditions	15-53
15.15	The use of ABEX for LSA-controlled PPS	15-55
15.16	Old PPS Stop/Start Practice	15-55

OPS 16 – Work with INOP instructions

16.1	W/W INOP	16-1
16.2	How to View and/or Compare Total INOP Days to Ensure Accuracy (as of July 1, 2004)	16-6

OPS 17 – DNA Data Entry in CIS & Report

17.1	DNA Collection Information Screen (CCSUPPORT)	17-1
17.2	DNA Flag	17-1
17.3	DNA Collection Entry	17-4
17.3.1	CCPPO Data Entry	17-4
17.4	DNA Sample Collection Report	17-6
17.5	DNA Collection and the Compact AOS	17-7
17.6	Example	17-8

OPS 18 – Conditions & Tracking

18.1	Introduction	18-1
18.2	Frequently Asked Questions	18-2
18.3	Data Entry Practices Regarding Trackable Conditions & PPS	18-5
18.4	Condition Tracking: Access and Data Entry from the W/W Offenses Screen	18-7
18.4.1	Accessing the Condition Tracking Module	18-7
18.4.2	Payment Entry in the Condition Tracking Module	18-9
18.4.3	Payment Entry on a Terminated Offense	18-11
18.5	Condition Tracking: Access and Data Entry from the W/W Caseload Menu	18-12
18.5.1	Accessing the Condition Tracking Module	18-12
18.5.2	Payment Entry in the Condition Tracking Module	18-12
18.5.3	Payment Entry on a Discharged Record	18-14
18.6	Condition Descriptions	18-14
18.6.1	Probation Special Conditions	18-14

18.6.2 PPS Special Conditions.....	18-19
18.6.3 AIP Non-Prison Leave Special Conditions.....	18-21
18.6.4 Short-Term Transitional Leave Special Conditions.....	18-22
18.6.5 General Conditions.....	18-23

OPS 19 – Substance Abuse Tracking

19.1 Creating a New Record	19-1
19.2 Reason, type, and status code	19-2

OPS 20 – Reports

20.0 How to Access the ‘Total Office Reports’ Menu.....	20-2
20.1 Parole/Probation Expiration.....	20-3
20.2 Parole Officer Listing	20-3
20.3 Expected Arr/Rel Not Admitted.....	20-3
20.4 Temporary SID Number Report.....	20-4
20.5 Alpha Office List	20-4
20.6 PA/LV Released to Office/Cnty.....	20-4
20.7 Parole Officer Caseload Report.....	20-4
20.8 Total Office Caseload Report	20-4
20.9 Parole Officer Data Sheet.....	20-4
20.10 Office Supv/Distribution Rpts.....	20-5
20.11 Sex Offenders by Name/City/Zip	20-5
20.12 DNA Report	20-5
20.13 SSN Permission Report.....	20-5
20.14 Compact Reports.....	20-5
20.15 Transitional Leave Report	20-5
20.16 Second Look Offender Report.....	20-5
20.17 Offender Condition Report.....	20-6
20.18 Measure 57 Elg/Conv Reports.....	20-6
20.19 W/W Merge Records Report.....	20-6
20.20 Designator Reports.....	20-6
20.21 M57 Treatment Funding Report.....	20-6
20.22 ODARA Report	20-6
20.23 Transitional Leave Elig Report.....	20-7
20.24 W/W Departure Tracking	20-7

OPS 21 – Offender Information and Sentence Computation (OISC) / Central Records

21.1 Contact Information	21-1
21.2 Steps to Locate the Caseload Prison Term Analyst (PTA) by AIC	21-2
21.3 Website Address for Locating Division 70 Records Management (AIC and AOS) and Division 150 County and Specific District Retention Schedule	21-2
21.4 Types of Cases Accepted.....	21-2
21.5 Temporary SID (Block) Number to Permanent SID Number	21-2
21.6 Sealed Records.....	21-3
21.7 Sending Records to OISC to be Scanned/Maintained.....	21-3

OPS CHAPTER 1 – Public Information

1.1 PUBLIC INFORMATION SCREEN

The only public information that can be provided exists solely on the “Offender Public Information” screen; all other information can only be obtained through a formal records request to the supervising agency. DO NOT use F11 to navigate to other screens to provide additional information.

To search a name: Enter SID# or if you do not know the SID#, press F4 on the Offender line and type the name you are searching for, click on the name and press enter to open the “Public Information” screen BEFORE giving out any information.

The screenshot shows the 'Offender Public Information' screen. At the top, it displays 'OPS5011', 'CRESSA', and 'Corrections Information Systems'. The time is 8:37:04 and the date is 6/11/20. The screen is divided into several sections. The first section contains 'Offender..', 'Status. Probation', 'Location.. MTDX Multnomah Monitored Misdemeanor Pro Cell.', and 'DOC cycles. 01-01-01'. The second section contains 'Age 40', 'DOB', 'DNA Collection not Required', 'Sex Male', 'Race WHITE', 'Field admission date.. 05/21/2020', 'Height 6'01"', 'Hair BROWN', 'Maximum custody date.. 05/20/2023', and 'Weight 200lbs', 'Eyes BROWN'. The third section contains 'Caseload' and 'Supervision'. The fourth section is a table with columns: 'Court Case', 'Cnty', 'ORS Abbrev', 'Cls Type', 'Begin Date', 'Yrs-Mos-Days', 'Term Date & Code'. The bottom of the screen shows function keys: F3=Exit, F4=Prompt, F5=Refresh, F6=All Caseloads, F9=Retrieve, F11=Menu bar, F12=Cancel, F17=All offenses, and F22=Offender Photo. The word 'Bottom' is also visible.

- 1 SID number, name, and supervision location
- 2 Current status of supervision
- 3 Basic physical description
- 4 Supervision begin and projected end dates / Discharge Date – “F” behind discharge date signifies a “FIRM” parole release date. This is programming used by the institution.
- 5 Supervising PO name and supervision risk level
- 6 Cases currently being supervised (dockets will appear here, they are blanked for manual publication purposes)
- 7 F6=Provides the primary caseload information as well as secondary caseloads, including the PTA caseload.

- 8 F17=All offenses: Includes expired offenses. ALL offenses are considered public information.
- 9 F22=Offender Photo: This feature allows you to view a photo of the AOS, if available. Double click directly on the F22 (not the words "Offender Photo") or F22 (shift+F10). Photos can be uploaded by the institution or county agencies using OMS.

1.2 PUBLIC INFORMATION SCREEN – Confidential Record Warning

This warning display went into effect in August 2014 and is for AOSs convicted in Oregon who are serving their sentence in another state's institution or are convicted in another state and are serving their time in an Oregon institution.

Please read the warning and follow the directions carefully. Do **NOT** give any information whatsoever about the AOS, including the existence of their record, if this warning appears.

**** **WARNING!** ****

Any information regarding this offender is confidential and not to be disclosed, up to and including status in our system. If you receive an inquiry regarding this offender, inform the requestor you have no information regarding the offender.

**** **WARNING!** ****

Hit enter to get past the warning screen and to the Public Information screen.

```

Weight 190lbs      Eyes BLUE
    
```

Once the AOS has been discharged or released from custody, the Offender Public Information screen can be disclosed.

OPS CHAPTER 2

Part A - Reading a Court Order

With the inception of Odyssey and eCourts all counties' judgment orders (Uniform Criminal Judgments) look the same. The case numbers all pull from one pool of numbers for the entire state, so those are uniform as well. The differences come in a variety of supplemental judgments, probation violation orders, conditional discharges, and diversion orders. These are not required to be produced using Odyssey, therefore, are not required to be the same and do vary widely from county to county.

The best advice regarding court orders is to take your time and read each line thoroughly and with care. The information is (usually) there, in one format or another, to complete the necessary data entry in CIS.

Also, if you need help from your peers around the state, interpreting a court order, scan and email it to the SOON DL. We are all here to help each other.

2.1 Uniform Criminal Judgments

2.1.1 Heading and Caption

**IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR THE COUNTY OF
BENTON**

This section is the header. It describes the court in which the defendant was convicted. The county of conviction is entered in CIS in the work with offense screen when you enter the new docket.

State of Oregon, Plaintiff	1	)	
		)	
vs.		)	Case No.: 15CR12366
		)	
		)	JUDGMENT
		)	
Bentley Hart Chappell,	2	)	Case File Date: 03/27/2015
Defendant		)	District Attorney File #: 15-331
			6

This section is the caption. It describes:

- 1 The Plaintiff (in a criminal matter this is always the State of Oregon)
- 2 The Defendant (Offender)
- 3 The case number (aka docket number)

- 4 The title of the document
- 5 The date the case was filed with the court (filed by the District Attorney who acts as an agent for the State)
- 6 The district attorney's file number

Some of this information may be used for data entry in CIS, such as the Defendant's name, the case number, and the District Attorney's file number. You may not see all these data points on your county's judgment.

2.1.2 Description of Defendant

DEFENDANT	
True Name: Bentley Hart Chappell	Sex: Male
Date Of Birth: 10/14/1983	State Identification No (SID): 19900085OR
Fingerprint Control No (FPN): JBEN115254533	

This section describes the Defendant (AOS) and may include their true name, court name, AKAs, date of birth, gender, SID, and fingerprint control number. (NOTE: SID is not always included or accurate. Double-check against CCH to be sure it is correct.) Information found here can be used to run a QWHD in LEDS.

2.1.3 Description of Court Officers

HEARING
Proceeding Date: 09/03/2015
Judge: Locke A Williams
Defendant appeared in person and was not in custody. The defendant was represented by Attorney(s) DAVID A CORDEN, OSB Number 910339. Plaintiff appeared by and through Attorney(s) HOLLY D ALLEN, OSB Number 096244.

The proceeding date is your admission date (for probation, conditional discharges, diversions, and sometimes local control) as well as the begin date for the offense data entry. The names of the convicting/proceeding judge, the defense attorney and the prosecuting attorney are listed here. If an AOS is not represented, it may say "pro se" in the defense attorney section, which means the Defendant (AOS) represented themselves.

2.1.4 Offenses

This section is where the offenses begin.

1	COUNT(S) It is adjudged that the defendant has been convicted on the following count(s):
2	<u>Count 1 : Failure to Perform Duties of Driver to Injured Persons</u>
3	Count number 1, Failure to Perform Duties of Driver to Injured Persons, 811.705(2)(a), Felony Class C, committed on or about 02/14/2015. Conviction is based upon a Guilty Plea on 07/31/2015.

- 1 The title “Count(s)” and language following explains what the Defendant (AOS) has been convicted of.
- 2 Count and crime name
- 3 This paragraph describes the count number, the name of the crime, the ORS number, what degree and type of crime (felony or misdemeanor) it is. It also gives the date the crime was committed and the date the Defendant (AOS) plead guilty or determined by a jury to be guilty.

2.1.5 Sentencing Guidelines (felony only)

Sentencing Guidelines The Crime Severity Classification (CSC) on Count Number 1 is 6 and the Criminal History Classification (CHC) is F.

The next section addresses sentencing guidelines. The sentencing guidelines contain two parts: the crime severity classification (CSC) and the criminal history classification (CHC). Both components are determined by the district attorney’s office and may or may not reflect the exact nature of the crime or the Defendant’s (AOS) criminal history. Sometimes deals made between the District Attorney’s Office and the Defense, classify crimes in a higher/lower category or classify the AOS in a different category. If the following sentence does not match the prescribed sentence for the CSC and CHC listed, this is a “departure”. Departures can be dispositional, durational, optional probations, and/or stipulated to.

Durational departure refers to the length of the sentence imposed being either more than (upward) or less than (downward) the sentencing guidelines.

Dispositional departure refers to the type of sentence (incarceration vs. supervision); upward means the guidelines provide for supervision but the sentence is incarceration; downward means the guidelines provide for incarceration but the sentence is supervision.

Example of Departure Language “optional probation”:

Sentencing Guidelines

The Crime Severity Classification (CSC) on Count Number 1 is 8 and the Criminal History Classification (CHC) is I.

The court finds substantial and compelling reason for a Downward Dispositional Departure, as stated on the record. This departure is pursuant to the following aggravating or mitigating factor(s):

- Stipulation of Parties
- Same as Optional Probation Criteria

Example of a Downward Dispositional Departure:

Sentencing Guidelines

The Crime Severity Classification (CSC) on Count Number 2 is 7 and the Criminal History Classification (CHC) is A.

The court finds substantial and compelling reason for a Downward Dispositional Departure, as stated on the record. This departure is pursuant to the following aggravating or mitigating factor(s):

- By stipulation of the parties.

Example of Departure with Specific Reasoning:

Sentencing Guidelines

The Crime Severity Classification (CSC) on Count Number 23 is 8 and the Criminal History Classification (CHC) is I.

The court finds substantial and compelling reason for a Downward Dispositional Departure, as stated on the record. This departure is pursuant to the following aggravating or mitigating factor(s):

- Diminished mental capacity; lack of previous criminal history; defendant is amenable to treatment and treatment is available.

The information circled in blue found in this section described the Crime Severity Classification and the Criminal History Classification. These scores determine what the presumptive sentence should be for a particular AOS/offense. The sentencing guidelines grid utilizes these scores and contains information the Court and the District Attorney use to determine sentencing, either following prescribed sentencing guidelines or departing from them.

2.1.6 Court Language

License Suspension / Revocation

Defendant's Drivers License is Suspended for 1 year(s).

This section may or may not appear on the judgment, depending on whether the Defendant's (AOS's) license has been suspended or revoked.

2.1.7 Sentence

This next section indicates the type of sentence handed down.

1	Probation
2	Defendant is sentenced to Supervised Probation for a period of 36 month(s) and shall be subject to the following conditions of Probation: Defendant is ordered to pay a supervision fee.

- 1 This is the short title of the sentence, in this example, probation.
- 2 This paragraph indicates is the type of sentence, supervised probation, bench probation or incarceration, and the length of the sentence. Bench probation cases are NEVER entered into CIS.

2.1.8 Conditions

On probation judgments after the sentence information section, will be language regarding conditions. Sometimes there will only be one line regarding general conditions:

Defendant is subject to the following general conditions of probation (ORS 137.540):

Others will have all the ORS governed general conditions listed. Either way is acceptable and cause the Defendant (AOS) to be subject to the general conditions.

Defendant is subject to the following general conditions of probation (ORS 137.540): • Pay supervision fees, fines, restitution or other fees ordered by the court. • Not use or possess controlled substances except pursuant to a medical prescription. • Submit to testing for controlled substance or alcohol use if the defendant has a history of substance abuse or if there is a reasonable suspicion that the defendant has illegally used controlled substances. • Participate in a substance abuse program directed by the supervising officer and follow the recommendations of the program if there are reasonable grounds to believe there is a history of substance abuse. • Remain in the State of Oregon until written permission to leave is granted by the Department of Corrections or a county community corrections agency. • If physically able, find and maintain gainful full-time employment, approved schooling, or a full-time combination of both. Any waiver of this requirement must be based on a finding by the court stating

If there are any special conditions ordered, they should appear right after the general conditions. Sometimes the Court will include language in the special conditions that are already covered by the general conditions, that is okay.

Furthermore, Defendant is subject to the following Special Conditions of Probation (ORS 137.540(2)): Defendant shall:

- Report immediately following sentencing or release from custody to Benton County Community Corrections office at 180 NW 5th Street, Corvallis, OR. Phone: 541-766-6888.
- Immediately surrender to the Court any licenses, tags and permits suspended or revoked in this case.
- Not operate a motor vehicle without a valid driver license or permit and insurance.
- Complete a substance abuse evaluation/screening at the direction of probation officer. Enroll in, actively participate in and successfully complete an approved program recommended by the evaluator. Pay all costs of evaluation and treatment. Comply with all conditions and licenses as directed. Provide probation officer proof of completion of treatment. If defendant is not properly licensed treatment provider not later than 60 days prior to the expiration of the license, defendant shall obtain a properly licensed treatment provider not later than 60 days prior to the expiration of the license.
- Submit to blood, breath, saliva, or urine analysis tests at the direction of the treatment provider, probation officer or the Court to determine compliance with the conditions of probation or if probable cause exists to believe that defendant has consumed alcohol or controlled substances or upon request of a law enforcement officer having a reasonable suspicion defendant committed the offense of driving under the influence of intoxicants. Pay all costs of testing as directed.
- Sign any and all releases necessary for probation officer or the Court to ensure defendant's compliance with any and all terms of probation. Said release(s) shall include, but not be limited to

Abbreviated for example purposes

2.1.9 Jail as a Condition

Sometimes jail is ordered as a condition of probation. This is different than the Defendant (AOS) being sentenced to incarceration ([Refer to 2.1.17](#)). The language “Supervisory Authority” is a fancy way to describe the jail. The definition of “Local Supervisory Authority” is the local corrections agency or official, designated in each county by that county’s board of commissioners to operate correction supervision services, custodial facilities, or both. When the offender is in custody, the Supervisory Authority is the jail; when the AOS is on (local) post-prison supervision the Supervisory Authority is the community corrections agency.

Jail as a Condition of Probation

Defendant is confined to jail for 45 day(s). Defendant is to report to Supervisory Authority by 11/10/2015 at 8:00 AM. Eligible for earned good time credit. Defendant will receive credit for 15 days jail if he reports on time. Defendant may receive credit for time served.

The Defendant may be considered by the supervisory authority for any form of alternative sanction authorized by ORS 423.478, and the defendant shall pay any required per diem fees.

The body of this section is information the jail uses for time calculations. The information provided here will vary by judgment.

2.1.10 Statutory Provisions

Statutory Provisions

Defendant is ordered to submit blood or buccal sample and thumbprint pursuant to ORS 137.076.

If the Defendant (AOS) is required to submit a DNA sample, there will be language as shown above. The crime determines whether a person is required to submit a sample.

Statutory Provisions

Defendant is ordered to submit blood or buccal sample and thumbprint pursuant to ORS 137.076. Defendant is ordered to submit to testing for HIV and other communicable diseases pursuant to ORS 135.139.

Also, the Defendant (AOS) may be required to submit to HIV testing as well. The Statutory Provisions section may vary by judgment.

2.1.11 Court Fees and Fines

Money: An AOS is often subject to fines or court fees, these may include, but are not limited to, a charge for a public defender, DUI fines, restitution, or compensatory fines.

Monetary Terms

Defendant shall be required to pay the following amounts on this count:

Fees and Assessments: Payable to the Court.

Type	Amount	Modifier	Reduction	Actual Owed
Fine - Felony	\$200.00			\$200.00
Total	\$200.00			\$200.00

In this example, the Defendant (AOS) only has one fine listed. There may be a list of costs outlining a variety of fees and fines owing. If this is showing at the end of a specific count, it directly related to the specific count only. There may be several counts on one judgment, all of which can have separate fines, fees, costs, or restitution. If this section is shown at the very end of the judgment, after all counts are listed, then it relates to ALL counts on the judgment.

2.1.12 Compensatory Fine/Restitution

In this section under Monetary Terms, is an example of restitution:

Compensatory Fine/Restitution:

Restitution is ordered to be paid to the court and disbursed to the payee(s) named below.

Payee	Not To Exceed	Amount
State Farm Claims		\$4,102.09
Victim's Family		\$250.00
Total		\$4,352.09

The total amount owed must be entered into CIS and the restitution condition marked as trackable. If this appears after a specific count, add the condition to the specific count only. It is important to track restitution on the proper count if it is ordered so.

Another example of restitution language you may see:

Compensatory Fine/Restitution:	
Restitution is ordered to be paid to the court and disbur	
	Payee
Home Depot	
<u>Joint and Several Liability with:</u>	
[REDACTED]	
Case#:	
15CR17856	

When a judgment indicates restitution is “Joint and Several Liability with:” it means more than one person is responsible for paying the restitution owed. If anyone makes a payment and reduces the balance of restitution it is tracked, regardless of who made the payment.

2.1.13 Counts Disposed

If there are any counts dismissed, they will appear under a section titled “Counts Disposed with no Conviction.”

COUNTS DISPOSED WITH NO CONVICTION
Count # 2, Unlawful Use of a Weapon is Dismissed.
Count # 3, Menacing is Dismissed.
Count # 4, Harassment is Dismissed.

2.1.14 Money Award

All judgments will have a money award section at the very end of the judgment, whether it is listed out under individual counts or not.

MONEY AWARD INCLUDING RESTITUTION
Judgment Creditor: State of Oregon
Judgment Debtor: [REDACTED]

Notice the different titles of the sections:

Compensatory Fine/Restitution:
Restitution is ordered to be paid to the cc
Payee

This one appears directly after a count. Relates to only one count and appears after an individual count.

MONEY AWARD INCLUDING RESTITUTION
Judgment Creditor: State of Oregon
Judgment Debtor: Bentley Hart Channell

This one appears at the end of the order and relates to ALL counts if this is the only reference to restitution.

IMPORTANT: The example on the right should appear on EVERY judgment. The judgments that show restitution under individual counts will have both types of language.

2.1.15 Judge's Signature

Every order must have a Judge's signature. Sometimes it appears hand-written like below, sometimes it is computer generated. Either is okay. Every judgment must have a date on it as well.

Signed: 9/3/2015 09:04 AM

Dated the _____ day of _____, 20____

Signed: 
Locke A Williams

In some counties, the date the judge signs the judgment order is different from the date of the proceeding. This delay often occurs in larger counties and happens because of the way the court processes orders. The date of the proceeding is the conviction date, regardless of when the judge signs the order.

When courts take some action, "nunc pro tunc", the action has retroactive legal effect, as though it had been performed at an earlier date.

Nunc pro tunc is most commonly used to correct clerical errors, or omissions made by the court, and is often seen on amended judgments and resentencing orders. For example, if the written record of a trial court's judgment failed to correctly recite the judgment as the court rendered it, the court has the power to change the record at a later date to reflect what happened at trial. The decision, as corrected, would be given legal force from the time of the initial decision.

2.1.16 Footer

Judgment footer. Each judgment should have a footer that designates what type of document it is, how many pages and the date filed or created.

Document Type: Judgment

Page 9 of 9

Printed on 09/03/2015 at 9:03 AM

2.1.17 Incarceration Sentence

A felony sentence of 12 months or less is local control and a felony sentence of more than 12 months is prison (institution). Misdemeanor incarceration of any length is NOT a local control sentence and cannot be ordered post-prison supervision.

Incarceration 1

2

3

Defendant is sentenced to the custody of Oregon Dept of Corrections, for a period of 24 month(s). Defendant is remanded to the custody of the Benton Sheriff for transportation to the Oregon Dept of Corrections for service of this sentence. Eligible for earned good time credit. Defendant may receive credit for time served.

The Defendant may be considered by the executing or releasing authority for any form of Reduction in Sentence, Conditional or Supervised Release Program, Temporary Leave From Custody, Work Release authorized by law for which the Defendant is otherwise eligible at the time of sentencing. The Defendant may be considered for release on post-prison supervision under ORS 421.508(4) upon successful completion of an alternative incarceration program.

This sentence shall be concurrent with all previously imposed sentences.

Post-Prison Supervision 4

5

The term of Post-Prison Supervision is 3 year(s). If the Defendant violates any of the conditions of post-prison supervision, the defendant shall be subject to sanctions including the possibility of additional imprisonment in accordance with the rules of the State Sentencing Guidelines Board. The court recommends as a condition of post-prison supervision:

- Evaluation and treatment for drug or alcohol dependency

Key items to look for:

- 1 This is the short title of the sentence, in this example, incarceration
- 2 Sentenced to where
- 3 Sentence length
- 4 Post-Prison Supervision ordered
- 5 Post-Prison length

2.1.18 Tricky Language

Some tricky language to look out for:

- Theft I, ORS 164.055, Felony Class C - **Misdemeanor Class A by Reduced - to A Misdemeanor**
This means the original crime of a felony is being charged as a misdemeanor.
- **Conspiracy** to Commit a Class C Felony (or **Solicitation**)
These are inchoate crimes. (see Chapter 2, section 2.7, step 9, page 2-31 for data entry instructions)
- **Attempt** to commit a Class C Felony – ORS 161.405
This ORS is the definition of “attempt,” not the ORS for the crime itself; If the court order does not list the crime and the ORS for the crime, the Information or Indictment documents will have the underlying crime information.

2.2 Conditional Discharge and Diversion

Orders such as conditional discharge and diversion are not uniform, meaning each county's will have their own format for these types of judgments. As you learn your county's format, it becomes easier to read and interpret the judgments. The important point is to read the judgment slowly and thoroughly to ensure all key components of the judgment are entered into CIS, including count number, crime seriousness and criminal history score, sentence, crime, etc.

In some counties, the court does not allow sanctions on conditional discharges, but often does not include that information on the order. If an AOS has transferred and the conditional discharge is marked as unsanctionable, it is because the community corrections agency in the sentencing county is aware of the court's regulations; please abide by the way the data entry is done. If you are unsure if your county allows structured sanctions on these types of sentences, check with your court.

2.3 Probation Violation Order

There are probably as many different looking Probation Violation Orders as there are counties in Oregon. Read the order slowly to identify what it is telling you, until you become familiar with your county's format.

Key components to look for:

- **Date of the proceeding.** In some counties, the court hearing/conviction is one day but due to a lag in processing, the judge may sign the order a few days later. If there is a discrepancy in the date of the proceeding and the signature date, use

the date the hearing took place in open court and the judge ordered the conviction, continuation, revocation, etc.

- **Type of judgment.** Is this a probation violation judgment? Is this a conviction of a previous conditional discharge, so perhaps simply called an order? Taking note of the title of the order can be useful.
- **Type of conviction.** Does it say revocation anywhere on the judgment? Does it say revoke and reinstate? Does it say probation continued? Look in the body of the judgment for clues as to what kind of sentence is being handed down. Something that says “revoke and reinstate” is essentially the same as probation continued.
- **Length of sentence and/or new expiration date.**
 - If a probation has been revoked and the AOS is sentenced to local control, look for the length of the jail term and the length of PPS.
 - If an AOS has a misdemeanor probation revoked and sentenced to jail, look for the length of jail time and/or language that states probation is terminated. Misdemeanor incarceration is not entered into CIS and cannot be ordered PPS.
 - If probation is extended, continued, revoked and reinstated – look for either a length of sentence or perhaps a listed expiration date. Sometimes these do not always match what CIS calculates. (e.g., On June 3, 2016, a judgment will say extend one year to June 3, 2017. CIS would calculate one year from June 3, 2016, as June 2, 2017. Use the date of expiration provided on the order as stated, rather than the length)
- **Conditions.** Have new conditions been imposed (jail time, work crew, etc.)? Read through the order carefully to determine if new sanctions were imposed that will now be conditions of the supervision.

2.4 Other Judgments (Temporary and Handwritten)

Some counties produce temporary judgments/orders prior to, or sometimes in place of, a Uniform Criminal Judgment. These judgments are often handwritten, and they can look different from county to county. Read the judgment carefully, taking time to understand what is ordered. The eCourt narrative can also help to understand what a judgment is ordering. If there is any discrepancy between the order and the eCourt narrative, contact the court for clarification.

2.5 Data Entry – Who does which entry?

Type of Judgment	Who enters it
New sentence of probation, conditional discharge, or diversion	Convicting county's community corrections agency
New conviction of incarceration more than 12 months	OISC TPS/PTA workers

Type of Judgment	Who enters it
New felony conviction of incarceration 12 months or less that <u>is not</u> consecutive to felony incarceration of more than 12 months, <u>nor</u> concurrent to any sentence that is consecutive to felony incarceration of more than 12 months	Convicting county's community correction agency
New felony convictions of 12 months or less (local control/LC), even with multiple LC sentences that are not connected to institution sentences (more than 12 months). If an offender is only given LC sentences, these are all served at the local level (provided there are NO incarceration sentences of 12 months or more)	Convicting county's community correction agency
New felony conviction of incarceration 12 months or less that <u>is</u> consecutive to felony incarceration of more than 12 months, or is concurrent to any sentence that is consecutive to felony incarceration of more than 12 months*	OISC TPS/PTA workers *If you get confused when there is a combination of local control and institution, remember if there are any consecutive sentences, likely OISC will enter all; but feel free to email the PTA DL (dloiscpta@doc.oregon.gov) to ask who should enter the local control sentences. *If OISC contacts you and asks you to delete or enter an L line, please do so
Probation Violation judgment that results in anything other than a local control or institution incarceration	Supervising county's community corrections agency – including F8 notes
Probation Violation judgment that results in revocation of felony sentence with incarceration of more than 12 months	OISC TPS/PTA workers
Probation Violation judgment that results in felony revocation with incarceration 12 months or less if sentence is considered local control (not straight jail) and if the sentence is not consecutive to incarceration of more than 12 months	Convicting county's community correction agency

Type of Judgment	Who enters it
Probation Violation judgment that results in revocation with incarceration that is considered straight jail.	The jail sentence is not entered into CIS, but the probation line closure code and F8 note is to be entered by the supervising county's community corrections agency.
Probation Violation judgment that results in revocation with incarceration of 12 months or less that is consecutive to incarceration of more than 12 months or incarceration of 12 months or less that is concurrent to incarceration of 12 months or less that is consecutive to incarceration of more than 12 months*	OISC TPS/PTA workers enter the incarceration sentences, but if the offender starts local control incarceration in jail, then the convicting county's community corrections agency enters the admission into the appropriate L location prior to the AOS entering and being admitted to the institution.
Revocation of Post-Prison Supervision or Parole (PPSVSanc/PAROSanc) sentences	Supervising county's community correction agency, regardless of where AOS is serving the sentence.
Post-Prison Supervision (O) line	The supervising county enters the O line regardless of where the AOS served their incarceration sentence.
Revoked misdemeanors with incarceration	Supervising county will close the MPR line. Incarceration is not entered into CIS.
Misdemeanor convicted to incarceration with no probation	No one enters this; it is not entered into CIS.
J line for jail as a condition of probation	OISC enters the J line - the ONLY time a J line is entered in CIS is when the AOS is serving that jail condition in the institution because they're serving other institution sentences and it is consecutive to an institution sentence. Community NEVER enters a J line for jail as a condition of probation but does enter the condition itself in the conditions module.
Merged counts	Merged counts are no longer entered in CIS. If there are open offenses that have been merged previously, close those offenses with the same date and closure code of the count to which it is merged.

OPS CHAPTER 2

PART B - ADMITTING AOS INTO CIS

All new sentences, including sentences into local control, probation revocations that result in local control or new convictions are the responsibility of the convicting county's community corrections agency. All modifications and updates to open offense lines are the responsibility of the supervising county.

2.6 Should an AOS be admitted to CIS?

Step 1 - READ ENTIRE COURT ORDER THOROUGHLY BEFORE ENTERING IN CIS. MAKE SURE AOS IS SENTENCED TO FORMAL SUPERVISION.

THINGS NOT ADMITTED TO CIS:

- City Ordinances
- Bench Probation/Parole (Except Incoming Compact)
- PSRB Judgments
- Misdemeanors your county does not supervise per your agency agreement with the court
- Merged counts

Scenario: when it is appropriate to enter a judgment/AOS into CIS and close to bench (BNPB) vs. when it appropriate to not enter a judgment/AOS into CIS (or remove if already entered)?

Should Enter into CIS and Close to Bench:

If supervision-related activity occurs – any action indicative of supervision including:

- AOS comes in and begins process of formal supervision (fills out intake, gets orientation appointment, etc.)
- Directive to return to community corrections and/or comply with formal supervision given. (A directive to return to the court and/or stay in contact with the court regarding bench probation does NOT qualify)
- Your office issues or requests the court issue a warrant on the case for which supervision was ordered.

Should NOT Enter Into CIS:

If no supervision-related activity occurs because your county has an agreement with the court that certain sentences are not formally supervised, your county issues a letter to the court reminding them of such and the court amends the judgment to read bench probation.

TIMELINE EXPECTATIONS FOR ADMISSIONS:

- Any New Admission – 14 days from sentencing
- Post Prison – 7 days from release
- Direct Commit or revocation to LC – 14 days from sentencing
- Leave – 1 day from release
- IRT – 5 days to release from date accepted by receiving county.
- IRT – 14 days to admit from date released by sending county.

Step 2 – VERIFY THIS IS A NEW CUSTODY CYCLE, IF NOT [SEE CHAPTER 7 – ADDING AN OFFENSE](#)

What determines a new custody cycle? If there is a gap in time (one day between case closure and new sentencing entry in CIS), a new custody cycle should be created.

Examples:

- Same Cycle: An AOS receives a new supervision on the same day or before their current supervision ends.
- New Cycle: An AOS receives a new supervision one day after current supervision ends.
- New Cycle: An AOS receives a new prison conviction on the same day their supervision ended (for whatever reason) and due to transport, it takes a few days for the 'I' line to be added to CIS. Because there is a gap in time, a new custody cycle should be created.
- New Cycle: An AOS is sentenced straight to an LC sentence but will not begin the sentence before all other sentences expire due to a deferral/TSI (turn self in)

NOTE: Drug Court cases ordered as “formal supervision” are entered into CIS. This may include conditional discharges (ORS 475.245) and diversions (ORS 137.533/135.881).

2.6.1 Admission Status Codes and their Meanings

- AP Admission Pending
AIC has been released from an Institution and is pending being picked up by the county of record.
- CD Prob/Conditional Discharge
AOS is being supervised on a Conditional Discharge; A form of deferred adjudication in which the sentence is served with probationary conditions attached, under which the full penalty may be reinstated upon a violation of the terms of probation during the stated probationary period.
- DI Discharge
AOS was previously supervised but is not currently on supervision.

- DV Probation Diversion
AOS is being supervised on a Diversion; diverting a defendant out of the criminal justice system by having them complete a diversion program rather than be incarcerated or serve another alternative sentence.
- IN AIC
AIC is currently In Custody at an Institution.
- IV Investigation
AOS is an incoming Compact case that is being investigated by Oregon.
- LC Local Control
AIC is in custody at a jail for a sentence; sentenced to a prison term of twelve months or less are Local Control
- LP Leave Pending
AIC has been released on Leave by an Institution and is waiting for county of record to pick up.
- LV Leave
AIC is out of custody and being supervised at the county level but is still under the authority of the prison.
- PA Parole
AOS was previously in prison custody and is now supervised at the county level. This is old terminology in Oregon, so a person with this status is either on for an older case or is a compact from another state.
- PO Post Prison
AOS was previously in prison or local control custody and is now supervised at the county level.
- PR Probation
AOS is currently supervised at the county level on a case that did not include time in prison.
- PS Post Parole
AOS was previously in prison or local control custody and is now supervised at the county level. This is seen when someone has BOTH Parole and Post Prison Supervision either due to an old Oregon case or a compact case.
- SL Second Look Juvenile
AOS who was convicted as a juvenile but is releasing as an adult. Court maintains jurisdiction.

SP Second Look Pending

AIC has been released from OYA and is pending being picked up by the county of record.

2.7 AOS Admission

Step 1 - Before Admitting:

- Run LEDS to check for the offender's SID#.
- Search eCourts to retrieve further information on the AOS.
- Read the sentencing order in its entirety from start to finish prior to beginning admission data entry into CIS.
- **Search OIS for the existence of a record for the AOS prior to beginning admission data entry into CIS**, instructions below.

How to Search OIS:

From CIS, press F11 to open your navigation bar, type "5" to open the CIS web windows pop-up, type "A" to launch a web browser that opens the OIS screen. You can also save the URL in your favorites or bookmarks.

Example: OIS Screen

- Enter CIS User ID, password, PIN & RSA Token code
- Click “Login”. The search screen should appear.

- Search using all data you have available; minimum suggested is SSN, FBI Number and SID Number to avoid creating duplicate records. Search by each designation separately, meaning ONLY enter SID Number then press search; ONLY enter FBI Number then press search, etc. Some search fields are case sensitive.
- Any information filled into search fields must be present in the record for them to appear; meaning if you only type in the DOB 1-1-97, only AOSs with a DOB of 1-1-97 will show in your results. If you type in a last name of SMITH and a DOB of 1-1-97, then only AOSs with the last name SMITH AND a DOB of 1-1-97 will appear in your results. The more fields you fill in, the narrower your search becomes.
- **AT THE VERY LEAST, YOU MUST SEARCH BY FBI NUMBER PRIOR TO DOING A NEW ADMISSION INTO CIS.**
- From the Main Menu, go to ‘Admission’ screen by entering number 3 on the selection line; press enter.

```

CCSUPPORT          Corrections Information Systems (TEST)          8:49:14
MCCARTHY           CC Support Menu                                9/01/05
Select one of the following:
  1. Offender Information
  2. LEDS
  3. Admissions
  4. CC Release Process
  5. CC Court Orders Process
  6. CC Support Data Entry/Update
  7. CC EPR Process
  8. CC Abscond Return Process
  9. CC Transfer Process
 10. CC Change Primary Caseload
 11. W/W Risk Assessments
 12. W/W Sex Offender Assessments
                                     More...
Selection:
F3=Exit    F4=Prompt    F10=Move to top    Job:
F11=Menu bar    F12=Previous menu
    
```

- Verify the AOS is not already in CIS by using the name search and SID # search methods.

- **Name Search Method:** Press F4=Prompt on the 'offender' field, this will bring up the 'Offender Name Search' screen. On the 'position to' field, type the AOS's name shown on Court Order (last, first, then middle – do not use a comma between the last and first names), press enter. A list of possible matches should appear, you may need to page up or down to verify AOS is not listed. Check the identifying data, i.e. Name, DOB and SID #, to compare listed matches with your AOS. If there is **not** a match, press F12=Cancel and move on to **Step 2a**. If there is a match, go to **Step 2b**.

Note: Search by any AKA the AOS has used to ensure they are not entered under another name.

- **SID # Method:** Enter SID # on 'offender' field, press enter. If you get the following message on the bottom of the screen, "**Offender Not Found. Check ID Number. Use F6 for Offenders new to OPS.**" go to **Step 2a**. If a match is found, go to **Step 2b**.

Post admission status.		

Offender not in CIS – **Step 2a**

Offender is in CIS on discharge status – **Step 2b**

Step 2a - Offender Not in CIS (F6=New Admissions)

```

OPS226I          Corrections Information Systems (TEST)          10:19:02
MCCARTHY          COMMUNITY CORRECTIONS NEW INTAKE              9/02/05
                  **NEW OFFENDER DATA**

  ** Note:  Use only for offenders not currently enrolled in OP System. **

ID number.....  _____

Last name.....  _____
First/middle/title.. _____
DOB.....  _____ SEX:  ____ Race:  ____
Admit to location... defaults to your location
Date/Time.....  _____
From county/state... _____
Caseload.....  _____
Admission status.... PR  Note: Diversion Offenders enter as DV = Diversion

LC conviction county _____
LC supv status code. _____
Search PSI data..... Y
Copy PSI data from.. _____ SIDNO

```

Step 2a- Admitting AOS not in CIS:

- On 'Community Corrections New Intake' screen, fill in all pertinent information.
 - ID Number (SID number = State ID number) If AOS does not have a SID number, tab to name field – the system will generate a block number when you press enter)
 - Last Name, First, Middle, Suffix/Title (Name is entered exactly as listed on court order)

NOTE: Be careful when entering suffixes or titles. Use F4 to bring up the list of suffix/title types to choose from, this will ensure data transmits into the Elite fee system properly. If the suffix is not entered in CIS with the universal format in the F4 table, the Elite fee system will display NM (No Match) and will need to be fixed manually.
 - DOB – if conflicting information is found, use the DOB from DMV information as your first source; if no DMV is available, compare all sources and use your best judgment (CBC)
 - SEX – CIS entry should reflect the current legal sex of the AOS. First choice of information source would be AOS's self-reported information; second choice would be, LEDS/ NCIC (match what is shown there); third choice would be jail booking information (match what they used). If there is a discrepancy between what the AOS self-reports and the other sources listed above, ask the PO to follow up with the AOS to clarify if they have made a legal change or identify differently than their legal sex. If a legal change has not been made, [see Step 5](#) for how to add them to the TAIC (Transgender and Intersex) designator. If documentation is later provided showing the AOS legally changed sex during supervision, update the sex field accordingly.
 - RACE

- **ETHNICITY** - This field is a required entry and will also appear on the description screen. Entered from self-reported information **ONLY**.
- **Date/Time** (Admission date/time). The date should be the proceeding or conviction date on order. If the proceeding date and the date the judge signs the order are different, always use the proceeding date. Enter the time using military time. A time **MUST** be entered, what time is used is a county-by-county decision.
- **From county/state** - you can F4 in this field to see county codes; shift F4 to see state codes (county code is four-letter; state code is two-letter)
- **Caseload**
- **Admission status** – use the highest level of supervision; ex: if probation and conditional discharge are convicted at the same time, probation is the higher status, so choose that. If only one sentence, match status to sentence.
- The 'PSI Offender Name Search' screen will display, check for available PSI information by matching your AOS's information to those listed.
 - If there is PSI information, put cursor on AOS's name and press enter. You will get the message "PSI data will be copied. Enter to copy and admit."
 - If there is no PSI information, press enter to admit.

OFFENDER Test record added.

```

Step 3 - 'Offender Names' Screen:

- Do NOT delete or modify (F7) names that have been entered by other agencies or from previous cycles (this is different than adding a new court/legal name when appropriate)
- Enter all names the AOS uses one at a time by entering the information in the required fields, i.e. Last Name, First, Middle, Title, and Type
- For monikers ONLY use the last name field
- Community Corrections does not enter I or R names
- Proper documentation (legal name change, birth certificate, marriage license) is required to enter a T name (do not have two "type" designations for the same name)
- Use F4=Prompt for examples of allowable titles and types
- Press enter to process each name
- You will receive the message "record added"
- Press enter to move to the next screen: 'Offender Residential Addresses'

NOTE: When AOS comes back under supervision on a new cycle and the court/legal name on the judgment is not the same as from the previous cycle, change the 'C' name on the 'Offender Names' screen to the new court/legal name. DO NOT change the court/legal name in a current cycle unless provided with an amended judgment, with a different Defendant name, on the first court order admitted in the cycle.

Changing Court/Legal Name Process

- Enter new Court/Legal name using 'X' as the 'type'
- Press enter; the message 'record added' will display

- Press F7=Change, enter the sequence number of the new Court/Legal name and tab to the 'X' and change to 'C'
- You can also change 'A' type names (Alias) to an 'X' to then be changed to a 'C', no other types should be altered in this way
- Press enter; current Court/Legal name will change to the new Court/Legal name. The old Court/Legal name will now be listed with an 'X' showing the AOS has a previous Court/Legal name. An auto-chrono is entered for the name change.

'Offender Residential Addresses' Screen Example

OPS213I	Corrections Information Systems	15:26:39
CRESSA	Offender Residential Addresses	7/01/19
CREATE		
Offender: 1234567 TEST, OFFENDER EUGENE		
Status: Probation LINC Lincoln County Community Corrections		
00 _____		
City: _____		State/Zip: 00000 - 0000
County: _____		Update mailing? Y Effective: 7/01/2019 P1: 000)000-0000
Email (F4=W/W): _____		
Seq Address1		Address2
City	St	Zip
County	Effective Date	
01 123 NE Test	OR	97205 0000
PORTLAND	MULT	3/29/2018
More...		
F3=Exit F4=Prompt F6=Add F7=Change F9=Retrieve F10=Print		
F11=Menu bar F12=Cancel F14=Delete F15=Mailing address		

Step 4 – 'Offender Residential Addresses' Screen:

- Fill in address information in required fields. City, State, Zip, and County fields are mandatory (if address is out of state, county is not mandatory)
- County field: should match the address entered where the person lives.
- When the address is unknown (different than homeless): type unknown on the street address line, use your agency city, state, zip and county.
- When the address is homeless: type homeless on the street address line
 - Use the city, state, zip, and county of where the person is regularly "staying" if known
 - Use your agency city, state, zip and county when it is not known where the person is regularly "staying."
- Jail/DOC or Treatment: type the name of facility on the street address line
 - If you think they will keep their residence: use the city, state, zip and county of that last known address.
 - If you know they lost their residence or did not have one: use your agency city, state, zip, and county
- Do not use Abscond as a street address – move to the abscond outcount timely
- Addresses should be updated timely – not just noted in chronos
- Addresses can be corrected in CIS if a mistake is made, do not create another entry to fix an error. Make the correction in CIS, changes made in OMS create a new entry
- Press enter to process
- The message "Address record added" will display
- If mailing address is different from physical address, use 'F15=Mailing address'

- Fill in email information (If required by your county policy)
 - Press 'F4=W/W' on email field
 - Press 'F6=Create'
 - Type email address in email field (remember to enter entire email including the @gmail.com, @yahoo.com, @outlook.com, etc. following standard email format)
 - Enter Primary field: E1=Primary email, E2=Secondary email
 - Enter Email type field: F4=Prompt to search type
 - OTHR
 - PSNL
 - WORK
 - Stop date field: Only enter this date if email is being discontinued
 - Comments field: Add comments as needed
 - Press enter to process – Creates auto-chrono
- Press enter to go to 'Offender Description' screen

'Offender Description' Screen Example

OPS211I	Corrections Information Systems (TEST)	11:45:30
MCCARTHY	Offender Description	9/02/05
		CHANGE
Offender: 1234567 TEST, OFFENDER EUGENE		
Birthdate..... 6/22/1956		
Sex/Race..... M W		
Hair/Eyes..... BLK BRO		
Height..... 5 ft 7 in		
Weight..... 145 lbs		
Social security No.. 111-22-5555		
SIS Permission/Date.	PRISM Permission/Date.	<u>12/12/2005</u>
FBI Number.....	*****	
Drivers license No..	*****	St OR Yr 2006
Handicap.....	NONE	
Birthplace.....	XX UNKNOWN	
Citizenship.....	XX UNKNOWN	
Primary language....		
SSN verified.....	by	on
F3=Exit	F4=Prompt	F5=Refresh
F9=Retrieve	F11=Menu bar	F12=Cancel
Description record added.		

Step 5 – 'Offender Description' Screen:

- Complete required fields, i.e. Sex/Race/Ethnicity; Hair/Eyes; Height; Weight; Social Security Number (if available); FBI Number; Driver's License No., St, Yr.
 - Driver's license No.: enter Oregon DL or ID here. Other state license and ID numbers should be listed in "Other Numbers" screen.
- PRISM: PRISM is an outdated program that DOC no longer participates in. Leave field blank. It is not necessary to delete information previously entered.
- Fill in Handicap, Birthplace, Citizenship, and Primary Language fields per your county's policy.
- Do NOT enter anything into the SSN verified fields.
- Press enter to process; the message "Description record added" will display.

- Press enter to go to the next screen 'Offenders Scars/Marks/Tattoos'.
- If an AOS needs added to the TAIC (Transgender and Intersex) designator, reach out to Jamie Breyman Jamie.e.breyman@doc.state.or.us to have the information added. Here are a few guidelines for adding the TAIC designator:
 - Identifies as: Self-Reported
 - Make sure, verbally at least, the AOS understands terminology -transgender vs. gay vs. identifies as, non-binary, etc.
 - Have definitions ready to explain to the AOS.
 - Make sure the AOS understands this will NOT get them any privileges and will be re-assessed if entering an institution.
 - OAR 291-210-0010 – rules and definitions

NOTE: Do not use dashes in social security number; the system will generate the SSN dashes. If the AOS's driver license is suspended or expired, enter '1900' in year field. Contact Brianna Elisara 503-378-3541, if you believe a social security number is wrong but "verified" on this screen. Be careful to start your numbers at the beginning of the field or you could experience problems in LEDS when using the QPR mask to create an EPR.

'Offenders Scars/Marks/Tattoos' Screen Example

OPS214I	Corrections Information Systems (TEST)	11:54:45
MCCARTHY	Offender Scars/Marks/Tattoos	9/02/05
CREATE		
Offender:	1234567 TEST, OFFENDER EUGENE	
Status:	Probation LINC Lincoln County Community Corrections	
00 TAT UL ARM		
Seq Code	Table Description	Additional Description
01 TAT RF ARM	FOREARM, RIGHT	
02 SC RF ARM	FOREARM, RIGHT	5 inches
03 TAT R ARM	ARM, RIGHT, NONSPECIFIC	
Bottom		
F3=Exit	F4=Prompt	F6=Add F7=Change F9=Retrieve F10=Print
F11=Menu bar	F12=Cancel	F14=Delete
TAT R ARM record added.		

Step 6 – 'Offenders Scars/Marks/Tattoos' screen:

- Enter all scars/marks/tattoos (SMT) one at a time on required fields
- Use F4=Prompt to view allowable codes. Use these codes for entry on EPRs
- Add SMT description if available in 'Additional Description' field (CBC)
- Press enter to process; the message "record added" will display
- Press enter to go to next screen 'Offender Other Numbers'

Typically, previously entered SMTs should not be deleted as they may be linked to an entry in OMS. An error message will display when attempting to delete a SMT linked to an OMS record. If the SMT must be deleted and is tied to an OMS record, send an email to dlinteloffice@doc.state.or.us.

NOTE: There is a RTAT code to indicate a tattoo is in the process of being removed. The recommendation is to use this code while the removal is in process. Once the tattoo has been removed completely, the tattoo entry can be removed from this screen.

‘Offender Other Numbers’ Screen Example

OPS215I	Corrections Information Systems (TEST)	12:00:50
MCCARTHY	Offender Other Numbers	9/02/05
	CREATE	
Offender: 1234567	TEST, OFFENDER EUGENE	
Status: Probation	LINC Lincoln County Community Corrections	
46620	IN# current institution #	
Seq Other Numbers	Type Additional Description	
01 000000000	SSN	
02 13622	IN# old institution number	
		Bottom
F3=Exit	F4=Prompt	F6=Add F7=Change F9=Retrieve F10=Print
F11=Menu bar	F12=Cancel	F14=Delete
13622 record added.		

Step 7 – ‘Offender Other Numbers’ Screen:

- Enter any other numbers the AOS uses, i.e. DOB; SSN; institution; driver’s license, other State’s SID #, etc. (use MSC for SID numbers from other states)
- Use F4=Prompt to view ‘Type’ abbreviations
- Press enter to process each number separately
- The message “record added” will display
- Press enter to go to next screen ‘Work with Offenses’

Step 8 - ‘Work with Offenses’ Screen:

- Press ‘F6=Add Docket’
- F6 takes you to ‘New Docket, Offense and Sentence’ screen

Step 9 - ‘New Docket, Offense and Sentence’ Screen: Adding an Offense

- Fill In all fields below:
 - Docket # (Case #) (14 characters including /count number) from Court Order (specify counts by using “Case#/01” format; count numbers must match the court order and be at least two digits. Use a zero before the number on single digit count numbers)
 - County of conviction (F4=Prompt to search for correct county code)
 - Sanction status – read the court order very carefully to determine sanction status, use F4=Prompt to determine proper entry, know your court’s policy on misdemeanor sanctions. At this time there will only be three options: (1) use SANC when court allows sanctions as does your county office, (2) use PSSR when court does not allow sanctions, (3) leave blank – ONLY – if your court allows sanctions on misdemeanors but your office policy does not (E.g. XYZ County Community Corrections requires all misdemeanors violations to be reported to the court even though the court would allow structured sanctions to be imposed);

- ORS # - taken from ORS table ([refer to OPS Chapter 8.10 for ORS codes](#) based on crime commit date) (F4=Prompt to search). If the ORS number is not in the table, please [refer to OPS Chapter 13.5](#). If offense is a solicitation or a conspiracy (criminal conspiracy), enter the solicitation or conspiracy ORS number in the first ORS# field (add complete ORS number including additional numbers or letters past the first 5 to 6 digits). This will trigger the requirement to enter a corresponding 'C' or 'S' in the 'inchoate' field, in the second ORS# field put the underlying crime's ORS number; see inchoate screen shot below.

NOTE: ORSs for crimes do change when the laws around the crime change (ie Marijuana laws) so it is important to make sure that the ORS you are using is for the correct crime and the correct time frame. To check this, F4 on the ORS field, find your crime and make sure to look at the dates in the crime name. (ie "Poss Cocaine 081517-013121, is a possession of cocaine charge that happened between 08/15/2017 and 01/31/2021)

Note: Currently there are no ORS numbers with the alpha character midstream (475B.163) in CIS. Please, use the corresponding 999 ORS number as [listed in Chapter 6](#).

Sometimes the courts will use the ORS number for the definition of "attempt" instead of the ORS for the attempted crime. If the ORS listed on the judgment is for the definition of attempt, please look in the Information (or other charging instrument) to find the underlying crime's ORS (select the one specific to "attempt"). Contact your court or DA if the actual crime ORS is not clear.

- Sentencing guidelines 'Y' (Oregon felonies committed after 11/1/89) or 'N' (misdemeanors and all out of state convictions);
- Felony=misdemeanor 'N' (NOT reduced), 'Y' (felony treated as misdemeanor at time of sentencing – FMP). These are only two codes that should be used when an offense is added. Two other codes are available 'C' (felony treated as a misdemeanor at completion of supervision - MFP) and should ONLY be used after body closure; and 'E' (when misdemeanor status is earned during course of probation). DO NOT ENTER the 'C' or 'E' codes during admission! ([Refer to Felony Convictions with Misdemeanor Treatment in OPS Chapter 12.10 for detailed information](#))
- Funded Misd (Y/N) 'Y' For 163.190 Menacing and 163.160 Assault IV the phrase "Domestic Violence" must appear on the sentencing order and sentence begin date must be January 1, 2022, or later. All 163.415NEW Sex Abuse 3 qualify if they have a sentence begin date of January 1, 2022, or later. **You DO NOT mark this flag for them, it should be 'N'**. The Sentence type must be 'P', 'C', 'D', and, if incoming Compact - can be 'I'. 'N' for all other misdemeanors.
 - Selecting 'Y' - When you hit enter, a pop-up window will appear. Be sure the Domestic Violence language appears in the judgment order (for 163.160 and 163.190) to ensure the crime qualifies for funding. If the

language does not appear, F12 out of the window, mark the Funded Misd flag as 'N', or leave blank. Once confirmed the Domestic Violence language appears in the order (for Menacing and Assault IV), enter a 'Y' in the "SB497" field. Press enter to return to 'New Docket, Offense and Sentence' Screen and continue entry.

(A list of funded misdemeanor PCS ORSs can be found in 8.10)

- Often the court convicts under the felony 163.160(3) and reduces to a misdemeanor. **These will now qualify for funding, IF: (a) the count specifies "constitutes domestic violence" in the crime description, and (b) you enter as the misdemeanor 163.160 and mark the funding flag as described above.** Do NOT enter as the felony and use the reduce flag to create an FMP. The FMP sentence structure cannot be marked for funding. It is critical that human eyes read the judgment and determine the "constitutes domestic violence" language appears to choose the misdemeanor ORS and mark the funded flag.
- If the court sentences a felony assault IV and reduces to misdemeanor at sentencing but does NOT include the "constitutes domestic violence" language, please continue to enter that as usual – 163.160(3) with fel=misd flag Y. Having conditions that require one to attend batterer's classes or DV classes does NOT qualify the offense.
- Crime seriousness & criminal history (Felonies only. Grid score taken from Court Order)
- Sentencing Judge's last name
- Dispositional depart (Felonies only. Taken from Court Order) = "N" (None), "U" (Upward), "D" (Downward), 'O' (Optional Probation - only for grid scores 8-G, 8-H or 8-I). Clarify with Court or DA if departure information is unclear.
- Durational depart (Felonies only. From Court Order) = "N" (none), "U" (upward), "D" (downward). Clarify with Court/DA if departure info is unclear.
- Defense counsel last name (CBC)
- District attorney last name (CBC)
- DA # (CBC)
- Crime date (Used for funding and eligibility purposes, cannot be left blank. Can be found on Court Order or eCourts)
- M57 Eligible ___ M57 Convicted___, this is a specific finding the court makes and will only be entered as a 'Y' or "N" (yes or no) in the appropriate field if stated on the court order. M57 eligible or convicted could be on the court order a few ways: M57 eligible/convicted; Repeat Property Offender (RPO); Senate Bill 1087; ORS 137.717; or Convicted of Offense Subject to Measure 57. If not specifically stated on the order, leave these fields blank.
- Arrest date – enter if available (CBC)
- Conviction date (from the order). Usually, conviction date is the proceeding date; rarely an AOS is convicted on one date and sentencing is held over.

NOTE: Conditional Discharge and Diversion - CIS will not allow a conviction date, as these are not convictions.

- Sentence type (P=Probation; D=Diversion; C=Conditional Discharge)

- Begin date (same as conviction/sentence/proceeding date in most cases – if conviction date and sentencing date differ, sentencing date is begin date)
- Length of sentence is entered as shown on the order (days, months, or years)
- Press enter. The message ‘Docket, offense, and sentence added’ will display
- Press enter again to return to “Work with Offenses” screen.

NOTE: If sentences are merged, do not enter merged offenses.

Step 12 – Go to LEDS to create an EPR (can use QPR mask).

Refer to OPS Chapter 5 - Enter Probation Record for more information.

NOTE: An EPR can only be entered if the offender has a SID number. To obtain a SID number, the AOS must be fingerprinted.

2.8 Compact Admission

Refer to OPS Chapter 3 – Interstate Compact

2.9 Local Control Admission

Refer to OPS Chapter 15 - Local Control Data Entry

2.10 Admitting Parole/Post-Prison/Leave/Second Look Cases

NOTE: All AOSs released from prison should be admitted within 7 days, whether they have physically reported to your location, unless released to your location in error. Those released to Leave or Second Look must be admitted within 1 business day. Transition from Leave or Second Look to POST should be completed within 7 days.

NOTE: Do not change an AOS's court name if they were in an institution during the same cycle.

Step 1 - In the ‘Community Corrections Admission’ Screen:

- Type SID # on “Offender” line and press enter. The “Current Status” line will show Admission Pending.

- Admission to Location is auto filled with your location.
- Tab to 'Admission Date/Time' field, fill in date and time of admission. Release and admission time/date should match exactly.
- Tab to Caseload, enter caseload # and press enter.
- You will get the message 'admission from institution processed.'

Note: If you see an Immediate Release to PPS, use the date of immediate release from Immediate Release form - OISC will send to SOON reps, PPS months from Board order should match expiration date on the PPS order.

F8 Note: begin date is the immediate release date from immediate release form.

Step 2- Admissions Screen Series:

- Press enter to move from one screen to the next updating all pertinent information until you come to the 'Work with Offenses' screen. (See OPS Chapter 2.7)

Step 3 – Review Orders & Release Documents to Determine AOS Status:

- Parole/Leave Status: AOSs released to community corrections from an institution that are serving the remainder of their prison sentence in the community. (See OPS Chapter 29 – Transitional Leave for detailed information.)
 - Parole (FPA)/Leave - STTL & AIP (FLV)/Second Look (FSL) crimes and sentences will already be entered, DO NOT add 'O' line at this time.

- When leave sentences are complete, [refer to OPS Chapter 7.4](#) Transferring from Leave (AIP or STTL) to Post-Prison Status.
- Parole cases will never have an 'O' line, only an open 'I' line.
- Check offenses in CIS against Orders/Release Documents.
 - If AOS served LC sentences in the institution, close 'L' line to POST either timely or upon release from the institution. Be sure to use the proper sentence served date (provided by your jail) for the closure.
- Move to Step 4.
- **Post-Prison:** AOSs released to community corrections from an institution or from Leave status that have completed their prison sentence.
 - Post-Prison sentences need 'O' lines added on 'Work with Offenses' screen.
 - Check offenses and sentence lengths/expiration dates in CIS against Parole/Post-Prison Orders.
 - Post-Prison 'O' line (FPO sentence) is entered after the institution has closed the 'I' line to POST.
 - If the 'I' line has been split only enter the 'O' line on the line closed to POST.
 - To add 'O' line, put a '7=Add Sentence' on appropriate offense line (match docket # with PPS order), press enter to proceed to 'Sentence Data' screen.
 - Put an 'O' (not zero) on the "Sentence Type" line, fill in begin date, same as physical release date on PPS order, fill in sentence length also from PPS order (PPS orders use months for sentence length), press enter, the message 'record updated' will display. For "Immediate Release" AOSs, please [see Chapter 14, Section 14.18](#) for information on determining the 'O' line begin date.
 - If the Max sentence date does not match the PPS order, investigate and/or reach out to Judy Bell. If unable to determine why date does not match, contact the Board at bppps.webmaster@doc.state.or.us
 - Press enter again to return to "Work with Offenses" screen.
 -

NOTE: If there is an 'I' line(s) closed to POST, but there is no PPS order, check original sentencing order and/or amended orders; if no PPS was ordered contact: dloiscpta@doc.oregon.gov

Step 4 – 'Work with Conditions' screen:

- Put an 8 on first line of offense next to docket # (8=Conditions).
- Press enter to proceed to the "Work with Conditions" screen.
-

NOTE: Use correct condition type – (See OPS Chapter 18.6). Do not add Leave conditions to lines closed to POST. Leave conditions only apply to open 'I' lines.

How to get to 'Work with Conditions' Screen Example

OPS230I	Corrections Information Systems (TEST)	9:21:31
MCCARTHY	Work with Offenses	9/08/05
Offender: 1234567	Test, Offender Russell	Record key:

F11=Menu Bar	F12=Cancel	

Step 6 – All open cases and those with temporary closure codes should be reviewed, including eCourt to confirm disposition, and closed if they have expired.

Step 7 – Please review the ‘Movement History’ and the ‘Caseload History’ screens to ensure the data entry looks as intended.

Step 8 – ‘Offender Print’ Screen:

- From the ‘Work with Offenses’ screen, press F10 or use navigation (F11-3-K) to get to the ‘Offender Print’ screen.
- Put a 5 on option line.
- Press enter to print Kardex.

Step 9 – Go to LEDS to create an EPR (can use QPR mask). [Refer to OPS Chapter 5 - Enter Probation Record](#) for more information.

2.11 Admitting Post-Prison Cases from County Jails (Local Control)

[See OPS Chapter 15 - SB1145 Data Entry](#)

2.12 Admitting New AOSs Convicted on Same Date to Probation and Institution Sentences

When a person picks up both a probation sentence and an institution sentence on the same date, if the person is not admitted to the institution on the proceeding date, the first admission for that cycle should be to probation.

If the institution gets their admission done in CIS prior to the probation admission in CIS, then a ticket needs to be submitted for CCSUN to insert the probation status. Please [see OPS Chapter 13](#) for instructions on submitting a SUN ticket.

If you do your admission to probation before the institution does their admission in CIS, then [follow instructions in Section 2.24 - Admitting to CIS, Steps 9-11.](#)

NOTE: The institution does their admission based on the date the AOS has physically entered their custody; Community Corrections does admission to probation based on the proceeding date.

2.13 Admitting Cases Converted from Bench to Formal Supervision

Step 1 - Follow instructions under [2.24 - Admitting to CIS](#)

- Admission Date is the date the case was converted to formal supervision.

Step 2 - When adding the offense, follow instructions under [2.27 \(New Docket, Offense and Sentence – Adding an Offense\)](#). See below for correct Begin Date and Length of Sentence.

- Convicted date: Date the case was originally sentenced to bench probation.
- Begin Date: The date the case was converted to formal supervision.
- Length of sentence: If the court order converting the case to formal does not give a sentence length or expiration date because the original sentence is continued, review the original Bench Sentencing Order to determine the length of sentence. See below for instructions on how to calculate length of sentence using the CIS Date Calculator.
- Conditions: Use original sentence conditions unless noted on new order.

Utilizing the Date Calculator in CIS from 'New Docket, Offense and Sentence' screen for cases converted from bench to formal supervision.

- Type F11/2/B
- Enter 1 (1=Find date) in the 'Operation' field.
- Enter the original bench conviction date in the 'From date' field.
- Enter the original bench length of sentence in the 'Years, Months or Days' ADD fields.
- Press enter.
- The expiration date will show in the 'To Date' field.

The screenshot shows the CIS Date Calculator interface. On the left, there is a list of fields for case information: Offender..., Status..., Docket#..., Offense numb..., ORS number..., Sent guide..., Felony=Misde..., Inchoate/ORS..., Crime serious..., Sentencing j..., Defense coun..., District attorney..., Crime date..., Arrest Date..., Convicted Date..., Sentence Type..., Length(ymd).... Below these are function keys: F3=Exit, F4=Prompt. In the center, there is a 'Work Station Options' menu with options: A Change Assigned Printer, F W/W Printed Output, D W/W System Messages, K Kardex/Face Sheet Print Option, T Add, W W/W, E Use, Z Pop, B Dat. On the right, there is a 'CREATE' button. The main area displays the date calculation: Operation... 1 (1=Find date, 2=Find difference), From date... 8/15/2012, To date... 8/15/2022 Monday. Below this, it shows 'Date addend..Years... ADD 10 SUBTRACT', 'Months...', 'Days...', 'Elapsed days... 003652', and 'Years/months/days... 0000 00 00'. A red circle highlights the 'To date' field.

- Change the 'Operation' field to 2 (2=Find difference).
- Change the 'From date' field to the date the case was converted to Formal Supervision.
- Do not clear the 'To date' field (expiration date).
- Clear the 'Years, Months or Days" ADD fields.
- Press enter.
- The length of sentence will show at the bottom of the calculator. When using the date calculator, you need to add 1 day when using the "find difference" function and subtract 1 day when using the "find date" function.

The screenshot shows the OPS system interface with the 'Work Station Options' menu open. The 'Date Calculator' screen is displayed, showing the following fields:

- Operation: 2 (1=Find date, 2=Find difference)
- From date: 5/21/2015
- To date: 8/15/2022
- Date addend: Years: ADD, Months: SUBTRACT, Days: SUBTRACT
- Elapsed days: 002643
- Years/months/days: 0007 02 25

A red circle highlights the 'Years/months/days' field.

- F12 back to 'New Docket, Offense and Sentence' screen.
- Enter the length of sentence in the 'Length (ymd)' field.

If bench probation is converted and EXTENDED

- Type F11/2/B
- Enter 1 (1=Find date) in the 'Operation' field.
- Enter the original bench conviction date in the 'From date' field.
- Enter the original bench length of sentence in the 'Years, Months or Days" ADD fields.
- Press enter.
- The expiration date will show in the 'To Date' field.
- Enter the expiration date to the 'from date' field.
- Enter the extension length to the 'Years, Months or Days" ADD fields.
- The new expiration date will show in the 'To Date' field.
- Change the 'Operation' field to 2 (2=Find difference).
- Change the 'From date' field to the date the case was converted to Formal Supervision.
- Do not clear the 'To date' field (expiration date).
- Clear the 'Years, Months or Days" ADD fields.
- Press enter.

- The length of sentence will show at the bottom of the calculator. When using the date calculator, you need to add 1 day when using the “find difference” function and subtract 1 day when using the “find date” function.

2.14 Commutation Releases

General information:

- Commutations can be identified by looking at the offense screen. If you find an ‘I’ line closed to SCOM, this is a commuted sentence. The additional PPS time added to a commuted sentence is based on the longest running PRD. If there is more than one sentence commuted, all commuted sentences will use the longest running PRD to determine “regular PPS” begin date.
- Commuted sentences can be verified by looking at the commutation order. This should be available in OMS under the release documents section. Sometimes it’s included in the release packet; sometimes it’s uploaded separately. If the commutation order is not in OMS, you can request it from the OISC TPS DL: DLOISCTPSWORKERS-OISCTPSWORKERS@doc.oregon.gov
- The commutation only applies to the sentence(s) identified in the commutation order and no other sentences. Look for more than one commutation order if you see more than one sentence closed to SCOM. Sometimes one commutation order will include more than one sentence; sometimes a separate order is issued for each commuted sentence.
- PPS is not commuted unless specifically stated in the commutation order.

2.14.1 Admitting Commutation Releases

Step 1 - Check the Movement History

- Was the record released POST to your location?
 - If not, check to be sure you should be admitting – was this a waiver and should be admitted by a different county? Was this a waiver but released to county of record by mistake but should have released to you? Was this a straight release to your county, but the release location is just randomly wrong? If you are sure you should admit to your location, send an email to OISC TPS DL and ask them to correct the location.
 - If so, admit to your location using the exact date and time of release.

Step 2 - Update all Screens as Appropriate (address, names, descriptors, etc.)

Step 3 - Double-Check Expiration Dates on the Board PPS Order (See Section 2.14.4 ‘Double-Check Expiration Dates on Board PPS Order’)

- Once you are confident the expiration dates on the Board order are correct, continue your data entry as follows:
 - Enter an ‘O’ line with a begin date that is the same as the release date.
 - For commuted sentences adjust the length of PPS so the max date in CIS matches the expiration date on the Board order.

- For non-commuted sentences enter the length of PPS found on the Board order.
- For 'Life' sentences do not enter anything in Y/M/D fields, DO enter L in the 'Life' field.
- Print a Kardex and confirm max dates match the Board order expiration dates.

2.14.2 AOS Returns to Prison on Commutation Revoke:

- The institution will admit (no need for community to do any body release), close the 'O' line to VIOL on the SCOM sentences and send notification to the county of supervision stating the offender has been retaken due to revoked commutation.
- After receiving email notification, the supervising community location will close all 'O' lines to VIOL on sentences closed to POST, that began their 'O' lines at the same time as the commuted sentence. Close the lines using the same date the institution used to close the SCOM 'O' line(s).

NOTE: Be very careful not to close any previously running 'O' lines.

2.14.3 Rerelease of AOS Returned to Prison on Commutation Revoked:

Check all Board orders for proper max dates on AOSs who have had their commutation revoked and are now rereleased. DO NOT CHANGE CLOSED 'O' LINES. You will be entering a 2nd 'O' line under the one closed to VIOL, that 'O' line's begin date is the rerelease date.

Recent developments have occurred that indicate MOST commutations revoked and re-released will NOT receive PPS credits – neither for the non-commuted sentences nor the commuted sentences. Unless you are informed otherwise, please assume the re-release after commutation revoke will not receive PPS credits.

Check with Judy Bell for questions on specific AOSs.

2.14.4 Double-Check Expiration Dates on Board PPS Order

For commuted sentences (closed to SCOM):

- Rough math to calculate the max date is done by adding the PPS length found on the Board order to the longest running PRD found on the Facesheet.
 - To view the Facesheet: from the 'Work with Offenses' screen use 'F7=Facesheet', look to the circled area in the screen shot below to determine PRD, page down to see more offenses, if necessary, use the longest running PRD (example highlighted) for all commuted sentences.

F3=Exit	F5=Refresh	F9=Retrieve	F10=Print	F13=Print no AIP code

Example: PRD is 05/08/2020; PPS length is 24 months
 05/08/2020 + 24 months = 05/07/2022

- Does the Board order expiration match for this sentence?
 - If it does not, confirm the PRD is correct by sending an email to all three below:
 Sharp, Tami A Tami.A.Sharp@doc.state.or.us
 Spooner, Shawn C Shawn.C.Spooner@doc.state.or.us
 Erickson, Dianne Dianne.Erickson@doc.state.or.us
Ask them to check the longest running PRD in CIS for accuracy.
 (Checking the PRD is correct in CIS is the first step; do not ask this group about Board orders or data entry practices, only ask to check PRD).
 - If the date is correct: ask the Board to review their order. Present your rough math compared to their order (ex: PRD is 5/8/2020 + 24 months PPS = 5/7/2022 estimated expiration date; Board order expiration shows 4/21/2022).
 - If the date is incorrect, the TPS workers will fix it. Once it is fixed, verify your rough math now matches the Board order expiration date.
 - If they do not match, contact the Board again, ask for review, present your estimated calculations.
 - If they do match, hooray! Enter a length of PPS in CIS using a combination of years, months, and days so that the max date in CIS matches the expiration date on the PPS order.

For non-commuted sentences (closed to POST):

- Enter the length of PPS into CIS as shown on the Board order. The system should calculate a max date that matches the Board order expiration date.

What if the max date in CIS doesn't match the expiration date on the PPS order?

- Contact the Board, ask them to review their order; spell out your findings; (ex: release date is 7/6/2020 + 24 months PPS = 7/5/2022 max date as calculated by CIS; Board order shows expiration date of 9/2/2022).
 - If the Board sends amended order, matching the CIS max date, you are done.
 - If the Board believes the order is correct, it could be a max indeterminate sentence.
 - A max indeterminate sentence is one where the time incarcerated plus the time on PPS cannot exceed a set number of years. (A felony=20 years; B felony=10 years; C felony=5 years) When a person has a max indeterminate sentence, the Board will calculate their PPS expiration date as total time allowed – incarceration time = PPS. If the max date in CIS does not match the Board order but you are unsure if it is an indeterminate sentence, confirm with the Board.
 - If it is, adjust the length of PPS by using a combination of days and months to correct the max date in CIS to match the order.
 - If it is not, relook at all double-check methods above and if you are still stuck, contact Judy Bell for assistance.

2.14.5 Key Data Points

The following will help you gain a broad understanding, double-check the order and the CIS record for accuracy:

Release date – physical release from custody

- for commuted sentences: date “commuted-incarceration-time PPS” begins
- for non-commuted sentences: date “regular PPS” begins

Facesheet PRD – calculated by DOC-OISC (can change based on several factors)

- for commuted sentences: date “commuted-incarceration-time PPS” ends, and “regular PPS” begins (longest running PRD applies to all commuted sentence calculations)

PPS Expiration date – calculated by the Board based on information from OISC

- for commuted sentences (closed to SCOM): PPS expiration is calculated beginning the PRD date running for the length shown on the Board order
- for non-commuted sentences (closed to POST): PPS expiration is calculated beginning the release date running for the length shown on the Board order

Chrono – You should be able to find a chrono with the key word COMMUTATION regarding these dates. You can use this chrono to triple-check your work above. Chrono structure should look like this:

Header of Chrono:

Place: Bd Parole

Person: Bd Parole

Key Word: COMMUTATION

Body of Chrono:

COMMUTATION REL: O commuted from prison on (PRD here); O may be revoked and returned to prison prior to projected release date of (longest running PRD here); scheduled regular PPS begins (longest running PRD here).

NOTE: Many Board orders originally added extra time to non-commuted sentences when there was also a commuted sentence. We know now that this was incorrect and are working with the Board to fix these and issue amended orders. PLEASE DO NOT CHANGE THE DATA ENTRY until you receive a corrected Board order. This issue should be resolved and all orders that were incorrect when we started commutations should be correct now. We should not continue to experience this issue, but please review all the dates on the PPS orders of commuted AICs for accuracy.

OPS CHAPTER 3 – Interstate Compact

Please read this entire chapter before you begin!!!!!!

Oregon Compact Office e-mail address is: Oregon.Interstate@doc.state.or.us

The phrase “Compact” refers to the agreement between states to supervise AOSs who have been convicted in one state and transfer their supervision to another state.

- **Incoming Compact** – means they are convicted in a different state and will be supervised by a Community Corrections Agency in Oregon.
- **Outgoing Compact** – means they have been convicted in Oregon and will transfer their supervision to another state.

General Compact terminology:

- Sending State (SS): state the AOS was sentenced in.
- Receiving State (RS): state where the AOS plans to reside if accepted or where the AOS resided at time of sentencing and will be supervised.
- Transfer Request (TR – ICOTS abbreviation; IV – community abbreviation): The formal request a sending state makes through ICOTS to a receiving state to ask that an AOS be supervised in the receiving state.
- Request for Reporting Instructions (RFRI aka RI): This is a formal request made through ICOTS where the sending state asks for permission to let the AOS live in the receiving state during the investigation process. Two types of RFRI include expedited and regular.

There are two types of Compact investigation requests:

- **Request for Reporting Instructions (RFRI) aka (RIs):** AOS has been given permission to come to Oregon before an investigation is done.
- **Transfer Request (IV):** AOS remains in the sending state while the investigation is completed in Oregon.

3.1 GENERAL COMPACT INFORMATION

An AOS who is supervised in Oregon, may receive convictions out of state during their Oregon supervision. Application for Compact transfer must still be submitted in these types of cases.

There are some general data entry rules that apply to all Compacts:

- For restitution, compensatory fine, or community service ordered on incoming compact cases, set condition tracking to “No.”

- When entering IV offenses are not entered.
- It is not required of the sending state to send the court order/judgment with a transfer request investigation. The court order/judgment may be requested from the sending state upon acceptance by the receiving state. The sending state must send the judgment if asked.
- For RFRIs or accepted cases, it is recommended you enter offense information from ICOTS, not from the court order/judgment; however, conditions may be entered from the court order/judgment, the Compact paperwork, and/or ICOTS. Use probation conditions for incoming Compact cases.
- **Bench Probation:** Oregon is required to supervise misdemeanor and bench probation cases **from other states**. We enter those in CIS. Other states may refer to a case as bench probation, but this may not have the same meaning in that state as in Oregon. If we are required to supervise another state's "bench" probations, they are considered supervised probation in Oregon. However, we **do not enter Oregon bench probations** in CIS as those are under the jurisdiction of the Court. When the Court allows a bench probation offender to compact to another state, they or their designee prepare the compact paperwork, but it is not recorded in CIS.

Definitions and general information are found in [3.12 Additional Information](#). If in doubt on how to proceed, once you have read the entire section, call another SOON Representative.

If the AOS fails to report on RFRIs (aka RIs), (either by phone or in person as per your County practice) and you have received the Investigation Request, enter the AOS in CIS as an IV so there is a record in CIS. Once the AOS reports, it can be changed to PR or PA and entered as per directions below in either 3.1.1 or 3.1.2. If the AOS fails to report on RFRIs and you have NOT received the Transfer Request, do not enter into CIS at all until either the Investigation Request is received, or the AOS reports on his RFRIs.

See 3.1.1 and 3.1.2 for entry of offender into CIS on RI after offender reports.

See Chapter 8, sections [8.16](#) and [8.16.1](#) for incoming Compact closure instructions.

Note: ICOTS and CIS entries should always match.

3.1.1 REPORTING INSTRUCTIONS (RFRI aka RI) ADMISSION – AOS WITH PREVIOUS DISCHARGE STATUS

NOTE: CIS data entry takes place after AOS reports, unless the AOS fails to report, and a Transfer Request has already been submitted. An AOS can report in person or by phone per your county policy to determine the date entered on the Notice of Arrival. Admission date **MUST** match date on Notice of Arrival.

BEFORE YOU BEGIN: Run a QWHD and CCH in LEDS. Search OIS by FBI number for the existence of the AOS.

Step 1 – Go to the “Admissions” process (#3 from CC Support main menu). If AOS has a SID number per CCH, type SID number on “offender” line of “Community Corrections Admission” screen (first line), then press enter.

If AOS is already in the system with a current status of “discharge,” determine if AOS was previously supervised on the same offense(s). If so, [follow Steps to Reopen a Compact \(RCOM\) Case in - OPS 13.2 \(Data Entry Requiring Sun\)](#).

Step 2 – **If new offense information**, fill in admission date/time (taken from Notice of Arrival), the assigned PO’s caseload number, post admission status of “PR for probation” or “PA for parole”, then press enter. Choose PR or PA based on the Transfer Request form as the sending state decides the status.

Step 3 – Press enter to move from one screen to the next and update all pertinent information, i.e. Names, Addresses, Description and Other Numbers screens. Enter the offense information from Transfer Request form.

To enter offense: Go to “Work with Offenses” screen. Press ‘F6=Add Docket’. Fill in the following information: **NOTE: Leave field blank if not addressed below.**

- Docket #/count #
- County (2 letter State Code)
- SANC
- ORS #
- Sentencing guidelines ‘N’ on incoming compact offenders
- Crime Seriousness & Criminal History (not applicable to Compact, leave blank)
- Judge’s Name: enter “Compact”
- Crime date if known
- Sentence type P for probation and I for Parole (these are the only two accepted options for a Compact)
- Begin date (taken from Transfer Request)
- Length of sentence – DOE must match date on Transfer Request
- Compact begin date (use date on Notice of Arrival), press enter.

Conditions may be entered from the court order/judgment, Compact paperwork, and/or ICOTS. Use probation conditions for incoming Compact cases. Note: you may need to request court order/judgment from the sending state.

Note: When the AOS is here on Reporting Instructions (RFRI aka RI), enter everything because the offender is to be supervised and the PO needs the ability to sanction.

Step 4 – If AOS has an Oregon SID number, go to LEDS, and enter EPR ([refer to EPR Steps in OPS 5 of this manual](#)).

Step 5 – If AOS does not have an Oregon SID the Compact fingerprinting procedure should occur. Once an Oregon SID is issued, enter an EPR.

3.1.2 REPORTING INSTRUCTIONS (RFRI aka RI) ADMISSION - New AOS

BEFORE YOU BEGIN: Run a QWHD and CCH in LEDS. Search OIS by FBI number for the existence of the AOS.

Step 1 – Go to the “Admissions” process (#3 from CC Support main menu). Press “F6=New Admission.” This will take you to the “Community Corrections New Intake New Offender Data” screen. If the AOS has an Oregon SID number, type that SID number on “ID number” line. If they do not have an Oregon SID number, leave the “ID number” line blank and the computer will automatically assign a temporary block number. Fill in the following lines (using information from Compact Transfer Request plus additional ICOTS forms if needed):

- Last name, first/middle/title
- DOB
- Sex
- Race
- Your county should already be filled in, do not change
- Date/time (date is taken from the Notice of Arrival) military time is used
- From county/state (2 letter state code or choose “F4 Prompt” from the table)
- Caseload
- “PR” for probation, “PA” for parole – determined on Transfer Request

Step 2 – Press enter to move screen by screen and update all pertinent information, i.e. Names, Addresses, Description and Other Numbers screens. Enter the offense information from Transfer Request.

To enter offense: Go to “Work with Offenses” screen. Press ‘F6=Add Docket’. Fill in the following information: **NOTE: Leave field blank if not addressed below.**

- Docket #/count #
- County (2 letter State Code)
- SANC
- ORS #
- Sentencing guidelines ‘N’ on incoming compact offenders
- Crime Seriousness & Criminal History (not applicable to Compact, leave blank)
- Judge’s Name: enter “Compact”
- Crime date if known
- Sentence type P for probation and I for Parole (these are the only two accepted options for a Compact)
- Begin date (taken from Transfer Request)
- Length of sentence – DOE must match date on Transfer Request

- Compact begin date (use date on Notice of Arrival), press enter.

Conditions of supervision may be entered from the court order/judgment, the Compact paperwork, and/or ICOTS. Use probation conditions for incoming Compact cases.

Note: When the AOS is here on Reporting Instructions (RFRI aka RI), enter everything because the AOS is to be supervised and the PO needs the ability to sanction.

Step 3 – If the AOS has an Oregon SID number, go to LEDS and enter EPR ([refer to EPR Steps in OPS 5](#) of this manual). If there is a temporary Block number, skip this step.

Step 4 - If AOS does not have an Oregon SID the Compact fingerprinting procedure should occur. Once an Oregon SID is issued, enter an EPR.

3.1.3 REPORTING INSTRUCTIONS (RFRI aka RI) ADMISSION – AOS ON ACTIVE SUPERVISION IN OREGON

BEFORE YOU BEGIN: Run a QWHD and CCH in LEDS. Search OIS by FBI number for the existence of the AOS.

If an AOS is already under supervision in Oregon in a county different from the proposed residence, the supervising county must investigate the case and then IRT the AOS to the county of proposed residence after acceptance. You can ask for courtesy assistance from the county of the proposed residence to investigate the address.

If an AOS is already under supervision in Oregon in the county of proposed residence, skip the admission process and go to the “Work with Offenses” screen and enter the offense information from ICOTS printouts and conditions of supervision from the court order/judgment, Compact paperwork, and/or ICOTS. Use probation conditions for incoming Compact cases. Print new Kardex.

If you have received approved RFRI for an AOS who is already supervised in another county, you received those in error as the RFRI should have gone to the county of supervision. Please contact the Compact office and have them change the RFRI to the supervising county.

If you find out an AOS has lied about their circumstances that qualify them for #1 RFRI (#1 means they are living in receiving state at time of sentencing), contact the Compact office.

(See 3.11 ADDITIONAL INFORMATION)

3.1.4 REPORTING INSTRUCTIONS (RFRI aka RI) ADMISSION PROCESS – AOS CURRENTLY ON “IV” STATUS.

In the event the sending state submits a transfer request and AOS is admitted to IV status, but then the sending state submits a request for RIs during the investigation period and the request is approved:

Step 1 – Go to “CC Release Process” (#4 CC Support main menu), use release code PROB for probation or PARO for parole and use date on Notice of Arrival.

Step 2 – Go to the “Admissions” process (#3 from CC Support main menu). If AOS has a SID number per CCH, type SID number on “offender” line of “Community Corrections Admission” screen (first line), press enter. Admit using same date/time as release and the post admission status of “PR” for probation or “PA” for parole – determined from the Transfer Request.

Continue to follow instructions in [Section 3.1.2, starting from Step 2.](#)

3.2 RESCINDING OF REPORTING INSTRUCTIONS FOR AOSS SUPERVISED HERE ON RFRI

In the event the Compact Office rescinds the Reporting Instructions before the Compact Transfer Request is received and the aos has been supervised by Oregon, the following applies:

Step1 – Go to the “CC Release Process” (#4 CC Support main menu). On “Work With Offenses” screen, type offenders SID number or Block number on the “Offender” line, press enter. Go to the sentence line (second line) and enter 2 to “Change.” Press enter. This will take you to the “Sentence Data” screen. Tab down to the termination date field and enter date the Compact Office rescinded the Reporting Instructions (from Compact Office e-mail sent to PO, Compact chrono, or ICOTS info). Tab down to the termination code field and type “COMP,” press enter. Repeat for each offense entered.

Step 2 – After all offense lines are closed, press enter. This will bring you to the “Offender Release” screen; enter the Compact Office rescinded date on “release date” line and enter a time. Tab down to “release type” and put in the termination code COMP, press enter. If the AOS is also supervised on Oregon cases, do not close the body of the record.

3.3 DENIAL OF TRANSFER REQUEST FOR THOSE HERE ON RFRI

In the event the receiving state denies the Transfer Request for those already here being supervised on RFRI, the following applies:

Step 1 – Go to the “CC Release Process” (#4 CC Support main menu). On “Work With Offenses” screen, type offenders SID number or Block number on the “Offender” line,

press enter. Go to the sentence line (second line) and enter 2 to “Change.” Press enter. This will take you to the “Sentence Data” screen. Tab down to the termination date field and enter date using the date on the Notice of Arrival in response to your Notice of Departure. Tab down to the termination code field and type “COMP,” press enter. Repeat for each offense entered.

Step 2 – After all offense lines are closed, press enter. This will bring you to the “Offender Release” screen; enter the date from the Notice of Arrival in response to your Notice of Departure on “release date” line and enter a time. Tab down to “release type” and put in the termination code COMP, press enter. If the AOS is also supervised on Oregon cases, do not close the body of the record.

3.4 COMPACT TRANSFER REQUEST FOR AOSS HERE ON APPROVED RFRI (WHO ARE ALREADY ENTERED INTO CIS ON THE RFRI)

Because AOS is here on RFRI and has been already entered as “PR” or “PA” status in CIS, **do not change status to “IV.”**

No further data entry is needed at this point.

3.5 COMPACT IV ADMISSION PROCESS - AOSS WITH PREVIOUS DISCHARGE STATUS - FOR AOSS WHO STAY IN THE SENDING STATE DURING INVESTIGATION

BEFORE YOU BEGIN: Run a QWHD and CCH in LEDS. Search OIS by FBI number for the existence of the AOS.

Step 1 – Go to “Admissions” process (#3 from CC Support main menu). If AOS has a SID number per CCH, type the SID number on “offender” line of the “Community Corrections Admission” screen (first line), then press enter. If AOS is already in the system under status “discharge,” determine if the AOS was previously supervised on the same offense(s) as the current investigation.

- If so, follow the Steps to Reopen a Compact (RCOM) Case in DOC400/CIS in [section OPS 13.2](#) of this manual.
- If the AOS’s transfer request is for different docket numbers, admit using IV status.

Note: If AOS’s previous status was IV per Movement History Screen and you’ve determined they were NOT supervised on those offenses, open a new cycle. Do not use RCOM. If the AOS had previously been rejected and is applying again, enter a new admission to IV. Do not use RCOM.

Step 2 – If the investigation is for different dockets than previously supervised, fill in admission date/time taken from the Transfer Request form.

- Last name, first/middle/title
- DOB
- Sex
- Race
- Your county should already be filled in, do not change
- Date/time (date is taken from the Transfer Request form – use the date the Transfer Request was prepared) military time is used
- From county/state (2 letter state code or choose “F4 Prompt” from the table)
- Caseload
- Post-admission status: IV (Investigation)

Step 3 – Press enter to move from one screen to the next and update all pertinent information, i.e. Names, Addresses, Description and Other Numbers screens. **DO NOT ENTER OFFENSE INFORMATION.**

3.6 COMPACT INVESTIGATION ADMISSION PROCESS (IV) - NEW AOSS - FOR AOSS WHO STAY IN THE SENDING STATE DURING INVESTIGATION

BEFORE YOU BEGIN: Run a QWHD and CCH in LEDS. Search OIS by FBI number for the existence of the AOS.

Step 1 – Go to the “Admissions” process (#3 from CC Support main menu). Press “F6=New Admission.” This will take you to the “Community Corrections New Intake New Offender Data” screen.

If the AOS has a SID number, type the SID number on “ID number” line. If they do not have a SID number, leave the “ID number” line blank and the computer will automatically assign a temporary block number.

Fill in the following lines (taking information from Compact Transfer Request):

- Last name
- First/middle/title
- DOB
- Sex, Race
- Your county (should auto fill in with your county, do not change)
- Date/time (taken from Compact Transfer Request)
- From county/state (2 letter state code or choose “F4 Prompt” for the table)
- Caseload
- Admission status: IV (Investigation)

Step 2 – Press enter to move from screen to screen and update all pertinent information, i.e. Names, Addresses, Description and Other Numbers screens. **DO NOT ENTER OFFENSE INFORMATION.**

3.7 DATA ENTRY UPON ACCEPTANCE AND ARRIVAL IN OREGON (AOS in system under “IV” status)

Step 1 – Go to “Offender Release” screen. Fill in “release date” and “time” field (taken from the Notice of Arrival), ‘release type code’ field using appropriate 4-letter status of PARO for parole and PROB for probation, which is determined by the Transfer Request, leave the “ABSC release to FTR” blank, ‘release to location’ field (use your 4-letter county code), press enter. Press enter again to verify release and review movement history screen.

Step 2 – Go to the Admission Process (#3 from Support Staff menu). Enter the SID to bring up the AOS record. Fill in ‘admission date and time’ (must match exactly with release date and time), ‘PO caseload number’, and ‘Post Admission Status’ fields (PA or PR – match the release code you used), press enter.

Step 3 – Go to “Work with Offenses” screen. Press ‘F6=Add Docket’. Fill in the following information: NOTE: Leave field blank if not addressed below.

- Docket #/count #
- County (2 letter State Code)
- SANC
- ORS #
- Sentencing guidelines ‘N’ on incoming compact offenders
- Crime Seriousness & Criminal History (not applicable to Compact, leave blank)
- Judge’s Name: enter “Compact”
- Crime date if known
- Sentence type P for probation and I for Parole (these are the only two accepted options for a Compact)
- Begin date (taken from Transfer Request)
- Length of sentence – DOE must match date on Transfer Request
- Compact begin date (use date on Notice of Arrival), press enter.

Press enter again to return to ‘Work With Offenses’ screen. Put ‘Option 8=Conditions’ on first line of offense next to docket #, press enter. This will take you to ‘Work With Conditions’ screen. Press ‘F17 (shift F5) =Add conditions’. Conditions can be taken from the court order/judgment, Compact paperwork, and/or ICOTS. Use probation conditions for incoming Compact cases. Conditions should appear in ICOTS in the conditions section because we want to ensure the PO has reviewed and approved all the conditions, including having their opportunity to impose conditions in ICOTS. You can review all of the ICOTS record for conditions that may be listed elsewhere, but if you find conditions listed elsewhere in ICOTS, please share this information with the Oregon Compact office via the general email box: Oregon.Interstate@doc.state.or.us.

Step 4 – Update other information as needed and enter EPR via LEDS if AOS has an Oregon SID number.

Step 5 - If AOS does not have an Oregon SID the Compact fingerprinting procedure should occur. Once an Oregon SID is issued, enter an EPR.

3.8 CIS DATA ENTRY UPON INVESTIGATION REJECTION

NOTE: For any AOS who is in CIS under IV status, if the Transfer Request is withdrawn or denied, close the body using CREJ and use the date on the ICOTS Withdrawal or the ICOTS Reply to Transfer marked denied.

Step 1 – On “Offender Release” screen, fill in ‘release date’ field with date of rejection (taken from Withdrawal or Reply to Transfer), time, ‘release type code’ field with CREJ, and leave blank the ‘ABSC release to FTR’ & ‘release to location’ field, press enter. Press enter again to go to the Movement History/Maintenance screen to verify discharge status.

3.9 OREGON CASES ACCEPTED BY ANOTHER STATE – OUTGOING COMPACT (CMPO)

The Reply to Transfer Request has been received accepting transfer of case. The PO has sent the Notice of Departure as the AOS has left. When you receive the Notice of Arrival, follow steps below to release the record to CMPO outcount in CIS:

From the CC RELEASE PROCESS on your main menu:

Step 1 – Type SID number on “Offender” line, press enter, this will bring AOS to screen. Press enter to go to the ‘Offender Release’ screen, enter release date/time (must use arrival date found on Notice of Arrival). Release type will be CMPO and release to location will be the 2-letter State abbreviation where offender is accepted, press enter.

Press enter to check ‘Movement History/Maintenance’ screen.

Step 2 – Go to LEDS to modify EPR per your county’s practice ([refer to Chapter 5 - EPR Steps, Modifying an EPR](#)).

Step 3 – Per your county’s practice, change primary caseload number to designated Compact PO.

FYI: Supervision fees will not accrue while AOS is on CMPO status.

3.10 GENERAL INFORMATION REGARDING OUTGOING COMPACT:

Persons under supervision for certain crimes CANNOT LEAVE THE STATE OF OREGON OR MOVE TO ANOTHER STATE without permission from the Interstate Compact Administrator of Oregon and the other state. This rule applies to defendants on supervision for ANY felony. It also applies to defendants on supervision (including bench probation) for a MISDEMEANOR, if:

OPS 3 – Interstate Compact
Last revised 07-09-2024

- The person is placed on probation or under court supervision for more than one year, and
- The offense falls into one of four categories:
 - An offense in which a person has incurred direct or threatened physical or psychological harm:
 - The commission of, or attempt, solicitation, or conspiracy to commit:
 - Assault IV. ORS 163.160(2)
 - Menacing. ORS 163.190
 - Recklessly endangering another person ORS 163.195
 - Criminal mistreatment II ORS 163.200
 - Unlawful use of electrical stun gun, tear gas, or mace II ORS 163.212
 - Child neglect II ORS 163.545
 - Endangering welfare of a minor ORS 163.575(1)(a), (b), (c), or (e)
 - Strangulation. ORS 163.187
 - Stalking. ORS 163.732(2)(a)
 - Violating courts stalking protective order ORS 163.750
 - Harassment ORS 166.065(4)
 - Intimidation II. ORS 166.155
 - Application of controlled substance to body of another ORS 475.910(1)(d)
 - Vehicular assault of bicyclist or pedestrian. ORS 811.060
 - Reckless endangerment of highway workers ORS 811.231
 - The attempt or conspiracy to commit a class C felony:
 - Assault IV. ORS 163.160(3)
 - Assault III. ORS 163.165
 - Assaulting a public safety officer. ORS 163.208
 - Coercion. ORS 163.275
 - Criminal Mistreatment I. ORS 163.205(1)(b)(A)
 - Stalking. ORS 163.732(2)(b)
 - Intimidation I. ORS 166.165
 - Failure to perform duties of driver to injured persons. ORS 811.705(2)(a)
 - An offense that involves the use or possession of a firearm
 - The commission of, or attempt, solicitation, or conspiracy to commit.
 - Unlawful Possession of a firearm. ORS 166.250
 - Unlawful possession of machine gun, short-barreled firearms, silencers. ORS 166.272
 - Attempt or Conspiracy to commit a class C felony crime involving weapons:
 - Unlawful use of a Weapon. ORS 166.220
 - Possession of a weapon by certain felons. ORS 166.270

- A second or subsequent DUII (conviction)
- Sexual offenses requiring registration in the sending state (See ORS 181.594)
- Sexual Misconduct. ORS 163.445 (if the offender is at least 18 years of age)
- The commission of, or attempt, solicitation, or conspiracy to commit:
 - Sexual Abuse III. ORS 163.415
 - Encouraging child sexual abuse III. ORS 163.687
 - Contributing to the sexual delinquency. ORS 163.435
 - Private Indecency if prior conviction for crime listed in ORS 181.594(4). ORS 163.467
 - Failure to Report as Sex Offender ORS 181.599
- Attempt or Conspiracy to commit a class C felony:
 - Rape III. ORS 163.355
 - Sodomy III. ORS 163.385
 - Sexual Abuse II. ORS 163.425
 - Incest. ORS 163.525 (If the offense involved a child victim)
 - Encouraging child sexual abuse II. ORS 163.686
 - Promoting prostitution. ORS 167.012
 - Public Indecency if prior conviction for crime listed in ORS 181.594(4). ORS 163.465
 - Burglary II. ORS 164.215, if committed w/ intent to commit any of the offense listed above.

These rules apply pursuant to the Interstate Compact on Adult Offender Supervision, ORS 144.600 et sec. The elements of the crime of conviction determine whether the defendant is subject to the Interstate Compact. There may be crimes that are not listed here that are subject to the Compact. If you identify such a crime, please contact Mark Patterson (Mark.G.Patterson@doc.state.or.us)

TIP: AOSs should not be allowed to travel or relocate to another state without Reporting Instructions or Acceptance being issued by the receiving state. The ONLY exception to this rule is for those sentenced within the last 7 days who were living in the receiving state at the time of sentencing, are NOT sex offenders, served less than 6 months of incarceration, and for whom Reporting Instructions have been requested.

3.11 CMPO RETURN

From the ADMISSION PROCESS on your main menu:

Step 1 - Type the SID number on the "Offender" line on the Community Corrections Admission Screen, press enter to bring up the offender.

Step 2 - Tab down to "Admission Date/Time" field, put in the date found on the Notice of Arrival. If Oregon issues a warrant due to receiving state reporting abscond, use the closure notice or date of warrant, whichever comes first.

Step 3 - Tab down to "Caseload" field, enter the PO's caseload #, press enter to process. You will get message "Admission from non-supervised status processed."

Step 3 - Print a kardex.

Step 4 - Modify EPR eliminating any reference to offender being on compact status in another state.

Step 5 - Please see [Chapter 8, section 8.17.1](#) for instructions on how to return CCH record to your agency. This should be done for incoming Compact offenders returning on the same dockets.

3.12 ADDITIONAL INFORMATION

1. Note: ICOTS and CIS entries should always match.
2. CREJ is used with Compact Investigations (IV Status) - case rejected or withdrawn.
3. COMP is used when an AOS returns to the sending state for continued supervision; or the AOS moves to another state prior to expiration.
4. "IV" status is only used when entering a Compact Investigation where the AOS remains in the sending state during the investigation process.
5. PR and PA are used when admitting to supervision after a request has been approved. PR and PA status are used when an AOS has been granted Reporting Instructions (RIs) and is actively reporting to an Oregon PO during the investigation process.
6. The only acceptable sentence types for an incoming Compact are "P" (probation) and "I" (parole). Another state's judgment may indicate a "suspended sentence", which seems similar to an Oregon conditional discharge, but should always be entered in CIS as probation lines.
7. If you believe a Transfer Request or approved RFRIs have been submitted to your office in error, contact the Compact office immediately.
8. If an AOS is being supervised on Request for Reporting Instructions but moves to another county because the supervising county will not allow the first housing proposed, you would transfer (TRAN) him/her to the other county, **once you**

have determined the new county has received the RFRI request. You should contact the SOON rep in the new receiving county to advise of the transfer.

9. If an AOS is already under supervision in Oregon in a county different from the proposed residence, the supervising county must investigate the case and then IRT the AOS to the county of proposed residence after acceptance. Ask the receiving county for courtesy assistance to investigate the proposed residence. After the IRT has been approved, ask the Compact office to transfer the AOS in ICOTS to the next location.
10. If an Oregon AOS is compacted to another state and wants to return to Oregon but lives in a different county than the supervising county, the two counties should work together (example Curry Co. had an AOS compacted to CA. AOS received new charges in CA and wanted to return to Oregon but live in Benton Co. Curry Co. sent an IRT to Benton Co. who investigated and agreed to supervise. Curry Co. sent the Compact Acceptance paperwork, and then transferred the file to Benton Co.)
11. SOON's procedure is to match the sending state crime as close as possible to an Oregon Revised Statute (ORS) when entering offenses. Felony in sending state must be felony in Oregon, misdemeanor must be misdemeanor. This may require review of ORS and the sending state equivalent. The PO should review and approve the chosen offense.

NOTE: ORSs for crimes do change when the laws around the crime change (ie Marijuana laws) so it is important to make sure that the ORS you are using is for the correct crime and the correct time frame. To check this, F4 on the ORS field, find your crime and make sure to look at the dates in the crime name. (ie "Poss Cocaine 081517-013121, is a possession of cocaine charge that happened between 08/15/2017 and 01/31/2021)
12. Enter an F8 note on offense screen indicating sending state's offense if the name of the sending state crime is different than the name of Oregon crime. Ex: breaking and entering from California may be entered as Burg I in Oregon. These names don't match, so you would enter an F8 note. If convicted of Possession of Meth or Assault, the crime names would match, so no F8 note would be required. You'll take the crime name from the Transfer Request.
13. While your office practice determines the date to be used on the Notice of Arrival (NOA) (AOS reports by phone or in person), for data entry purposes all entry dates should match the date on the Notice of Arrival.
14. The date of expiration in CIS (offense max date) should always match the date of expiration listed on the Transfer Request. Be careful because sometimes if you enter the length provided, CIS will calculate a different max date. Make the max date match, even if the length is different than what's listed.

15. The sending state is responsible for keeping the supervision end date correct and updated in ICOTS. The supervising county is responsible for ensuring CIS is updated. Incoming compact cases are closed according to the supervision end date in ICOTS.
16. On outgoing compact cases (Oregon is sending state) the date in CIS is the correct date and ICOTS should always be kept current and updated.
17. If an AOS is compacting out, and the institution put together the compact transfer, we should check the supervision end date when we open their PPS, as the institution is putting in an estimate. AICs who compact to another state upon release are entered the same way as any other. They will be admitted to CIS and then closed to CMPO upon receipt of a Notice of Arrival (NOA) from the other state.
18. Clarification regarding at what point a receiving state accepts responsibility: ICAOS Rules 3.103 (b)(3) and 3.106(b) state the point at which a receiving state accepts responsibility for an AOS is when the offender “arrives” in the receiving state. “Arrive” is interpreted to mean when the incoming AOS has reported to the assigned county community corrections office, either by phone or in person, the very first time.
19. When reporting instructions are granted by the Oregon Interstate Compact Office AND upon the AOS’s “arrival” in Oregon, the county community corrections office would open the case in either PR or PA status. When admitting an AOS into CIS, always use the date listed on the NOA (Notice of Arrival) in ICOTS.
20. When Oregon investigates a transfer for supervision where the AOS remains in the sending state during the investigation, the AOS’s record in CIS would be opened in IV status. Upon the AOS’s “arrival” in Oregon, the county community corrections office would change the case status from IV to PR or PA, as appropriate. Always use the date listed on the NOA (Notice of Arrival) in ICOTS.
21. If the AOS fails to report to Oregon, A Notice of Failure to Arrive (NOFTA) is sent through ICOTS, the case is never opened and remains in IV status until such time as Oregon is notified that the sending state has withdrawn the request. Further, a Notice of Arrival (NOA) can still be done after a NOFTA has been submitted if the case has not been withdrawn by the sending state.
22. When the institution accepts a Compact Transfer, the AOS will serve all or part of their out-of-state incarceration in an Oregon facility before releasing to community supervision. OISC enters the FPAC “I” and uses DOC in the CNTY field. When CNTY=DOC, the offense belongs to the institution and normal location authorities apply. The system views the offense as if it were an Oregon Parole “I” line and the community cannot make changes to the offense.

An example is shown below:

01	00000/01	DOC	MURDER	163.115	N	Y	
00	I FPAC	10/06/1982	Life				
02	00000/02	DOC	ROBB I AT	164.415	X	N	N
00	I FPAC	10/06/1982	015-000-000	10/05/1997	10/05/1997	EXPI	
03	00000/02	DOC	CONSPI AF	161.450	01	N	N
		ROBB I	164.415				
00	I FPAC	10/06/1982	014-000-000	10/05/1996	10/05/1996	EXPI	

You must contact OISC to have the SANC data added to the offense.

23. Re-Open (RCOM) in CIS – [\(See OPS 13.2\)](#)

24. Outgoing AOSs do qualify for EDIS, but not INPR or UNSU.

25. Incoming AOSs do not qualify for INPR, UNSU or EDIS from our state.

26. The sending state may have their own version of EDIS.

27. Sealings for incoming and outgoing compact cases: Contact Compact Office for instructions.

28. Process for closing Non-Oregon Compact Cases – [\(See OPS 8.17\)](#)

29. Incoming Compact cases issued an Oregon SID – [\(See OPS 8.17.1\)](#)

30. AOSs with appeals who are Compacted Out (CMPO – [\(See OPS 8.18\)](#)

31. Changing “Admission From” Location [\(See OPS 10.2\)](#)

32. Changing Status [\(See OPS 12.8.2\)](#)

33. Changing Admission Date [\(See OPS 10.4\)](#)

34. Legal Status Change – Lower to Higher Status [\(See OPS 12.8\)](#)

35. Compact probation case closed to COMP comes back as parole case [\(See OPS 14.8\)](#)

36. Extraditions – [\(See OPS 15.14\)](#)

37. DNA Data Entry in CIS – incoming compact AOSs do not need a DNA test, unless the sending state requires it. If the sending state requests DNA, we do the swab and send it back to the sending state. **It does not go into our data base.** Out of state AOSs are not swabbed and recorded unless the AOS has or receives Oregon offenses which require it. (See OPS 17)
38. Compact Reports (See OPS 20)
39. Compact documents maintained by OISC (see OPS 21.9.)
40. File organization of Compact Paperwork/Documents Maintained by OISC (See OPS 24.)
41. When an AOS is currently supervised on Post-Prison and has been accepted for incoming Compact parole, the new status will be POPA; see detailed instructions in Chapter 12, section 12.8.2.

Offender Profile System (OPS) Training Manual

If...	Then...
- AOS already in CIS on same case under compact investigation, during invest RFRIs are given and approved. - Request for Reporting Instructions (RFRIs) have been approved. - Transfer Investigation Request has been submitted - AOS reports as directed	- Admit to PA or PR status using the date on the Notice of Arrival (NoA) - Enter all pertinent information including docket and supervise client during investigation period
- RFRIs have been approved - Transfer Investigation Request has NOT been submitted - AOS reports as directed	- Admit to PA or PR status using the date on the NoA - Investigation Request due within 15 days of Rfri approval - Enter all pertinent information including docket and supervise client
- RFRIs have been approved - Transfer Investigation Request has NOT been submitted. - AOS reports as directed. - Transfer Investigation Request is NOT received within 15-day time limit and Sending State (SS) chooses not to submit at all and cancels RFRIs. - AOS returns to Sending State (SS)	- Admit to PA or PR status using the date on the NoA - Enter all pertinent information including docket and supervise client until it's determined that Investigation Request will not be submitted and RFRIs are cancelled/rescinded; when AOS returns to sending state, close docket and body to COMP using date on NoA
- RFRIs have been approved - Transfer Investigation Request has been submitted - AOS does NOT report	- Admit to IV status with the date on the Transfer Investigation Request - Submit NOFTA if offender fails to report ever - Close to CREJ when Sending State withdraws - If AOS eventually reports prior to NOFTA - change to PA or PR status using date on NoA
- RFRIs have been approved - Transfer Investigation Request has NOT been submitted - AOS does NOT report	- Do not enter in CIS until one of the following occurs: - Transfer Investigation Request received (admit to IV status); or - AOS reports on RFRIs (admit to PR or PA using date on NoA)
- AOS already in CIS on different cases on discharge status - Here on RFRIs	- Admit to PR or PA status on new cycle - Enter all pertinent information as appropriate based on above "if/then" scenarios
- AOS already in CIS on same case under compact investigation on discharge status - Here on RFRIs	- Follow instructions in Chapter 13, section 13.2 to reopen a Compact case - Admit to PR or PA status
- AOS NOT in CIS already - Here on RFRIs	- Search OIS by FBI number to ensure AOS isn't already in the system - Follow procedures listed above depending on whether a Transfer Investigation Request has been received

Offender Profile System (OPS) Training Manual

• AOS already in CIS for different cases on discharged status • Transfer Investigation Request has been submitted • AOS is NOT in receiving state	• Admit using IV status onto new cycle • Enter all pertinent information except docket
• AOS already in CIS on same case under compact investigation • Transfer Investigation Request has been submitted • AOS is NOT in receiving state	• Follow instructions in Chapter 13, section 13.2 to reopen a Compact case • Admit to IV status • Enter all pertinent information except docket
• AOS NOT in CIS already • Transfer Investigation Request has been submitted • AOS is NOT in receiving state	• Check OIS by FBI number to ensure AOS is not in CIS • Admit using IV status • Enter all pertinent information except docket
• AOS in CIS under IV status • Compact Transfer is accepted	• Follow data entry instruction in 3.6 • Enter docket and conditions
• AOS is already on supervision in Oregon. • RFRIs are approved for supervising county	• Enter docket information for incoming compact case
• AOS is already on supervision in Oregon. • RFRIs are approved for a residence in a different county than current supervising county	• Enter docket information for incoming compact case • Submit IRT to proposed residence county
• AOS is already on supervision in Oregon. • RFRIs are approved for a residence in a different county than current supervising county IN ERROR	• Contact Compact Division for assistance regarding erroneous RFRIs
• AOS is already on supervision in Oregon. • You received RFRIs for someone you don't supervise	• Contact Compact Division to have those RFRIs transferred in ICOTS to the supervising county • Supervising county will submit IRT to proposed residence county
• Transfer Investigation Request received • AOS remains in Sending State (SS)	• Admit to IV status using the date on the Transfer Investigation Request • Enter all pertinent information except docket
• AOS under compact supervision returns to sending state PRIOR to compact cases expiring naturally	• Close docket and body to COMP – for voluntary returns use date on Notice of Departure; for Absconds use date of case closure request)
• AOS under compact supervision absconds and Sending State issues warrant	• Close docket and body to COMP using date on Compact Closure form
• AOS in IV status has investigation withdrawn or denied	• Close body to CREJ (there should be no docket entered)
• AOS is supervised under RFRIs. • Transfer Investigation has been withdrawn or denied. • AOS is returned to Sending State	• Close docket and body to COMP using date of NoA
• AOS is supervised in Oregon on out-of-state compact cases • All out-of-state compact cases end at their prescribed expiration date	• Close dockets and body to EXPI

Offender Profile System (OPS) Training Manual

• AOS is already in our county on Active caseload or Outcount and receives Investigation request	• Do not put in Investigate status, they stay as is

OPS CHAPTER 4 – DOC and Institution Release Data

4.1 RETRIEVING A BOARD PPS ORDER

NOTE: The Parole Board will issue an order prior to an AIC's release date. No CIS notification will be received that the order is available.

4.1.1 RETRIEVING A BOARD PPS ORDER FROM CIS

Historically, we had access to Board orders through Option 48 in CIS. This feature has been removed as we now have access through OMS.

4.1.2 RETRIEVING A BOARD PPS ORDER FROM OMS

Step 1 – Access OMS by either going to F11, 5, M in CIS or follow this link: [OMS - Offender Management System \(state.or.us\)](#) and log in using your CIS credentials.

Step 2 – Navigate to the 'Release Documents/Comments' link under the 'Release Planning' section on the left-hand side.

Step 3 – Enter AIC's SID number and click the binocular icon.

Step 4 – In the section called 'Parole Board Documents' you'll find all of the Board of Parole and PPS documents in chronological order. You will find the most recent documents at the top of the list. Click on the document you need, and you can save, or print said document.

4.2 BOARD/LC SUPERVISORY OVERRIDE

Division 75 of the Parole Board Rules states: “If the Board issued the order of post-prison supervision for an offender whose only sentence was 12 months or less, jurisdiction will remain with the Board until petition by the supervisory authority to assume jurisdiction OR upon re-release following revocation of the post-prison supervision for that sentence; whichever comes first.”

If your case meets the criteria of Division 75 of the Parole Board Rules, please follow the steps under scenarios 4.2.1 and 4.2.2 below:

4.2.1 Petition the Board

When there has been Parole Board involvement within the same custody cycle as a local sentence and all Board cases have discharged, jurisdiction remains with the Board and the status remains Post Prison/BRD until the local supervisory authority petitions to assume jurisdiction. The decision to petition the Board for jurisdiction is at the discretion of the local supervisory authority.

Step 1 – Send a petition e-mail to BPPPS.Webmaster@doc.state.or.us with the request to have the Parole Board relinquish their authority over the specified AOS.

Step 2 – If the Board approves the petition, you will receive a Certificate of Sentence Expiration with the following **“The Board is closing its interest in this parolee; however, Local Supervisory Authority Jurisdiction continues until ____”**, go to the W/W Offenses screen, type offender’s SID number on ‘Offender’ line, and press enter to bring the AOSs record to screen.

```

Step 5 – The Local Supervisory Authority should prepare a new PPS amended order indicating authority change from Board to Local Control.

4.2.2 Re-Released Following Revocation:

When there has been Parole Board involvement within the same custody cycle as a local sentence, all Board cases have expired, AND the remaining Local Post Prison is revoked with no new DOC charges, jurisdiction returns to the local supervisory authority when the AOS is re-released to Local Post Prison status.

Scenario: The Local Control AOS is on PPS under the jurisdiction of the Board of Parole and Post-Prison Supervision. Their PPS is revoked, with no new DOC charges. Who does the new order and what date is used?

Solution: The Board notifies the county of the re-release date and that it has no more interest in the case. The county's Local Supervisory Authority prepares the new order with the re-release date provided.

Step1 – Admit AOS to your location as of the re-release date using PO as the Post Admission Status. The status will still show as Post Prison/BRD.

4.2.3 Parole Board Closes Interest:

If there has been Parole Board involvement within the same cycle as a local sentence or a probation sentence, but the Board was not notified of the local sentence, and all Board cases have expired while AOS is serving a Local sentence or prior to receiving a new Local sentence the Board will have closed their interest in the case. Jurisdiction would return to the Local Supervisory Authority.

Step 1 – Admit AOS to Post and add new LC ‘O’ sentence line using option 7=add sentence (taken from new Local Control PPS Order). The status will show Post Prison/BRD.

4.2.4 Local Control Back to Board:

When there has been Parole Board involvement within the same custody cycle as a local sentence, all Board cases expired, and it became the jurisdiction of the Local Supervisory Authority and then a new Parole Board charge occurs, jurisdiction would return to the Parole Board.

Offender Profile System (OPS) Training Manual

Step1 – Go to the W/W Offenses screen, type offender's SID number on 'Offender' line, and press enter to bring offender record to screen.

Note: If user returns to the F15 override screen, the data from the previous LC override should be there.

NOTE: If you have a record that is not showing the correct BRD or LC status and does not meet the criteria of Division 75 of the Parole Board Rules, try correcting the status by pressing F14=Recalculate. If this does not work check to see if this is an AIP or Trans Leave to Post Prison case. If this is so, then please contact the Help Desk and ask for a ticket to iSeries Development. Remember when you use the override that it will carry over from one custody cycle to another.

4.3 DESCRIPTION OF PAROLE AND POST-PRISON CLOSURES

There are three categories of AOSs under the Board's jurisdiction: 1) Pre-Ballot Measure 10 parolees- who committed crimes before December 4, 1986; 2) Ballot Measure 10 parolees-who committed crimes December 4, 1986, through October 31, 1989; and 3) Post-Prison Supervision-who committed crimes November 1, 1989 and after.

In categories 1 and 2 no O line will show in CIS as these are parolees at release from the institution. CIS will only show with an I line. In category 3, these are Sentencing Guideline cases that will be Post-Prison Supervision and will show both an I line and an O line. An AOS can have both Parole and PPS cases (status Post-Parole).

4.3.1 Pre-Ballot Measure 10 parolees:

A closing summary (*not an OISC closing summary*) is required to be sent to the Board no sooner than 30 days prior to the TPD date, the report should summarize the performance on parole with a recommendation for discharge or extension of the TPD date. The AOS can sign a NOR form and agree to an extension without a hearing. The Board does not extend a TPD date to the maximum sentence expiration date. The Board typically extends the TPD date 6 – 18 months at a time, a new closing summary (*not an OISC closing summary*) will be needed 30 days prior to the new TPD date, this will go on until the sentence(s) expire or the AOS is discharged by the Board. Pre-Ballot Measure 10 cases do not qualify for unsupervised status.

4.3.2 Ballot Measure 10 Parolees: (Crime was committed 12/4/86 through 10/31/89)

This group of AOSs remains on active (supervised) parole for a minimum of 6 months and a maximum of 36 months except for certain sex offenders, who remain on active supervision to the expiration of their sentence. Murder, Aggravated Murder, and Dangerous Offenders are required to serve 36 months active supervision. The Board will consider moving the AOS to unsupervised status when the parole officer sends the Board a positive recommendation. The Board forwards to the field office a status change form indicating movement from supervised to unsupervised status as notification of this decision. The case is then moved to Inactive (UNSU) status in CIS. When the offender's maximum expiration date is reached, the Board will notify the field office and OISC (Notification of File Closure Form). The Board will monitor the length of time AOS is on parole and will automatically close interest in the case at end of the sentence.

4.3.3 Post-Prison Supervision: (Felony crime committed 11/1/89 and after)

These AOSs are sentenced under Sentencing Guidelines. They receive a sentence to prison with a period of post-prison supervision (typically 12, 24, or 36 months) in the community beginning upon release from the institution. The minimum supervision period

for PPS AOSs is generally ½ of the total amount of PPS ordered by the Court but can be as little as 12 months for PPS of 24 months or more. Murder, Aggravated Murder, and Dangerous Offenders serve a minimum of 36 months active supervision. Certain sex offenders serve up to a 20-year sentence, which includes both the period of incarceration and the active supervision period.

The Board tracks the post-prison expiration date (PPS EXP DT) and does not need a report from the parole officer when this period has ended. The Board will notify the supervising office and OISC when supervision period has expired using the Certificate of Expiration form.

4.3.4 Unsupervised Status:

NOTE: Prior Board practice was to not extend ASR dates to coincide with INOP time. In 2023 it was discovered that INOP orders from the Board were extending ASR as well as expiration dates.

With the implementation of SB 139, Ballot Measure 10 Parole cases and Sentencing Guidelines PPS are eligible for unsupervised status. Pre-Ballot Measure 10 cases are NOT eligible for unsupervised status. The Board will provide field offices with a list of AOSs who will reach their minimum period of supervision the month before that date. The AOS does not automatically go to unsupervised status. If recommending the AOS go to unsupervised status, the parole officer sends an Option 24 report (Parole/PPS Inactive Supervision) to the Board via email to the general Board mailbox and to the AOS. The PO should use the date the AOS came into compliance that made the PO decide inactive status is appropriate, whether it be one month or one year past the ASR date. If recommending the AOS continue supervision, the parole officer must send the Board a request that supervision be continued via email or t-type. Pre-Ballot Measure 10 cases do not qualify for unsupervised status.

The Board does not automatically place an AOS on inactive status when the ASR/SSR date comes and goes. If they see it in the past, they email the PO asking for an extension request. The Board will typically only see the issue when a warrant or sanction is being requested, and it is obvious inactive is not on the table in these situations, only extensions, an auto-email is generated by the warrants/sanctions specialists.

If there is still an active probation running at the time the Parole or PPS is placed on unsupervised status, the PPS sentence line is closed to UNSU, but the body is left open. If the supervising officer receives a hit on an AOS on unsupervised status indicating he/she has been arrested, the officer may request that the Board re-activate the Parole/PPS supervision.

4.4 SECOND LOOK CONDITIONAL RELEASE

A person who is 15, 16, or 17 years of age at the time of committing a crime can be tried in adult court pursuant to ORS 137.707 (Measure 11 for juveniles) or ORS 419C.349 (waiver). If the person is convicted, the person will be sentenced to DOC custody. If the conviction is for a non-Measure 11 crime, the person may be eligible for a “Second Look” Hearing. [ORS 420A.203(1)(a).]

In addition, a person who is under age 15 at the time of committing Murder, Aggravated Murder, Rape I, Sodomy I, or Unlawful Sexual Penetration I, may be waived into adult court under ORS 419C.352. If the person is convicted of any of those crimes, that person also is sentenced to DOC custody and is also eligible for a “Second Look” Hearing. [ORS 420A.203(1)(a).]

Under ORS 420A.203(1)(b), at the half-way point of the person’s sentence, the original sentencing court must review the AIC’s conduct in the institution and other factors and determine whether the person should be granted a second look conditional release. At the conclusion of the hearing, depending on the person’s conduct since being originally sentenced, the court can grant the person “second look conditional release” from custody.

An AIC who is released on second look conditional release remains in DOC legal custody (as opposed to physical custody) until the expiration of what would have been the AIC’s incarceration term. In other words, the AIC’s second look conditional release serves as a substitute for the AIC’s incarceration term and ends on what would have been the expiration of the AIC’s incarceration term. These AICs while on second look release cannot leave the State of Oregon until they have completed their second look release period, the same as an AIC released on STTL leave. When the AIC has completed his or her second look conditional release period, the AIC shifts to post-prison supervision (PPS), just as if the AIC had just completed the incarceration term.

During second look conditional release, the court retains authority regarding violations. All violations of second look conditional release offenders should go to the original convicting court.

4.4.1 Suspension or Revocation of Second Look Conditional Release

During the conditional release period, the court has sole authority to issue a suspension or revocation. If the sentencing court finds that the AOS has violated one or more conditions of release, the court can suspend the AOS’s second look conditional release for up to 180 days or revoke it entirely and send the AOS back to DOC custody. The AOS’s violation of release conditions may include commission of a new crime or crimes, in which case the court must revoke the AOS’s conditional release. Please note that suspension and revocation are not administrative sanctions that can be imposed by the county supervisory authority - the sentencing court must order them.

4.4.2 Second Look Conditional Release Escape

An AOS who has been released on second look conditional release is supervised by Community Corrections. If the Community Corrections Parole and Probation Officer determines that the offender has escaped/absconded from supervision, they will notify the court, and Community Corrections clerical staff. In addition, Community Corrections will notify OISC of the need for an escape warrant. Please notify by email to DLOISCTPSWORKERS-OISCTPSWORKERS@doc.state.or.us. If for some reason you cannot email the request, you can call 503-570-6919. OISC will enter the escape warrant.

OPS CHAPTER 5 – LEDS

5.1 TACs (aka LEDS REPS) BY COUNTY

See General Information Pages

5.2 LAW ENFORCEMENT DATA SYSTEM (LEDS)

The Department of Corrections most often uses LEDS when an intake is done on a new AOS, to obtain the State ID number (SID number) and full criminal history, to enter and maintain an EPR, or to perform a warrant check. The LEDS Manual gives detailed information on LEDS. It may be found as a hard copy in your office or on-line at: [Oregon State Police - Law Enforcement Data Systems LEDS Documents](#). Please contact your agency's TAC (aka LEDS rep) for the login credentials.

In the LEDS Manual, see Chapter 3 “**Agency Address Codes**” for the ORIs of law enforcement agencies, courts, and institutions throughout the state of Oregon. (You can also locate the ORIs of P&P Offices on the General Information page and the county directory page of the Community Corrections Directory.) When you are in the LEDS manual website, on the left-hand side menu, the NCIC Code manual is available. Within this code manual are the Uniform Offense Codes, where the NCIC codes listed by category can be found for use in EPRs (or [see OPS 6](#) for ORS number listing with NCIC codes).

5.3 GENERAL INFORMATION

LEDS is accessed through a front-end application: LEDS2020 or WebLEDS. All but one county P&P offices access LEDS through OSP's LEDS2020 [eAgent Home \(oregon.gov\)](#). As of this writing, Marion, Multnomah & Tillamook counties access LEDS using their own LEDS Server. Multnomah County is the only community corrections agency who uses WebLEDS.

Your TAC (aka LEDS representative) will grant you access to LEDS2020 (or WebLEDS) by providing your username and initial password. You may change your password whenever desired following the directions in the user manual pertinent to the front-end application you use.

Enter your user name and password to sign into your front-end application.

5.4 CREATING AN EPR

All AOSs under community corrections supervision are required to have an EPR.

NOTE: An AOS must have a permanent SID (State Identification Number) before an EPR can be created in LEDS.

The system will not allow users to create an EPR using a Temp SID (Block number assigned by CIS).

Only one EPR can be entered into LEDS on any given client. Therefore, if another agency (Juvenile Corrections, Federal Corrections, PSRB, etc.) already has an existing EPR in LEDS, you have a few options. You can try to contact the other agency and see if they would be willing to cancel their EPR so that you may enter your own (sometimes works with Juvenile, almost never works with Feds) or you can enter an “Investigative Interest” on the other agency’s EPR using the EII (eee-eye-eye) mask. To read more about this and to see steps to enter an Investigative Interest, see chapter 27 of the LEDS Manual (check with your county’s LEDS Rep if you need help accessing the LEDS Manual).

A quick way to enter an EPR is using the QPR mask. This mask is set up strictly for Community Corrections Offices and pulls general description information from CIS into the EPR. Entering info into the MIS field is a county-by-county decision.

The data that is drawn into the QPR from CIS is drawn in “behind the scenes” and those fields don’t show on the QPR mask, so that you don’t double fill them (you filling in and QPR filling in). Those fields are as follows: MKE, fields from the CIS “Offender Description” including name, DOB, sex, race, hair, eye, height, weight, social security number, FBI numbers, driver’s license set, and the last entry from CIS screen “offender scars/marks/tattoos.”

NOTE: If the last entry of SMT is one that does not match NCIC format, in WebLEDS you will get an error message and the creation of the EPR will be rejected. LEDS2020 will process the EPR creation, but the base record will be lacking an SMT, which means you cannot add more SMT supplementals until you modify the base record using the MPR mask.

Adding conditions into an EPR is a county-by-county policy.

Adding all descriptive supplementals (additional DOBs, aliases, etc.,) is mandatory.

An EPR should be removed when the AOS becomes an AIC in a DOC institution. An EPR can be changed to FLC record type or removed when an AOS becomes an AIC in a Local Control facility. If the AIC is serving their LC sentence in the community, an active EPR is recommended. An EPR must be active for DOC AICs who are in the community on leave.

When an AOS transfers supervision to another county, the transfer of the EPR must occur within 5 days (OAR 291-19 Transfer rule).

For LC AOSs who are not already on supervision, do NOT create an EPR until the LC sentence begins or is deferred by the LSA per county policy.

5.5 CAUTION CODES (CMC FIELD)

Caution codes can be added to an EPR as a courtesy for law enforcement to be warned of potential issues with an AOS, such as violent tendency, mental health, or medical issues. Section 20 of the “Personal Descriptor Codes” chapter in the NCIC code manual lists each of these CMC codes. The code 01 (other) is used for the Level 3 sex offenders along with information in the miscellaneous field that specifies the caution. The code 30 is used for Sexually Violent Dangerous offenders. If you have a specific caution indicator you do not see listed, you may also use 01 and provide the specifics in the miscellaneous field.

5.6 SEX OFFENDER REGISTRATION AS PART OF AN EPR

Many years ago, the sex offender registration information was part of the EPR. That practice has changed and Oregon State Police (OSP) has the responsibility of maintaining sex offender registration files (ESX); therefore, it is no longer practice that Community Corrections enter the registration info into the EPR. Do not add sex offender registry information to EPRs.

If you find a current EPR that still shows sex offender registration as part of that EPR, explain to your PO you will be canceling the EPR and the sex offender registration needs to be entered by OSP and you will be creating a new EPR without registration information.

5.7 EPR EXPIRING REPORTS:

Each month, LEDS sends out a report, broken out by county, which lists all EPRs that will soon be expiring. County offices are to check the EPRs on their list to verify that the EPRs listed truly should be expiring.

- If the EPR should be expiring, then nothing else needs to be done.
- If the EPR should **not** be expiring, users should research what the correct DOE should be to keep the EPR from expiring and follow the correct process to modify the EPR as needed.

5.8 EPRP REPORTS:

Each month, LEDS sends out a report, broken out by county, which lists all EPRP records in LEDS for each county ORI. County offices are to check the EPRP records to verify that the AOS is still designated by the Parole Board as “Predatory,” “Sexually Violent Dangerous Offender – SVDO,” or “SVDO-Predatory” and that the appropriate code and designation are noted on the EPR. **Note: This report is for historical purposes only. There should not be any records listed. If found, update the EPR. We are aware the below instructions do not work as written; we are working to see if there is an alternative. In the meantime, you must delete and reenter the EPR.**

When checking your lists, if either the CMC code is missing or incorrect or if the Parole Board's designation is missing or not listed in the MIS field, modify the EPR to correct the data using MPR mask.

- If the AOS *has been designated* as Predatory, SVDO, or SVDO-Predatory, then users should verify that the code "01" has been added to the CMC Field, and the appropriate designation has been noted in the MIS Field.
- If the AOS **has not** been designated Predatory, SVDO, etc. or the Parole Board **has removed** that designation, then users should modify the EPRP using the MPR mask by removing any applicable wording in the MIS Field, removing the "01" code from the CMC Field, and modifying the record from MKE type of EPRP to EPR.

5.9 PERSON OF INTEREST RECORDS

For those counties who track clients during the pre-trial phase, the use of a "person of interest" record could be helpful to monitor law enforcement contact of this population. All hits on these types of records will go to the Team Inbox for the agency's ORI. The EIP mask is used to create a person of interest record. The MIP mask is used to modify these.

5.10 DATA ENTRY TIPS AND TRICKS

1. Some find using the QPR mask is quicker and easier than using an EPR mask to create an EPR. The QPR mask draws data (as described above) into the EPR directly from CIS, thus eliminating a lot of manual entry fields.

2. Some find if the NCIC, CCH, and CIS descriptor and supplemental data match, that using the enhanced entry EPR mask is more efficient, as it also eliminates a lot of manual data entry. If you fill in the SID on the EPR mask, a lot of the fields will go grey and no longer be required as manual entry because it's pulling from the CCH. You can still enter information in those greyed fields if you have more accurate/updated data.

3. A leading zero must be used when entering a record with a seven-digit SID.

4. OCA: The SID (with leading zeros if necessary) must be used in this field when creating an EPR. DO NOT use any other number in this field.

5a. Once an EPR is entered, two things are required in order to modify, enter or delete supplemental information or cancel the EPR. Users will need:

1. The exact name as shown on the EPR
and
2. Either the OCA number (which should be the SID number) **or** the LNU number.

5b. In WebLEDS, if there are multiple records for the same offender (ex. S/O Regist, Restr Order, Warrant, etc.), then the LNU number must be used to make any changes to the EPR. You may be able to use the SID (OCA) to update an EPR In LEDS2020 regardless of the existence of multiple records.

6. In order to enter supplemental information using the EN mask, there must be an entry for that identifier in the base record. For example, in order to enter additional SMTs with an EN mask, there must already be an SMT listed in the EPR base record. Same for MNU, etc. Conditions and caution codes can be entered as supplementals without there first being a condition in the base record.

7. Your agency (ORI) must own an EPR record to make changes to it.

8a. There are limits to the total number of supplemental identifiers that can be entered in one transaction and a specific of certain identifiers for an EPR (listed below). Only nine total identifiers can be entered using a single EN/XN transaction. Multiple transactions must be used to enter more than nine identifiers.

8b. An EPR can contain a maximum of each of the following identifiers:

- AKA – Max of 99 AKAs
- MON - Max of 9 MONs
- SMT - Max of 9 SMTs
- SOC - Max of 9 SOCs
- MNU - Max of 9 MNUs
- DOB - Max of 9 DOBs
- CMC - Max of 10 CMCs
- CND, CNDK & CNDT - Max of 25 total

9. To clear fields that contain information use ~ symbol in LEDS2020 and * symbol in WebLEDS.

10. Transferring EPR to another county:

- ORI: Enter receiving county's ORI number
- MBX: clear this field, or enter MBX provided by receiving county
- MIS: Enter new PO name and telephone number (if provided by other county), otherwise enter " XXXX County Community Corrections" along with that county's contact phone number, or whatever the receiving county requests for this field
- PON: clear this field
- POD: clear this field
- POE: clear this field
- POO: clear this field

11. Transferring EPRs from one caseload to another within your own ORI:

- The MMBX mask allows users to migrate **ALL** EPR records from one MBX to another. This can be especially helpful when you need to change all EPRs assigned to PO Smith over to PO Jones.
- To find a list of all EPRs attached to a specific MBX do a QLW by Mailbox. Enter the MBX in question and submit your query. You will receive a query response listing the LNU numbers of all records associated with that MBX. (There is currently no option to receive a response back that lists names or SID numbers.)
- In WebLEDS, when an MMBX transaction is run, the MBX, PON, POD, POE & POO fields on all EPRs that were associated with the old MBX will update with the information associated with the new MBX. Any fields that are blank in the admin table, the EPR will retain the original information. Use * or space to clear fields that you do not want data to transfer.
- In LEDS2020, when an MMBX transaction is run, mandatory fields for the records to move to are MBX, PO name, PO phone. Evening phone and other phone fields are available, but not required. If you leave POE and POO fields blank, any information currently in the EPRs will transfer. Use ~ to clear fields where you don't want the data to transfer.

12. LEDS2020 tip: You can use an MMBX transaction if one piece of information regarding a PO has changed. For example, the PO's evening phone number has changed. You can run an MMBX from the same mailbox to the same mailbox with the new phone information. That will input the new information onto all current EPRs held by that MBX. You may consider making an entry in all phone fields, even if you are just changing one phone type, to make sure all the newest information appears correctly in the EPRs.

OPS CHAPTER 6

NCIC Codes

6.1 LISTED BY CRIME, ALPHABETICALLY

The following is a list of the NCIC codes tied specifically to the ORS used in the CIS. These NCIC codes are for use in the EPR and ICOTS (Interstate Compact Offender Tracking System).

OPS CHAPTER 7

Modifying Offender Records

NOTE: All modifications and updates to open offense lines in CIS are the responsibility of the supervising county and not the sentencing county. All new convictions, including sentences into local control, probation revocation with local control sentence or new conviction, are the responsibility of the sentencing county.

NOTE: VINE Q-Delta – If you (your agency) plan to do 30 or more movements in one batch, email Saydyie DeRosia (saydyie.l.derosia@doc.state.or.us). This will allow her to know why notifications for VINE have stopped if a Q-Delta occurs.

7.1 OUTCOUNT RETURNS

Step 1- “Community Corrections Admission” screen:

- From the Main Menu choose either the ‘CC Abscond Return Process’ or the ‘CC Admissions Process’. This will bring up the “Community Corrections Admission” screen.
- Type AOS’s SID number on “Offender” field, press enter to bring AOS to screen.
- Enter Admission Date /Time (military time i.e. 1500) fields. Admission date is outlined in the chart below depending on the outcount type.

Outcount Status	Admission Date
ABSC/WARR/ESCA	Probation • When an AOS is arrested in Oregon, return from abscond outcount using the date the warrant is served/cleared. • When an AOS is arrested out of state, return from abscond outcount using the date the warrant is served/cleared. • Look in eCourt for guidance as to your next steps. Some probation warrants will clear out of state and that is the date you’ll use to return from abscond; some won’t clear until they return; some will clear and be immediately reissued.
	Local Control (LC) PPS • Arrested: Date warrant is cleared. LC PPS cases- If arrested in another State, the admission date is the day they return to Oregon, not the date the warrant is cleared. INOP time accrues until they enter Oregon. • Warrant is recalled or rescinded: The date the Local Supervising Authority (LSA) recalls or rescinds the warrant.

	○ LC PPS cases- If arrested, INOP time is added. If withdrawn or rescinded prior to arrest it is at the LSA's discretion whether to add INOP. ○ Probation cases- INOP is not applied to probations. • Quashed warrant– The warrant is removed completely and any reference to it should be as well. Delete ABSC/WARR closure from CIS. See OPS chapter 10- Deleting admission portion of housing/location records. LC PPS- INOP time is not applied. Board PPS • Arrested in Oregon: The date of arrest; INOP time accrues until they are arrested. • Arrested in another State: The date the AOS returns to Oregon. INOP time accrues until they enter Oregon. For AOSs whose Oregon Board warrant is cleared, the Board will add INOP in two phases: from warrant issue to warrant cleared; then from warrant cleared to extradition return. NOTE: Do not return from ABSC in CIS until they are back in Oregon. • Withdrawn warrants: The date the Board withdraws the warrant. If arrested, INOP time is added. If withdrawn or rescinded prior to arrest INOP will be added unless the PO articulates why it should not, or unless the Board deems it should not. • Quashed warrant – The warrant is removed completely and any reference to it should be as well. Delete ABSC/WARR closure from CIS. See OPS chapter 10 – Deleting admission portion of housing/location records. INOP time is not applied.
IMMI	Date PO is notified AOS is back in the US. Note: Verify IMMI status with ICE.
PSRB	This is determined by the PO; PO has discretion to return the person from outcount if they are actively supervising person regardless of housing.
UNSU	Date from reactivate PPS Parole Board order (Board action date)
CMPO	Date AOS reports to PO either by phone or in person as listed on Notice of Arrival
INPR/UNSU-Local Control	Date the Return to Active Supervision form was signed (Form to be completed by PO and signed by Supervising Authority or Director)
REVP	Date AOS is released from Federal Institution
INAC	Date AOS is released from out-of-state institution

- Tab down to “Caseload” field and enter PO caseload #, press enter.
- You will get the message “Admission from non-supervised status processed.”

OPS225I	Corrections Information Systems (TEST)	10:38:27

F7=Current date/time F9=Retrieve F11=Menu bar F12=Cancel		
Admission from non-supervised status processed.		

Step 2 – “Work with Offenses” screen:

- Press enter to the “Work with Offenses” screen.
- Check offenses.
 - Modify if needed. Reminder: Add INOP time if appropriate to local control cases if status is PPS/LC. (See OPS Chapter 16 for instructions on adding INOP time).
- Press enter.

Step 3 – ‘Offender Print’ screen:

- Press F10, this will take you to the “Offender Print” screen.
- Put a 5 on the option line.
- Press enter to print kardex.

Step 4 – Modify EPR in LEDS.

- Modify EPR’s RTP field to match status in CIS.
- Update DOE field if needed.
 - FOR PV PENDING cases:
 - If case(s) have a probation violation hearing pending and are past their max date on the only cases supervised, change RTP field to PVP- Comm. Corr. Offender- Violation Pending. (CBC)
 - Change the DOE field to reflect a date in the future to allow enough time for the hearing to occur. How far out this is pushed is a county-by-county decision. (CBC)
 - Add “PV Pending” to beginning of MIS field. (CBC)
 - FOR PPS ABSCOND RETURN cases:
 - While you wait for INOP to be added in CIS so a new max date is determined, if necessary, extend the DOE in LEDS to ensure the EPR

doesn't purge while you are waiting to get the correct new max date.

- For CMPO returns, modify EPR eliminating any reference to AOS being on compact status in another state.

Step 5 –Check the Fee Screen to make sure the Fees are billing correctly per your county practice. (refer to Supervision Fee Manual)

7.2 ADDING AN OFFENSE

NOTE: 7.2 gives instruction for adding a new probation sentence. If you need to revoke a probation sentence and add a local control sentence, or add a new local control sentence, please see OPS Chapter 15.

DO NOT ADD THE FOLLOWING TYPES OF OFFENSES:

- Bench probation (except incoming Compact)
- City Ordinances
- Bench parole
- PSRB Judgments

Step 1- Support Staff menu choice: Please only use #3 “Admissions” from the support staff menu when you are doing an admission; for modifications the best choice is either #5 “CC Court Orders Process” or #6 “CC Support Data Entry/Update.”

Refer to OPS Chapter 2.7 steps 9-11 for adding offenses, adding conditions, and printing kardex instructions.

NOTE: If you are entering a Bench Probation converted to Formal Probation please see OPS chapter 2- Admitting cases converted from Bench to Formal Supervision.

Step 2 - Modify EPR.

Please refer to WebLEDS or LEDS2020 manual for instructions. Chapter 5 of this manual will give you a broad understanding of what needs to be entered.

- If the new offense added has a longer expiration date than original crime(s), go to LEDS and modify DOE field.
- If entering a felony offense and previous RTP field was CND, MPR, FMP, DIV, or MPA modify RTP to FPR.
- RTP in LEDS should reflect the AOS's highest sentence in CIS. How to determine what is the highest status? In order of highest/most serious sentence status to lowest:
 - Temporary Leave – TPL
 - Felony Local Control - FLC (for the time they are serving the LC sentence)
 - Compact Parole – CPA
 - Parole or Post-Parole– FPA

Post-Prison Supervision – PPS
 Compact probation - CPR
 Felony probation – FPR*
 Felony treated as misdemeanor – FMP*
 Misdemeanor probation – MPR*
 Conditional Discharge/Diversion – CND/DIV (equal weight – CBC)

*PVP – probation violation pending – would be used to replace one of these three statuses only (CBC)

7.3 CLOSING A SINGLE OFFENSE LINE

Step 1- Support Staff Menu choice: Please only use #3 “Admissions” from the support staff menu when you are doing an admission; for modifications the best choice is either #5 “CC Court Orders Process” (suggested below) or #6 “CC Support Data Entry/Update.”

NOTE: these instructions are for when a docket closes and no other sentence lines will be added to it.

- Select the ‘CC Court Orders Process’ from your main menu.
- This opens the ‘Work with Offenses’ screen.
- On the offense you’re closing, check conditions for Restitution (SC7)/Compensatory Fine and/or Community Service. Update/make payments to conditions if applicable. [Refer to OPS chapter 18-](#) Condition Tracking for further instructions.
- From the ‘Work with Offenses’ screen put a “2=Change” on the appropriate open sentence line that needs to be closed.

```

- Press enter; this will bring you to the “Sentence Data” screen.
- Tab down to “termination date” field, to determine termination date use the following:
 - EARL, BNPB, CRTR, RTNS, ABEX, VACA, APPE, DISM, ACQT, USAP – use the date of proceeding on the court order.
 - EDIS – use the date the Supervisory Authority/supervisor signs the EDIS closure form.
 - On commuted offenses, the AOS must serve 50% of their regular PPS sentence to be eligible for EDIS.
 - EXPI – use the CIS max date.
 - UNSU – the date the PO requests unsupervised status from the Board or LSA
 - COMP – used when the incoming Compact case(s) has not reached its max date, but we no longer supervise; for voluntary returns, use date on Notice of Departure; for absconds use date of Case Closure Request.
 - DISC – use the date on the Board’s Parole Discharge paperwork.
 - INPR – use the date on the INPR order that your PO provides
- Tab to “termination code” field.
- Enter appropriate closure code (F4=Prompt for list or refer to OPS chapter 8.20 - Sentence Closure Codes).

OPS235I	Corrections Information Systems (TEST)		9:33:31
MCCARTHY	Sentence Data		9/15/05
			CHANGE

Tent paro disc date.			
Termination date....	02262003	Max sent date.....	2/26/2003
Termination code....	EXPI	Max indet sent date.	
F3=Exit	F4=Prompt	F5=Refresh	F11=Menu bar F12=Cancel

- Press enter to process. You will get message “record updated.” Conditions will move to Expired Conditions Table.
- Press enter, that will take you back to the “Work with Offenses” screen.
- Repeat these steps for each offense that needs to be closed.
- If closing individual sentence(s) causes you to get the message “Status does not match offenses. Correct offenses of F13=change status.” do an F13 and use the date and time used to close the sentence that caused the status change.
- Update EPR - RTP, DOE, offense information, and conditions as needed.

NOTES:

- 1) If your county includes special conditions on your EPRs, check EPR and remove all special conditions that no longer apply due to offense being closed.
- 2) Expired Offense Conditions still showing on Kardex: Prior to July 1, 2003, our policy was to delete all conditions when an offense line was closed, thereby removing them from the kardex. Now, they are automatically sent to a subset table. Occasionally you will see conditions show up on a kardex from an old offense. Two ways to remove these conditions.
 - a) If offense was closed prior to 7/1/2003, then put an 8 for conditions on the offense line of the old offense to see if any conditions were not deleted originally. If so, put a 4 on condition line to delete, press enter.
 - b) If the offense was closed after 7/1/2003, then remove the closure date and code to reopen the offense. Once reopened, close the line with the same closure date and code, this will cause any conditions to go to the subset table.

Step 2 – Press enter repeatedly (or F10 or F11-3-K) to the “Offender Print” screen; put a “5” on option line to print kardex.

7.4 TRANSFERRING FROM LEAVE (AIP or STTL) STATUS TO POST-PRISON STATUS

NOTE: Moving an AOS to Post-Prison Supervision status from Leave status should be done as soon as possible. Timeline expectation is 7 days from status change.

Step 1 – Select the ‘CC Release Process’ screen from your main menu

- On the “Work with Offenses” screen, enter SID number on “offense line.”
- Press enter to bring AOS to screen.
- If appropriate offenses are not closed to “POST, AIP or SUMM” already, contact OISC DLOISCPTA@doc.oregon.gov to close the “I” lines before proceeding.
NOTE: OISC should have the “I” lines closed no later than the next business day after the completion of the T/L.
- Check offenses with parole/post prison order.
 - You can retrieve the PPS order either from CIS from the support staff menu option 48, which will allow you to email the order to yourself; or you should be able to find the PPS order in OMS under the release planning module.
 - If you do not have a PPS order, use Option ‘5=Display on the “I” line for PPS length. It is in the upper center of the screen. When you get the PPS order, verify the docket/sentence data, PPS length and add conditions. The signed PPS order needs to be sent to the Board at Orders.BOPPPS@paroleboard.oregon.gov
- After “I” lines are closed to POST, AIP, or SUMM, add “O” line.

- Put a “7=Add sentence” on appropriate offense line (matching docket numbers from PPS order), press enter. This will take you to the “Sentence Data” screen.

Adding O Line Example: 7=add sentence

```

OPS230I      Corrections Information Systems (TEST)      9:18:19
MCCARTHY      Work with Offenses      9/22/05

"002 record updated"
  
```

- Repeat this step for each offense.
- If the Max sent date does not match the PPS order expiration date, investigate why it does not match and if you have determined the order appears wrong, contact the Board.
- Enter back to ‘Work with Offenses’ screen.

- Add conditions to each offense where “O” lines were added. (Refer to OPS chapter 18- Condition Tracking)

NOTE: If Compensatory Fine is listed on PPS order under SC10, use the probation condition of CMPF (compensatory fine).

If the offender had ST or LV 7 (restitution), make sure the Board PPS order has SC07; and then remember to make your leave condition (ST/LV) non-trackable when you add your SC07, so it's not counted double and shows up on a clean-up list.

- Enter back to 'Work with Offenses' screen.
- Check to make sure “SANC” code has been entered. There should be a “Y” on the offense line under “SANC” column.
- If no “SANC” code has been entered, enter by typing a “2=Change” on “Offense Line,” press enter. This will take you to the “Docket and Offense Description” screen, type “SANC” in “Sanction Status” field
- Press enter to return to “Work with Offenses” screen. You will get a message “Status does not match offenses. Correct offenses or F13=change status”

Status does not match offenses. Correct offenses or F13=change status.

Step 2 – Status Change from “Work with Offense” screen:

You have two choices to fix the status

Either use F13=Change Status ~or~ press enter to use the “Offender Release” process

- **Status Change Using “F13”**
 - Press F13, a window will appear. Enter in the "Release Date" (taken from Post-Prison Order - same as Physical Release Date) in the Movement Date field.
 - Enter a time in the Movement Time field. Make sure status and derived status are correct and make changes to the w/w offense screen if necessary, so that the derived status is correct; press enter.
 - Use F14=Recalculate
 - to recalculate sentences to make sure status reads correctly (PostPrison/BRD).
 - Admission is automatically processed when “releasing” to a new status.
 - Press enter twice to take you to the “Movement History/Maintenance” screen where you can check to make sure the entry is correct.
- **Status change using “Offender Release” screen**
 - Enter past w/w offense screen to get to the “Offender Release” screen.

- On the “Offender Release” screen, enter in “Release Date” (taken from Post-Prison Order – same as Physical Release Date),
- Tab to “Time” field, enter time in military format.
- Tab to release “Type Code” field and put in “POST.”
- Tab to “Release to Location” field and put in your county/office 4-digit code (i.e. MTEA, MTGR, BAKR, COOS).
- Press enter to process.
- Use F12 to go back to the ‘Work with Offenses’ screen and use F14=Recalculate
 - to recalculate sentences to make sure status reads correctly (PostPrison/BRD).
- Admission is automatically processed when “releasing” to a new status.
- Press enter twice to take you to the “Movement History/Maintenance” screen where you can check to make sure the entry is correct.

Step 5 – Go to LEDS to make appropriate changes (refer to EPR Steps, OPS Chapter 5, “Modifying an EPR”).

- Update RTP to PPS and DOE to new expiration date if applicable.

Step 6 - Remember to Check the Fee Screen to make sure the Fees are billing correctly.

7.5 EXTENDING A PROBATION SENTENCE

Note: This is done by the supervising office, including F8 notes. If offender was convicted in your county and supervised in another county, send order to supervising county so they can do the data entry.

Step 1 – “CC Court Orders Process” screen:

- From the Main Menu, choose “CC Court Orders Process” on the selection line, press enter. This will bring up the “Work with Offenses” screen.
- Type AOS’s SID number on “offender line,” press enter to bring AOS to screen.
- Tab down to the appropriate docket #, then on the sentence line of that docket # (MPR, MDV, FPR, FMP etc.), put “2=Change”, press enter this will bring up the “Sentence Data” screen.

Extending Probation Sentence Example 1

Step 2 – Go to the “Offender Print” screen

(Either F11-3-K or F10 or press enter repeatedly); put a “5” on option line to print Kardex.

Step 3 – Go to LEDS and make appropriate changes (refer to EPR Steps, OPS Chapter 5 “Modifying an EPR”).

- Update DOE if applicable.

Step 4 - Remember to Check the Fee Screen to make sure the Fees are billing correctly.

7.6 Inactive Probation (INPR)**NOTE: THIS SECTION IS FOR HISTORICAL PURPOSES.**

When an AOS has served the minimum period of active supervision as authorized in OAR 291-206-0015(5), and has satisfactorily completed all special conditions, the AOS can be moved to Inactive Probation (INPR)

To be eligible for Inactive Probation (INPR) the crime for which the AOS is supervised must have been committed on or before June 30, 2011. Crimes committed after that date are not eligible for INPR status. Each county office is responsible for ensuring the crime date and all other criteria has been met before moving an AOS onto Inactive Probation.

According to SB3508, section 21(1) each person convicted of a felony and sentenced to probation is eligible for a reduction in the period of active probation. Felony Conditional Discharges and Felony Diversions are not convictions, so they do not qualify for INPR status. Misdemeanor convictions are not a felony, so they do not qualify for INPR status. Compact AOSs, either coming in or going out, also do not qualify for INPR status.

There are two possible scenarios for this type of closure. You can do only one or the other, but NOT BOTH.

1. Just the offense line is closed as there are other open offenses that the AOS is still being supervised on.

OR

2. All open offenses qualify so the offense lines are NOT closed, but the “body” is closed. The body closure is a parenthetical closure (outcount) much like ABSC, IMMI, etc.

Your PO will have submitted some form of documentation to a supervisor or Director for his/her approval (OACCD and FAUG have developed several for these purposes). The date the Supervisor or Director signed the form is the date you will use as your movement date. Samples of these forms follow.

Scenario 1: If the offense line is being closed to INPR - Temporary Line Closure:

- Select Option “CC Court Orders Process” from your Main Menu
- Type in the AOS’s SID number on “Offender” line and press enter.
- Put a “2” on the sentence line and press enter.
- Tab to the “Termination Date” and enter the date from your order that the offender was placed on Inactive Probation.
- Tab to the “Termination code” field and either press F4 for the table or type in INPR.
- Press enter to continue.

Temporary Line Closure Example 1

```

Scenario 2: If all of the offender's offenses are eligible to close to INPR – Body Closure. Same process used for ABSC or IMMI is used here.

- Select “CC Release Process” from the Main Menu.
- This will take you to the “Work with Offenses” screen.
- Press enter to continue to the Release Screen.
- Enter the date and time, and closure code.

NOTE: The AOS is no longer required to pay supervision fees so the fee system automatically stops the accrual of more fees and the print statement switch is turned to N= no.

7.7 CONDITIONAL DISCHARGE/DIVERSION REVOKED/CONVICTED TO PROBATION

When a conditional discharge or diversion is revoked and the offender is given probation, follow these steps outlined below. When a conditional discharge or diversion is revoked and no probation is ordered, follow steps in OPS Chapter 8, section 8.12 for closing to RTNS (felony) or CRTR (misdemeanor).

Note: Conditional discharge cases can be sentenced after expiration date.

Step 1 – Select “CC Court Orders Process” on your main menu:

- This will take you to the “Work with Offenses” screen.
- On “Work with Offenses” screen, put “2=Change” on the sentence line, press enter, this will take you to the “Sentence Data” screen,
- Tab down to term date.
- Put proceeding date of revocation judgment found on court order in the term date field.
- Put in CONV as term code, press enter twice back to “Work with Offenses” screen.

- Put cursor on the docket line, put “7=Add Sentence” and press enter. This will take you to the “Sentence Data” screen.
- Add Sentence Type P=Probation.
- Add begin date. The Begin date is the date the conditional discharge is converted to supervised probation aka conviction date.
- Add sentence length. Sentence length is taken from the Order. Press enter.
- Press enter again to return to the “Work with Offenses” screen.
- On the docket line put a 2 = change and press enter.
- Add the conviction date in appropriate field. Press enter.
- Press enter again to return to the “Work with Offenses” screen.
- Use “F13=Auto Change” to change status to Probation, using date of court order.
- Press enter – this will take you back to the “Work with Offenses” screen.
- F14 to re-calculate.

Step 2 –Add Conditions

- Put cursor on the docket line, put “8=Conditions” and press enter.
- Review conditions for additions or removals.
- Press enter to return to “Work with Offenses” screen.
- For trackable conditions, add amount ordered on FPR to original FCD amount. Add text to differentiate the two.
- Press enter back to “Work with Offenses” screen.

Step 3 – Print a Kardex.

- Press “F10=Print Options”
- Put a 5 on the “Option” line and press enter – this will print a Kardex.

Step 4 – Go to LEDS to modify DOE and RTP fields ([refer to EPR Steps, Modify an EPR in OPS Chapter 5](#)).

7.8 CONDITIONAL DISCHARGE REVOKED/CONVICTED DIRECTLY TO LOCAL CONTROL

Sometimes a judge will convict an AOS on their conditional discharge and sentence them directly into local control with PPS and skip probation altogether. If this happens you follow the directions above, but instead of closing the offense line to CONV, you close the conditional discharge offense line to VIOL, and then enter the L line as you would any other local control sentence following a VIOL offense line. Admit body of the record to Local Control. [Refer to OPS Chapter 15-SB1145 Data Entry](#).

7.9 ADDING A SECOND “P” (OR COMPACT “I”) LINE

Historically when an AOS’s probation closed to BNPB or COMP and the AOS was later returned to formal supervision on the same case, we removed the sentence line closure date and code to continue supervision. In efforts to make data more readable and retain

historical information of supervision, OACCD has approved the following change: for return from bench or compact, keep the original sentence line closed to BNPB or COMP and open a second P (or Compact I) line below the first. This practice has already been in place for sentences closed to due appeal/resentencing.

Parameters regarding adding a second P (or Compact I) line:

Appropriate situations:

- Probation conviction has been reversed and remanded by the Circuit, Appellate, or Supreme Court and returned to Circuit Court for resentencing.
- Incoming Compact, either parole or probation (P or I lines), was returned to the sending state (or otherwise closed to COMP) and the AOS has come back to Oregon to resume supervision on the same docket(s).
- Supervised probation was closed to bench (BNPB), and the case has been returned to formal supervision by the court.

Rules for use:

- First P (or Compact I) line must close to RSNT, COMP, or BNPB.
- Second P (or Compact I) line must match case number and count number and crime must remain the same.
- Movement must appear in movement history to correspond with sentences (except for incoming Compact who goes to Oregon prison – there will be no RCOM movement for those, but the prison movement would substitute).
- When restitution or a compensatory fine is still owed on the case and is being added as a condition to the second P line (incoming Compact would not have trackable restitution or compensatory fines), make the discontinued REST or CMPF conditions from the initial P line non-trackable. Use the same general practices outlined in [section 18.3](#) (except you would continue to use the REST code for restitution as this would still be a probation case).
- When there is a discrepancy in dates between the movement screen and the offense screen, an F8 note is recommended to explain.

7.10 ORDER RECEIVED THAT CHANGES A SUPERVISION TERM AFTER IT HAS ENDED

Occasionally you may receive a court order that changes a supervision term after it has already ended. DO NOT make any changes to the offense lines themselves because the lines accurately reflect what occurred from a supervision perspective: we supervised that case as originally ordered until expiration. Our policy is to leave the lines as they were and add an F8 note.

Some examples of situations that would fall under this policy:

- Conditional Discharge term has ended, court later convicts and sentences to bench probation or a straight jail sentence.
- Conditional Discharge term has ended, court files an Order of Dismissal
- Supervised Probation was converted to Bench, court later extends the Bench probation or revokes to a straight jail sentence.

- Conviction was appealed and overturned or modified after supervision term has ended and doesn't result in a return to formal supervision.

Some examples of situations that would not fall under this policy:

- Conditional Discharge term has ended, court later files a PV and extends the term of supervised probation ([follow steps in chapter 13](#))
- Felony probation has ended, and the court issues an order reducing the conviction to a misdemeanor ([follow the steps in section 12.10.2](#))

7.11 PV PENDING ON A CASE THAT IS PAST ITS MAX DATE

NOTE: SEE CHAPTER 8.20 FOR CLOSING INSTRUCTIONS

When a case has reached its max date but has a probation violation hearing pending, DOC recommends that no supervision activities occur in connection with these cases until the PV has been resolved. At this time, it is also a county-by-county decision as to what to do with the EPRs for these offenders: your county may keep a standard EPR active, may keep a "shell EPR" that removes conditions and PO contact info, or may cancel it completely until the PV has been resolved.

Some courts may issue an order to extend or continue active supervision until the next PV hearing date. These orders may give a specific date to extend probation to, or they may be somewhat vague (for example, "probation extended to next hearing date"). If the order to extend offers a specific time frame or date for extension, use the language of the order to determine the date to which you'll extend the offense line. If the order you receive is ambiguous or vague regarding a new expiration/extension date:

- Update the max date on the offense line to match the date of the next scheduled PV hearing (and make an F8 note).
- If that hearing date comes and goes without adjudication and without another date being set because the AOS failed to appear, leave the last scheduled PV date as the max date and move to abscond using the date of the FTA warrant.
- If the court continues to set over and schedule new hearings and issues a new order to extend or continue each time, you'll continue to update the max date on the offense each time to the new hearing date until adjudication has occurred.
- Remember to update the DOE on the EPR each time you extend the max date to keep it from purging out of LEDS.

OPS CHAPTER 8 – Closing Offender Records in CIS

Note: *It is the practice that the Sentencing County enters the original sentence and the Supervising County enters all modifications/closures (with the exception of Local Control sentences).*

NOTE: If a large number of releases (any type of closure permanent or temporary) are processed in one day in CIS it could cause a disruption to the VISOR system. If you plan on entering 30 or more closures in one day (or if your office as a whole plans to process 30 or more in one day), email Saydyie DeRosia at DOC (saydyie.l.derosia@doc.oregon.gov).

8.1 ABSCONDS/WARRANTS

ABSC vs WARR –

ABSC is used when a warrant is requested because the AOS is failing to report for supervision and the PO has exhausted all appropriate avenues to locate the AOS. Either the PO could initiate the request of the warrant, or if the AOS fails to show up for a court date, (like a PV hearing) the court could initiate the warrant and it would still be abscond – as long as that case number is being supervised.

WARR is used to change AOS's status to outcount (WARR) when another agency (judge) issues a warrant for non-compliance just prior to the close of supervision. (OACCD definition) Examples are because the AOS hasn't paid fees, or is non-compliant with conditions of supervision, like failure to complete community service. This warrant can be issued at any time during supervision. Client is still available for supervision and continues to report to their PO as directed.

Use the CC RELEASE PROCESS on your main menu:

Step1 – Type a '4' CC Release Process on the selection line and press enter. This will take you to the 'Work with Offenses' screen.

CCSUPPORT	Corrections Information Systems (TEST)	8:55:26
MCCARTHY	CC Support Menu	9/09/05
Select one of the following:		
1. Offender Information		
2. LEDS

	More...	
Selection: 4	Job:	
F3=Exit	F4=Prompt	F10=Move to top
F11=Menu bar	F12=Previous menu	

Step 2 -Type SID number on 'Offender' line; press enter to bring AOS information to screen. Press enter to get to the 'Offender Release' screen, type date of warrant (from Board or Local Control T-type, Court Order or from LEDS printout using DOW date) on release date line including time, tab down to release type, type in "ABSC". You can use the warrant date listed in eCourts, or the date the warrant was signed, to process the movement to abscond if the warrant has already been served. If your county uses the FTR designator, tab to 'Abscond release to FTR' and enter Y. Press enter, you will receive message "release processed select new offender or press enter to continue."

NOTE: The FTR (Fail to Report) designator was created as some county directors wanted to know how many AOSs just didn't report vs. leaving the area, absconding. This is a decision made by your director whether to use or not. Some counties may use this for other purposes related to warrants/absconds as well.

NOTE: The PSC score must match the current cycle and status in order to close to Abscond. If it does not match you will be blocked from completing the closure and a new PSC score will need to be created before you can continue.

OPS270I MCCARTHY	Corrections Information Systems (TEST) Offender Release	9:04:17 9/09/05

Step 3 – Press enter to check 'Movement History/Maintenance' screen.

Step 4 – Go to LEDS to modify EPR RTP field to ABS ([refer to EPR Steps, Modifying an EPR](#)). Follow your county procedure for where to put the EPR modification confirmation.

NOTE: Beware of processing too many releases/closures in one day as this can cause a disruption to the VISOR system. Please see note at beginning of chapter for more information.

8.1.1 Citation to Appear Warrants: A PO can request a Cite to Appear warrant for an AOS on PPS or Parole; if the AOS is contacted by law enforcement, they will be provided with a directive to report to their PO within 72 hours. We do not move to ABSC on a cite to appear warrant unless and until it is upgraded to a regular warrant.

8.1.2 ABSC/REVP Scenario: An AOS is on county probation and federal probation. The AOS absconds supervision. Both authorities issue warrants. The AOS is picked up on the federal

warrant and sent to federal prison. The county warrant is still active. Six months after the AOS is in federal prison the Court recalls the county warrant. When the warrants were issued you put the AOS out to abscond. You leave the AOS on abscond status until the date the court recalls the county warrant. Release to REVP as of the date the warrant is recalled as long as the AOS in federal prison has been convicted and is serving a federal sentence. We do NOT move to REVP for those awaiting sentencing in federal custody.

8.2 PERMANENT FILE CLOSURES FOR PROBATION & PPS

NOTE: When AOSs receive a new conviction at the same time as supervision expiration, there needs to be one day between case closure and date of conviction to constitute a new cycle of supervision. If new conviction occurs on the same date as supervision expiration it would be the same cycle.

If an AOS receives a new institution incarceration sentence on the same day that all other offenses expire, if there is a gap (at least one day) between offense closure and admission to the institution, this is two separate cycles. If the AOS is admitted to the institution on the same day as conviction (and closure of all other sentences) then it is the same cycle.

If you have not closed your offenses timely before the institution admits, but the offense closure dates are at least one day prior to the institution admission date, you will need to submit a ticket to CCSUN for the cycles to be split.

NOTE: For Board-controlled AOSs, the Board will send a Certificate of Expiration after the longest running PPS case expires. Do not close the body or the longest running PPS case until the Certificate of Expiration is received. All other sentences lines should close timely and do not need notification from the Board.

NOTE: For LC controlled AOSs you will need documentation that approves the closure (an LSA closing certificate or something else written from the LSA or designee).

NOTE: For incoming Compact cases, you must receive a Case Closure Notice Response from the sending state.

From the CC RELEASE PROCESS on your main menu:

Step 1 – On ‘Work with Offenses’ screen, type SID number on ‘Offender’ line, press enter to bring AOS to the screen.

Check for Restitution (SC7)/Compensatory Fine/Community Service condition before processing. Refer to ‘Steps to Condition Tracking’ in Chapter 18 of the OPS manual for instructions to update these amounts.

Check Treatment Module for treatment completion by pressing F11-3-T, this will take you to the “Treatment Programs” window. If any treatment program entries are incomplete, refer to PO or appropriate staff member before moving forward with closure. When finished use F3 to return to work with offenses screen.

F3=Exit      F4=Prompt  F5=Refresh  F11=Menu bar  F12=Cancel

```

You will get message 'record updated.'

NOTE: If you get an error message that reads “cannot terminate w/zero amount for a trackable condition,” check the conditions for that offense to find which has Y for trackable listed, but no amount entered. You may need to check expired conditions as well (F18=Expired Conditions). Research the file or eCourts to find the correct amount and update the condition.

NOTE: If the sentence line has already been closed to INPR or UNSU, you will need to change the date and termination code on the sentence line to whatever the final closure code would be (as above). The system has a hard edit that will not allow you to close the body until this is changed. Conditions will automatically be moved to the Expired Conditions Table.

Repeat this step for each offense. Refer to Sentence/Body Closure Codes document for definitions of closures or F4=Prompt to view closure table.

Step 4 – After all lines are processed, press enter to return to ‘Work with Offenses’ screen review line closure(s). Press enter again to go to the ‘Offender Release’ screen, put in date to be released (should match the termination date of the latest closed sentence) on ‘release date’ line, enter a time on ‘time’ line in military format, enter release type code (should match the termination code of the latest closed sentence) on ‘release type code’ line, press enter. You will get message “release processed – select new AOS or press enter to continue”. **If more than one offense closure date, use most current date and code to match date used on ‘Offender Release’ screen.**

OPS270I	Corrections Information Systems	9:48:32

F3=Exit	F4=Prompt	F5=Refresh
F9=Retrieve	F11=Menu bar	F12=Cancel
F7=Current date/time		
Release processed - Select new offender or Press ENTER to continue.		

When more than one offense closes on the same date and more than one code is used to close varying offenses – which code is most appropriate to close the body? Start with choosing a code that continues funding: ex: EDIS. If you have two closures that continue funding, choose the one that has the highest funding: ex: EDIS has more funding than BNPB, so choose EDIS. If you have a combination of positive and negative closure codes, choose the negative code to close the body: ex: choose RTNS over EXPI. Permanent closure codes in order of funding: EDIS gets the highest amount of funding after discharge; EARL and BNPB get the same amount of funding after discharge. EDIS funding continues based on offense closure code – regardless of body closure code.

NOTE: Board PPS cases expire at 12:01 a.m. the day of expiration ('to'). Probation and Local Control expiration is determined on a county-by-county basis, either "to" or "through." Through means supervision expires at 11:59 p.m. the day of expiration. Regardless of supervision being "to" or "through," data entry for the time field can be any time you choose; that does not change the legality of when expiration technically occurred.

Step 5 – Press enter to review the 'Movement/History Maintenance' screen for errors.

SYS402I	Corrections Information Systems (TEST)	16:33:39

Housing		10/20/2015 00:31 11/16/2015 00:01

Step 6 – Go to LEDS to cancel EPR.

Step 7 – If qualifying crimes exist, send official file material to OISC-Central Records via email, with the closing summary on top.

NOTE: Closing Summary goes on top of material to be sent. When there are previously closed felonies that are not on the Closing Summary or more offenses than will show, a list of all offenses in the cycle needs to be attached. **This is not optional.** You can handwrite in the other offenses on the closing summary, or you can print a separate list (option 10 from the kardex screen will print a list of all offenses in a cycle). If you print the list, it should be the second page of the file material, after the Closing Summary.

See Chapter 21 OISC in OPS manual for file material to be sent to OISC.

For deceased AOSs, Chapter 21 OISC and Chapter 22 Parole Board lists what is acceptable for proof of death.

NOTE: Conditional Discharge cases – If you receive a dismissal order, check with the courts for clarification on whether this is an expungement or just a dismissal order. If a dismissal order and the case is still open close the sentence line and the body to DISM using the date of the dismissal order. If the sentence is already closed to expire do an F8 note only stating a dismissal order was received on (date). If this is an expungement order, follow expungement document steps in OPS 12. The reason we don't change the date and code due to a dismissal that is received later, is that we don't want the record to appear as though we supervised all the way until the date of the dismissal, since we only supervised through the date of expiration.

NOTE: Beware of processing too many releases/closures in one day as this can cause a disruption to the VISOR system. Please see note at beginning of chapter for more information.

8.3 PROBATION REVOCATIONS TO PRISON (More than 12 months)

NOTE: It is mandatory that the trackable conditions Restitution (SC7)/Compensatory Fine and Community Service have the amount ordered entered. It is recommended that this amount be updated by payments to reflect the balance due before closing any AOS to VIOL. The county of conviction is responsible for the initial data entry of conditions. The supervising county is responsible for updates including payments, which would also include changing trackable conditions to non-trackable prior to admission to prison. Refer to the Conditions Tracking Manual for instructions on how to update these amounts.

The following process is not required. You can process this revocation or wait for the prison to admit the AOS and they will close the appropriate sentence lines to VIOL. In either case you would update the trackable conditions as stated in the note above.

From the CC RELEASE PROCESS on your main menu:

Step 1 – On “Work With Offenses” screen, check each probation offense to see if line is closed to VIOL, if not put ‘2=change’ on sentence line, press enter.

```

Step 3 – Go to LEDS to cancel the EPR.

8.3.1 Sentenced to prison with a TSI date: If an AOS is sentenced to prison with a turn self in (TSI) date and the date passes and there is no change in CIS, send a copy of the judgment to the PTA DL at dloiscpta@doc.oregon.gov and notify them of the missed TSI date. They will be admitted to IBRO and released to Escape.

8.4 PAROLE/LEAVE RETURNS TO PRISON

There is no data entry for community corrections to do. Upon the AOS's arrival at the prison, they will admit the AOS and any open O or I lines will remain open and continue to run. The institution will do all data entry.

Go to LEDS to cancel the EPR.

8.5 COMMUTATION RETURNS TO PRISON

- The institution will admit (no need for community to do any body release)
- The institution will close the O line to VIOL on the SCOM sentences
- The institution will send a notification email to the county of supervision that the AOS has been retaken due to revoked commutation, which will include the commutation revocation order.
- After receiving email mentioned above, the supervising community location will close all O lines to VIOL on those sentences closed to POST that began their O lines at the same time as the commuted sentence using the date of the commutation revocation order. Please be very careful not to close any previously running O lines.

Go to LEDS to cancel the EPR.

8.6 FELONY PROBATION REVOCATIONS TO JAIL (12 months or less) (Local Control)

[Refer to OPS 15 - Local Control Data Entry](#)

8.7 PAROLE/POST-PRISON REVOCATIONS TO JAIL – PAROVIOL / PPSVSANC (12 months or less) (Local Control)

[Refer to OPS 15 – Local Control Data Entry](#)

8.8 UNSUPERVISED for Parole Board and Local Control cases (Body closure only)

NOTE: Offenders being supervised in another state are not eligible for UNSU status.

From the CC RELEASE PROCESS on your main menu:

Step1 – Type SID number on “Offender” line, press enter. Press enter to go to the “Offender Release” screen, put in date to be released (taken from body of letter to AOS from PO – do not use date letter was generated), release type is UNSU, press enter. Press enter again to check ‘Movement History/Maintenance’ screen.

*The date in the body of the inactive letter should be the date the PO determined the AOS is eligible. The PO should not backdate the letter if the AOS was eligible previously but should use the date they made the determination. We don’t want the record to make it appear the person was unsupervised on an inactive status for a time period that they were actively supervised.

NOTE: The Board does not automatically place an AOS on inactive status when the ASR/SSR date comes and goes. If the Board sees an ASR date in the past, they email the PO asking for an extension request. The Board typically only sees the issue when a warrant or sanction is being requested, and it is obvious inactive is not on the table in these situations, only extensions. An auto-email is generated by the warrants/sanctions specialists when a warrant or sanction has been requested and no extension/inactive request was submitted to the Board.

8.9 INACTIVE PROBATION (Temporary body closure only)

NOTE: The information provided here regarding inactive probation is for historical purposes only as there will not likely be any offenses eligible now or in the future to close to INPR. **To be eligible for inactive probation (INPR) the crime for which the AOS is supervised must have been committed on or before June 30, 2011.**

When an AOS has served the minimum period of active supervision as authorized in OAR 291-206-0015(5); and has satisfactorily completed all special conditions; the AOS can be moved to inactive probation (INPR). **To be eligible for inactive probation (INPR) the crime for which the AOS is supervised must have been committed on or before June 30, 2011.** Crimes committed after that date are not eligible for inactive probation status. Each county office is responsible for ensuring the crime date and all other criteria have been met before moving an AOS to inactive probation.

Misdemeanor convictions do not qualify for INPR status. Compact AOSs, either coming in or going out, also do not qualify for INPR status. According to SB3508, section 21(1) each person convicted of a felony and sentenced to probation is eligible for a reduction in the period of active probation. Felony Conditional Discharges and Felony Diversions are not convictions, so they do not qualify for INPR status.

This means there are two possible scenarios for this closure. You can do only one or the other, NOT BOTH.

(1) Just the offense line is closed as there are other open offenses that the AOS is still being supervised on; OR

(2) All open offenses qualify so the offense lines are NOT closed, but the 'body' is closed. The body closure is a parenthetical closure much like ABSC, IMMI, etc.

Your PO will have submitted some form of documentation to a Supervisor or Director for their approval (OACCD and FAUG have developed several for these purposes). The date the Supervisor or Director signed the form is the date you will use as your movement date.

If just the offense line is being closed refer to [OPS 7](#) for instructions.

If all of the AOS's offenses are eligible to close to INPR then **the body is closed**. (Again the offense lines are **NOT** closed). The same process that is used for ABSC or IMMI is used here. Option 4 from the Main Menu, Release Process, press enter to continue to the Release Screen. Enter the date and time, the closure code is INPR (Probation).

```

OPS270I                      Corrections Information Systems
HEMMAND                      Offender Release

      00      P FPR      05/12/2009      000-018-000      11/11/2010

```

Some counties modify the EPR to reflect the AOS's unsupervised status. This is a county-by-county decision as some counties leave the EPR as it is, so the PO is contacted if the AOS has law enforcement contact.

8.10 EARNED DISCHARGE

When an AOS has served the minimum period of active supervision as authorized in OAR 291-209-0030(2) and (3); and has been determined to be in compliance with their conditions of supervision and case plan as defined in OAR 291-209-0020 (3); the offender can be closed to

EARNED DISCHARGE (EDIS). To be eligible for earned discharge (EDIS) offenders must have been either:

- Convicted of a felony crime and sentenced to either probation or to the legal and physical custody of the supervisory authority (the start of the L or I sentence not the start of PPS) on or after August 1, 2013 and currently on post-prison supervision (crimes sentenced before this date are not eligible).
- Convicted of a designated drug-related misdemeanor crime listed under House Bill 2355 that was committed on or after August 15, 2017, and House Bill 2645 (PCS Fentanyl) committed on or after July 27, 2023.
- Convicted of a funded person misdemeanor – Assault IV constituting domestic violence, Menacing constituting domestic violence or Sex Abuse 3 on or after Jan 1, 2022. Incoming compact cases are not eligible. Each county office is responsible for ensuring the crime date and all other criteria have been met before discharging an AOS to earned discharge status.

You can close one sentence line or all cases being supervised. If closing one sentence [refer to Chapter 7- Closing a Single Offense Line](#) for instructions. Use the date the supervisor signs the EDIS closure form. The termination code is EDIS.

When entering the EDIS code for a line closure you will get a pop-up window that requires acknowledgement the case is eligible for closure by entering a Y in the Y/N field and by entering the name of the person that confirmed the case is eligible for EDIS in the Confirmed by field. It is a county-by-county decision as to who to use for the confirmed by field (i.e. PO, manager, supervisor, etc.). You must use the F4 prompt on the confirmed by line to select the user name. You can only choose a user in your own county.

To close the whole cycle:

Step 1 – You should receive an OISC closing summary and the EDIS closure form from the PO stating the date of closure. If you are closing the last open offense to EDIS, you must also close the body using the same date and code.

Step 2 – Follow all steps above in [section 8.2 PERMANENT FILE CLOSURE](#). Use date the supervisor signs the EDIS closure form and enter a time. Termination code is EDIS.

EDIS parameters:

Conviction Date

- Felony probation or post-prison sentences conviction date must be on or after August 1, 2013
- Designated drug misdemeanors conviction date must be on or after August 15, 2017
- Qualifying person misdemeanors conviction date must be on or after January 1, 2022

Length of Sentence Served

- MUST have served minimum of six months or 50 percent of the supervision period (whichever is greater)

Sentence Type

- Can be used on Felony Probation (FPR)
- Can be used on Felony Post-Prison (FPO)
- Can be used on designated drug-related misdemeanor crimes listed under HB 2355, when conviction date is August 15, 2017, or later
- Can be used on designated drug-related misdemeanor crime listed under HB2645, when conviction date is July 27, 2023, or later (fentanyl bill)
- Can be used on qualifying person misdemeanors crimes listed under SB497, when conviction date is Jan 1, 2022, or later (DV flag must be tripped for 163.190 and 163.160)
- Can be used on felony treated as misdemeanor (FMP)
- Cannot be used on “I” sentence types (FPA or FLV or FSL)
- Cannot be used on “L” sentence types (FLC)
- Cannot be used on felony conditional discharge (FCD)
- Cannot be used on felony diversion (FDV)
- Cannot be used on felony reduced to misdemeanor (MFP) E code – (okay with C code)
- Cannot be used on incoming Interstate Compact (FPRC or FPAC)
- Cannot be used on misdemeanor conditional discharge (MCD)
- Cannot be used on misdemeanor diversion (MDV)
- Cannot be used on misdemeanor convictions (MPR) unless it is a funded designated drug-related misdemeanor crime listed below or funded person misdemeanor listed below
- Cannot be used if crime commit date is prior to November 1, 1989
- Cannot be used if status is one of the following: AP, CD, DI, DV, IN, IV, LP, LV, SP, or SL

Important notes:

- Conviction date must be present
- Crime commit date must be present
- Authority extension must be present on status, ex: PostPrison/**BRD**, PostPrison/**LC**
- Commuted sentences: the commuted incarceration served as PPS does not count toward EDIS eligible calculation date; eligible date is based on “regular PPS” start date – must serve half of “regular PPS” – the easiest way to calculate these are to determine half the PPS sentence length and subtract that from the max date

Eligible misdemeanors:

Only **FUNDED** designated drug-related and designated person misdemeanors are eligible for EDIS. Please see list below outlining funded misdemeanors and the crime dates that qualify them.

Eligible funded misdemeanors:

Funded PCS misdemeanors – Crime commit between 8-15-2017 and 1-31-2021, convicted on or after 8-15-2017:

ORS 475.752 (3)(a) - Unlawful possession of a Schedule I controlled substance
ORS 475.752 (3)(b) - Unlawful possession of a Schedule II controlled substance
ORS 475.824 (2)(a) - Unlawful possession of methadone
ORS 475.834 (2)(a) - Unlawful possession of oxycodone
ORS 475.854 (2)(a) - Unlawful possession of heroin
ORS 475.874 (2)(a) - Unlawful possession of 3, 4 - methylenedioxymethamphetamine
ORS 475.884 (2)(a) - Unlawful possession of cocaine
ORS 475.894 (2)(a) - Unlawful possession of methamphetamine

Funded PCS misdemeanors – Crime commit between 2-1-2021 and 7-18-2021, convicted on or after 2-1-2021:

ORS 475.824 (02)(c) - Unlawful possession of methadone
ORS 475.834 (02)(c) - Unlawful possession of oxycodone
ORS 475.854 (02)(c) - Unlawful possession of heroin
ORS 475.874 (02)(c) - Unlawful possession of 3, 4 - methylenedioxymethamphetamine
ORS 475.884 (02)(c) - Unlawful possession of cocaine
ORS 475.894 (02)(c) - Unlawful possession of methamphetamine

Funded PCS misdemeanors – Crime commit between 7-19-2021 and present, convicted on or after 7-19-2021:

ORS 475.824 (02)(b) - Unlawful possession of methadone
ORS 475.834 (02)(b) - Unlawful possession of oxycodone
ORS 475.854 (02)(b) - Unlawful possession of heroin
ORS 475.874 (02)(b) - Unlawful possession of 3, 4 - methylenedioxymethamphetamine
ORS 475.884 (02)(b) - Unlawful possession of cocaine
ORS 475.894 (02)(b) - Unlawful possession of methamphetamine

Funded PCS misdemeanor – Crime commit on or after 07/27/2023, convicted on or after 07/27/2023

ORS 475.752 (8)(a) – Unlawful possession of fentanyl

Funded PCS misdemeanor – Crime commit on or after 9/1/2024, convicted on or after 9/1/2024

ORS 475.752 (003)(A)	- Unlawful possession of controlled substance - DEM Sch I
ORS 475.752 (003)(B)	- Unlawful possession of controlled substance - DEM Sch II
ORS 475.752 (003)(C)	- Unlawful possession of controlled substance - DEM Sch III
ORS 475.752 (003)(D)	- Unlawful possession of controlled substance - DEM Sch IV
ORS 475.752 (7)(a)	- Unlawful possession of a Schedule I controlled substance
ORS 475.814 (002)(A)	- Unlawful possession of hydrocodone DEM
ORS 475.814 (2)(B)	- Unlawful possession of hydrocodone 071921
ORS 475.824 (002)(A)	- Unlawful possession methadone DEM
ORS 475.834 (002)(A)	- Unlawful possession oxycodone DEM
ORS 475.854 (002)(A)	- Unlawful possession heroin DEM
ORS 475.874 (002)(A)	- Unlawful possession MDMA DEM
ORS 475.884 (002)(A)	- Unlawful possession cocaine DEM
ORS 475.894 (002)(A)	- Unlawful possession methamphetamine DEM

Crime commit on or after 1/1/2025, convicted on or after 1/1/2025

ORS 166.116 (1)(e) - Interfering with Public Transportation

Funded person misdemeanors - convicted on or after January 1, 2022:

163.190 Menacing when the crime constitutes Domestic Violence

(DV misd funding flag in offense must be checked)

163.160 Assault IV when the crime constitutes Domestic Violence

(DV misd funding flag in offense must be checked)

163.160 (03)(X) felony Assault IV attempt when the crime constitutes Domestic Violence

(DV misd funding flag in offense must be checked)

163.160 (03) felony Assault IV FMP when the crime constitutes Domestic Violence

(DV misd funding flag in offense must be checked)

163.415NEW* Sex Abuse 3

**in the sentencing order, the crime will just be listed as 163.415 – you have to choose the*

163415NEW in DOC400 – that is the class A misdemeanor that qualifies.

Only those misdemeanors listed above are eligible for EDIS closure, all other misdemeanors do not qualify.

Crime restrictions:

If convicted August 1, 2013, or later these felony crimes are NOT EDIS eligible:

ORS 163.095	Aggravated, or Conspiracy to Commit Aggravated Murder
ORS 163.095 X	Attempted Aggravated, or Conspiracy to Commit Attempted Aggravated Murder
ORS 163.107	Murder I, or Conspiracy to Commit Murder I
ORS 163.107 X	Attempted Murder I, or Conspiracy to Commit Attempted Murder I
ORS 163.115	Murder II, or Conspiracy to Commit Murder II
ORS 163.115 X	Attempted Murder II, or Conspiracy to Commit Attempted Murder II
ORS 163.118	Manslaughter I
ORS 163.125	Manslaughter II
ORS 163.149	Aggravated Vehicular Homicide
ORS 163.185	Assault I
ORS 163.225	Kidnapping II
ORS 163.235	Kidnapping I
ORS 163.365	Rape II
ORS 163.365 X	Attempted Rape II eligible if probation, PPS not eligible
ORS 163.375	Rape I
ORS 163.375 X	Attempted Rape I eligible if probation, PPS not eligible
ORS 163.395	Sodomy II
ORS 163.395 X	Attempted Sodomy II eligible if probation, PPS not eligible
ORS 163.405	Sodomy I
ORS 163.405 X	Attempted Sodomy I eligible if probation, PPS not eligible
ORS 163.408	Unlawful Sexual Penetration II
ORS 163.408 X	Attempted Unlawful Sexual Penetration II eligible if probation, PPS not eligible
ORS 163.411	Unlawful Sexual Penetration I
ORS 163.411 X	Attempted Unlawful Sexual Penetration I eligible if probation, PPS not eligible
ORS 163.425	Sexual Abuse II eligible if probation, PPS not eligible
ORS 163.427	Sexual Abuse I
ORS 163.427 X	Attempted Sexual Abuse I eligible if probation, PPS not eligible
ORS 163.670	Use of a Child in Display of Sexually Explicit Conduct
ORS 164.225	Burg I – not eligible If sentenced under ORS 137.635 (determine probation cases manually)
ORS 164.325	Arson I
ORS 164.415	Robbery I
ORS 167.017	Compelling Prostitution

Enhancements to your crime of Conviction that disqualify you for Earned Discharge All

Crimes Committed Prior to November 1, 1989 (Matrix Crimes):

ORS 161.610	Enhanced penalty for use of firearm during commission of felony (Gun Minimum) (determine manually)
ORS 161.725	Dangerous Offender (determine manually)
ORS 161.735	Dangerous Offender (determine manually)
ORS 137.635	Determinate sentences required for certain felony convictions (Measure 4 -

	Denny Smith)
ORS 137.690	Major felony sex crime
ORS 164.061	Sentence for aggravated theft in the first degree when victim 65 years of age or older (determine manually)
ORS 475.907	Sentencing for unlawful delivery of cocaine, methamphetamine, heroin, or ecstasy to minors (determine manually)
ORS 475.925 & 475.930	Sentences for certain controlled substance offenses (Large Quantity Delivery or Manufacturing) (determine manually)
ORS 813.11 & ORS 813.010(05)	Felony driving under the influence of intoxicants
ORS 144.103	Mandatory lengths of post-prison supervision for certain sex offenses

Case plan requirements:

If conviction date is on or after August 1, 2013:

- Restitution must be either paid in full or kept current on approved payment plan
- Compliant with conditions and case plan
- Completed treatment with set durations and consistent in ongoing treatment program
- Must complete specialty court programs in full (graduate)
- No administrative sanctions or court violations in past six months
- Not been convicted of a crime (felony or misdemeanor) for which AOS was arrested while on supervision for this case

8.11 INACTIVE (Temporary Body Closure Only for Offenders in another State Prison)

**THE PO NEEDS TO DO AN OPTION 24 NOTIFIER LETTER TO THE INSTITUTION THAT THE AIC IS BEING HOUSED IN, ADVISING INSTITUTION THAT AIC HAS AN OBLIGATION TO THIS COUNTY AND TO NOTIFY US OF RELEASE DATE BEFORE THIS CLOSURE CAN BE DONE.*

NOTE: You need some form of notification the AOS has been sentenced to incarceration in the other state. An AOS housed and pending sentencing does not qualify for INAC; they must have been sentenced for this outcount to be used. A sentence order is preferable. If you are unable to obtain the sentence order you can Google "state name Department of Corrections" for the other state. You will be able to find basic information after the AOS has been sentenced and incarcerated.

CC RELEASE PROCESS:

Step1 – Type SID number on 'Offender' line, press enter. Press enter to go to the 'Offender Release' screen, put in release date (date of conviction from court order or information from other institution), a time in military format, release type code is INAC, release to location is the two-letter state code, press enter.

Step 2 – Press enter to review 'Movement History/Maintenance' screen.

Step 3 – Go to LEDS to modify EPR MIS field. Change MIS field to “Offender in *(state which prison)*.” This is a county-by-county decision.

8.12 REVP (Temporary body closure - AOS revoked to a Federal Prison)

**THE PO NEEDS TO DO AN OPTION 24 NOTIFIER LETTER TO THE INSTITUTION THAT THE AIC IS BEING HOUSED IN, ADVISING INSTITUTION THAT AIC HAS AN OBLIGATION TO THIS COUNTY AND TO NOTIFY US OF RELEASE DATE BEFORE THIS CLOSURE CAN BE DONE.*

NOTE: A sentence order is recommended for this closure. To obtain a federal sentencing order email GRA-DSC-TeamQuebec-S@bop.gov. Include in the body of the email: “If this person was not sentenced in this district, please forward this request to the appropriate district.” If you are unable to obtain one the following link to the Federal Bureau of Prisons is good for looking up an AIC. An AIC housed and pending sentencing does not qualify for REVP; they must have been sentenced for this outcount to be used.

<https://www.bop.gov/inmateloc/>

This will let you look up a person by name, BOP number or FBI number. This will give you what institution they are located in and their release date.

Follow steps for INACTIVE above, release type is REVP

8.13 CONDITIONAL DISCHARGE or DIVERSION

NOTE: When a conditional discharge or diversion is revoked and terminated, follow the steps outlined below. When a conditional discharge or diversion is revoked and given probation, follow steps in Chapter 7 for closure code and adding probation line. If a conditional discharge or diversion is revoked and given local control with or without PPS, follow instructions in Chapter 15. Instructions below are only used when a conditional discharge or diversion is revoked and terminated, and no further community corrections sentence is given.

8.13.1 Instructions when conditional discharge or diversion is revoked:

CC RELEASE PROCESS:

Step 1 – Type SID number on ‘Offender’ line, press enter. On ‘Work with Offenses’ screen, put ‘2=Change’ on sentence line, press enter. This will take you to the ‘Sentence Data’ screen.

Step 2 - Tab down to term date, put in date of sentencing order, tab to termination code put in RTNS for felonies or CRTR for misdemeanors or felonies treated as misdemeanors, press enter twice. This will take you back to the ‘Work with Offenses’ screen.

Step 3 – If there are no other open offenses (you should have an OISC closing summary to close the body) press enter again to go to Offender Release screen. Enter release date and

time from date of order, release type code is the same as the code used for sentence closure. Press enter.

Step 4 – If the entire body of the record is closed, go to LEDS to cancel the EPR. Follow your county procedure for where to place the EPR cancellation modification. If other sentences remain open, check the EPR for possible needed modifications.

8.13.2 Instructions when conditional discharge or diversion is expired naturally:

CC RELEASE PROCESS:

Step 1 – Type SID number on 'Offender' line, press enter. On 'Work with Offenses' screen, put '2=Change' on sentence line, press enter. This will take you to the 'Sentence Data' screen.

Step 2 - Tab down to term date, put in expiration date (offense max date), tab to termination code put in EXPI, press enter twice. This will take you back to the 'Work with Offenses' screen.

Step 3 – If there are no other open offenses (you should have an OISC closing summary to close the body) press enter again to go to Offender Release screen. Enter release date and time, release type code is EXPI. Press enter.

Step 4 – If the entire body of the record is closed, go to LEDS to cancel the EPR. Follow your county procedure for where to place the EPR cancellation modification. If other sentences remain open, check the EPR for possible needed modifications.

NOTE: If you receive a court order sometime after expiration that dismisses the conditional discharge or diversion, please add an F8 note to indicate the sentence was dismissed. The sentence and body closure code remains EXPI.

8.13.3 Instructions for closure of conditional discharge or diversion prior to scheduled max due to court order:

CC RELEASE PROCESS:

Step 1 – Type SID# on 'Offender' line, press enter. On 'Work with Offenses' screen, put '2=Change' on sentence line, press enter. This will take you to the 'Sentence Data' screen.

Step 2 - Tab down to term date, put in date of sentencing order, tab to termination code put in appropriate code based on court order (DISM, BNPB, EARL, etc), press enter twice. This will take you back to the 'Work with Offenses' screen.

Step 3 – If there are no other open offenses (you should have an OISC closing summary to close the body) press enter again to go to Offender Release screen. Enter release date and time from date of order, release type code is the same as the code used for sentence closure. Press enter.

Step 4 – If the entire body of the record is closed, go to LEDS to cancel the EPR. Follow your county procedure for where to place the EPR cancellation modification. If other sentences remain open, check the EPR for possible needed modifications.

8.14 PSYCHIATRIC SECURITY REVIEW BOARD (Body closure only)

When an AOS is currently supervised by a community corrections agency and receives a new judgment from the court sentencing them to be under the control of the psychiatric security review board (as opposed to being sentenced to prison and PPS) also known as a Guilty Except for Insanity (GEI) order and they are housed in a secure facility (either Oregon State Hospital - OSH or community), you can use this outcount closure code. A GEI conviction with a court order is required for the use of this outcount. Return from this outcount is at the PO's discretion.

You will NOT enter the judgment/docket information of a PSRB/GEI judgment into CIS.

Pretrial orders directing the AOS to OSH to determinate if they are eligible to aid and assist in their defense, does not qualify for this outcount. PSRB outcount is only used when the AOS has been convicted and sentenced Guilty Except for Insanity and under the control of the PSRB.

From the CC RELEASE PROCESS on your main menu:

Step 1 – Type SID number on “Offender” line, press enter, this will bring AOS to screen. Press enter to go to the “Offender Release” screen, put in date to be released (taken from conviction court order), release type is PSRB, press enter. Press enter to check Movement History/Maintenance Screen.

Step 2 – Go to LEDS to Modify EPR. If EPR is owned by PSRB, you can add an investigative interest to the existing EPR.

8.15 IMMIGRATION CASES

You must verify deportation to use the IMMI code. Being held in ICE custody does not qualify for use of this outcount.

Verify deportation through LEDS. Refer to LEDS manual for IAQ instructions. In the IAQ response it will say DATE REMOVED/DEPORTED/EXCLUDED. Beware of previous deportations; you should see a relatively current date in this field to know deportation has recently occurred.

From the CC RELEASE PROCESS on your main menu:

Step 1 – Type SID number on “Offender” line, press enter, this will bring AOS to screen. Press enter to go to the ‘Offender Release’ screen, enter release date/time (taken from deportation query from LEDS). Release type will be IMMI, press enter. Press enter to check ‘Movement History/Maintenance’ screen.

Step 2 – Go to LEDS to modify EPR per your county's policy.

8.16 CASE ACCEPTED BY ANOTHER STATE - CMPO

The Reply to Transfer Request has been received accepting transfer of case. The PO has sent the Notice of Departure as the AOS has left. When you receive the Compact Notice of Arrival, then close the body of the record to the CMPO outcount using the following steps:

From the CC RELEASE PROCESS on your main menu:

Step 1 – Type SID number on “Offender” line, press enter, this will bring AOS to screen. Press enter to go to the ‘Offender Release’ screen, enter release date/time (Arrival date on Notice of Arrival). Release type will be CMPO and release to location will be the 2-letter state abbreviation where AOS is accepted, press enter. Press enter to check ‘Movement History/Maintenance’ screen.

Step 2 – Go to LEDS to modify EPR per your county's policy. Outgoing compact record types are based on the Oregon offenses. Record types CPA and CPR are only used for INCOMING compact cases. If there are a combination of incoming compact cases and Oregon offenses, use the RTP to match the Oregon offenses.

Step 3 – Per your county's policy, change primary caseload number to designated Compact PO.

8.17 PROCESS FOR CLOSING NON-OREGON (incoming) COMPACT CASES

1 – For abscond cases, send a violation report and a case closure request indicating that you want to close due to AOS absconding. When you receive the case closure response from the sending state indicating their approval to close the case, the file can be closed to COMP. Use the date on the case closure request for the closure date. **NOTE: Never close a non-Oregon (incoming) Compact case to ABSC.**

2 - For new felony or new violent crime conviction cases, send a violation report notice and await a response to violation from the receiving state, then send a case closure notice once a warrant has been issued. Oregon can close the case upon case closure reply from the sending state. Close record using the case closure notice REPLY date, close to COMP. **NOTE: Either the violation report or the closure notice shall include a copy of the sentencing/judgment order for the sending state**

3 - If an AOS receives a sentence of 181 days or more incarceration, but it is not due to a new felony or new violent crime (see #2 above for those), a violation report is NOT necessary, but a progress report and case closure notice should be sent to the sending state and the record can be closed to COMP using the date on the case closure notice that you've prepared.

4 - For behavior requiring retake cases, send a violation report. Two options will be available:
4a. - If the sending state replies to return AOS via return reporting instructions, Oregon submits return RI's along with a notice of departure and a case closure notice once AOS has

departed. The receiving state will submit a notice of arrival along with a case closure notice reply upon AOS's arrival, closing the case in ICOTS. Oregon will use the notice of departure date for closing the case in CIS.

4b. - If sending state replies that they will be issuing a warrant for retake, sending state submits the case closure notice once the AOS is physically retaken and Oregon will submit a case closure notice reply. Record can be closed on the date of the case closure notice sent by sending state (close to COMP). If the AOS is not available for arrest, we then submit another violation report regarding the abscond and case closure notice to the sending state; therefore, see #1 above.

5 – For cases where the AOS has died, counties send through ICOTS the compact closure request along with verification of the AOS's death. Upon receiving the case closure response indicating the sending state's approval to close the case, the county office can close the file to DIED using the date of death after the compact paperwork process is complete.

6 - For cases where the AOS returns to the sending state on approved reporting instructions and the PO has confirmation that the AOS arrived back in the sending state, the county office sends through ICOTS a case closure request. The case should be closed using the date on the notice of departure, not the case closure date, using code COMP. **NOTE: An AOS should not return/relocate back to the sending state without first obtaining reporting instructions from that state.**

If the sending state does not reply to your Case Closure Request within ten (10) days, please send an e-mail to the Compact office (Oregon.interstate@doc.oregon.gov) and let them know. The Compact office will contact the sending state.

8.18 AOS WITH APPEALS WHO ARE COMPACTED OUT

First determine if all offenses are overturned on appeal and awaiting resentencing or if some offenses will remain on supervision during the time between appeal and resentencing.

8.18.1 If any open offenses are not part of an appeal and continue with supervision, nothing more to do until resentencing. No data changes, no Compact notifications required.

When resentencing occurs:

1 - If there are data changes to be made in CIS due to resentencing, have someone send a CAR to the receiving state, notifying of the change(s). Examples could include one or more counts being closed because the conviction was dismissed, vacated, etc.; the sentence length is altered so the max date changes.

2 - If no changes occur that would affect any max date, no need to send notification.

8.18.2 If all open offenses are part of an appeal and supervision is suspended until resentencing, please follow these steps:

- 1 - Change outcount from CMPO to USAP using date of appeal.
- 2 - Send a CAR right away to the receiving state notifying supervision is suspended due to appeal.
- 3 - Send case closure notice right away to receiving state identifying supervision is suspended due to appeal.

When resentencing occurs:

If ordered back on supervision:

- 1 - Return to active supervision from USAP outcount.
- 2 - Remove RSNT sentence closures, and perform appropriate sentence/offense data entry (including F8 notes).
- 3 - Request RFRIs and submit transfer request. If either RFRIs or TR is denied, seek assistance from Oregon Compact office.
- 4 - Put back on CMPO outcount based on Notice of Arrival.

If not ordered back on supervision:

- 1 - Close record appropriately, including F8 notes.

8.19 AOS WHO DIE WHILE ON LEAVE

If you receive notification of an AOS passing away while on Leave (STTL, AIP), contact dloiscpta@doc.oregon.gov. The PTA will close the I line and Community Corrections will close the body and anything else that is open that is not an I line.

8.20 CLOSURE CODES EXPLAINED

YOU CAN ACCESS THE BELOW CODES IN CIS. WHEN YOU ARE AT THE TERMINATION CODE FIELD PRESS F4. THIS WILL BRING UP THE TERMINATION CODE TABLE. TO ACCESS THE LONG DESCRIPTION OF A CODE, PLACE YOUR CURSOR ON THE CODE AND PRESS F4. THIS WILL GIVE YOU THE LONG DESCRIPTION.

In the chart below, you will find a more thorough description.

Codes in the following chart with green fill are for use by Community Corrections. Some with green fill are also used by institution. Those with no fill are for institution use only. See "Inst or Comm" column to determine who can use each code.

CIS Code	O/C Perm Temp Status	Sent or Body	Inst or Comm	Description	Documents needed
ABEX	P	Both	Comm	ABSCOND OFFENDERS PAST MAX DATE - SENTENCE TERMINATED OR DISMISSED Offenders closed to ABSC, whose sentences have passed their max supervision date, the Judge, Board, or LSA has recalled* the warrant and allowed the sentence to terminate. Order to Show Cause (pending PV) is dismissed when the warrant is recalled. The probation itself is not dismissed, but allowed to expire because the Order to Show Cause has been dismissed. Sometimes the order will say probation is terminated when the warrant is recalled. Rarely will be for use on Board-controlled PPS/Parole. *Recall is the same as rescind and lift. Quashed is different! See 7.1, 14.14 or Chapter 26 for more detailed definitions.	Probation - Court order and warrant recall. LSA warrant recall plus written notification by the LSA or its designee Board - certificate of expiration (until programming is complete certificate will have original expi date; programming request to show effective date is pending) USE effective date!
ABSC	O/C	Body	Comm	ABSCONDED SUPERVISION The AOS has failed to report and the PO has exhausted all appropriate avenues to locate the AOS. Either the PO could initiate the warrant request (to the Board, LSA, or Court) or if the AOS fails to show up for a court date (like a PV hearing) the court could initiate the warrant and it would still be abscond, <u>as long as that case number is being supervised</u>. You must have a warrant on a supervised case to move to ABSC. ABSC will trump all other outcounts and should be used when this and additional outcounts apply. ABSC holds the record open, whereas other outcounts may indicate the record could be allowed to close.	Either find the warrant in LEDS, or see the actual paper warrant, or see the warrant in eCourt; use date of the first warrant (DOW) (if multiple warrants are issued) for movement
ACQT	P	Body	Both	ACQUITTAL AFTER RETRIAL/RESENTENCING Convictions vacated on appeal/post-conviction and remanded to county for new trial. Vacated convictions are acquitted after remand.	Circuit Court Order (likely the appellate court would remand back to Circuit Court rather than acquit themselves)

				TERMINATION OF SG SENTENCE (I LINE) DUE TO COMPLETION OF AIP PROGRAM When an AIC successfully completes the institution portion of an alternative incarceration program (SUMMIT, A&D AIP, etc.) and the 90-day non-prison leave period.	
AIP	P	Sent	Inst		
				APPEAL WON When an AOS/AIC appealed their conviction and the appeal has been won. By “appeal won” we mean the conviction is overturned and will not be returned to the circuit court for resentencing. Use USAP during appeal process.	Appellate judgment overturning circuit court conviction
APPE	P	Both	Both		
				CONVERTED TO BENCH PROBATION When an AOS's supervised probation is converted by court order to supervision by the court, or when an institution sentence is amended/resentenced to bench probation (Institution use added 11-2-2020)	Court order
BNPB	P	Both	Both		
				CONCURRENT PROBATION When a DOC AIC (either serving DOC and/or LC sentences) is released without Parole and/or Post-Prison supervision obligations, but still has uncompleted probation sentences.	
CCPR	S	Body	Inst		
				JAIL AS CONDITION OF PROBATION When an AOS receives a probationary jail sentence consecutive to a DOC SG sentence, used to temporarily close the probation line. The institution closes the P line and opens a J line. They should close the J line and reopen the P when the jail sentence is completed. If they do not close the J line, please contact OISC. You can remove the code from the P line when they are back under your supervision if it has not been done by the institution.	
CDPR	T	Sent	Inst		
				COMPACT OUT - Oregon AOSs only When an Oregon AOS is accepted for supervision in another state via Interstate Compact.	Compact Notice of Arrival
CMPO	O/C	Body	Comm		
				LEAVE STATUS CONTINUED AFTER LC SENTENCE SERVED When an AOS is returned to leave status after serving an LC sentence. Offender was not returned to prison and leave has not been completed. Allows community agency to return AOS to leave status under original leave parameters. Contact OISC prior to using code. LC PPS does NOT begin until leave is complete.	
CNLV	S	Body	Comm		

Offender Profile System (OPS) Training Manual

CNPA	S	Body	Inst	<i>PAROLE CONTINUED</i> When an AOS is arrested out of state and returned to Oregon and admitted to CCIC; AOSs are then transported to the county jail in the supervising county and the body of the record is released using this code if the AOS is on Parole.	
CNPO	S	Body	Inst	<i>Post-Prison CONTINUED</i> When an AOS is arrested out of state and returned to Oregon and admitted to CCIC; AOSs are then transported to the county jail in the supervising county and the body of the record is released using this code if the AOS is on Post-Prison.	
CNPS	S	Body	Inst	<i>Parole/Post-Prison CONTINUED</i> When an AOS is arrested out of state and returned to Oregon and admitted to CCIC; AOSs are then transported to the county jail in the supervising county and the body of the record is released using this code if the AOS is on Post-Parole.	
COMP	P	Both	Comm	<i>COMPACT CLOSURE - OUT-OF-STATE CASES ONLY</i> When supervision of out-of-state case is returned to sending state prior to sentence expiration. This is only used when sentences have not yet expired. Reasons for return can include: abscond/warrant, voluntary return, violation return, admission to prison. This can be sentence only closure if Oregon sentences continue to be supervised; can be a body and sentence closure if no Oregon sentences are supervised.	Compact Closure Notice Response *If an NOA is submitted, we need a compact closure notice to move the record to historical in ICOTS. See 8.17, #1-6, for correct date to use for closure
CONV	P	Sent	Comm	<i>CONDITIONAL DISCHARGE/DIVERSION CONVERTED TO PROBATION</i> When an AOS's conditional discharge/diversion is revoked and formal probation is imposed. NOT to be used when conditional discharge/diversion is revoked to LC or IN incarceration sentence. There must be a Probation line that comes under a line closed to CONV. CONV is also used as a location code by Super Users to return AOSs to formal supervision after their sentence expired but later the DA files and the court convicts.	Court order

Offender Profile System (OPS) Training Manual

CREJ	P	Body	Comm	<i>TRANSFER REJECTED - INCOMING COMPACT INVESTIGATIONS ONLY</i> To be used on compact investigation (IV status) only. When the incoming compact investigation is rejected or withdrawn and the compact sentences will NOT be supervised in Oregon.	Transfer Request Reply; Transfer Request withdrawal
CRTR	P	Both	Comm	<i>MISDEMEANOR SUPERVISION REVOKED or TERMINATED</i> Misdemeanor probation revocation/termination due to some type of non-compliance or violation; Judge orders AOS's misdemeanor probation sentence revoked and/or terminated. Includes felonies treated as misdemeanor (FMP), misdemeanor conditional discharges, and misdemeanor diversions. (definition changed effective July 1, 2017). Please note this is different than misdemeanors terminated early due to successful performance.	Court order
DIED	P	Both	Both	<i>OFFENDER DIED</i> Used when an AOS dies during the course of supervision or incarceration prior to the completion of their obligation. If the AOS had Board-controlled parole or PPS, please notify the Board order desk. Use date of death for closure. If you receive a court order closing a probation, conditional discharge, or diversion case due to death, but the court will not provide proof of death and you cannot get proof of death yourself; in these instances it is okay to close using the date of the court order. Please add F8 note, chrono, and/or AOS remarks.	Proof of death includes: death certificate; police report; medical examiner report; funeral home published obituary; vital statistics verification; court order.
DISC	P	Both	Comm	<i>PAROLE/PPS DISCHARGE PRIOR TO MAX DATE</i> Historically used when an AOS's parole is discharged prior to their max date. The Board issues an Order of Discharge (Pre BM10). Historically was used only on Parole sentences (I lines). As of January 1, 2022, due to HB2036, this code will also be used when an AOS is released from Parole or PPS early due to severe medical issues and their being on supervision prevents them from entering a care facility.	Order of Discharge from the Board (be sure the discharge is prior to the max date)

Offender Profile System (OPS) Training Manual

DISM	P	Both	Both	SENTENCE IS DISMISSED BY THE COURT Used when sentence is dismissed by the court; could come pursuant appeal or simply at the discretion of the court. Many, but not all, conditional discharges and diversions are dismissed after successful completion of supervision. If the conditional discharge or diversion expired naturally and you've closed the record to EXPI, do NOT change the closure code to DISM, only add an F8 note.	Court order that "dismisses" sentence
DIVR	S	Body	Comm	STATUS CHANGE TO DIVERSION When all an AOS's sentences, except a diversion sentence, have closed and the status should change to DV. Can be done using auto-status change feature on the w/w court orders screen (F13).	
DOC	S	Body	Super User	TRANSFER TO DOC Used by a super user when inserting movement prior to DOC IN status.	
EARL	P	Both	Comm	EARLY TERMINATION OF PROBATION, CONDITIONAL DISCHARGE OR DIVERSION When a judge orders the sentence terminated (without revocation or revoke language) before the supervision expiration date. Can be true for incoming Compact cases as long as there is a court order indicating supervision is terminated early for successful performance. You will need a compact case closure notice as well.	Court order;); Compact Closure Notice Response
EDIS	P	Both	Comm	EARNED DISCHARGE When a qualifying felony or misdemeanor convicted on or after August 1, 2013, qualifies for Earned Discharge according to OAR 291-209. Cannot be used on non-qualifying misdemeanors, FMP, FCD, or incoming Compact. See 8.10 for list of qualifying misdemeanors.	Earned Discharge Closure form
ERRO	n/a	n/a	NONE	<i>This code is discontinued. Information below is for historical information purposes only.</i> RETURN TO DOC OR LC Offender was released from DOC or LC in error prior to the completion of their sentence. Returned to prison (DOC) or county jail (LSA).	

Offender Profile System (OPS) Training Manual

ESCA	O/C	Body	Both	ESCAPE When an AOS has an escape warrant issued because they have an unauthorized departure from institution or local control during a period of incarceration. Used for Leave AOSs and LC AOSs serving their sentence in the community, as well as those who walk away from physical institution or local custody.	escape warrant issued
EXEC	P	Both	Inst	EXECUTED When an AIC has been executed and upon formal notification from the superintendent's office that the execution order has been carried out.	
EXPI	P	Both	Both	SENTENCE EXPIRATION Used when a sentence of any type reaches its max date and no Order to Show Cause is keeping the sentence open (ex: probation PV pending) and no active warrant exists holding the sentence open (ex: active PPS warrant).	Sentence closures: county by county; Body closures: Closing summary - felony and sex offense misdemeanors; Certification of Expiration for Board AOSs; Certificate of Expiration for LSA AOSs (county by county); Compact Closure Notice Response.
HEAR	P	Sent	Inst	<i>This code is discontinued. Information is for historical informational purposes only.</i> For AICs originally sentenced to Rob II, Kidnap II, Assault II under ORS 137.700 (BM 11) who are resentenced under ORS 137.712 (SB1049).	
IMMI	O/C	Body	Comm	IMMIGRATION DEPORTATION Use this outcount when AOS has been deported by ICE and confirmed in LEDS. Removal date is used whether deported or voluntarily leaves.	Confirmation in LEDS by running IAQ, use "removal date"

Offender Profile System (OPS) Training Manual

INAC	O/C	Body	Comm	SENTENCED TO OUT-OF-STATE FACILITY Use this outcount when an AOS has been sentenced and is serving time in a state or county facility outside of Oregon. Notification/release planning to out-of-state facility is required. Sentencing is required; cannot be used pending adjudication. Please do not confuse INAC with UNSU, INPR, or REVP (see instructions for each below)	Sentencing order; if you cannot obtain a sentencing order, you can use the Inmate Locator or local jail roster to confirm the person is in custody - please use in conjunction with LEDS to confirm conviction. ~and~ Notifier to the out-of-state facility.
INPR	O/C, T	Both	Comm	INACTIVE PROBATION Use as an outcount when an AOS qualifies for inactive probation. Qualifications include: crime commit date on or before June 30, 2011; no other open offenses. Use as a temporary sentence closure when an AOS has other open running offenses, but the eligible probation crime was committed on or before June 30, 2011.	Letter authorizing INPR
INST	P	Sent	Inst	LC SENTENCE CONVERTED TO INSTITUTION When an AOS is serving a LC sentence and then receives a consecutive DOC sentence; or a LC sentence is amended to 12 months and 1 day or more.	
INTR	P	Both	Inst	RELEASE TO INTERNATIONAL TRANSFER Very rare. Used with International Prisoner Transfer Treaty	
LCMP	S	Body	Comm	COMPLETION OF LOCAL CONTROL INCARCERATION SENTENCE Use this release code when an AIC has completed their Local Control incarceration sentence and will move onto (or back onto) Post-Prison supervision. Use the date the sentence is considered fully served. Do not confuse this with an AIC moving out of custody to continue to serve their LC sentence by alternative methods. Please also use "release to location" field by filling in the county the AIC will be supervised.	Confirm the sentence has been fully served by whatever method your county has available: ex: access to your jail system; phone call to jail time calc person, etc.

Offender Profile System (OPS) Training Manual

LEAV	S	Body	Inst	RELEASE ON LEAVE Institution uses this release code when an AIC is being released from DOC custody onto Short-Term Transitional Leave (STTL) or Non-Prison Leave (NPL aka AIP). Should see the release to location of the county who will supervise.	
LOCL	S	Both	Inst	RELEASE TO LOCAL CONTROL Used by the institution to close a sentence line when part of the incarceration is served in the institution and the rest will be served at the local level; L line should come under the LOCL-closed I line. Used by the institution to release the body to the appropriate L location when the AIC will continue serving an LC sentence at the local level. Community Corrections should always be admitting to LC status and their L location following this type of release.	Court order with the local control incarceration sentence
ORDE	P & T	Both	Inst	COURT ORDERED RELEASE Sentence - Used by the institution when an AIC has been released per court order (post-conviction, appellate action, or released pending appeal). Body - When an AIC has been ordered released by the courts through post-conviction relief, appellate judgment, or re-sentencing, and has no parole and/or post-prison supervision or probation obligation, no further action pending, discharge code. Court documentation required.	

Offender Profile System (OPS) Training Manual

PARO	S	Body	Both	PAROLE RELEASE Institution uses this release code on the date which an AIC is ordered to be conditionally released from custody to Parole by the Board. Community uses this release code when an incoming compact investigation (IV status) is accepted and the case will be Parole. Also used when an AOS has post-prison and parole offenses at the same time (PS status) and the post-prison cases expire, leaving parole (and potentially other non-Board offenses) to be supervised. Often F13 is used for this change, and it inserts the PARO release code.	For incoming Compact change, Notice of Arrival (for date to use for status change). For PS to PA (and PS to PO) - the Board will issue Certificate of Expiration indicating which supervision type expired and when the other will.
POPA	S	Body	Both	POST-PRISON AND PAROLE RELEASE Institution uses this release code when an AIC is released from custody and will have both post-prison and parole type supervision. Community uses this to change status when an AOS has post-prison cases and adds an incoming Compact parole case. F13 would likely be used, and will insert the POPA release; you can also do the POPA release and subsequent admit instead of F13.	Community re: incoming Compact - Notice of Arrival for date to be used for status change.
POST	P, S	Both	Both	RELEASE TO POST-PRISON AND/OR INCARCERATION SENTENCE COMPLETION Institution will use this as a sentence closure code for incarceration sentences that have been served in full. Institution will use this as a body release code when an AIC has been physically released and will serve post-prison time in the community. Community will use this as a sentence closure code for L lines that have been served in full. Community will use this as a body release code when an AIC has completed their term of Leave in full and will serve post-prison time in the community.	For sentence closure, confirm the LC sentence is served in full. For body release code use, Board issued PPS order.
PRCD	S	Body	Comm	CONDITIONAL DISCHARGE STATUS CHANGE ONLY Changes Offender's status if all other sentence types are closed except the open Conditional Discharge sentence (C type sentence). This is done by the autochange feature on the W/W Court Orders screen.	

PROB	S	Body	Both	PROBATION STATUS CHANGE or INSTITUTION RELEASE TO PROBATION Institution uses this when an institution sentence is amended or resentenced to supervised probation and there is no other institution sentence or PPS obligation. Community uses this to change AOS's status if all other sentence types are closed except the open probation sentence. This is done by the autochange feature on the w/w court orders screen. Community uses when incoming Compact investigation is accepted and the supervision will be probation. Done by releasing the body with PROB code and subsequent admission.	For Compact use, Notice of Arrival for the date of release/admission.
PSRB	O/C	Body	Comm	PSYCHIATRIC SECURITY REVIEW BOARD OUTCOUNT May be used when a person has been sentenced under the jurisdiction of the Psychiatric Security Review Board and is housed in a secure, locked-down facility (OSH or community). PPO has discretion to return the person from outcount if they are actively supervising person regardless of housing. NOT TO BE USED with psychiatric holds or "aid and assist" evaluations.	Court order sentencing to a term under the PSRB
PVPD	O/C, T	Both	Comm	PROBATION VIOLATION IS PENDING (BODY) Used when all open offenses on the current cycle are past expiration with a pending PV with an open Order to Show Cause in the convicting Circuit Court. AOS should have no other open sentences under active supervision. PROBATION VIOLATION IS PENDING (LINE) Used when a probation supervision has reached expiration date and there is an open Order to Show Cause with PV pending in Circuit Court and the court has NOT issued an extension of supervision while PV is pending. Use when there are other cases in the cycle on active supervision. You should not have a line and body closed to PVPD at the same time. See section 7.11 for further information.	Order to Show Cause with PV pending

Offender Profile System (OPS) Training Manual

REPA	P	Sent	Inst	<i>REFUSED PAROLE - EXPIRATION/DISCHARGE</i> Used by the institutions when an AIC's crime date is prior to 9-20-1985 and has refused parole and is released on good time/extra good time date.	
RETU	P	Both	Inst	<i>RETURN TO SENTENCING STATE</i> Institution uses this when an out-of-state boarder is returned to the sentencing state prior to completing the out-of-state sentence. Notification required.	
REVP	O/C	Body	Comm	<i>AOS SENTENCED TO FEDERAL PRISON</i> Changes AOS status to outcount (REVP). Offender on parole/PPS/probation & sentenced on new Federal charges. The Board considers his Oregon State charges auto-revoked. NOT TO BE USED while AOS is in holding pending adjudication.	Federal sentencing order. Use date of order to move to REVP. If you cannot obtain a sentencing order, you can look up the AIC on this website: https://www.bop.gov/ ; if the release date is unknown, they have not yet been sentenced. If the release date appears, you can assume they have been sentenced. Use date on notifier to move to REVP. Copy of the notifier.
RSNT	T, O/C	Both	Both	<i>RESENTENCE OF CONVICTION AND/OR SENTENCE</i> When an AOS's/AIC's conviction(s) &/or sentence(s) have been reversed or vacated & the AIC/AOS will be subject to a new trial for resentencing. Also includes convictions affirmed w/sentences vacated & remanded for new trial.	Appellate judgment reverses and remands circuit court conviction
RTNS	P	Both	Comm	<i>REVOKE/TERMINATE PROBATION SUPERVISION</i> Felony community supervision sentences only; order required. Felony supervision revoked and/or terminated with NO incarceration other than "straight jail" per OAR 213-005-0007. Can also be used with felony conditional discharge and felony diversion. <i>Not to be used when revoked and given local control jail with no PPS. Not to be used on felonies treated as misdemeanors (use CRTR on those).</i>	Court order

				<i>This code is discontinued. Information below is for historical informational purposes only.</i> <i>SUPERVISED APPEAL</i> When an AIC is released pending an appeal and supervision is ordered.	
SAPP	T	Sent	Inst		
SCOM	P	Both	Both	<i>SENTENCE COMMUTED</i> Sentence commuted by the Governor. Document signed by the Governor required.	Commutation paperwork signed by the Governor
SLJU	S	Body	Inst	<i>SECOND LOOK JUVENILE</i> Institution uses this body closure code when an AIC is being released from the institution (including OYA) to community to be supervised as a Second Look case. The court retains authority over SL cases.	
TERM	P	Sent	Inst	<i>OREGON INCARCERATION TERM TERMINATED - INTERNATIONAL TRANSFER</i> Oregon incarceration term is terminated due to request and approval of international transfer. Sentence will be completed in receiving country.	
TRAN	transfer	Body	Both	<i>TRANSFER TO ANOTHER LOCATION</i> A movement and reassignment of supervision of an AIC between institutions or between field offices. Notification required. Not to be used for status change, i.e. CD to PR. Also not to be used during LC status - the admission itself inserts the TRAN automatically into the movement history.	IRT acceptance by a form, an email, or a chrono; for new intake transfers reporting instructions must be obtained first Mult only - in-county transfer form
USAP	T & O/C	Both	Comm	<i>UNSUPERVISED DURING APPEAL - PREADJUDICATION OF APPEAL</i> Sentence - When an AOS/AIC has filed an appeal regarding their conviction and <i>prior to</i> an Appellate, Circuit, or Supreme Court handing down a decision regarding the appeal, the sentencing judge has ordered that they not be supervised during the appeal process; order of the court required. Temporary sentence closure code. These rarely occur. Body - When an AOS/AIC has filed an appeal regarding their conviction and <i>prior to</i> an Appellate, Circuit, or Supreme Court handing down a decision regarding the appeal, the sentencing judge has ordered that they not be supervised during the appeal process; order of the court required. Outcount closure code. These rarely occur.	Convicting Circuit Court order requiring no supervision during appeal process.

				<i>Only use outcount when there are no open lines for supervision.</i>	
VACA	P	Both	Both	VACATE Sentence - A conviction on a case/count is vacated by Circuit court order and (1) no new trial occurs; (2) new trial occurs but the count is merged or disposed (vacated) w/no conviction; (3) new trial occurs but count is reduced to a misd & may or may not get jail only. When an appeal order says conviction is vacated AND REMANDED back to Circuit Court for resentencing, VACA is not used - use RSNT. Body - When an AOS/AIC's conviction(s) are vacated by court order and (1) no new trial occurs; (2) new trial occurs but the count is merged or disposed (vacated) w/no conviction; (3) new trial occurs but count is reduced to a misd & may or may not get jail only.	Court order that "vacates" sentence, or reduces to misdemeanor jail only

				<i>VIOLATES AND SUPERVISION IS REVOKED AND SENTENCED TO INCARCERATION</i> Sentence - used as a permanent sentence closure when a felony probation, conditional discharge, or diversion has been revoked and sentenced to a term of incarceration in either DOC or LC. There should always be an L or I line to follow a sentence line closed to VIOL. Body - this code is automatically inserted by the system when admitted to LC or IN status.	Court order
VIOL	P & S	Both	Both		
				<i>WARRANT FOR NON-COMPLIANCE</i> Changes AOS's status to outcount. Used when another agency (judge/court) issues a warrant for non-compliance prior to the close of supervision. Examples are because the AOS hasn't paid fees, or is non-compliant with conditions of supervision, like failure to complete community service. Client is still available for supervision and continues to report to their PO as directed. <i>Used only when you are supervising the case with the warrant. Not to be confused with abscond (ABSC) use.</i>	PO notification; confirm in LEDS or a copy of the actual warrant itself
WARR	O/C	Body	Comm		
XERD	P	Body	Inst	<i>ADMITTED IN ERROR AND DISCHARGED</i>	
				<i>OFFENDER ADMITTED TO PRISON IN ERROR AND RELEASED BACK TO COMMUNITY CORRECTIONS</i> When an AIC is delivered and admitted at Institution Intake and it's later determined that DOC has no legal authority for the admission but the AIC has active parole, PPS, LC, or probation running.	
XERR	P & S	Both	Inst		

OPS CHAPTER 9 – Transfers and Field Investigations

9.1 INTER-COUNTY TRANSFER INVESTIGATIONS (IRT's)

Note: Designated drug-related misdemeanor crimes listed under House Bill 2355 (Misdemeanor PCS) that were committed on or after August 15, 2017, and House Bill 2645 (PCS Fentanyl) committed on or after July 27, 2023, and funded person misdemeanors (two DV and one SO) are subject to the new case transfer rule and Inter Regional Transfers (IRT's).

After you have received the investigation do the following:

Step 1 – Go to LEDS run a QWHD and an RR (in-state and out-of-state if necessary).

Step 2 - Put all LEDS information in file folder, per your county's policy.

Step 3 –Per your county's policy, log as required then go to CIS, make entry on "Remarks" screen (F7) indicating assigned PO, etc. (EXAMPLE: Date IRT/Field Investigation/Notification was received and assigned to PO's Name – YOUR INITIALS/OFFICE).

More...

F3=Exit F5=Refresh F11=Menu Bar F10=Print F12=Cancel

F13=Insert F14=Delete F15=Wrap off

Enter ID number for offender - or press F4=Prompt to select.

There are different ways to get to the F7 Remarks screen, here are a few suggestions: While on the Movement/History screen press F7 to bring up remarks screen; at Offender Information screen, press F11-Menu Bar, 4-Info Windows, H-housing or A-admission/release history, then F7-remarks; while on the Housing History screen press F7-remarks; while in any process, press F11, 4, H or V, then F7-remarks; or from main menu, type 14 on selection line enter.

9.2 OUT-OF-STATE INVESTIGATIONS (COMPACT)

Step 1 - Verify AOS should report to your office. If not, then forward to appropriate office or county through ICOTS. Send an email to Interstate Compact advising the investigation or reporting instructions were forwarded to another county or office. Do not return to Interstate Compact.

Step 2 – Refer to Steps to Entering Reporting Instructions and Compact Investigations, [OPS Chapter 3](#).

9.3 FIELD INVESTIGATIONS (RELEASE PLANS FROM INSTITUTION OR LOCAL CONTROL)

Step 1 – Per your county practice, follow steps 1 through 3 above under IRT'S.

Step 2 - Per your county practice, put LEDS in file folder along with Field Investigation information.

Step 3 - Per your county practice, if AOS has been previously supervised, call last office of supervision for closed file. Type in "Remarks" screen that file was requested. If last supervised in your office/county, attach FI to closed file.

Step 4 – Per your county practice, process accordingly which may include logging in a spreadsheet, F7 remarks, assigning, etc.

Step 5 – Assign release plan to appropriate PO in OMS:

Release packets for all institutional releases will now be retrieved using OMS. Institution release counselors will continue to create release plans in DOC400. Once they are completed and transferred electronically, individuals assigned as primaries on the "99" caseloads will receive a notification. This will be the cue for support staff to access and retrieve the packet from and assign the field investigation in OMS. If a caseload other than the "99" caseload is not assigned, only the primaries associated with the "99" caseload will receive notifications.

NOTE: It is important to assign a PO caseload number so that the investigating PPO will receive important notifications about due dates, address changes, new detainers, changes in release dates, etc.

Assigning a Release Investigation:

Selecting an individual under "PPO/FIO Releases" in the release planning module will allow you to assign or make changes to the Field Investigation and Assigned PO caseloads in OMS.

Offender Profile System (OPS) Training Manual

Release History

Change Release Plan Caseloads

Field Investigation Caseload: 5199 - RELEASE PLANS
Assigned PO Caseload: (Select)

Save Reset

STTL Begin Date: P 10/02/2020
Begin Date Reason: REGU - Regular STTL begin date

To change FIO or PO caseload, simply click the arrow at the right-hand side of the selection, type in the desired caseload number, and hit Enter. Make sure to then click “Save” to save the changes. An automatic notification will be sent to the new caseload and the prior caseload, if any.

Change Release Plan Caseloads

Field Investigation Caseload: 5199 - RELEASE PLANS
Assigned PO Caseload: (Select)

STTL Begin Date: P 10/02/2020

NOTE: Changes made in this section will automatically write back to the release plan in the CIS.

Anyone with authority to your county location can access the release packets in OMS that are designated to your county’s “99” caseload. This allows support staff access to release plans, so they can retrieve, save, and/or print packets as needed for file preparation.

NOTE: When the “responsible location” on the release plan changes, it will trigger an email to the email address[es] on a list for the corresponding county. We do not look at the caseloads for Release Plan Transfer notification.

Step 6 - Give to assigned PO.

9.4 TRANSFERRING TO ANOTHER COUNTY

NOTE: Release IRTs in CIS and send the file within 5 working days of the notice of acceptance of the transfer. Admit IRT within 14 days, regardless of file receipt.

If funded misdemeanor or felony case(s) expire, leaving only a non-funded misdemeanor open, supervising counties cannot automatically transfer the adult on supervision (AOS) back to the convicting county outside of the transfer process.

AOSs on Leave (both STTL and AIP) can be transferred and are subject to documentation being sent similar to SO IRTs.

Step 1 – From the CC RELEASE PROCESS on your main menu: On the 'Work with Offenses' screen, enter SID # on 'Offender' line, press enter, this will bring AOS to screen. Check 'Work with Offenses' screen and make appropriate changes to offenses and conditions if needed (entering balances of restitution (SC7)/compensatory fine/community service work), press enter to process changes. If no changes needed press enter twice to go to 'Offender Release' screen.

Step 2 – Fill in release date and time. If IRT, use the date the other county accepted AOS. If a new case transfer, use the date AOS was given the directive to report to the other county (reporting instructions may be listed on an action plan or in a chrono). Enter release type 'TRAN', fill in release location with appropriate 4-digit county location (use F4=prompt to view location list). Press enter to process, you will get the message 'Release Processed – Select new offender or press enter to continue'.

Step 6 – Check Treatment Module for treatment completion. Press F11-3-T, this will take you to the ‘Treatment Programs’ window. Refer to ‘Treatment Module’ manual for data entry. Follow your county policy for data entry.

Step 7 - Per your county practice, attach modified EPR print out, transfer acceptance and transfer memo and check list (you can find in OPS 24) send file to appropriate county.

Step 8 – Per your county practice, remove CCH/LEDS records and chronos before sending file. Please remember TTYs from the Board regarding PPS revocation sentences are NOT considered “LEDS printouts” that need to be removed – to the contrary these are important historical “orders” and should remain in the file.

It is the responsibility of the sending office to obtain reporting instructions from the receiving county and ensure that the court order and police report, when available, are sent by the sending county.

9.5 TRANSFER-INS FROM ANOTHER COUNTY

Transfers should be admitted within 14 days of release. You can admit the transfer before you receive the file from the sending county.

From the ADMISSION PROCESS on your main menu:

Step 1 –Type SID # on ‘offender line’ of ‘Community Corrections Admission’ screen, press enter to bring AOS to screen. Tab to admission date/time field and enter exact date and time transfer was released from other county. Fill in caseload (PO #) case is being transferred to, press enter you will receive message, ‘transfer admission processed’.

Transfer admission processed.		

Step 2 – Press enter to move from one screen to the next updating all pertinent information until you come to the ‘Offender Print’ screen, put a 5 on option line, press enter to print kardex.

Step 3 – Run QLW via LEDS to check if EPR was transferred to your location, if mailbox information was added, if current PO's name and number are in miscellaneous field and if supplemental information was entered. Supplemental descriptive data is required by LEDS to be included in the EPR. OACCD has agreed if you receive an incomplete record, you can contact the sending county's SOON rep to request the supplemental descriptors entry. This will NOT prevent an IRT from being accepted. Refer to 'Adding Supplemental Information' document under 'Enter Probation Record' section of manual to add supplemental information. Per your county policy, add special conditions if appropriate.

NOTE: New intake from another county: If an adult on supervision (AOS) is a no show or had provided an incorrect address, after attempt to locate/get AOS to report has failed, **TRANSFER** back to the county of conviction. (This shows what actually happened, that supervision was attempted in the receiving county and the AOS either did not show up for supervision or provided a bad address.)

9.6 NEW CASE TRANSFER / 90-DAY RULE

The following is the portion of the DOC Transfer Rule (291-019-0200), updated August 8, 2022 that outlines cases not requiring a transfer request and the corresponding responsibilities.

(1) New Cases: New cases are not subject to the transfer process. Transfer in CIS is done on the date reporting instructions are given.

New local control incarceration sentence where the time between conviction and release is less than 30 calendar days, we can consider a new case transfer and does not need a waiver of residence. We can now call for reporting instructions and can transfer upon release from custody.

- **This is not based on sentence length ordered.** This is based on actual time served.
- **Does not apply to revocation sentences** – only newly sentenced direct to Local Control.

(2) If, at the time of sentencing, the AOS resided in a county other than the county of conviction, the office serving the county of residence shall assume supervision without requiring any transfer investigation from the sending county.

(3) 90-day Rule: If an AOS, whose residence is in another county, is sentenced by court order to less than 90 days in jail, the case will be transferred to the office in the county of residence. If an AOC is sentenced to 90 days or more, the case will be held by the county of conviction until released from jail, at which time the case will be handled as a new intake in the county of residence upon verification of residence.

(4) In situations described in sections (2) and (3) above, it is the responsibility of the sending office to (1) obtain reporting instructions from the receiving county and (2)

ensure the court order and police report, when available, are sent to the receiving county.

(5) Six-Month Rule: In the last six months of supervision, and when an AOS is in compliance, other options should be considered (i.e., earned discharge, early termination, bench probation, low or limited supervision level, inactive or unsupervised status) before attempting to transfer.

(6) The serving of a local control incarceration sentence under the legal or physical custody of the local supervisory authority, including any alternative forms of custody, is not subject to transfer under this rule.

(7) The supervision of a non-funded misdemeanor is not subject to this rule unless the non-funded misdemeanor is accompanied by a felony or funded misdemeanor. If funded misdemeanors or felony cases expire, leaving only non-funded misdemeanor open, supervising counties cannot automatically transfer the AOS back to the convicting county outside of the transfer process.

To view the Department of Corrections Transfer Rule, go to the Oregon Secretary of State website:

<https://secure.sos.state.or.us/oard/displayChapterRules.action?selectedChapter=77>

Click on Division 19 – Transfer (Community Corrections). Click on 291-019-0100.

OPS CHAPTER 10 – CIS Movement History/Maintenance

This chapter is designed to walk you through making changes on the Movement History/Maintenance screen. **Remember! Always** start with F10 to print your screens before making changes. After making any changes on the movement history screen perform the F21=Auto Cycle/Summary Maintenance. This clears up behind-the-scenes programming.

10.1 AUTO CYCLE/SUMMARY MAINTENANCE:

This data entry requirement (done on the movement history screen) will help keep programming on all screens accurate. Edits in CIS maintain that all the cycle information must match. If things look incorrect, try using F21=Auto cycle/summary maintenance on the movement history screen, and it will automatically make everything match up.

NOTE: if doing the F21 auto-cycle update moves an offense to a previous cycle because the admission date of the cycle does not accommodate the offense, you'll need a super user to assist with changing the date of the cycle admission (or possibly adding an additional movement at the beginning of the cycle) See Chapter 13 – Data needing a Super User.

10.2 CHANGING “ADMISSION FROM” LOCATION:

Step One: Go to the 'Admission From' line and press F18 (shift F6) to Change Data.

SHIPPEYT		Movement History/Maintenance	
10/21/08			
RECORD KEY:	1706643

10.9 STEPS TO INSERTING COUNTY AIC MOVEMENT

Step 1 - From your Main Menu, type 6 (CC Support Data Entry/Update) on the 'Selection' line and press <Enter>. Enter the SID number on 'Offender' line or press F6 and enter AOS's name, press <Enter>. This will open the AOS's record on the Public Information screen.

Step 2 – Press <Enter> or F11-3-V to get to the Movement History/Maintenance screen.

Step 3 - F10=Print before making any changes.

Step 4 - Locate the dates that correspond with the county AIC movement you need to enter. Make note of the start and stop date/times you'll be using for the missing movement.

NOTE: If the LCMP release and PO admission do not have the exact same date and time on the movement history screen, you'll need to fix that first.

SANC JAIL		07/23/2010 10:00		07/28/2010 10:00	

Step 11 – Press F21 (Shift F9) =Auto Cycle/Summary Maintenance on the movement history screen.

10.10 REMOVING A CUSTODY CYCLE OPENED IN ERROR

NOTE: This is something you can do yourself only if the custody cycle opened in error is Cycle 2 or more. If it is the first custody cycle, you must put in a request to Judy Bell for the AOS be removed from CIS.

Step One – Find your AOS in CIS, go to the Movement History/Maintenance Screen and F10 Print the history.

Step Two –Go to the Admission From line that is incorrect. Press F18 (shift F6).

SHIPPEYT	Movement History/Maintenance		6/17/15
RECORD KEY: 0238484			**Remarks** *DESIGNATOR*

This takes you to the Custody Cycle Maintenance Screen:

SHIPPEYT		Custody Cycle Maintenance		6/17/15	
Offender....12345678		Offender, Test D			
Status..... Probation		Location.... COOS			
Custody from location.... COOS					
--Cycle--		Location		--Admission----- Release-----	
03 Admission From: COOS					
03-01		Status: PR			
03-01-01		COOS			
Housing		06/15/2015 10:00			
Bottom					
F3=Exit		F4=Prompt		F5=Refresh	
F12=Cancel		F14=Delete custody		F11=Menu bar	
				F17=Show all data	

Step Three: Press F14 (shift F2). This will highlight the current custody cycle information. You must press F14 again in order to delete it.

Step Four: Return to the Movement History/Maintenance Screen, review that your final custody cycle has been removed, and use F21 (shift F9) for Autocycle/summary maintenance.

Step Five: Go the W/W caseload History by Offender screen and remove the incorrect caseload information for the incorrect custody cycle you just removed.

10.11 TIPS AND REMINDERS:

- **Menu CCTRAIN:** use this training tutorial for training on this section. (On Selection line type MENU CCTRAIN and press <Enter>) Select #13 Movement History Maintenance
- **Print it:** It is very important to print out the Movement History/Maintenance screen before making any changes. That way if you make any errors, you or the Super User can put it back the way it was.
- **More Message:** If you see a plus sign at the end of a message at the bottom of the screen (error message or informative message) that means there is more to the message than what is shown on the screen. Go to the plus sign and hit the page down key to see the rest of the message.
- **Only Yours:** Remember you can only change your own location's movements. Make sure the information is correct and call the appropriate location to correct their piece if needed.
- **But it IS my Location:** You can only make changes in the most current movement. Submit a ticket request to the DOC Service Desk DOC.ServiceDesk@doc.state.or.us

who will refer it to a member of CCSUN (Super User Network) to make the change to any part of the movement that is previous to your location admission.

- **Add it Back:** So, you removed the last housing movement, and now want to add another movement back on. You must use your regular release or admit process to add a new movement.
- **Missed a Movement:** Missing outcounts can be added by CCSUN (Super User Network) so that you don't have to do a lot of deleting. Email the Help Desk for a ticket to CCSUN. DOC.ServiceDesk@doc.state.or.us
- **Need Help?** Remember to contact your SOON Rep first if things get tough or send an email to the SOON Rep distribution list for assistance.

OPS CHAPTER 11 - Caseload History Maintenance

The following instruction manual will walk you through changing, adding, or removing caseload history. It is recommended that you READ THIS ENTIRE SECTION BEFORE MAKING ANY CHANGES. After you've read the chapter and before you modify the caseload history, do an F10=print of the caseload history to memorialize what it looks like before you start making changes.

Use the Support Staff menu #10 CC Change Primary Caseload for all the following instructions.

11.1 CHANGING INCORRECT CASELOAD NUMBER

To correct the caseload number, open Support Staff menu #10 CC Change Primary Caseload:

CMS294I	Corrections Information Systems (TEST)				14:41:16
CUMMINSL	W/W Caseload History by Offender				5/31/00
ID Number..... 1234567 TEST, Offender					
Location..... YAMH Yamhill County Community Corrections					
Primary caseload. 5327 SETTELL, RANDY					
Enter option...					
2=Edit 4=Delete 5=Display					
Opt	Caseload	Loc	Entry Date	Exit Date	Status
					To create entry
2	5327	YAMH	11/01/1998		PS
	5306	YAMH	8/25/1994	11/01/1998	PS
	00106	OSP	5/31/1994	8/25/1994	IN
	00504	SCI	5/24/1994	5/31/1994	IN
	01001	MCCF	3/25/1994	5/24/1994	IN
	00306	OSCI	12/16/1991	3/25/1994	IN
	5306	YAMH	5/16/1990	10/02/1991	* PA
Bottom					
F3=Exit F5=Refresh F6=Create F11=Menu					
F12=Cancel F15=Secondary caseloads					

In our example, caseload number 5327 is incorrect.

To change this, you can do it one of two ways:

1. Place your cursor on the incorrect number and type over with the correct number, and <Enter>. If you don't know the correct number, you can use the F4 prompt function and select the correct caseload number from the window.

~OR~

2. You can also use the 2=edit option and either type the correct number or use the F4 prompt function to select the correct number.

11.2 INSERTING CASELOAD NUMBER

To insert, go to your W/W Caseload History by Offender screen:

```

CMS294I                      Corrections Information Systems (TEST)          15:50:40
CUMMINSL                     W/W Caseload History by Offender              5/31/00

ID Number..... 1234567 TEST, Offender
Location..... DESC Deschutes County Community Corrections
Primary caseload. 1542 MIKKELBORG, ELAINE
Enter option...
  2=Edit   4=Delete   5=Display
Opt  Caseload  Loc   Entry Date  Exit Date   Status
                                To create entry
    1542      DESC  10/28/1999
    1540      DESC  7/31/1999   10/28/1999   LC
    1538      DESC  8/12/1997   7/31/1999   PO
    00110     OSP   5/24/1997   8/12/1997   IN
    00501     SCI   2/19/1997   5/24/1997   IN
    00410     EOCI  8/14/1996   2/19/1997   IN
    13002     PRCF  6/04/1996   8/14/1996   IN
    13099     PRCF  6/04/1996   6/04/1996   IN
    11002     SRCI  9/20/1994   6/04/1996   IN
    00410     EOCI  9/02/1994   9/20/1994   IN

                                More...

F3=Exit      F5=Refresh   F6=Create   F11=Menu
F12=Cancel   F15=Secondary caseloads
  
```

In this example, we need to add caseload number 1560 with an entry date of 6/4/98 and an exit date of 7/31/99. To accomplish this we will insert caseload 1560 between 1538 and 1540. The first step is to create a space within the existing dates by changing the exit date on the line prior to where the new caseload number will be inserted and pressing <Enter>:

```

CMS294I                      Corrections Information Systems (TEST)          15:55:59
CUMMINSL                     W/W Caseload History by Offender              5/31/00

ID Number..... 1234567 TEST, Offender
Location..... DESC Deschutes County Community Corrections
Primary caseload. 1542 MIKKELBORG, ELAINE
Enter option...
  2=Edit   4=Delete   5=Display
Opt  Caseload  Loc   Entry Date  Exit Date   Status
                                To create entry
    1542      DESC  10/28/1999
    1540      DESC  7/31/1999   10/28/1999   LC
    1538      DESC  8/12/1997   6/04/1998   * PO
    00110     OSP   5/24/1997   8/12/1997   IN

                                More...

F3=Exit      F5=Refresh   F6=Create   F11=Menu
F12=Cancel   F15=Secondary caseloads
  
```

***Please note when changing either entry or exit dates, the date must be greater than the previous date, and less than the latter date.

Offender Profile System (OPS) Training Manual

The next step will be to create the new record by using F6=create function, or by entering the data on the top blank lines (text says To create entry) as follows:

CMS294I	Corrections Information Systems (TEST)	15:55:59
CUMMINSL	W/W Caseload History by Offender	5/31/00
ID Number..... 1234567 TEST, Offender		
Location..... DESC Deschutes County Community Corrections		
Primary caseload. 1542 MIKKELBORG, ELAINE		
Enter option...		
2=Edit 4=Delete 5=Display		
Opt	Caseload Loc	Entry Date Exit Date Status
		To create entry
	1542 DESC	10/28/1999 PO
	1540 DESC	7/31/1999 10/28/1999 LC
	1538 DESC	8/12/1997 6/04/1998 * PO
	00110 OSP	5/24/1997 8/12/1997 IN
	00501 SCI	2/19/1997 5/24/1997 IN
	00410 EOCI	8/14/1996 2/19/1997 IN
	13002 PRCF	6/04/1996 8/14/1996 IN
	13099 PRCF	6/04/1996 6/04/1996 IN
	11002 SRCI	9/20/1994 6/04/1996 IN
	00410 EOCI	9/02/1994 9/20/1994 IN
More...		
F3=Exit F5=Refresh F6=Create F11=Menu		
F12=Cancel F15=Secondary caseloads		

NOTE: The asterisk between the exit date and the status denotes a break in custody cycle. If you see an asterisk where you know there is not a break in custody cycles, review the caseload history to determine what needs to be changed or inserted to ensure a continuous custody cycle. The asterisk in this example appeared because we changed a caseload end date, which caused a break in the dates between caseloads. As we finish inserting the missing caseload, the asterisk will disappear when the date gap is closed.

After pressing <Enter> to save your changes, your data will be inserted and you will see the following:

CMS294I	Corrections Information Systems (TEST)	16:20:27
CUMMINSL	W/W Caseload History by Offender	5/31/00
ID Number..... 1234567 TEST, Offender

1560 04/06/1998 Deleted.

```

Note that the asterisk has returned because there is now a gap in the dates, making it appear as two different custody cycles. You must now change the exit date of the previous record to match the entry date of the latter record by placing your cursor on the date to be changed, typing the correct date, and pressing <Enter> as follows:

Offender Profile System (OPS) Training Manual

CMS294I	Corrections Information Systems (TEST)	16:52:45
CUMMINSL	W/W Caseload History by Offender	5/31/00
ID Number..... 1234567 TEST, Offender		
Location..... DESC Deschutes County Community Corrections		
Primary caseload. 1542 MIKKELBORG, ELAINE		
Enter option...		
2=Edit 4=Delete 5=Display		
Opt	Caseload Loc	Entry Date Exit Date Status
		To create entry
1542	DESC	10/28/1999 PO
1540	DESC	7/31/1999 10/28/1999 LC
1538	DESC	8/12/1997 7/31/1999 PO
00110	OSP	5/24/1997 8/12/1997 IN
00501	SCI	2/19/1997 5/24/1997 IN
00410	EOCI	8/14/1996 2/19/1997 IN
13002	PRCF	6/04/1996 8/14/1996 IN
13099	PRCF	6/04/1996 6/04/1996 IN
11002	SRCI	9/20/1994 6/04/1996 IN
00410	EOCI	9/02/1994 9/20/1994 IN
More...		
F3=Exit	F5=Refresh	F6=Create F11=Menu
F12=Cancel	F15=Secondary caseloads	

Note that the asterisk has gone away, denoting there is no gap in dates aka one continuous custody cycle.

11.4 CASELOAD HISTORY / REMOVING A RELEASE

When you remove a release from the movement history (Chapter 10, section 10.7), you must also remove the unwanted exit date on the caseload history screen as well. In this example, we deleted the release movement to discharge on 1-11-2000.

CMS294I	Corrections Information Systems (TEST)	17:47:59
CUMMINSL	W/W Caseload History by Offender	5/31/00
ID Number..... 1234567 TEST, Offender		
Location..... MTCB Multnomah CBC/Casebank Office		
Primary caseload.		
Enter option...		
2=Edit 4=Delete 5=Display		
Opt	Caseload Loc	Entry Date Exit Date Status
		To create entry
3222	MTCB	11/23/1999 1/11/2000 PR
3661	MTSW	3/06/1998 11/23/1999 PR
4825	MTDC	1/22/1998 3/06/1998 PR
4008	MTDC	1/12/1998 1/22/1998 PR
Bottom		
F3=Exit	F5=Refresh	F6=Create F11=Menu
F12=Cancel	F15=Secondary caseloads	

Please notice the “Primary caseload” field is blank at this point. Removing the “Exit Date” causes the previous caseload number to become the current primary caseload number. This is important for accurate caseload statistics.

To remove the 1/11/2000 “Exit Date”, place your cursor on the date and clear the field by using the field exit key or the space bar, and press <Enter>.

Offender Profile System (OPS) Training Manual

```

CMS294I                      Corrections Information Systems (TEST)          17:50:07

```

The “Exit Date” corresponding to the previous entry date must also be removed. Please note the “Primary caseload” field is blank at this point. Removing the “Exit Date” causes the previous caseload number to become the current primary caseload number. This is important for accurate caseload statistics.

If another agency has added an offender as a secondary to their caseload, please do not remove that. If you have concerns about why someone has added your offender as a secondary to their caseload, please contact the caseload owner.

OPS CHAPTER 12 – Miscellaneous Data Entry

12.1 CHANGING SID NUMBERS (from block to SID or wrong/discontinued SID to correct/current SID)

Step 1 - From the CC Support Menu, type a '19' on the selection line (ID#/Caseload Maintenance), press enter.

CCSUPPORT	Corrections Information Systems	11:18:33
MCCARTHY	CC Support Menu	8/24/05
Select one of the following:		
13. W/W Sanctions		
14. Offender Remarks (old CF9)		
15. PSI Menu		
16. W/W Supervision Fees		
17. Kardex/Face Sheet Print Option		
18. Employee Maintenance Changes		
19. ID#/Caseload Maintenance		
20. W/W Red Tags		
21. W/W Housing History		
22. W/W Caseloads		
23. CC Reports Menu		
24. Office Calendar		
		More...
Selection: 	Job:	
F3=Exit F4=Prompt F10=Move to top F11=Menu bar F12=Previous menu		

Step 2 - This will take you to the 'ID#/Caseload Maintenance' Screen. Type a '1' on the selection line (Change ID #), press enter.

CCSIDCASEL	Corrections Information Systems	11:21:06
MCCARTHY	ID#/Caseload Maintenance	8/24/05
Select one of the following:		
1. Change ID#		
2. Multiple Caseload Changes		
80. Return to regional menu		
90. End pass through		
		Bottom
Selection: 	Job:	
F3=Exit F4=Prompt F10=Move to top F11=Menu bar F12=Previous menu		

Step 3 - This will take you to the 'Offender Data Change Utility' Screen. Type in the AOS's block number or use the F4=Prompt to access the Offender Name Search screen, select offender and press enter, this will bring the AOS to screen.

Offender Profile System (OPS) Training Manual

OPS219I	Corrections Information Systems	9:20:54
BELLJU	Offender Data Change Utility	12/21/21
Offender..... 70400804 OFFENDER, TEST		
Location..... CLAC Clackamas County Community Correctio		
Status..... Discharge		
DOB..... 4/07/1964		
Enter data to be changed:		
ID Number/SID..... 12345678		
Admit Reason..... NEWCASE		
F3=Exit F4=Prompt F5=Refresh F11=Menu bar F12=Cancel		

Step 4 - At the highlighted 'ID Number/SID' field, type the new SID number over the existing block number and press enter. The ID number is now changed throughout CIS and the block number has automatically been added to the 'Other Numbers' screen.

OPS219I	Corrections Information Systems	9:22:29
BELLJU	Offender Data Change Utility	12/21/21
Offender..... 12345678 OFFENDER, TEST

Admit Reason..... NEWCASE		
F3=Exit F4=Prompt F5=Refresh F11=Menu bar F12=Cancel		
ID-NUMBER 70400804 CHANGED TO 12345678		

Step 5 – Take a screen shot and highlight or circle the message at the bottom and send to OISC Central Records right away.

NOTE: You will need to inform OISC of the change from Block to SID. Send the screen shot in an email to OISC@doc.oregon.gov providing both numbers and remember to include the AOS's name in the subject line.

Step 6 – Print new Kardex.

Step 7 – Go to LEDS to enter an EPR (refer to EPR Steps) on the offender.

12.2 OFFENSES, COPYING

Step1 – From the CC Support Menu, choose #5 CC Court Orders Process. On the first screen 'Work with Offenses', call the AOS to the screen either by SID or name search.

```

Put your cursor on the docket number line you want the conditions copied into and press enter three times to return to the w/w offense screen. You can now check the offense with an 8=conditions on the opt line to make sure the conditions including text are there.

NOTE: Please be careful when using this copy feature as conditions can vary from count to count and docket to docket. Remember the text attached to the condition will copy over as well. Carefully select only the conditions that apply to your new count/docket, rather than copy all conditions listed.

12.4 OFFENSES, RE-SEQUENCING

NOTE: Never resequence offenses of a person that has I lines without getting permission from OISC first.

Step 1 – From the CC Support Menu, choose #5 CC Court Orders Process. On the first screen 'Work with Offenses', call the AOS to the screen either by SID or name search. To see the option for re-sequencing offenses, press 'F24=More keys' (Shift F12).

```

Step 3 – To change the offense number you will need to type over the current offense number. If the offense number is currently being used, you will need to change that offense number first as the system does not allow us to have two offense numbers that are the same. After you have changed the offense numbers, press enter. In this example, first we change offenses 03 and 04 to 06 and 07 respectively.

12.6 MULTIPLE CASELOAD CHANGES

NOTE: This would be done if you were changing an entire caseload to another caseload, or if you are moving more than one offender from one caseload to another.

12.6.1 To Change Entire Caseload:

Step 1 – From the CC Support Menu, type a '19=ID#/Caseload Maintenance' on the selection line, press enter. This will take you to the 'ID#/Caseload Maintenance' menu.

```

CCSIDCASEL      Corrections Information Systems (TEST)      10:11:12
MCCARTHY        ID#/Caseload Maintenance                  9/14/05
Select one of the following:

  1. Change ID#
  2. Multiple Caseload Changes
  80. Return to regional menu
  90. End pass through

                                Bottom

Selection: 2                                Job:

F3=Exit    F4=Prompt    F10=Move to top    F11=Menu bar    F12=Previous menu

```

Step 2 – Put a '2=Multiple Caseload Changes' on the selection line and press enter, this will take you to the 'Multiple Caseload Change' screen. Fill in the current caseload number that you want to move AOSs from, press enter. Fill in the caseload number you want to move AOSs to, and then press 'F6=Entire Caseload'; or if you don't want to include absconded AOSs you would press 'F7=Entire Caseload w/o Absc'.

```

12.7 DUPLICATE DOCKET NUMBER WITH SAME COUNT NUMBERS

DO NOT CREATE DUPLICATE DOCKET AND COUNT NUMBER ENTRIES. If you think you need to create two offense lines with the same docket and count number, contact Judy Bell judy.a.bell@doc.oregon.gov for assistance.

12.8 AOS'S STATUS, TO CHANGE OR CORRECT

12.8.1 Legal Status Change – Higher to Lower Status: To be used when offenses added or closed.

Examples: Parole and/or Post Prison offenses are being closed to DISC or EXPI, and AOS still has active Probation offenses.

Once you close the Parole and/or Post Prison offense lines and have only open Probation lines remaining, the following message will appear at the bottom of the Work With Offenses screen: "Status does not match offenses. Correct offenses or F13=change status."

Use the F13=change status function. On the Auto Release and Admit window, enter the date/time the status change occurred (i.e., the date the Parole and/or Post Prison offenses closed), and press <Enter>. Do NOT use this window to "correct" the status.

NOTE: The RTP field on the EPR in LEDS may need to be modified after a status change has been completed; check conditions for possible changes as well. Go to LEDS and run a QLW to review the EPR.

12.8.2 Legal Status Change – Lower to Higher Status:

Use either the F13=change status function ~OR~ Release Process.

Examples: Changing status from LV to PA, PO, or PS. Changing status from SL to PA, PO, or PS. Changing status from PR to PA (new Compact Parole added to existing probation case).

Add the new “O” line (for Post Prison) or the new “I” line (for Compact Parole). The following message will appear at the bottom of the Work With Offenses screen: “Status does not match offenses. Correct offenses or F13=change status.”

To use F13 - Press F13=Change Status; on the Auto Release and Admit window, enter the date/time the status change occurred (i.e., the date the Parole and/or Post Prison offenses closed), and press <Enter>. Do NOT use this window to “correct” the status.

To use the Release Process: From the CC Support Menu choose #4 CC Release Process and call the offender to the screen. Verify that your offense data is correct and press <Enter> to move to the Offense Release screen. Fill in the following information:

Release date/time:	Sentence begin date for the new “O” line Or Compact begin date for Compact Parole line
Release type code:	POST, PARO, or POPA (whatever the new status will be)
Release to location:	your 4-letter county code

Press <Enter> to save data, then <Enter> again to go to the Movement History/Maintenance screen. You will see that both the Release and Admission to the new status has been completed. DO NOT use the Admission Process. If you have any problems with this process, check to make sure your offense data is correct.

NOTE: The RTP field on the EPR in LEDS may need to be modified after a status change has been completed; check conditions for possible changes as well. Go to LEDS and run a QLW to review the EPR.

12.8.3 Correcting the Status – Not a Legal Status Change:

Example: New AOS has been admitted to status PO and should have been PA or PS; Compact Parole has been admitted as Compact Probation.

Offender Profile System (OPS) Training Manual

Verify that all offense data is correct, then go to the Movement History/Maintenance screen.

12.8.4 If Status is Still Incorrect:

Email the DOC Help Desk at DOC.ServiceDesk@doc.oregon.gov and have a ticket submitted to CCSUN (remember to "cc" Michelle Mooney).

12.9 ABSCOND WARRANTS, HOW TO CHECK

Per OACCD 2004 abscond workgroup, absconders should have their records checked at least once every six months at a minimum to ensure the warrants are still valid and in LEDS.

Step 1 – From the CC Support Menu, type 23 on selection line (CC Report Menu) press enter, this will take you to the CC Reports Menu.

Step 2 – Type 4 on selection line (Total Office Reports) press enter, this will take you to the Total Office Reports menu.

Step 3 – Type 8 on selection line (Total Office Caseload Report), press enter. This will take you to the 'Total Office Caseload Report'.

Step 4 - Tab down to the 'Outcount Reason' field, type in ABSC. Tab down to the 'Print Now' field, type in 'Y' (to print now), press enter. Report will print showing all abscond offenders for your office. Press F3 three times to return to the CC Support Menu.

CMS588BP MCCARTHY	Corrections Information Systems Total Office Caseload Report	7:47:59 8/26/05

Type choices, press Enter.

Location. COMM Code, F4 to prompt

Sort Order. A A = Alphabetically, S = Supervision Level

Subset by:

OR use

Research Standard. . *NO *YES, *NO

Print now N Y = Now, N = Overnight

F4=Prompt F5=Refresh F12=Cancel Enter=Print

Step 5 – Go to LEDS and conduct a warrant search.

Step 6 – Check responses to see if warrant is still active. Make sure warrant coincides with the cases being supervised.

For probation only cases:

- If warrant is active, go to next AOS and repeat above steps.
- If warrant is not active, print LEDS response and check E-Court (see E-Court instructions).
- If warrant has been recalled or removed according to E-Court, print E-Court and request order from Court.

NOTE: For probation cases, if the record in E-Court shows warrant status, but there is no warrant in LEDS, contact the court to inquire about the discrepancy. On probation cases that have gone past their max date, if the court dismisses the Order to Show Cause and recalls the warrant, you can use that dismissal as the documentation needed to close the record to ABEX. You use the date of the Order to Show Cause dismissal order for the date of the ABEX closure.

For post-prison and parole cases:

- If warrant is active, go to next AOS and repeat above steps.
- If warrant is not active, print LEDS response and check with LSA or Board.
- If LSA or Board has recalled or quashed the warrant, request documentation and admit back from abscond status based on the date shown on your documentation that the warrant was recalled/quashed.

Step 7 – Make a note ([see section 12.14](#) on how to create a note) regarding your abscond verification search and results that the PO can accept into chronos. (county by county)

Step 8 – Check EPR and modify if needed

12.10 FELONY CONVICTIONS WITH MISDEMEANOR TREATMENT

There are currently three separate scenarios that involve felony convictions that are sentenced or treated as misdemeanors. The entry procedures are listed below:

12.10.1 Scenario #1 – FMP – at time of conviction

Conviction is for a felony with misdemeanor treatment at the time of sentencing. Use F6=Create to access the Docket & Offense Description screen. Enter the felony ORS number, change the Sent Guide field to “N” and change the Felony=Misdemeanor field from “N” (Normal Sentence) to “Y” (Felony Treated as Misdemeanor). Complete entry of remaining fields and press <Enter> to save. This will cause the sentence “Type” field to show as FMP (Felony is Misdemeanor), and the Offender Public Information screen will display crime class (CIs) as AM (A Misdemeanor). If appropriate, enter RTP field of EPR as ‘FMP’.

12.10.2 Scenario #2 – MFP – at successful completion

Conviction is for a felony with the condition that offender can request “misdemeanor treatment upon successful completion of probation” (MSDR). After the offense closure, if the AOS successfully completes probation AND a court order has been received reducing the felony conviction to a misdemeanor, the following steps should be completed:

Use Option 2=Change on the first line of the closed felony offense to access the Docket & Offense Description screen. Tab to the Felony=Misdemeanor field and change the default “N” setting to “C” (Successful Completion). This will cause the sentence “Type” field to change from FPR to MFP. The Offender Public Information screen will display crime class as AM (A Misdemeanor).

NOTE: EXPI, EARL, EDIS, BNPB, and DISC are the only offense termination codes which are considered “successful.”

When changing a felony to MFP on the W/W offense screen, if there are no other felonies on any cycle in CIS nor the AOS’s CCH, the DNA collection information should be removed from CIS. From the CC Support Menu, choose option #6-CC Support Data Entry/Update and navigate to the DNA screen, F11-3-Q. Use the space bar to clear out the collection date and location, then add the information to the comment field as to why it’s being removed.

NOTE: OSP forensics no longer needs to be notified when felony convictions are reduced to misdemeanors.

12.10.3 Scenario #3 – MFP – earned during the course of supervision

Conviction is for a felony and the AOS is supervised as such. If at some point during the supervision period, a court order is received stating the AOS has “earned misdemeanor treatment,” the following steps should be completed: Use Option 2=Change on the first line of the open felony offense to access the Docket & Offense Description screen. Tab to the Felony=Misdemeanor field and change the default “N” setting to “E” (Earned Misdemeanor). This will cause the sentence “Type” field to change from FPR to MFP (Misdemeanor was Felony), and the Offender Public Information screen will display crime class (CIs) as AM (A Misdemeanor). Users should always add an F8 note with the date of the “earned misdemeanor treatment” order, as there will be no other record of this date in CIS. If appropriate, modify RTP field of EPR to MPR. Felonies treated as a misdemeanor earned during the course of supervision do NOT qualify for EDIS.

12.11 INDICATING MISDEMEANORS AS SANCTIONABLE

Type SANC in the sanction field on docket entry of the Work with Court Orders screen if both the court and your county allow sanctioning. If the court allows sanctions on misdemeanors and your county policy does not, leave the sanction status field BLANK.

WHO THIS APPLIES TO: Any AOS convicted of one or more misdemeanors and sentenced to formal probation after November 1, 2000, and per your county policy. Court orders after this date do not need to specifically mention sanction status for sanctions to be allowed.

Counties can choose to not sanction misdemeanor offenses; therefore, counties may leave the sanction status field blank to indicate sanctioning is not allowed per their county policy. If you're not sure if the sanction status field is blank due to county policy or a data entry omission, check with convicting county community corrections agency to see if their court allows sanctioning on misdemeanors.

AOSs sentenced to misdemeanor probation prior to November 1, 2000, will not be retroactively subject to structured sanctions, unless the initial court order addresses structured sanctions or a probation violation hearing by the court is held and it is so ordered. Court orders prior to this date do need to specifically mention sanction status for sanctions to be allowed.

12.12 DESIGNATORS

The W/W Offender Designators program can be accessed using several methods:

1. On screens where the DESIGNATOR flag appears (e.g. Public Information Screen), place the cursor on the DESIGNATOR flag and press function key F4. This will take the user directly to the W/W Offender Designators screen.
2. Using Process Steps (F11, 3) from some processes.
3. Option 25 on Support Menu. (opt 28 for Support Multnomah Menu)

Definitions of function keys available on the W/W Offender Designators screen.

F16 = Show Detail

If an offender has more than one record entered for a particular designator, a "+" will display on the far-right side of the screen for that designator. When you press F16, the additional records for the designator will display.

F17 = Subset

To display discontinued designator records the user presses F17, which provides the subset selection screen. On the subset selection screen, the user changes the field titled, "Show Discontinued Designators?" from *NO to *YES.

12.13.1 NOTIFIER TYPE CODES & GUIDELINES

AGEN = Agency – can be entered in CIS by anyone.

DMV = Department of Motor Vehicles – OISC gets lists of AICs DMV wants to be notified on and enters them.

GOVR = Governor's Dignitary Protection Unit – OISC enters in CIS for all AICs who have petitioned the Governor's Office for pardons, clemency, or expungement of records. This notification is confidential and WILL NOT print the name and reason for the notifier on the facesheet. The Governor's Office will be notified thirty (30) days prior to the AIC's release from confinement.

STAT = Statutory – It was agreed that Fire Marshall and BM10 notifiers are required by statute and will appear as STAT type notifications. State Fire Marshall – OISC enters in CIS for all AICs who are currently serving convictions or have not yet completed their supervision for the crime(s) of Arson and/or Attempted Arson. This notice shall be sent ten (10) days prior to release or immediately following the escape of the AIC.

VIC1 = Board Victim – Can be created by Board staff only. An error message will appear "Not authorized to use Notify Type" if anyone else attempts to use. Counselors will be able to update the Notify Date and Comments field only. Community and other institution staff cannot update any of the fields. When enter is pressed, a window will appear with the warning message "OPS2791 Victim Sensitive Notice – Victim information is confidential and can be released ONLY to the victim. DO NOT SCREEN PRINT THIS INFORMATION.

VIC2 = Compact Victim Sensitive – can be created by Community Corrections staff only. An error message should appear "Not authorized to use Notify Type" if anyone else attempts to use. The Name and Reason fields will be filled automatically with "Compact Sensitive Victim Case" as the Name; and "Special Notification Required – See Compact Rule" as the Reason.

VIC3 = Community Victim – can be created by Community Corrections staff only. For use on Local Control and Probation offenders where victims are identified.

(historical) BM10 – The old 'M' notification type will be discontinued. BM10 notifications can still be entered manually under the new STAT type code, although the Board does the majority of notifications, and when they run the BM10 report that creates the notification letters, CIS writes the entries into the STAT type in the notification table currently.

NOTE: For all victim type records, a docket number does not have to be selected in the Docket number /County field, however a warning message will appear "Warning: Notify not assigned to Docket." The user may press the enter key to bypass entering the docket number.

Subset Selection Screen:

- Display Discontinued Notifiers: Only the open notifiers appear on the screen unless you change the subset “Display Discontinued Notifiers?” to ONLY or *ALL. ONLY will show only discontinued notifiers; *ALL will show both discontinued and open notifiers.
- Select Notify Type: If you want to subset to see only a specific notifier, you can type that code into the “Select Notify Type” field on the subset screen. Default is *ALL.

Notifiers can no longer be deleted by most staff. Only the Board can delete VIC1 records, and SUN staff can delete VIC2, VIC3, AGEN, DMV, GOVR and STAT notifiers if these records were entered in error.

If a notifier has been completed, do a 2=change on the notifier, then on the “Notify Data” screen, fill in the discontinued date.

12.14 OFFENDER NOTES IN CIS

The Offender Notes feature of CIS allows any user to convey information about an AOS to the PO who supervises that AOS by transferring the information directly into the AOS caseload yet allowing the PO to determine whether the message should become a chrono. The information is also accurate and dated and identifies the person creating the note. All you need is the name of the AOS to create the note.

The screenshot shows a terminal-style interface with a menu titled "Work Station Options". The menu is displayed over a background of a "Select one of" screen. The menu options are:

- T Add Offender Note (F4)
- W W/W To-Do List
- E User E-Mail Address and Phone
- Z PopUp Calendar
- L Command Line
- B Date Calculator

Below the menu, there is a "Bottom" label and a "More..." option. The background screen shows a list of options with numbers 1 through 12, and a "Selection:" field. At the bottom of the screen, there are function key definitions: F3=Exit, F4=Prompt, F10=Move to top, F11=Menu bar, and F12=Previous menu.

Work station Options (F11-2-T) displays the Add Offender Note Window. Touch the letter key (T) matching the letter next to ‘Add Offender Note (F4)’ to bring up the following screen:

Offender Profile System (OPS) Training Manual

F3=Exit	F4=Prompt	F10=Move to top	F11=Menu bar	F12=Previous menu

If the notes window is selected while you are displaying an Edit Offender Data or Chrono History screen, notes will automatically select the same offender and display his/her name on the note.

From any other screen, or if a different name is selected:

- 1) Type AOS name (Last, First,) and press enter (brings up name search screen), OR...<F4> Prompt to display Offender Name Search window and select the name you want.
- 2) TAB to the next field to move to the text entry area.
- 3) Type the text of your note. The window will expand as you type if needed. Press <enter> once, the note is saved, and the window will switch to "CHANGE" mode in the event you need to make any corrections or additions.
- 4) Press <Enter> a second time OR <F12> to exit the note window.

12.14.1 HOW TO READ AN OFFENDER NOTE:

1. Select option 22 from the Support Main Menu to access a caseload.
2. Do 2 for change on the opt line of the AOS on that caseload, hit enter
3. Press <F21> Notes to display the Offender Notes window.

Search the web for evidence of AOS’s death by using key phrases like “death notification for John Jones” or “obituary for John Jones.” Please remember obituaries published in the newspaper don’t qualify as death evidence, but obituaries published by funeral homes do qualify.

If your county wants to pay for a subscription to Genealogy.com, in order to search the SSN death index and obits searches, you can do that, but (a) it costs money, (b) you cannot do that as “a business” but must create a “personal” account, (c) SSN death index has a three-year delay providing information.

If you find some evidence that an AOS passed away in a particular state, you can submit a vital records request to the appropriate agency for that state. Some states will be vital records division, some may be health authority, etc. Some states will give you a number of free requests each month, some states may require a fee for this search.

Beginning approximately February 2023 DOC will receive a comparison file from Oregon Health Authority Vital Statistics division highlighting AOSs who have died in Oregon. Your agency must confirm the identity with due diligence (LEDS, DMV, CIS,

etc.) to ensure the SSN in CIS is correct to the deceased offender. This can be used to close offender files to DIED.

If closing a felony file to DIED send appropriate documents to OISC, as you would any other closure. Files are to be maintained for the required retention period.

12.19 TIPS & TRICKS

12.19.1 How to find another employee's e-mail address, phone number and extension throughout the state in CIS:

- From anywhere in CIS, press F11-2-E (User E-mail Address and Phone), this will bring up the 'User E-mail Address and Work Phone Number' screen.
- On the "Position to" line, enter the user's profile name, if known, press enter, this will bring you to that user's information.
- If the user's profile name isn't known, enter the last name of the employee you are looking for, press enter and this will get you to all employees with the same last name and then you will need to find the correct employee by paging up or down.
- To see the e-mail address, put a '5' on the 'option' line and press enter. This will take you to the 'Maintain Work Phone' screen where you can view the users e-mail address.
- Another useful function to use is the 'F17=subset', this will bring you to a screen where you can subset by location. Enter the 4-digit county code in the location field, press enter to bring up the desired county user's list, or press 'F4=prompt' for a list of all locations.
- If you see the phone number or user type isn't correct, your agency can modify these two fields. Counties can only change the phone number and user type. For changes to the email address, please contact the DOC service desk.

12.19.2 How to use the Navigation Bar: While in any process of CIS you can use the navigation bar function by pressing F11. This displays the five selections available at the top of the screen (1) Active Jobs; (2) WS (Work Station) Options; (3) Process Step; (4) Info Windows; and (5) CIS_Web_Serve. Typing the number selects that option (do not hit the enter key). A window containing the choices available within that option will then appear. These choices are identified by letters (letter keys will vary by task, when available), and are selected by typing the appropriate letter on the selection line (DO NOT USE ENTER – as pressing enter after your selection will advance to the next screen).

NOTE: A Menu Bar option is available only when it is highlighted.

12.19.3 What goes in the Offender Remarks Screen: Suggested community entries: all investigation and notification assignments; file movement between offices; archiving information and retrieval of archived file; file destruction notices; file acceptance information; and date of entry, your initials and office location. Any

community entry into the Offender Remarks screen is a county-by-county decision. Institution uses Offender Remarks for their purposes as well.

12.19.4 How to Change Judge's Name to LC Authority or BOPPPS:

This practice is no longer in use as of December 2023. Per OISC this is not an appropriate practice and after discussions within SOON, FAUG, etc, it was decided that the Judge's Name field is to remain the sentencing judge who put the AOS on formal supervision for that case.

12.19.5 How to Recognize a Conditional Discharge Order and a Conditional Discharge Revoke Order:

The title of the order may say Pleading and Conditional Discharge Order, Probation Agreement; or in the body of the order, it may state that the Court finds that a conditional discharge pursuant to ORS 475.245 is warranted, which means that if the AOS successfully completes the probationary period, the charge will be dismissed.

The order to revoke a conditional discharge might be titled Revocation, Judgment of Conviction and Sentencing Order or in the body of the order it will state that the defendant's conditional discharge heretofore granted shall be and is hereby revoked and the defendant is sentenced to a probationary term of however many months and is placed on probation to the Community Corrections Office upon the terms and conditions set forth.

While you may see a revocation order on the conditional discharge and it sentenced to probation, you should also receive a Uniform Criminal Judgment (UCJ) for the probation sentence. This may or may not be true when a conditional discharge is revoked, and LC is imposed with PPS. This is a county court decision. Don't let a new UCJ ordering probation trick you into thinking it's a whole new offense when it's just the conditional discharge now being convicted and sentenced to probation.

When you get an order revoking a conditional discharge and sentencing to probation, you close the FCD line to CONV and open a new probation line for the same offense. You will also need to add the convicted date to the docket.

When you get an order revoking a conditional discharge and sentencing to LC with PPS, you close the FCD line to VIOL and open an L line for the same offense. (and subsequently close the L to POST and open an O line). Please also remember to add the conviction date in the docket on these.

When you get an order revoking a conditional discharge and sentencing to straight jail, close the FCD to RTNS, and MCD to CRTR.

Revoked and transferred to bench – use RTNS for felony or CRTR for misdemeanors – do NOT add a probation line if it is revoked to bench probation

12.19.6 How to get a release date for an AIC in a federal prison:

Go to your internet access, type in www.bop.gov and press enter. This will open the Federal Bureau of Prisons website. Click on “inmate” information, type in the name of the AIC and press enter. This will bring up the information on this AIC if they are in a federal prison. It is possible that an AIC was sentenced to federal prison, but does not show up on the BOP locator – one reason for this is if the prison term is relatively short and/or they’ve served a lot of it in federal holding, they may remain in the federal holding facility to finish serving their sentence. To obtain a sentencing order and confirm release date, you can email GRA-DSC-TeamQuebec-S@bop.gov and request this information.

12.19.7 Cleaning up expired probation offenses after an AOS has been released from the institution or local control jail sentence:

When an AOS has been released from an institution or a local control jail sentence you will need to check the Work with Offenses Screen. If you find any offenses that are past their max date, check the file and eCourt to make sure there were no orders to extend, revoke, etc. If there are no orders, go ahead and close the offenses, print/view the kardex and check LEDS for entry/modifications that may be needed.

12.19.8 DMV ID NUMBER:

If the AOS has an Oregon driver license or DMV issued ID card, enter that information including state and year of expiration on the descriptors screen. If the driver license is expired, enter 1900 in the expiration date field. If an AOS has an out-of-state driver license or DMV issued ID card, enter that information on the other numbers screen.

12.19.9 Delete an offense first before backing out an admission.

12.19.10 Kardex ‘From’ Field Explanation:

This field has nothing to do with where an AOS is sentenced, and very little to do with where an AOS is incarcerated. On offenses with multiple sentence lines, the program looks at the last “termination” date of the sentence and compares that with the location on the Movement History/Maintenance screen on that date.

Example: If offense 02 was terminated on 4/12/05 – Movement History shows they were released “From” LWSH on that date.

The ‘L’ line for offense 03 was terminated on 3/31/05 – Movement History shows they were released “From” LANE on that date.

The Kardex would show ‘From’ LWSH for offense 02 and ‘From’ LANE on offense 03.

12.19.11 Searching Specific County/Office for AOS on the Name Search Screen:

If you would like to search the Name Search Screen for an AOS and you know the AOS is being supervised or was previously supervised in a specific county/office, after entering the AOS's name (last, first middle), tab to the location field and type in the 4-letter county of that county/office, press enter. This will search just that county/office for that AOS.

12.20 VISOR INFORMATION

NOTE: VISOR was previously VINE. VISOR works the same as VINE and if someone had already registered with VINE they're account was transferred to VISOR.

What does VISOR stand for:

Victim Information System in ORegon

General information:

VISOR is a free and anonymous notification service that provides victims of crime two important features: information and notification. It is provided by the Oregon Department of Corrections and the Oregon Department of Justice, in cooperation with the Oregon Sheriffs' Association and the Oregon Youth Authority.

VISOR monitors the custody status of AICs in county jails, youth authority facilities, Oregon prisons, and individuals currently on parole/probation. Information is available 24 hours a day, 365 days a year. It is available in English and Spanish and a live operator is available to anyone calling the number for any reason.

NOTE: VISOR Q-Delta – If you plan on entering 30 or more closures in one batch, email Saydyie DeRosia (saydyie.l.derosia@doc.state.or.us). This will allow her to know why notifications for VISOR have stopped if a Q-Delta occurs.

Data Transfer Schedule:

County jails every 15 minutes, 24 hours a day, 7 days a week; Oregon prisons and Community Corrections 6 times a day, 7 days a week.

Who can register:

Anyone including crime victims and concerned citizens may register for notification.

How do they register:

Register online at: visor.oregon.gov
Email VISOR: visor@doc.oregon.gov

Leave a voicemail for VISOR: 888-749-8080

What information is needed to register:

You will need to provide:

- A telephone number or email address
- Search for the IIC you want to register for
- Choose a preferred notification delivery method

You may create an account in VISOR if you wish. Creating an account will allow you to choose how and when you receive notifications, it will allow you view recent notifications that were sent to you, allow you to change your personal information, and allow you to unregister.

You also have the option to remain anonymous when registering instead of creating an account.

Notification calls and patterns:

Calls will be made to a registered person(s) when one or more of the following occur:

- General Release – Normal
 - Release on Bond or Court Order– Normal
 - Schedule Release 1 – Advanced
 - Escape – Normal
 - Return to custody from escape – Non-Emergency Final
 - Death – Non-Emergency Delay Death
 - Transfer to known or unknown facility – Non-Emergency Delay Transfer
 - Work Release – Non-Emergency Final
 - Home Detention – Non-Emergency Final
 - Parole Hearing – Advanced
 - Probation Abscond, return from abscond, case terminated/discharged, case revoked, early discharge, transfer to another office, term extended, arrest – Non-Emergency Final
1. Normal - calls will be made every 30 minutes for 24 hours or until the call is confirmed.
 2. Advanced - calls will start 30 days prior to the expected date of event, every 30 minutes between 7:00 am – 9:00 pm for 48 hours or until the call is confirmed.
 3. Non-Emergency Final; Delay Death; Delay Transfer – calls will be made every 30 minutes between 7:00 am – 9:00 pm for 48 hours or until the call is confirmed.

How to confirm and stop calls:

By entering your PIN. Notification messages will be left on an answering machine, but call will continue every 2 hours for 24 to 48 hours, depending upon the calling pattern.

How to Search for information:

Callers will need to provide one or more of the following items:

- AIC/AOS Name
- AIC/AOS Number – SID
- JJIS Number for Oregon Youth Authority
- Race and Date of Birth for secondary search options when more than one offender has the same name.

Information provided when calling the VISOR service:

- Name of AIC/AOS
- AIC/AOS Number – SID
- Current AIC/AOS Custody Status
- Location of AIC/AOS – Institution Name or Community Corrections Location
- Scheduled Release Date (if known)
- Charges (not available for DOC AICs)
- Bail
- Probation Expiration Date (if known)

Additional Assistance:

ODOC – HQ
Victim Services
3723 Fairview Industrial Drive SE Suite 200
Salem, OR 97302
Phone: 855-691-6246
Email Us: VISOR@doc.oregon.gov

12.21 VINEWATCH

NOTE: VINEWATCH is no longer used as Oregon no longer uses VINE. All services are now through VISOR [VISOR \(oregon.gov\)](http://VISOR(oregon.gov))

12.22 CHANGING LEGAL NAME

NOTE: When you process a legal name or sex change – if the file has an “I” line send notification of the changes to DLaiclegalnamechanges@doc.oregon.gov . Do not change a person who is on leave because they are still DOC custody. When they are

released to PPS then you can change it. The DL includes OISC, The Board, the institutions, and the victim's advocates. We may also need to contact OSP CCH division but haven't gotten clarification yet. Also, possibly OSP Sex Offender Registry, but no answer yet.

If an AOS provides documentation (marriage/divorce decrees, legal name change orders from the court, birth certificate, social security card, etc.) of a legal name change that is materially different than their current court/legal name, you can change the court/legal name on their record in CIS.

Examples of materially different:

- ✓ John Brown vs. James Smith
- ✓ John Brown vs. James Brown
- ✓ John Brown vs. Susie Brown

Examples of NOT materially different:

- χ John Brown vs. Jonathon Brown
- χ Dan Brown vs. Daniel Brown

Please only change the court/legal name of AOSs at your agency. If you do receive acceptable documentation to change the name of an individual you do supervise, [follow the instructions in Chapter 2, Section 2.7](#).

12.23 CHANGING LEGAL SEX

NOTE: When you process a legal name or sex change – if the file has an “I” line send notification of the changes to DLaiclegalnamechanges@doc.oregon.gov . Do not change a person who is on leave because they are still DOC custody. When they are released to PPS then you can change it. The DL includes OISC, The Board, the institutions, and the victim's advocates. We may also need to contact OSP CCH division but haven't gotten clarification yet. Also, possibly OSP Sex Offender Registry, but no answer yet.

In support of normalization and humanization efforts, OACCD (in May 2021) has approved a new policy to allow AOSs to change their sex designation in CIS to that of their legal sex. The entry of legal sex in the sex field on the descriptors screen (or admission screen) can occur at admission or any time while on supervision if the AOS provides legal documentation (legal sex change order from the court, birth certificate, DMV or other government issued ID).

Please only change the sex designation of AOSs your agency supervises.

NOTE: the TAIC designator is available for those whose legal sex is different than the way the AOS identifies.

12.24 HOW TO CREATE A PSI FACESHEET AND GENERATE A PSI NUMBER

From the Support Menu, chose Option #15, the following screen opens. Select #1-PSI Referral to assign a PSI number.

```

10/18/21      DEPARTMENT OF CORRECTIONS      CD004I
13:10:31      PSI MENU

Select one of the following:

1.  PSI Referral
2.  PSI Assignment
3.  PSI Facesheet Entry
4.  Matrix Offenses
5.  Sentencing Guidelines Offenses
6.  PSI Summary/Print
7.  PSI Deletion
8.  PSI Inquiry
9.  BPST Maintenance
10. Change PSI Status

90. Signoff

Option:  __      PSI NO:  ____  __

CF2-Previous Screen      CF6-Work with Printer Functions
    
```

```

10/18/21      PSI REFERRAL      PS105I
13:34:23

SENTENCING GUIDELINES:
PSI NUMBER:  000000 - 00  =  BRANCH:  ____  PREVIOUS PSI TEXT TRANSFER
PSI DATE:    __ / __ / ____  DATE:
SID NUMBER:  ____  FORMAT:

NAME  L:  ____  F:  ____  M:  ____  T:  ____

ADDRESS:  STR NO:  ____  QUAD:  __  STREET:  ____
          CITY:  ____  STATE:  __  ZIP:  ____ - ____
          PO BOX:  ____  APT OR BLDG:  ____
DOB1:    __ / __ / ____  DOB2:    __ / __ / ____

CUSTODY:  ____

COURT REFERRAL DATE:  __ / __ / ____  DUE AT COURT:  __ / __ / ____
SENTENCE DATE:  __ / __ / ____

CF1-Menu      CF5-Clear
    
```

Sentencing Guidelines: enter 'Y' for Sentencing Guidelines, 'N' for Matrix and 'B' if it is both Matrix and Guidelines.

Branch: your county location

PSI Date: the day the PSI was done

SID Number: It is necessary to put in the SID number because that is what triggers the system to search for any other PSIs done under that SID number and will assign an '01' (or the next ascending number that is appropriate) to the PSI you are going to enter. If you don't have a SID number or if no PSI was ever done, the system assigns a new number with an '00' on the end.

Address: self-explanatory, however QUAD means SW, SE, NW, etc.

Custody: either 'in custody' or 'not in custody'

Court Referral Date: the date the court ordered a PSI to be done

Due at Court: the date (per office policy) that the PSI is to be turned into the court

Sentence Date: the date of sentencing

Once all information has been entered, hit 'enter' and the PSI system will automatically give you a PSI number at the top of the screen. Once that happens, hit F4 and it will take you to the next screen (this is the only time you hit F4). Enter the data requested. If there are more than one number of scars, marks and tattoos, there is a space beneath it to put a "plus" symbol. This will give you a drop-down screen which will allow for more of these entries. Remember to hit 'enter' when you are finished, this will return you to the descriptive data screen, then do another 'enter' to be certain it is recorded.

There are fields at the bottom of the screen requesting DPSST numbers for both the writer and supervisor.

After you complete the screen Custody, Detainer and Concerned Agencies, and 'enter', it will return you to the name screen where you will choose (across the bottom of the screen) whether you want Matrix or Guidelines offense screen. Suggestion: should you have a combination of both, enter the Matrix offenses first then the Guidelines.

When you choose the kind of offense you will be entering, it will take you to the drop-down screen where you enter the specific number of convictions (calculated by the PSI writer) and the PSI system will assign a criminal history scale. After that is calculated, do an F2 which will return you to the screen where you enter the ORS, Crime Severity, Court Number and DA Number. When you hit 'enter', the Criminal History Scale, Crime Severity and sentence range will appear.

If you have multiple crimes (more than 10) you will need to go back to the Set# on the upper left-hand corner of the screen and put a "2", then proceed to enter any other crimes.

When you are finished entering the data, look at the bottom of the screen and it will tell you what you need to do to exit the system. First F2 then F1 to go back to the main menu.

NOTE: F3 does not work as exit in the PSI module.

12.25 HOW TO ENTER VETERAN INFORMATION

This information can only be accessed while you are in the Offender Public Information Screen. Once there, hit F11 to access the navigation menu, option 4 (Info Windows), select D (Descriptions) and finally F16 (Social History). You can F4 on the Military branch field for a list of branch codes.

12.26 HOW TO READ CHRONOS WITHOUT ADDING AS A SECONDARY

From the admissions screen, type SID or F4 to find the offender.

F11-3-G will pull up the Information Remarks Screen.

From there, F11-4-C will let you see the chronos.

This is view only – cannot enter using this method.

12.27 HOW TO USE THE DATE CALCULATOR

NOTE: When using the date calculator, you need to add 1 day when using the “find difference” function and subtract 1 day when using the “find date” function.

Type F11/2/B

To find a date:

- Enter 1 (1=Find date) in the 'Operation' field.
- Enter the conviction date in the 'From date' field.
- Enter the length of sentence in the 'Years, Months or Days' ADD fields.
- Press enter.
- The expiration date will show in the 'To Date' field.

To find a difference:

- Enter 2 (2=Find difference) in the 'Operation' field
- Enter the conviction date in the 'From date' field.
- Put expiration date in 'To Date' field.
- Press enter.
- The length of sentence will show at the bottom of the calculator.

OPS CHAPTER 13 – Data Entry Requiring a SUN User

Sometimes there is a data entry problem that you just can't fix yourself. If you have exhausted all other sources (this manual and your fellow SOON reps), call upon SUN for assistance.

Email the DOC ServiceDesk DOC.ServiceDesk@doc.oregon.gov requesting a ticket to CCSUN with complete information. Please cc Judy Bell on all SUN ticket requests. judy.a.bell@doc.oregon.gov

- In the Subject Line: CCSUN TICKET, AOS Name and SID.
- In the body of the email include:
 - the name & SID number of the AOS,
 - the problem and what you've done to investigate and confirm the problem,
 - what the solution should be and all pertinent information needed to fully fix the problem
 - be sure the W/W Offenses screen tells the same story you want the Movement History Screen to tell, i.e. have the L sentence added, open up the Compact offense or the offense being returned from BNPB.
 - **BE SURE TO INCLUDE YOUR NAME, EMAIL ADDRESS, AND PHONE NUMBER** so the SUN user can contact you. The Service Desk will not forward your ticket to CCSUN without contact information
- Be sure you have completed any steps you are required to do *before* requesting the CCSUN ticket.

Example: I need to request a ticket for CCSUN to insert the LC movement prior to the institution admission on the following AOS.

Name: Abcde, Fghij

SID#: 01234567

Admission to Location: LMAR

Admission Date: 01/02/0304

Caseload: 8124

LC Conviction County: MARI

LC Supv Status Code: JAIL

Or

I need to request a ticket for CCSUN to return an AOS from Bench to Active Supervision. I have transferred offender to BNPB.

Name: Abcde, Fghij

SID#: 01234567

Transfer to Location: Coos

Transfer Date back to County Location: 01/02/0304

- **Do not send in more than one data fix per email.** If you have multiple fixes of the same type, i.e. from clean-up lists, please send each fix as a separate email. Be kind to your Super Users and spread the clean-up list fixes over multiple weeks.

You should receive an email from the Service Desk within 24 hours providing the PCM number. A SUN user should contact you by the end of the week at least notifying you that your ticket has been picked up by them. If you don't receive a PCM # notification email or hear from SUN, **DO NOT ENTER** another ticket; instead contact Judy Bell.

NOTE: If the problem involves fees, chronos, sanctions, warrants or release plans, do NOT request a ticket to CCSUN. For Fee issues contact your Fee Rep; PPO/ISIS menu issues (chronos, sanctions, warrants or release plans) contact your FAUG rep. If the Fee or FAUG Rep is unable to resolve, turn to Michelle Mooney (PO things) or Judy Bell (Fee things) at DOC.

The following sections involve both you as field user and CCSUN. Please review the appropriate section and complete your steps before contacting SUN.

13.1 DUPLICATE AOS RECORDS- MERGING/PURGING IN CIS

NOTE: Until further notice all requests for merge/purge or straight purge should be sent directly to Judy Bell at judy.a.bell@doc.oregon.gov Please do NOT send merge/purge tickets through the Service Desk until directed to do so.

- 1 – Please note this process may take a bit of time to complete because there is a bit of back and forth that occurs. Please also consider the PO will likely need to be involved to screen shot and re-enter PO data that will not merge through automation.
- 2 - Be sure the records are actually the same AOS – check LEDS by reviewing and comparing CCH, QWHD responses including EPR, NCIC, and DMV, comparing data points like FBI number, Social Security number, AKAs, height, weight, eye color, etc. Log into OIS and check for duplication via FBI, SSN, and name as well. If you have any questions if this is a duplicate pair, reach out to Judy Bell.
- 3 – Email Judy Bell at judy.a.bell@doc.oregon.gov and explain your request. Please provide names/SIDs or Block numbers of your duplicate pair and confirm with Judy which is the appropriate record to purge before printing the necessary screens. Include your email address and phone number.

DOC policy has historically been to copy all CIS data from the newer record to the oldest record. Currently the preference is to look for IN data and keep the record that contains such. There could be other occasions where it may be better to keep the newer record. See NOTE below on page 13-4. **NEVER DELETE DATA FROM THE RECORD BEING COPIED!**

- 4 - It is recommended that you move the AOS record that will ultimately be purged off the active PPO caseload. This will ensure that data is not being added to the record we are deleting during this process.
- 5 - Run the **Merge Record Report** (go to CC Reports menu #23, then Total Office Reports #4, then Merge Record Report #19) on the AOS to be purged. Please note that any items on the list with an asterisk (*) will be automatically or manually merged by Judy. All other data on all other screens will need to be manually re-entered by your agency.

Example of Merge Record Report. Note: * data is merged either through automation or manually by Judy.

SYS300I SHIPPEYT	Corrections Information Systems W/W Merge Records Report	14:21:30 9/15/16
Offender.. 12345678 Offender, Test		Status.. Probation
Location.. COOS Coos County Community Correcti		
Existing Records Summary Detail		
* Caseload History * CHRONO History * Conditions - County Inmate Movements - DNA Collection - Fee System Data * Movement History - Custody * Movement History - Admission * Movement History - Transfer * Movement History - Housing * Offender Court Orders		
		More...
NOTE: *(Asterisk) = Data will be auto merged by the system and/or manually		

- 6 - Open the record to be copied and print all the screens in the Admission Process that contain data. Use F10 print where available; screen shot all others. Don't forget sub-screens such as W/W Offenses, Notifiers, Detainers, Fees, etc. If you don't recognize a program listed on the report, please check with Judy, it may be institution data and she will work with OISCSUN to get all institution data copied over prior to the purge.
- 7- PO screens: Print (or have your PO print) all the screens in the programs used by your PO. Someone in your agency will have to re-enter the data into the record being kept. This may include all or some of the following:
 - Treatment Programs
 - SAT (UA) Log
 - Sex Offender Assessments
 - Warrant Requests by Offender or PO
 - Sanction Movements
 - Release Plans by Location, Caseload, or Offender

- Supervisor Warrant Review
- Supervisor SRF Review

NOTE: Chronos will transfer with automation at the last stage of the process.

- 8 - Do not copy any information into the kept record until after Judy completes her steps and you're instructed to do so below.
- 9 - Email Judy and let her know you are ready for her to do her steps. The following data will be merged with automation:
 - All Offense data (aka Offender Court Orders), including Inop data and F8 sentence notes.
 - All Conditions – active and expired.
 - Earned time data – for institution records.
 - F7 Remarks from the Movement History Maintenance screen.
 - Risk Assessments
 - Sanction Requests
 - Residential Address
 - Scars/Marks/Tattoos
 - Other NumbersMovement history and caseload history will be re-entered manually by Judy.
- 10 - Judy will contact you when the merge is complete. You, the PO, and the supervision fee person must then enter (from your screen shots) all other data into kept record that didn't merge with automation.
- 11 – Check the court name is accurate on the kept record, change if necessary. Check the previous court name(s) are labeled X.
- 12 - When all the re-entry of data has been completed by you, the PO, and the supervision fee person, contact Judy to let her know. Judy will re-assign the ticket to OISCSUN, who will merge chronos and complete the process. You will be notified when this is complete.
- 13 – If necessary, after you've been notified the process is complete, update the SID on the kept record.
- 14 – Check that the EPR has the accurate (kept) SID.

NOTE: For records that predate 1989 and have minimal information, it is often better to keep the newer record and make sure we are moving all pertinent information including any sentence notes.

For record pairs that have institution data on only one of the records, it's best to keep the record with the institution data and merge the other to it.

DO NOT DELETE data from the old record. When in doubt about merging from old to new or new to old, please contact Judy Bell before starting any process.

The OISC Super User will also be informing Central Records when records are being merged, as we are unable to purge any record without informing them first.

13.2 AOSS RETURNING TO SUPERVISION FROM NATURAL EXPIRATION (APPEAL RETURN), BENCH CLOSURE, CONDITIONAL DISCHARGE CLOSURE, COMPACT CLOSURE

The same process is used for the following four scenarios:

APPE: This process is used when an AOS's custody cycle was appropriately closed and now due to appeal and resentencing, is placed back on formal supervision for the same docket number(s).

BNPB: This process is used for returning an AOS to active supervision when the custody cycle was appropriately closed to BNPB and the court has ordered formal supervision on the same docket(s).

CONV: This process is used for returning an AOS to active supervision when their custody cycle involving conditional discharge was appropriately closed and now the court has ordered more formal supervision on the same docket number(s).

RCOM: This process is used when an incoming Compact AOS was previously returned to the sending state and their custody cycle appropriately closed and is now returning to Oregon on the same docket number(s). It is not to be used for investigations on new docket numbers.

If you have an incoming Compact investigation for cases previously supervised and the person remains in the sending state during investigation, please admit to IV status and wait until the transfer is accepted before requesting the cycles be merged to re-open the cycle the case numbers appear. In cases like this, the field user will not perform the steps below, but simply request the cycles be merged and the RCOM movement be added to represent the time not supervised.

NOTE: Pay close attention to the specific count(s) that are ordered back to formal supervision. The court may not be ordering all counts back to formal.

13.2.1 FIELD USER STEPS:

Step 1 - *PRINT THE MOVEMENT HISTORY SCREEN USING F10*

Printing the movement history screen allows you to have a reference of what the movement looks like before changes, so that if you make errors during changes, you have something for a Super User to help you restore the data, if needed.

Offender Profile System (OPS) Training Manual

Step 2 – Undo the last release by putting cursor on the last housing line, press 'F18=change data (Shift F6)',

Step 6 –E-mail the Service Desk with a request for a ticket to CCSUN for an AOS that needs to be reopened from Appeal return, Bench return, Conditional Discharge return, or Compact return [include AOS name, SID number and date AOS is to begin formal supervision again. Be sure to include your e-mail address and phone number so the SUN user will be able to contact you. SUN will do the following steps.

13.2.2 CCSUN STEPS:

Step 1 – Admit using APPE/BNPB/CONV/RCOM as ‘LOC’ and 6030/6050/6015/6000 as ‘Caseload #’ as of the transfer date.

Step 2 – Transfer back to field office location using date AOS is to begin formal supervision again.

Step 3 – The SUN user will e-mail or call you advising you that you can now admit the offender to your office.

13.2.3 FIELD USER STEPS

Step 1 - Admit the AOS using the exact same date and time as the release.

```

Step 4 – Have someone check to see if a new PSC is needed, as the most recently done score may now be falling in a different cycle/status due to the merging of cycles.

13.3 ADMITTING TO COUNTY LOCATION INSTEAD OF L LOCATION

When you have found that you admitted an AOS to your regular county location rather than your L location, and if the incorrect location is in any prior admission or custody cycle, you will need to enter a CCSUN ticket. If the incorrect location is in the most recent (open) admission cycle, you can make this change yourself.

13.4 INSERTION INTO MOVEMENT HISTORY/MAINTENANCE

There are times when movements need to be inserted into the Movement History/Maintenance. Examples include inserting a movement to Probation, Local Control, a return from Abscond, or even the full movement for an Abscond. These will require a CCSUN user to assist. When requesting a CCSUN ticket, be sure to provide all the information needed for the movement insertion, i.e., start date, end date, type of insertion (local control, return from abscond, abscond dates), and PO caseload, in addition to the name and SID number of the AOS.

Note: When an AOS has been on Abscond and then picks up a Local Control sentence, the AOS needs to be admitted back to active supervision **before** the admission to Local Control. If the AOS has been admitted directly from ABSC to Local Control, the return from ABSC needs to be inserted.

When the movement insertion is complete, have someone check to see if a new PSC is needed, as the most recently done score may now be falling in a different cycle/status due to the movement insert.

13.5 ADDING AN ORS TO THE ORS TABLE

OISC (Offender Information and Sentence Computation) maintains the ORS Table in CIS. If the crime you need is not listed on the ORS table, send an email to the Service Desk and ask for a ticket to **OISCSUN**. Include the ORS #, description and crime class.

If the ORS you are looking for is 'Attempt to commit' you need to find out what crime the offender attempted to commit and look for that ORS # on the table. You can find the crime in the "Information" or other charging instrument (i.e. Indictment) in eCourt. Check with the JA or DA for assistance if you can't find it in eCourt documents. Once you have the crime's ORS number look on the ORS table for the crime and the Attempt. If that ORS is not on the table, send a request to the Service Desk for a ticket to OISCSUN. Be sure to include the actual ORS number, description and crime class and OISCSUN will add the ORS for the crime and the ORS with the 'X' extension which denotes the 'Attempt' version of the crime. (Example: Attempt to commit ORS 164.057 Theft I Aggravated (BF) is ORS 164.057X, Theft I Aggravated Attempt (CF).)

Offender Profile System (OPS) Training Manual

NOTE: NEVER use the Inchoate field for 'Attempt' crimes. Inchoate is only used for Solicitation and Conspiracy after selecting the ORS for actual crime, i.e., murder, theft, assault.

OPS CHAPTER 14 – Odd Scenarios

Though this manual has indeed covered almost every aspect of what and how to of our business practices, there will always be the data entry situation that requires a little creativity. As these odds and ends crop up, we will use this chapter as a place to store these scenarios and how the many creative minds that make up SOON set about adapting it to our programming. In most all cases when creative data entry has been used, an F8 Offense Note explaining the reason for the “creative” change is required.

NOTE: The intent of this section is not to promote that all the situations presented are appropriate business practice but is intended to answer the question of how to deal with a situation after it is happened.

Please keep in mind that every “odd scenario” that arises cannot go into this manual. If you come across an unusual data entry challenge that you can’t find the answer to in this manual, please consult the SOON group via the email distribution list.

14.1 Felony reduced to a Misdemeanor at time of sentencing

OPS Chapter 12.10 addresses the Felony treated as a Misdemeanor scenario, Felony to Misdemeanor treatment upon successful completion of Probation scenario, and Felony reduced to a Misdemeanor at some point during the probationary term scenarios.

There is often confusion when a court order is received, and the court has reduced the felony to a misdemeanor at the time of sentencing. Different counties’ courts use different language, so *be careful*.

If an order references ORS 161.570, that is a clear indication of FMP status (Felony treated as a misdemeanor) by definition of the ORS.

Some counties use the term reduced, but their intention is to have the felony be treated as a misdemeanor. Benton County is an example of this. The sentencing part of the order will only mention the felony ORS and the name of the felony crime, but say it is reduced to a misdemeanor. Because we are familiar with our court’s language and intent, we know this is FMP status.

If a court wants the felony charge reduced to a misdemeanor (not just treated as one) the language should be very clear and include the name and ORS of the felony, the language reduced to, and the name and ORS of the misdemeanor. When you find clear language like this, the crime is entered as a misdemeanor and there is no mention of it as being a felony in CIS, because the court has ordered it to be a misdemeanor from the start.

If the judgment language is vague, the court's intent is not clear, and you are not familiar with the language your court uses, check with the DA's office or court to be sure of their intent.

14.2 Conditional Discharge Revoked and Reduced to a Misdemeanor Probation

Step 1 – Close FCD line to CONV as of date of revocation order

Step 2 – Add P line (FPR) with the begin date of the probation order

Step 3 – Put a “2” on the offense line and change the Felony=Misdemeanor to Yes; this changes the sentence type to FMP

NOTE: Don't get confused by the term reduced here. Follow the same logic and direction offered in 14.1. Since you are working off the same docket entry, adding the CONV closure, and opening a new probation line - the original charge remains felony and turns into an FMP even though the judgment language may use the “reduced” term.

If the charge is reduced to a misdemeanor and revoked with no probation or local control, then on the offense line change the felony=misd to Y for yes and close the sentence line to CRTR.

14.3 AOS opting out of Drug Court or other treatment program that has no conviction

When an AOS opts out (or is removed by the court) from a specialty program, until the court further sentences the AOS (i.e., sentence to probation, terminate supervision, reinstate to the same or other program) there is no data entry.

14.4 Sanction End Date is greater than the Max Date

When an AOS has been given a sanction and the completion of that sanction exceeds their max date, CIS will not let you release the body of the record if there is a sanction movement with an end (completion) date that is later than the proper custody closure date. In a case like this you would close the sanction movement, offense line, and the body out to the original sentence expiration date. Have the PO chrono what happened. We don't want to hide the real sanction completion date, but we cannot have that movement date be later than the date to close the body. That is why a chrono outlining the true service dates of the sanction is important.

14.5 Sentence line shows L F??, P F??, or I F??

14.5.1 L F?? or P F??

Step 1 – Put a “2” on offense line.

Step 2 – Tab to Sent Guide, change to Y.

14.5.2 I F??

Some crimes (murder, ag murder, etc.,) must be classified as parole instead of post-prison, even if they are convicted after November 1989 (which is the cutoff date for Matrix cases that uses parole). Therefore, now these Sentence Guidelines cases will be parole instead of post-prison.

OISC will notify the SOON rep of the supervising county if they identify one of these records. OISC will make changes to the sentence, but the supervising agency will be the one to change the status. The status will need to be changed on the movement history screen, not using F13. [See instructions in the OPS manual, chapter 10, section 10.2.](#) Even though the status wasn't "entered in error" you will use this method to fix it.

Please note even after you do change the status, it will continue to give you the message that the status is wrong because it's not going to read the new parole line as parole because of SG=Y.

This won't change until the service request to address this is complete.

14.6 Expired offense conditions still showing on a kardex

Prior to July 1, 2003, our policy was to delete all conditions when a count was expired out, thereby removing them from the kardex. Since that time all conditions from a closed offense line closes to a subset file automatically. Occasionally an odd condition will show up on a kardex from an old offense. There are two ways to remove the orphan conditions. One, and the easiest, is to put an 8 for conditions on the offense line of the old offense and check to see if any conditions were overlooked and not deleted originally. Enter a 4 to delete and press enter. **If the case closed out prior to July 1, 2003 it is safe to delete the condition.** If the offense was closed after 2003 then simply remove the closure date and code to reopen the offense and then reclose; this will cause any orphan conditions to go to the subset table.

14.7 AOS on outcount IMMI, REVP, or INAC; a case expires, and status change is necessary - message on bottom of screen "status does not match offenses"

Step 1 – Go to Admissions and admit AOS back to active supervision.

Step 2 – Close the expired case.

Step 3 – Change status to reflect new status.

Step 4 – Release back to IMMI, REVP, or INAC outcount one minute later than admit time.

NOTE: It's possible this may happen with an AOS out to ABSC but will only be if warrants were not issued on all sentence types.

14.8 Compact probation case closed to COMP comes back as parole case.

After the RCOM movement is complete:

Step 1 – Admit to PA status

Step 2 – Leave FPRC line closed to COMP

Step 3 – Put a “7” on the docket line to add sentence

Step 4 – Add an “I” sentence with new parole sentence

14.9 AOS is a company rather than an individual

On the Offender Description Screen, enter sex as Male.

14.10 Probation ordered with partial consecutive term of probation

Step 1 – Enter offense with the “P” line showing the concurrent probation term. Only enter the duration of the concurrent term length. Track the expiration date of the concurrent portion.

Step 2 – When the max date on the concurrent portion is reached, enter a second docket line with the same court case and count number, same conviction date, but the begin date will be the max date of the first P line.

NOTE: The system will not let you enter two dockets with the same court case and count number; contact Judy Bell for a work around.

14.11 Bollinger Cases

- For crimes committed prior to 7/21/81, AICs can refuse parole and serve out the remainder of the Matrix sentence until the good time date. If they do refuse parole, their sentence will expire on the good time date. Sentence termination code = EXPI. If that is all the AOS has, the custody cycle will also close to EXPI. These should typically happen while the AIC is in an institution so will be handled by DOC.
- For crimes committed from 7/21/81 and prior to 9/20/85, the AIC can also refuse parole and serve out the remainder of the Matrix sentence until the good time date, but these AICs are subject to a 6-month period of “parole-like supervision” following their release from DOC. Sentence termination code = EXPI 6 months after the good time date. Again, if that is all the AOS has, the custody cycle will close to EXPI. This will usually happen while the AOS is on supervision in the

community so Community Corrections will handle the sentence and body closure.

- Essentially, these AOSs are serving out their sentences fully, less good time, so it is not an early closure. It is an expiration.

For your information, the closure code of REPA was for AICs with crime dates prior to 9/20/85 who refused parole but were not allowed to. After the Court decision in *Bollinger v. Board of Parole* was handed down, these AICs'/AOSs' sentences were updated to reflect the prior parole refusal. Here is what the Board's internal instruction says:

The BPPPS identified and if necessary, discharged from the relevant sentences, inmates who committed their crimes before September 20, 1985, who attempted to refuse parole, whose statutory good time dates on the sentences have passed, and who were either out on parole or were revoked back into DOC custody.

If an AIC was out on parole at the time the BPPPS discharged the AIC's Bollinger sentence, the PTA enters the BPPPS' discharge date as the termination date of the sentence and codes the termination as "REPA."

If an AIC was in DOC custody (parole violation) at the time the BPPPS discharged the AIC's Bollinger sentence and the inmate had no other DOC sentences, the PTA enters the date that the AIC physically releases from custody as the termination date of the Bollinger sentence and codes the termination as "REPA."

This closure code was used for those affected AICs/AOSs immediately following the Bollinger decision. PTAs handled all of these at the time which is why it is an Institution code, even if some of the AOSs were out on supervision when the closure happened. It is not a code that we would use now.

14.12 Felony Probation terminated, sentenced to jail, but no PPS ordered

Use the RTNS closure code when felony supervision is revoked and/or terminated with NO incarceration other than "straight jail" (OAR 213-005-0007). RTNS can also be used with felony conditional discharge and felony diversion. RTNS is not to be used when revoked and given local control incarceration with no PPS. If given Local Control with no PPS, close the sentence to VIOL, add the L line and close that to EXPI.

Examples to identify the sentence as straight jail or local control with no PPS:

Straight Jail phrases: Straight jail; County Jail; Jail per OAR 213-005-0007.

Local Control phrases: "incarceration," "remanded to the custody of the Local Supervisory Authority," mentions post-prison specifically not being imposed.

If the language on the order is vague, look for key words that lead you to understand it is a Local Control sentence. If there is no language to indicate the AOS is under the custody of the LSA, or no mention of post-prison, it is likely to be straight jail. Contact your DA's office when in doubt.

14.13 Probation extended in error; judgment issued later with earlier expiration date.

If you have a case where the court issues a judgment that spells out an expiration date that overrides a previous PV judgment extending probation, and if the judgment clearly spells out the desired expiration date – use the date of the most recent order as the expiration date. Be sure to include an F8 note to explain the discrepancy.

Example: Probation was extended with a PV judgment to 05/05/2014. The next PV judgment signed by a judge on 05/28/2014 indicates probation should not have been extended and orders probation expired as of 07/24/2013. Even though the P line was previously extended and shows a scheduled expiration of 05/05/2014, close the line to EXPI with a date of 07/24/2013. Remember to include a comprehensive F8 note.

14.14 Warrants – rescinded, lifted, quashed, etc.

Quashed warrants

When a warrant is “quashed” that means it is removed completely and any reference to it should also be removed because it acts as though the warrant was never issued. That is different from recalled because a “recalled” warrant does acknowledge that it was issued, but then taken back and removed. Quashed creates a scenario where one does NOT acknowledge the issuance and acts to pretend it was never issued. If an AOS has a warrant quashed, there would be no INOP time, no abscond movement, etc., because it's as though the warrant did not exist.

Withdrawn warrants

The Board uses the term “withdraw” to describe when a warrant request needs to be deleted or a warrant has already been issued but needs to be returned and destroyed. This can occur PRIOR to arrest on that warrant and INOP time is not applied.

Lifted warrants

The Board uses the term “lift” to describe when a warrant has been issued and served (the AOS was arrested on the warrant) and the PO needs the Board's hold on the AOS removed, for a variety of reasons. In these cases, INOP time is applied.

Rescinded and Recalled warrants

These are interchangeable terms that community agencies or courts may use to describe when a warrant has been issued, but for varying reasons is being cancelled. This can happen prior to or after arrest. It's usually used to describe probation and/or administrative warrants; therefore, the question of INOP does not apply. The history of the fact that the warrant was issued remains, as would any coinciding abscond movement. While less common, this language can also be used for local control warrants, in which case INOP is applied if the warrant has been served and then recalled/rescinded; and no INOP is applied if the warrant has been recalled/rescinded prior to any arrest.

Changes to the application of INOP on a recalled warrant occurred in 2021. The Board and LSA will allow INOP to be applied when a warrant is recalled prior to arrest under certain circumstances. Check with the PO to find out if INOP should be applied.

14.15 Line closure code CDPR explained

When an AOS picks up a probation sentence and a DOC incarceration sentence at the same time, and on that probation sentence the AOS receives "jail as a condition of probation," and does that jail time in the institution, the institution will close the P line with the temporary code CDPR (condition of probation) and add a J line. After that jail sentence has been served, the institution will remove the CDPR code from the P line and close their J line to EXPI. If the institution forgot to remove the CDPR code and you find it there when your AOS gets out of prison, you need to remove the code yourself, thus opening the P line back up to show as an active supervision sentence. If the expiration date for the probation sentence has passed, you should then close the P line to EXPI as of the probation's max date.

14.16 FDO case type=Dangerous Offender

The X line is the Dangerous Offender minimum sentence and the I line is the determinate sentence (usually 30 years); the two offenses are part of the same sentence.

OISC will not close the Dangerous Offender sentence (FDO I line) upon the AIC's release to PPS. Community Corrections will admit the AOS to the appropriate status but will not enter an O line. The "Work with Offenses" option will display the open I line as type FDO.

When an FDO sentence is completed, the appropriate user (the OISC caseload PTA if the AIC is incarcerated in DOC or Community Corrections staff if the AOS is on supervision) will close the determinate sentence using the termination code EXPI.

14.17 Offense with Missing* listed instead of case number

When you run across a case with an I line that does not have an offense number, but instead has Missing* listed, email the TPS DL at DLOISCTPSWORKERS-OISCTPSWORKERS@doc.oregon.gov

14.18 Adjusted inception release date

There are some situations where an AOS's PPS should have begun on a date in the past, often that is a date while they were still incarcerated. OISC will prepare an adjusted inception form for these cases. When we receive an adjusted inception form, we begin our O line with the adjusted inception release date. When the sentence length is added to the O line, the max date should match the Board Order PPS expiration date. On cases where there is an adjusted inception form, you can expect the I line to be closed to POST on a date that is different (later) than the date your O line begins. Example: I line closes to POST on 1-19-2022, but the adjusted inception release date is 06-2-2021. Therefore, your O line will begin 6-2-2021, which is earlier than the POST date of 1-19-2022.

The four scenarios where OISC will produce an adjusted inception form. (form is sent to the Board and other stakeholders)

- Immediate Release. This can happen for a variety of reasons: amended order, error in calculations, etc., in general because someone has been kept in custody for too long and the institution is just now being made aware of that. OISC will do new calculations and process the AIC as quickly as possible.
- Resentencing. This can happen when someone returns to DOC after an appeal and resentencing, and they are considered "time served" when they come back (resentenced). OISC will do new calculations based on the resentencing order and process the AIC as quickly as possible.
- Time Served at Intake. This is when a "new person" coming to DOC on a new conviction is already time served because of how much credits they got from sitting in a county jail, etc., and they are basically done by the time they are sentenced and transported to DOC. OISC will do calculations and process the AIC as quickly as possible.
- Language of judgment takes time calculations out of DOC hands. If the judgment says "deemed time served" or some other legal language that means DOC isn't eligible to do the time calculations, they will not. These AOSs do not return or show up to DOC at all but go straight to community. PPS will begin on the date of resentencing for these. On the form, OISC will leave the physical release date blank or write "not in custody."

14.19 Max Indeterminate Sentence

A max indeterminate sentence is one where the time incarcerated plus the time on PPS cannot exceed a set number of years. (A felony=20 years; B felony=10 years; C felony=5 years) When a person has a max indeterminate sentence, the Board will calculate their PPS expiration date using this formula:

$$\text{Total time allowed per statute} - \text{incarceration time} = \text{PPS length}$$

Examples of language on the sentencing order that would indicate a max indeterminate sentence: "PPS is 5 years minus time served." "Upon release from DOC custody, defendant shall serve the remainder of the sentence term imposed of 30 years as PPS."

The Board order can only list round numbers; you may have to adjust the length of PPS in CIS by adding days to make the max date in CIS match the expiration date on the PPS order. If the max date in CIS doesn't match the Board order and you are unsure of the reason, you can check with the Board by asking if this PPS is calculated based on a max indeterminate sentence. It is easy for them to verify.

- If it is, adjust the length of PPS by using a combination of days and months to arrive at the correct max date in CIS to match the Board order.
- If it is not and you are still stuck, contact Judy Bell for assistance.

14.19.1 Resentencing that includes a Max Indeterminate Sentence

Scenario: Incarceration sentence is resentenced (shortened) and PPS is ordered as "PPS is 5 years minus time served." The person has already served more than 5 years in DOC custody, so there is nothing left for PPS at all.

Answer: We would not add an O line; but have the institution close the "I" line to EXPI and add an F8 note that there is no PPS to serve since they served all 5 years (in this example) in custody.

14.20 Found out a case was to have come to your office for supervision but would have already expired.

Do not enter in CIS because you did not supervise.

OPS CHAPTER 15 – Local Control Data Entry

* * * * *

Please read the three introduction pages for an overview of concepts and terms before you begin. Also, please read the entire section that relates to the data entry you need to accomplish (probation revoked, new LC, etc.) before you begin your work.

* * * * *

These scenarios have been designed to assist you in the entry of data for some of the most common Local Control situations. For more information on policy issues for Local Control cases (aka SB1145, effective 01/01/1997, ORS 137.124), refer to the Local Supervisory Authority Manual, which can be found on the Networking Groups page under Other Miscellaneous Manuals.

Local Supervisory Authority (LSA) defined: LSA is the local corrections agency or official, designated in each county by that county's board of commissioners to operate community correction supervision services, custodial facilities, or both. (often the Sheriff's Office)

Local Control (LC) defined: For the purposes of data entry, a Local Control sentence is a felony conviction sentenced to 12 months or less of incarceration usually with a term of Post-Prison Supervision. A Local Control sentence is served under the jurisdiction and authority of the LSA unless it is concurrent or consecutive to DOC sentences, in which case it can be served in the institution. Local Control sentences can also be referred to as SB1145 and/or SB156, because of the Senate Bills that created the rules governing these sentences. The community corrections agency of the convicting county always does the data entry for Local Control sentences unless there is language included in the judgment that states sentences are consecutive to DOC sentences (explained in more detail later in the chapter).

County Inmate Movement defined: County Inmate Movement describes the data entry of where an offender is physically located in such as jail, inpatient treatment, work centers, or out in the community. For Local Control sentences an offender must serve all of his time under the LC status. Community Corrections will **NEVER** move someone to "Leave" (LV) status in CIS/DOC400 when they are serving Local Control time. The Local Control sentence can be served either at the jail or at the Community Corrections location ("housing movement"). If the offender leaves the jail and goes to inpatient treatment, a work center, or back into the community to finish serving their local control sentence (or one of many other possible "programs"), he remains on LC status, but his county inmate movement changes and possibly his housing movement (L to county location ~or~ county to L location). Don't be confused that if an offender is outside of the jail and serving their Local Control sentence in the community that their Local Control

sentence is complete. It may not be. They may be walking around the community with invisible bars, still serving their Local Control time. Only when your jail tells you that the offender is “sentence served” are they to move off the LC status and onto Post-Prison. Please note: A Local Control sentence can also be served in its entirety at the Community Corrections location. The location depends on who is the authority for the county inmate movement status.

Housing Movement defined: Housing Movement describes the data entry to reflect who has jurisdiction over the offender, which will always be the community corrections location (ex: BENT) ~or~ the L location (ex: LBEN) for local control offenders [or an institution location (ex: CCIC) for DOC inmates]. The jurisdiction (aka LSA authority) sometimes changes from the jail to the community corrections agency; therefore, inmate housing movement should change to reflect who has jurisdiction.

Screen prints with directions will walk you through the following scenarios: Felony Probation Revocation, Post-Prison and Parole Supervision Revocation, and New Felony Local Control Sentence(s).

The last section contains information on Less Common Sentencing Scenarios, Local Post-Prison (SB156), Central Records, Extraditions and the Old PPS Stop/Start Practice.

Release Plans and PPS orders: A Release Plan should be developed so a PPS Order can be created. If the offender is under the jurisdiction of the LSA, the Supervisory Authority (Community Corrections Office) for the county of conviction creates the Release Plan and PPS Order and forwards same to the supervising county. Although a policy has not been written or approved yet, it is common practice for the convicting county to confer and work with the supervising county to create only one PPS order. It is often easier to combine existing Post-Prison sentences with the new Post-Prison sentences at the time the new order is being prepared, rather than there being two orders that need to be combined later. Only one PPS order should exist at a time and should include all open PPS cases. Be sure to “complete” the release plan so that the next agency or institution who needs to prepare a release plan can do so.

If the offender is under the jurisdiction of the Parole Board, and receives a new local sentence or his probation revoked, the Board does NOT need a release plan. The Board does need a copy of the sentencing order (either new or PV judgment) and the release date (calculated by the jail which may include time served credits, work credits, and good time credits) for that local sentence. Please email the release date and sentencing order to: Orders.BOPPPS@doc.state.or.us. Email is the preferred method, but if you must fax, send to 503-373-7558.

If the offender is under the jurisdiction of the Parole Board and his PPS or Parole is revoked, the Board DOES need a release plan. That release plan is generated by the supervising county and sent electronically to the Board, both in CIS/DOC400 with the send feature and via email to Orders.BOPPPS@doc.state.or.us. Email is the preferred method, but if you must fax, send to 503-373-7558. Be sure to “complete” the release

plan so that the next agency or institution who needs to prepare a release plan can do so.

For new Local Control sentences and probations revoked to Local Control, the Local Control data entry is done by the convicting county. For PPS or Parole revocation sentences, the data entry is done by the supervising county.

NOTE: If an offender is on abscond immediately prior to entering local control, YOU MUST RETURN FROM ABSCOND FIRST. If you are not the supervising county, please contact the supervising county immediately and request they return from abscond on the date the warrant was served, prior to your admitting to local control.

HOW TO READ BOARD TTY

Always use the exact information provided in the teletype to complete admission and sentence data entry.

Items circled in red are all you need to know to do the data entry correctly.

PAROLE
X POST-PRISON SUPERVISION
(CHECK THE SUPERVISION TYPE THAT APPLIES)

BY BOARD ACTION OF 06052015 OFFENDERS SUPERVISION HAS BEEN REVOKED AND 180 DAYS OF CUSTODY HAS BEEN ORDERED.

THIS IS YOUR AUTHORIZATION TO LODGE THE OFFENDER IN YOUR FACILITY UNTIL THE RE-RELEASE DATE OF 09112015. THE BOARD DOES NOT HAVE A HOLD ON THE OFFENDER AFTER THE RE-RELEASE DATE. PLEASE INSTRUCT THE OFFENDER TO REPORT TO THE LOCAL CORRECTIONS BRANCH OFFICE UPON RELEASE TO RESUME SUPERVISION.

PLEASE ADVISE THE BOARD IMMEDIATELY IF OFFENDER IS RELEASED PRIOR TO THE DESIGNATED RE-RELEASE DATE NOTED.

PAROLE OFFICER: PLEASE SUBMIT A SUPERVISION PLANNING FORM TO THE BOARD

S&D: 03122015 ARREST DATE: 03162015 INOP: 4

CREDIT FOR TIME SERVED DAYS: 81

SANCTION: REVOKE 180

RE-RELEASE DATE: 09112015

~INSTRUCTIONS BEGIN HERE FOR FELONY PROBATION REVOKED TO LOCAL CONTROL~

15.1 Felony Probation Revocation

All felony cases revoked to incarceration for one year or less after 1/1/1997 should be entered as Local Control. If the judge states “no post prison,” LC supervision is to be served and the local sentence closed to EXPI. On cases whose original sentence was not subject to sentencing guidelines, you would enter SG: N. Some felony cases (uncommon) can be sentenced to “straight jail” with no PPS; see pages 15.8.4 – these are not entered in CIS/DOC400 at all.

In addition, all felony probations sentenced prior to 11/1/1989 can be sentenced to local control. According to Bill Penny, “In reality, Matrix probation revokes should be sentenced to ODOC, but most get the 6 months or less revoke.” For these cases, “they are revoked and closed to ‘VIOL’, the L sentence is added, but it is not given PPS.”

NOTE: If you add a local control sentence to an existing Parole Board offender, don’t forget to notify the Board by sending the judgment sentencing the offender in to local control, and the release date. Please e-mail to Orders.BOPPPS@doc.state.or.us. If you must fax, send to 503-373-7558.

15.1.1 Admit to 'L' Location (Jail)

NOTE: Offender must have started his/her local control time before you can enter into CIS/DOC400. Sometimes this means entering the jail, sometimes it does not. The LSA must determine that the sentence has begun prior to doing the admission data entry in CIS/DOC400.

To begin, go to your Admissions process from your main menu. When admitting to Local Control, this process works much like the institution’s admission process, in that you do not have to release the offender from his previous status before you can admit him/her. The following screen is the first step in the Admissions process:

OPS225I	Corrections Information Systems	9:53:48
BELLJU	Community Corrections Admission	5/18/16

Offender.....	12345678 OFFENDER, TEST
DOB.....	9/08/1994 Sex: M Race: W
Current status.....	Probation
Last location.....	BENT
Release date/time.....	
Supervision level.....	MED

① Admission to location.	LLAN
② Admission date/time...	01011997
③ Caseload.....	6245
④ Post admission status.	LC
⑤ LC conviction county..	LANE
⑥ LC supv status code...	JAIL
Copy PSI data from....	SIDNO 00000000

This field defaults to your community location – be sure to change it to your L location if the offender starts his sentence in jail or under the jurisdiction of your jail

Offender Profile System (OPS) Training Manual

F3=Exit F4=Prompt F5=Refresh F6=New admission
F7=Current date/time F9=Retrieve F11=Menu bar F12=Cancel

Please note the field “Post Admission Status” no longer defaults to PR for Probation status. “LC Conviction County” and “LC Supv Status Code” are fields to be used only for offenders convicted and sentenced under SB1145. Most fields in the Admission screen are promptable with the F4 key if you do not know the correct code to enter.

- 1 Admission To Location:** If the offender starts Local Control time in a jail, this field must be changed to a location code beginning with “L” (all county Jail codes begin with “L”) that represents the actual physical location of the offender. In most cases this would be the ‘Supervisory Authority’ for the offense that received the Local Control sentence, but could be another county jail location if the offender is currently housed in a different jail and will be serving the local control sentence there; often this occurs when sentences are concurrent or when the offender is sitting in jail awaiting trial in that other county.

If your county rents jail beds from another county and the offender is in a rented bed that your county is paying for and your jail considers that offender to be an inmate in your jail (just out at a different location), then you do NOT put the offender in the actual L location, instead use your own L location. Funding is based on the L location of the offender in CIS/DOC400, so if you are paying for a rental bed, you want the funding; therefore, admit to your L location.

To decide whether you admit to an L location or a county location, you must determine who has jurisdiction over the offender at the time of admission and where/how the offender is serving the sentence. For example if your jail has jurisdiction over your work center, it would be appropriate to admit to the L location if the offender starts his local control sentence in your work center. If your county community corrections office has jurisdiction over any alternative county inmate program, like your work center, you will use your county location to admit. Every county is different; be sure to confirm who has jurisdiction to determine what location to admit.

In this example you admit the offender to the Lane County Jail because the offender was revoked on a Lane County probation and is physically housed in the Lane County Jail, thus you choose “LLAN.”

NOTE: There is an F4 prompt on the “Admission To Location” field. Once you get there, you will see only the “C” locations (the community corrections field office codes). You will need to tab to the “Type” field and change the “C” to an “L” to see the codes for the county Jails (those that begin with “L”).

- 2 Admission Date/Time:** This field must correspond with “Sentence Begin Date.” For instance, if the offender was sentenced on Friday, January 3, 1997, but the judge ordered him/her to report on Monday, January 6, 1997, to begin serving his/her sentence, then 01/06/97 would be the Admission Date. Remember, the offender must

have begun his sentence to admit, whether in jail or otherwise, as determined by the LSA.

- ③ **Caseload:** Use the caseload designated for Local Control for your office; this could be the caseload number of the Local Control PO in your office, or a specifically designated Local Control caseload number. It is recommended, although not mandatory, that you have a Local Control caseload that is tied to your L location. If you need help with this, please contact your office SOON rep.
- ④ **Post Admission Status:** When admitting to Local Control the code must be 'LC'
- ⑤ **LC Conviction County:** This field requires the County location code representing the Supervising Authority (county of current Local Control conviction).
- ⑥ **LC Supv Status Code:** This field represents the current status (aka inmate movement code), which is either Jail or one of the 'alternative incarceration programs' (AIP) of the Local Control Offender when he begins his Local Control sentence. In this case, the offender is currently at the Jail, and hasn't started an 'alternative incarceration program' yet. If the offender had gone immediately out on Work Crew without being booked in your jail first, it would be appropriate to admit using the code for that program, which can be found by using F4 in this field.

Now press <Enter> to process the admission.

15.1.2 Open 'L' Sentence

To begin, go to the Work with Offenses screen:

NOTE: Information about the sentence should come from the court order (conviction date, sentence begin date, sentence length) and the LSA/jail (time served credits).

- ① **Sentence Type:** Sentence type should automatically default to 'L'.
- ② **Begin Date:** Sentence begin date is the date the offender begins serving his time (date of sentencing or later), and should correspond with Admission Date. For instance, if the offender was sentenced on Friday, January 3, 1997, but the judge ordered him/her to report on Monday, January 6, 1997 to begin serving his/her sentence, then 01/06/97 would be the Begin date. This can be different than the VIOL date.

NOTE: Be careful! Jails sometimes misunderstand Begin Date and may give you Arrest Date as that is the date the offender 'Began' in their jail.
- ③ **Length:** Sentence length is the amount of time the judge sentences the offender to serve. For Local Control offenders, this would be 1 year or less. Enter as the order states whether that is in years, months, or days.
- ④ **Consecutive To:** If the sentence runs consecutive to another sentence, enter the offense # of the sentence it is consecutive to. However, this is not used in the sentence calculation. If you have a consecutive sentence, ask your LSA the "sentenced served" date on the first offense, and then use that completion date as the begin date for the next sentence (the consecutive one). Continue in this pattern for all consecutive sentences. Do all this consecutive sentence data entry at the time of admission and initial data entry. The max date on each may be different than the sentence served date since work time and good time are not input into CIS/DOC400. If you have a sentence

that is consecutive to a DOC sentence of more than 12 months, the data entry will be done by the institution (see 15.8 less common scenarios for more details).

- 5 Merge To:** If the sentence is merged with another sentence for purposes of sentencing; enter the offense # it is merged with.
- 6 Time Served Credits:** These are credits the offender earns for days spent in the jail prior to sentencing, and can include jail time ordered as a condition of probation as well as sanction time the offender served. The judge may choose to withhold these credits at sentencing, and if so, must include language to mean "No Credit For Time Served." Remember good time and work time credits are NOT entered here.

NOTE: Be careful! The jail's use of the term 'Time Served Credits' may include other types of time credits such as 'Good' time/'Statutory' time or 'Earned' time/'Work' time which the offender accrues AFTER he/she begins serving the sentence. Be sure that you specify you need ONLY those credits allowed prior to sentencing!

- 7 Maximum Date:** This date is the sum total of Begin Date, plus Length, minus Time Served Credits. The program automatically calculates this date. Your max date will often be different than the actual release (or sentence served) date because good time and work credits are not entered in CIS/DOC400.

Now press <Enter> to update the sentence.

```

```

Your local control sentence is entered as shown above.

* * * * *

The next two sets of instructions (15.1.3 and 15.1.4) are for slightly different scenarios.

15.1.3 is used when an offender changes their incarceration location (ex: JAIL to INTX) AND ALSO changes their admission (housing) location (ex: LBEN to BENT).

15.1.4 is used when an offender only changes their incarceration location (aka inmate movement) (ex: JAIL to INTX) but remains in their same housing location. To determine the housing location, you must determine who has jurisdiction over the offender. If the Jail continues to have jurisdiction over the offender when he moves to inpatient treatment or the work center, the housing location will remain in the L location. If the community corrections agency assumes jurisdiction when the offender changes physical location of incarceration, the housing location will change to the community location.

If the offender remains in the same jail for the duration of his Local Control sentence, 15.1.3 and 15.1.4 do not apply; you can skip to 15.2.

* * * * *

15.1.3 Supervision Status (aka county inmate movement) and Housing Movement changes while still on Local Control Status

Sometimes an offender does not serve his entire Local Control sentence in jail. Every time an offender leaves the jail and moves to an alternative incarceration program, supervision status (aka inmate movement) should reflect that change. This data entry should be done timely and reflect the actual location of the offender.

For example, if the offender goes out to an Inpatient Treatment facility a week after starting their local sentence, you will need to move them from JAIL status to INTX status. You need to determine who has jurisdiction (aka who is the LSA – Jail or Community Corrections?) when an offender is outside of the jail. Often the jail retains jurisdiction (remains LSA) until the Local sentence is served especially if they are going to a work center, etc.; sometimes jurisdiction shifts to the Community Corrections Agency. Knowing who has jurisdiction (who is the LSA) during supervision status movement determines whether or not the housing location needs to change as well (L or community).

In this set of data entry instructions, the offender is changing from the L location to the Community location (housing movement) as well as changing from JAIL to STND (supervision status aka inmate movement). When an offender stays on LC status, you do NOT do a release first, you simply do a new admission.

Go to the Community Corrections Admission screen in the Admissions process:

OPS225I BELLJU	Corrections Information Systems (TEST) Community Corrections Admission	10:44:23 5/18/16
Offender..... 12345678 OFFENDER, TEST		
DOB..... 8/13/1989 Sex: M Race: W		
Current status..... Local Control		
Last location..... LLAN		
Release date/time.....		
Supervision level..... HI		
①	Admission to location..	LANE
②	Admission date/time...	03011997
③	Caseload.....	6517
④	Post admission status..	LC
⑤	LC conviction county..	LANE
⑥	LC supv status code...	STND
Copy PSI data from.... SIDNO 00000000		
F3=Exit F4=Prompt F5=Refresh F6=New admission		
F7=Current date/time F9=Retrieve F11=Menu bar F12=Cancel		

- ① **Admission to Location:** This will be the community correction office's location code because the community corrections office will have control of the offender. [If the jail retains control of the offender, they will stay at the L location and you will use directions in 15.1.4 for supervision status movement.] (in this example 'LANE' for Lane County Community Corrections).
- ② **Admission Date/Time:** This would be the date the offender was released from the jail to another location to continue serving their local control sentence while the community corrections office has control of the offender. Enter date without slashes (/), the system will put them in when you hit enter.
- ③ **Caseload:** Caseload number of the assigned parole/probation officer or your local control caseload, depending on your county's practice.
- ④ **Post Admission Status:** This field MUST be LC to continue the offender on Local Control status.
- ⑤ **LC Conviction County:** This field will default to the county designated as County of Conviction entered when admitted to the jail location.
- ⑥ **LC Supv Status Code:** This code represents the current status, or 'program' of the offender when released from the jail to another location (for example a work center, inpatient treatment, or even just to be supervised in the community). In this example, the code 'STND' is used, meaning the offender is being supervised in the community, just like any other offender on supervision in your office. If the officer had immediately placed the offender on Day Reporting, it would be appropriate to use 'DAYR' as the code.

Now press <Enter> to process the admission. The record remains on LC status, but the Housing Movement location and the Supervision Status location have changed.

(See 15.17 for full County inmate movement codes)

15.1.4 County Inmate Movements (Supervision Status change) while still on Local Control

These instructions are for supervision status change only. This is for tracking supervision status of the Local Control offender while he is within a given location (either your L Location or your Community Location). This is the process to use for movement of any type of offender, whether they are Probation, Parole, or Post-Prison Supervision violators, or new commitments. If the offender is changing supervision status AND housing movement location, use step 15.1.3 above.

You will do this data entry on the w/w County Inmate Movements/Supv Status Codes screen. There are several ways to get to that screen. The easiest is to use F11-3-J from a variety of screens (housing movement history, w/w offenses, etc., – it works from a lot of different places) You can also access this screen by opening a process like Admissions, Release, Support Data Entry/Update and pressing enter through the screens until you reach this one.

In our data entry example below, we are moving an offender from STND supervision status to DAYR. This is within the community location. Remember, we are not changing housing location here, just the supervision status. Please do these types of movements in a timely matter so the record is reflective of where the offender actually is.

OPS154I	Corrections Information Systems (TEST)		11:01:30

NOTE: Notice how an admission to a 'status' automatically closes the previous one. Research has asked that these 'movements' remain continuous. For example, if the Day Reporting program was discontinued for an offender, move him back to STND. This will automatically close Day Reporting. Record these movements as many times as necessary and in a timely manner.

15.1.5 Completion of the Local Control Obligation (close 'L' sentence)

NOTE: Be careful! You need to be sure the offender really should be released to Post-Prison supervision. There has been a lot of confusion within Community Corrections and Institutions over this issue. Jails may release an offender at any time before their Local Control obligation has been completed, so be sure the jail 'release' date is the date the offender totally completed his/her sentence.

If the jail released the offender prior to the completion of their local control sentence, this creates 'dead time' between the release and when the offender can legally be on Post-Prison Supervision, which means they need to remain on LC status and change supervision status and maybe housing location, also (refer to Supervision Status and Housing Movement changes while still on Local Control Status above).

Also, for counties who contract back prison beds from DOC, releases from the institution do not necessarily mean the offender should be admitted on PPS. In all cases, check the sentence calculation to make sure the local control incarceration obligation has been completed and is considered "sentence served."

The offender has completed his Local Control obligation when the entire sentence has been served. Remember good time and work credits are not entered into CIS/DOC400,

so it's possible the Max Date shown is not the same as the date the offender is sentence served.

NOTE: It is okay to add the PPS (O) line prior to receiving the LC PPS order. This is not preferred, because it is easier to forget to follow up that you have received a PPS order, but could be necessary at times for many reasons. Remember – without an active running sentence line, you have no sentences showing on your public information screen, and no supervision fees running, etc.

*****All of this release data entry is done by the convicting county, regardless of what county the record will be released to.*****

To begin, go to the Work with Offenses screen in the CC Release Process.

Close "L" Sentence: Tab to the 'L' sentence line and enter 2=Change and press <Enter>. The following screen will appear:

```

OPS150I                      Corrections Information Systems (TEST)          13:14:41
MCCARTHY                      Sentence Data for Local Control      8/30/07
                                CHANGE

Offender..... 12345678      OFFENDER, TEST
Status..... Discharge      LANE
Offense/Sentence.... 02 002      Court Case..... 109104028B
Sentencing Guid.... Y      County..... LANE
ORS..... 154.225      BURG I      AF BURGLARY I

Sent type..... L
Begin date..... 1/01/1997
Length (ymd)..... 0 - 6 - 00
Consecutive to..... Merge to.....
Time served credits. 10      Inop time.....
Maximum date..... 6/20/1997      Inop (F4=W/W)..... 00000

Termination date.... 6/10/1997
Termination code.... POST
    
```

- Tab to Termination date and enter the date the local control obligation ends. This may be close to the max date, but will highly likely not be exact if the offender has

received good time or work credits. This may be very different than the date the PPS line begins. Each L line will close to POST at the time that each sentence is considered “served,” but ALL O lines that are served together in the same incarceration period begin on the same date.

- Tab to Termination code and enter ‘POST’.
- Press <Enter> to update the sentence and return to the main screen.

Note: In our example, the Max date of the Local Control sentence is 6/20/97, but the Termination date was entered as 6/10/97 because the offender received 10 days credit (other than the “time served” credit), which makes the Release Date 10 days sooner. Your release date may not (and probably won’t) match the max date in CIS/DOC400 because good time and work credits are not entered into CIS/DOC400, but do shorten the length of the sentence to be served. If you do not know the good time and work credit, use the max date shown as the POST date.

15.1.6 Releasing the Body to “LCMP” (Local CoMPlete)

Go to the Offender Release screen in the CC Release Process.

OPS270I	Corrections Information Systems (TEST)	11:17:49

```

- 1 **Sentence Type:** 'O' for Post-Prison.
- 2 **Begin Date:** Physical Release date found on PPS Order. All PPS begins on the same date, regardless of how many different local sentences ended at different times.
- 3 **Length:** This will be taken from the court order or the Order of Post-Prison Supervision.

Add conditions as explained in conditions chapter (18); check the EPR, adjust as needed and check the supervision fee account and bring balances forward as needed.

NOTE: Post-Prison supervision should be served for all Local Control offenders unless the court order specifically spells out no post-prison supervision will be imposed. If an order was received with no PPS time mentioned, and no specific language prohibiting the imposition of PPS time, inquire in writing to the judge about the status of PPS time, with a request to the D.A. to seek a modified order or follow your county's procedure regarding these types of occurrences. The Gaynor decision on April 3, 2000, upheld that if the judge orders no PPS or an incorrect amount of PPS at the time of sentencing, the Board cannot overrule that amount. The Board's policy is PPS time must be specified on the order. If it is determined there will not be a period of PPS Supervision, the offense would be closed to EXPI instead of POST.

The judge can also order "Straight Jail" which would not be entered into CIS/DOC400 at all. When seeking clarification from the DA/court, if you are unsure you may want to find out if it is local control with no PPS or "Straight Jail." See OPS 15.8.4 for more details. Please also be aware that Local Control (with no PPS) sentences are entered and FUNDED. Straight Jail is not entered and not funded.

Now press <Enter> to update the sentence.

```

~INSTRUCTIONS END HERE FOR FELONY PROBATION REVOKED TO LOCAL CONTROL~

~INSTRUCTIONS BEGIN HERE FOR NEW LOCAL CONTROL SENTENCES~

15.2 New Local Control Admission (may or may not be currently under supervision)

This could be a new admission (new cycle) or it could be a new Local Control sentence (meaning not a probation revocation) on an offender currently supervised.

From the Community Corrections Admission screen, look for the offender using the Name Search Method (press F4 in the name field and type in the name: last name first name no comma in between). If there is a **match**, put cursor on the offender's name and press enter. This will take you to Community Corrections Admission screen.

Example of admission screen with offender who is currently in the system:

OPS225I BELLJU	Corrections Information Systems Community Corrections Admission	10:14:06 4/27/16

LBEN use the correct date use your local control caseload number LC BENT JAIL* SIDNO 00000000	This defaults to your community location, change to your L location if the offender begins his sentence in jail or under the jurisdiction of your jail.
F3=Exit F4=Prompt F5=Refresh F6=New admission F7=Current date/time F9=Retrieve F11=Menu bar F12=Cancel		

Fill in fields to admit:

- ① **Admission to location:** defaults to community location; change to your L location or the location the offender is in jail. If you rent beds and your county considers the offender an inmate in your facility and is paying for a bed elsewhere, use your L location since funding is tied to the L location and you're paying to house the offender.
- ② **Admission date/time:** use the date that the offender starts his local control sentence. This may be different than the court order conviction date if the offender had his local control sentence deferred or delayed. Be sure the offender has started his sentence before admitting and use the correct date to reflect the date it actually starts. The offender may or may not start his Local Control sentence in your jail, depending on your county practice and the court order.

- ③ **Caseload:** Use the caseload designated for Local Control for your office; this could be the caseload number of the Local Control PO in your office, or a specifically designated Local Control caseload number. It is recommended, although not mandatory, that you have a Local Control caseload that is tied to your L location. If you need help with this, please contact your office SOON rep.
- ④ **Post admission status:** LC
- ⑤ **LC conviction county:** the convicting county enters the local control sentence, so this should be your county
- ⑥ **LC supv status code:** If the offender starts his local sentence in jail, use JAIL as the admission code. If the offender changes location later (even on the first day) you can change that later with the proper movement

Press <enter> to process admission

If the offender is **not** already in CIS/DOC400 on the first admission screen do an F6 to admit new, and you'll get this admission screen:

```

OPS226I                      Corrections Information Systems          10:27:52

F9=Retrieve   F11=Menu bar   F12=Cancel
    
```

Fill in fields on new Local Control admission, almost like any other new admission:

- ① **ID number:** Enter SID
- ② **Last name:** taken from the court order
- ③ **First/middle/title:** taken from the court order
- ④ **DOB:** Use format with no slashes: 01012005

- 5 **Sex:** M or F
- 6 **Race:** Choose from F4 options, or enter code if known
- 7 **Admit to location:** will default to your community location; change to your L location if the offender is starting his Local Control sentence in jail.
- 8 **Date/Time:** use the date and time the offender begins his local sentence. This might be different than the date on the court order. Sometimes the start of the sentence is deferred or delayed for a variety of reasons. Make sure the offender is either in custody or has otherwise begun his sentence according to the LSA.
- 9 **From county/state:** this is the convicting county. The convicting county is the agency who enters these new local control sentences; therefore, it should be your county's code
- 10 **Caseload:** use your local control caseload number or the caseload number per your county policy. It is recommended, although not mandatory, that you have a Local Control caseload that is tied to your L location. If you need help with this, please contact your office SOON rep.
- 11 **Admission status:** LC
- 12 **LC conviction county:** this is the convicting county again; same as above.
- 13 **LC supv status code:** use the code that represents the location/sup status the offender begins his Local Control sentence. This will likely be JAIL to start, but depending on your county and the practice of your LSA it may be something different.

Continue to work through the steps of the Admission Process, i.e. descriptive data, addresses, etc.

At the “Work with Offenses” Screen, you will use F20=Add Local Docket and will see the screen below.

NOTE: This is the same procedure as the Felony Probation Revocation Scenario except you must add a new docket (F20=new docket) instead of violating the “P” line. Information about the sentence should come from the court order (sentencing date, sentence begin date, sentence length) and the Jail (for time served credits).

OPS151I	Corrections Information Systems (TEST)	12:07:31
BELLJU	Add Sentence Data for Local Control	5/18/16
		CREATE

Inchoate/ORS.....		
⑧ Begin date.....	05/18/2016	⑨ Length (ymd)..... 0 - 3 - 0
⑩ Consecutive to.....		⑪ Merge to.....
Maximum date.....		
F3=Exit F4=Prompt F11=Menu bar F12=Cancel		

- ① **Docket #:** Enter the docket number here, taken from the court order including a slash (/) and the count number.
- ② **County:** Enter the four-letter code of the convicting county. The convicting county should be doing the data entry, so this should be your county code.
- ③ **Court count:** Enter the count number here again in two-digit form (01, 02, etc.)
- ④ **ORS number:** Press F4 and search for the correct number as stated on the court order.
- ⑤ **Sent Guide (Y/N):** This should always be yes because Local Control sentences are only entered if they are felonies and we’ve past the date of when sentencing guidelines began.
- ⑥ **Time Served Credits:** These are credits the offender earns for days spent in the jail prior to sentencing, and can include jail time ordered as a condition of probation as well as sanction time the offender served. The judge may choose to withhold these credits at sentencing, and if so, must include language to mean “No Credit For Time Served.” Remember good time and work time credits are NOT entered here.

- 7 Sentence Type:** L for Local Control.
- 8 Begin Date:** Sentence begin date is the date the offender begins serving his time (date of sentencing or later), and should correspond with Admission Date. For instance, if the offender was sentenced on May 5, 2016, but the judge ordered him to report on May 9, 2016, to begin serving his sentence, then 05/09/2016 would be the begin date. Your offender may or may not start his sentence in custody, depending on your county's practices. Be sure the begin date of the offense matches the admission date and that the offender did in fact begin his sentence on that date.
- 9 Length:** This information is taken from the court order and should be entered exactly as shown on the court order, whether that is in units of years, months, or days.
- 10 Consecutive To:** If the sentence runs consecutive to another sentence; enter the offense # of the sentence it is consecutive to. However, this is not used in the sentence calculation. If you have a consecutive sentence, ask your LSA the "sentenced served" date on the first offense, and then use that completion date as the begin date for the next sentence (the consecutive one). Continue in this pattern for all consecutive sentences. Do all this consecutive sentence data entry at the time of admission and initial data entry. The max date on each may be different than the sentence served date since work time and good time are not input into CIS/DOC400.
- 11 Merge To:** If the sentence is merged with another sentence for purposes of sentencing; enter the offense # it is merged with.

Press <enter> to process docket entry.

You must remember to go back into the docket from the Work with Offenses screen by putting a 2=Change on the docket line to add the rest of the docket information such as Sanction Status, Judge's name, Conviction date, etc.

Complete any additional data entry as needed similar to the instructions above for probations revoked to Local Control, including any inmate movements necessary, any housing movements necessary, and the release and admission data entry when the Local Control sentence is complete. Be sure to update the EPR when there is a new LC case and at the end of the process.

~INSTRUCTIONS END HERE FOR NEW LOCAL CONTROL SENTENCES~

~INSTRUCTIONS BEGIN HERE FOR PPS or PAROLE REVOCATION SENTENCES~

15.3 Post-Prison and Parole Supervision Revocation Sentences – Parole Board controlled offenders and/or Local Control controlled offenders

NOTE: These steps are followed when an offender's PPS (or Parole) Supervision is revoked and a sanction of one year or less is imposed. Most fields in the Admission screen are promptable with the F4 key if you do not know the correct code to enter. There are two different ORSs used for Post-Prison (144.108) and Parole (144.136); be sure to choose the correct one.

ALSO NOTE: All PPS revocation sentence data entry is done by the supervising county, regardless of the L location that the offender is serving the revocation sentence, including release back to the supervising county.

15.3.1 Admit to 'L' Location (Jail)

To begin, go to the Community Corrections Admission screen in the Admissions process. When admitting to Local Control, this process works much like the institution's admission process, in that you do not release the offender from his previous status before you admit him. The following screen is the first step in the Admissions process:

OPS225I BELLJU	Corrections Information Systems Community Corrections Admission	15:02:47 5/18/16
Offender..... 12345678 OFFENDER, TEST DOB..... 4/22/1969 Sex: M Race: W Current status..... Post Prison Last location..... LANE Release date/time..... Supervision level..... HI		
① Admission to location.	LLAN	
② Admission date/time...	01011997 0800	
③ Caseload.....	6145	
④ Post admission status.	LC	
⑤ LC conviction county..	LANE	
⑥ LC supv status code...	JAIL	
⑦ Copy PSI data from....	SIDNO	
F3=Exit F4=Prompt F5=Refresh F6=New admission F7=Current date/time F9=Retrieve F11=Menu bar F12=Cancel		

- ① Admission To Location:** If the offender started Local Control time in a jail, this field must be changed to a location code beginning with "L" (all county Jail codes begin with "L") and which represents the actual physical location of the offender. This will usually be the "L" location of the supervising county at the time of the revocation (also the Supervisory Authority). The L location may be different from the supervising county if the offender is currently housed in a different jail and will be serving the revocation

sentence there; sometimes this occurs when sentences are concurrent or when the offender is sitting in jail awaiting trial in that other county.

If your county rents jail beds from another county and the offender is in a rented bed that your county is paying for and your jail considers that offender to be an inmate in your jail (just out at a different location), then you do NOT put the offender in the actual L location, instead use your own L location. Funding is based on the L location of the offender in CIS/DOC400, so if you are paying for a rental bed, you want the funding; therefore, admit to your L location.

In this example you are admitting to the Lane County Jail because Lane County is the Supervisory Authority, and the offender is physically housed in the Lane County Jail, thus you are choosing “LLAN.”

NOTE: There is an F4 prompt on the “Admission To Location” field. Once you get there, you will see only the “C” locations (the community corrections field office codes). You will need to tab to the field and change the “C” to an “L” to see the codes for the county Jails (those that begin with “L”).

- ② **Admission Date/Time:** This will be the Board (or LSA) Action date (Board or Supervisory Authority Revocation/Decision date), which will be on the Teletype (TTY). (You may or may not find all needed information on the Board Action Form (BAF) received from the Board, so it's best to use the Teletype). The TTY should go to a designated printer in your office that may be tied to CIS/DOC400 printing or to your LEDS printer and the BAF will go via email either directly to the PO, or perhaps to the email group the Board has for your office. Be sure to find the TTY to do your data entry. You can ask the Board to resend it, if you can't find it but please check with the PO before you request a resend.
- ③ **Caseload:** Use the caseload designated for Local Control for your office; this could be the caseload number of the Local Control PO in your office, or a specifically designated Local Control caseload number. It is recommended, although not mandatory, that you have a Local Control caseload that is tied to your L location. If you need help with this, please contact your office SOON rep.
- ④ **Post Admission Status:** When admitting to Local Control the code must be 'LC.'
- ⑤ **LC Conviction County:** On PPS revocation cases, the Supervisory Authority is the supervising county at the time of revocation. Enter the County location code, not the “L” location.
- ⑥ **LC Supv Status Code:** This field represents the supervision status of the Local Control Offender. In this case, the offender is currently at the Jail. If the offender had gone immediately to a different supervision status, it would be appropriate to use the code for that secure program (REST, SCTX or WKRL). A secure program is one where an offender remains in the facility and does not go out to work or out to program. For

PPS and Parole revocation sentences, the offender can only serve his time in a “secure” facility and nowhere else.

7 Copy PSI Data from: Leave Blank.

Now press <Enter> to process the admission.

15.3.2 Open PPSVSANC sentence line

To begin, go to the Work with Offenses screen:

Length (ymd)..... 0 - 0 - 180 ④
Merge to.....

F3=Exit          F4=Prompt      F11=Menu bar      F12=Cancel
  
```

There are only four (4) fields to enter data into...easy!

Docket #: Leave this field blank. (Once you press <Enter>, the docket # will automatically fill in with PPSVSANC and will automatically number accordingly).

County: Leave this field blank. There can be numerous crimes from different counties in each 'set' of Post-Prison supervision.

Court Count: Leave this field blank for the same reason.

- 1 **ORS Number:** ORS number 144.108 must be used for Post-Prison and 144.346 for Parole. This field may also be prompted with the F4=Prompt. To find PPSV SANC, type in PPS and press <Enter>; to find PARO VIOL, type in PAR and press <Enter>.

Sent. Guide.: This field defaults to 'Y' and is the correct choice for Post-Prison revocations.

- 2 **Time Served Credit:** This would be the number of days between the arrest date and the Board/Supervisory Authority revocation/decision date, found on the T-type. Use the exact number of times served credits provided by the Board or the LSA.

For LSA-controlled cases: To calculate time served credit (amount of time back to arrest date) if the information is not on the LSA T-Type: Type F11, 2, B to go to the date calculator screen. Operation = 2 (find difference). From date = arrest date To date = Supv Authority action date. Enter the days into the TSC field of the sentence line of the sanction. This information should be provided to you by the LSA; unless you are the person responsible for creating the LSA revocation paperwork.

INOP Time: Leave this field blank on Parole Board jurisdiction. For Supervisory Authority jurisdiction: Go to each open "O" line, put in "2" to change. This brings up your "sentence data" screen. Tab to the right side of the screen to "Inop days" and do F4. The next screen should be W/W Inop/Institution & Community Corrections. Do F18 = Create Comm.Corr. The next screen should say "Maintain Community Corrections Inop Days. Go to Offense, do F4 (F4=List). This will pull up your offenses. For each "O" line, put in Start date (Arrest date) and Stop Date (Release date) and Reason is REVD. On Comments: type LSA Action date (from teletype). Repeat this for every open "O" line or use the copy feature.

Sentence Type: Automatically defaults to 'L' which is correct for Local Control.

- 3 **Begin Date:** This would be the Board or LSA revocation/decision date as identified by the Board or LSA T-Type (same as the admission to local control date). In this example we are using 1/1/1997. Enter date without slashes (/), the system will put them in when you hit enter.
- 4 **Length:** This would be the amount of days the Board or LSA states the offender is sanctioned to on the T-Type. This will usually be in 30, 60, 90, or 180 day increments.

Consecutive To: Leave this field blank.

Merge To: Leave this field blank.

Maximum Date: The date the Board or Supervisory Authority identifies as the Re-Release Date on the T-Type. The sentence calculation will be Sentence Begin Date (Board/Supervisory Authority Revocation/Decision date) + Length – Time Served Credit = Max Date (Re-Release Date). This date will calculate and auto fills when you hit enter.

Now press <Enter> to update the docket.

Status does not match offenses. Correct offenses or F13=change status. +					

IMPORTANT WARNING: *Physical Release Date:** Please note for Post-Prison Supervision (and Parole) revocation, the Board or LSA does not allow good time or work credits so the Max Date will be the Physical Release Date. If your jail is going to release the offender on a different date than the Board-calculated Max Date, **notify the Board immediately**. The Board will recalculate the offender's sentence length and REVO (INOP) time and your data entry will need to be changed. If this happens before the offender is released, you'll release directly out to PPS. If it does not happen before the offender is released, see data entry instructions below.

If there is no time to notify the Board in advance (or the Board does not make the changes in the system prior to the offender's release) and your offender has been released early, change the housing location from your L location to your county location and use the supervision status code MATX (for matrix release) and keep on LC status until the max date is reached. If the Board eventually changes the sentence length and

INOP days, you will need to change your data entry to match. If they do not, this movement will remain and reflect what has occurred.

NOTE: When the Board or LSA has imposed a revocation sentence to a Post-Prison Supervision case, the field is responsible to create and send the Release Plan electronically to the Parole Board or to the LSA. Also email the release plan to the Board to Orders.BOPPPS@doc.state.or.us, or if you must fax, send to 503-373-7558. The Board or LSA will create a new PPS order, which the offender will need to sign. LSA cases: follow your County's practice. Remember to "complete" the release plan in CIS/DOC400, so the next agency that needs to create a release plan can do so.

15.3.3 County Inmate Movements (moving the offender from one supervision status to another)

This is the same concept as mentioned earlier for other local control offenders who move their physical location during the course of serving their revocation sentence. Please refer to section 15.1.3 above for instructions. (see 15.17 for County Inmate Movement Codes)

NOTE: On those AIC;s the State Board or the LSA retains jurisdiction over, for a PPS Revo Sentence, there are only two status changes in this screen you may use. They are:

COUR (out to court): Used when an offender is moved to another jail to appear in court while serving his LC sentence.

DETA (out on detainer): Used when an offender is moved to another jail on a detainer while still serving your LC sentence.

The offender has completed his/her Local Control obligation when the Max Date has been reached, and should be released back to Post-Prison Supervision status. To begin, go to your Work with Offenses screen.

Per the Board's PPS Stop Policy, offenders on Post-Prison supervision as of 10/1/99, whose supervision is revoked and a revocation sentence is ordered shall have revocation time added back to the PPS sentence. The Parole Board will enter the INOP days on Board jurisdiction cases, and the Community Corrections Agency will enter the INOP days on LSA jurisdiction cases. The 'O' line will have a new expiration date.

NOTE: Be careful! You need to be sure the offender should be released back to Post-Prison supervision. There has been confusion within Community Corrections and Institutions over this issue. Jails may release an offender before their Local Control obligation is completed, even though PPS revocation offenders by Board rule must remain in custody. This may create some 'dead time' between the release and when the

offender can legally be returned to Post-Prison Supervision (refer to 'Admit to Community Corrections Location While Still on Local Control Status'). If the jail releases early, notify the Board as soon as possible; they may change the revocation sentence length and INOP to reflect what has really happened. In the meantime, use the MATR movement code, admit to your community location, and keep on LC status. Be sure to watch the record and if the Board does change the INOP time (and revocation length as shown in a new TTY) be sure to change the sentence length to match, which will change the max date. If the dates have been changed, close line to EXPI as of the new date and move to PPS using the adjusted date as well.

ALSO NOTE: Please remember ALL data entry for revocation sentences is done by the supervising county, including completing the sentence and releasing back to supervision.

```

F3=Exit      F4=Prompt  F5=Refresh    F11=Menu bar  F12=Cancel
  
```

Tab to Termination date and enter the date the local control obligation ends, this should match the max date. Enter date without slashes (/), the system will put them in when you hit enter. Tab to Termination code and enter 'EXPI'. Press <Enter> to update the sentence and return to the main screen. Because PPS revocation sentences do NOT receive good time or work credits the max date should always match the release date. This is different than new Local sentences or probation revoked to Local sentences.

Press <enter> again to get to the Offender Release screen. Now continue to Releasing the Body to "LCMP."

Note: Add closure of PPSVSANC lines to expire timely, regardless of where they are in custody.

15.3.5 Releasing the Body to "LCMP"

If the person is a current AIC, skip this step.

Here is the Offender Release screen in the CC Release Process.

OPS270I	Corrections Information Systems (TEST)	13:14:41
MCCARTHY	Offender Release	9/04/07

Release to location.	LANE	3
F3=Exit F4=Prompt F5=Refresh F7=Current date/time		
F9=Retrieve F11=Menu bar F12=Cancel		

- 1 **Release Date/Time:** This date should be the same as the PPSVSANC termination date. Enter date without slashes (/), the system will put them in when you hit enter.
- 2 **Release Type Code:** The code used must be 'LCMP' to denote the completion of the Local Control sentence.
- 3 **Release to Location:** This will be the Community Corrections office the offender will be supervised in.

Now press <Enter> to process the release.

15.3.6 Returning Offender to Post-Prison Supervision

NOTE: Re-admission to PPS will be completed by the Community Corrections Office that will be supervising the offender.

Go to the Community Corrections Admission screen in the Admission process to admit the offender to Post-Prison Supervision.

OPS225I	Corrections Information Systems (TEST)	13:23:18

		F12=Cancel

- ① **Admission to Location:** This would be your county code.
- ② **Admission Date/Time:** This would be the exact date/time as the Release date/time. Enter date without slashes (/), the system will put them in when you hit enter.
- ③ **Caseload:** Use the caseload number of the officer you are assigning to the case.
- ④ **Post Admission Status:** Use PO for Post-Prison offenders, PA for Parole offenders, and PS for Post/Parole offenders.

LC Conviction County: This field must be blank as the offender is no longer on Local Control status.

LC Supv Status Code: This field must be blank as the offender is no longer on Local Control status.

Now press <Enter> to process the admission.

PLEASE NOTE: offender status now changes from Local Control to Post-Prison (or what you otherwise designated upon admission).

ALSO NOTE: The offender 'returns' to supervision on the existing PPS sentence(s) he was originally revoked on. As of 10/1/99 revocation time is added back to the original sentence(s) (The Parole Board will enter the INOP if the offender is Board controlled or the Community Corrections Agency will enter this if the offender is LSA controlled). After INOP has been added, if any PPS sentences expired during incarceration, they should be closed to EXPI.

Update EPR if needed and check supervision fee account.

15.4 Parole Revocation (PAROVIOL)

This scenario will be treated like the Post-Prison Supervision violation above, with the exceptions of the ORS number used in adding the docket (which will be 144.346), and the sentencing guidelines indicator is 'N'. "I" lines on the corresponding dockets will remain open. When the offender completes his Local Control Obligation and is released to LCMP, he/she would need to be admitted to PA for Parole instead of PO for Post.

15.5 Parole and Post-Prison Revocation (PPSVSANC and PAROLVIOL)

This scenario will use both the PPSVSANC and PAROVIOL dockets as discussed in the Post-Prison Revocation Sanction and Parole Revocation Sanction scenarios. Both the "I" and "O" lines on the corresponding dockets will remain open. Use F20=Add Local to create both dockets. Use ORS number 144.108 for the PPSVSANC docket, and 144.346 for the PAROVIOL docket. When the Local Control obligation is finished and the offender is released to LCMP, admit him/her to PS for Post-Parole.

~INSTRUCTIONS END HERE FOR PPS or PAROLE REVOCATION SENTENCES~

~INSTRUCTIONS BEGIN HERE FOR ALL OTHER LOCAL CONTROL DATA ENTRY~

15.6 Contract Back

Contract back offenders are offenders for whom the county has contracted with Department of Corrections to rent institution bed space. They will be admitted by the institution and released back to the county. **This practice occurred mostly in the early days of SB1145 and is not as prevalent at the date of this revision.**

F3=Exit	F7=Remarks	F10=Print
F18=Change data	F20=W/W Movements	F21=Auto cycle/summary maintenance
		+

The release from the institution should use the code LOCL to the county's 'L' location (in this example LMUL) if the offender is still serving his/her Local Control obligation. The 'L' type sentence line(s) on the W/W Court Orders screen should remain open (as he/she has not gone on to Post-Prison Supervision yet).

If the offender has served his/her entire Local Control obligation, the institution would then use the code POST to the county corrections office location. The 'L' sentence line(s) on the W/W Court Orders screen would also be closed to POST.

NOTE: Some institutions have agreements with counties to release the offender back to the county jail location prior to the completion of the Local Control sentence, so these counties should not see Local Control Contract Back offenders released to POST to their county corrections office. If you feel the record is incorrect, call the institution that did the release, or OISC if past 30 days from release.

15.7 County Rental

If your county rents jail beds from another county and the offender is in a rented bed that your county is paying for and your jail considers that offender to be an inmate in your jail (just out at a different location), then you do NOT put the offender in the actual L location, instead use your own L location. Funding is based on the L location of the offender in CIS/DOC400, so if you are paying for a rental bed, you want the funding; therefore, admit to your L location.

15.8 Less Common Sentencing Scenarios

15.8.1 Sentences Run Consecutive and Concurrently:

The scenario: Lane County Court has sentenced Offender to one count of FDWS for 90 days, docket #209817499. The judge orders the first 60 days of the sentence to be served concurrently with a 6 month Deschutes County case, and the remaining 30 days to be served consecutively to the same Deschutes County case.

The solution: Enter one of the sentences, use option 3=Copy Offense to create the second docket/offense for the Lane County conviction, #209817499/01 and #209817499/01. Note that count number should remain the same so we can tell there was only one count! Start the sentence on the first docket (the consecutive one) on the end date of the sentence it is consecutive to. Start the sentence of the second docket (the concurrent one) on the date of the sentence it is concurrent to. Only add the PPS line to the longest running sentence (in this case the first docket/sentence), closing the other to EXPI. Use F8=Sentence Note to detail.

15.8.2 Sentenced to PPS With No Jail Time Imposed:

The scenario: Order is received by the Court sentencing an offender to the LSA to post-prison time with no jail sentence.

The solution: Per the Director of the Criminal Justice Commission, Phil Lemman, January 2000, the Commission writes the rules on sentencing guidelines. OAR 213-10-002 indicates that "For those offenders whose presumptive sentence was probation, the sentence upon revocation shall be to the supervisory authority for a term up to a maximum of six months." Mr. Lemman indicated that it appears that the Court could revoke and not impose a jail sanction. For data entry purposes, admit to LC, enter the 'L' sentence for a period of 1 day and close to POST on the same day. If the offender was booked and released day of conviction you can admit with the JAIL as the LC supv status code, if not admit using STND as the LC supv status code. Then admit to POST. This way there will be a record that he was local control. Also use F8 sentence notes to detail the history.

15.8.3 Felony Conditional Discharge Revoked to Local Control:

The scenario: The Court orders a revocation of a felony conditional discharge to the LSA instead of converting it to formal probation.

The solution: January 2000, ORS 475.245 says that, upon violation, the court may enter an adjudication of guilt and proceed as otherwise provided. There is nothing that would prevent the court from sentencing the FCD to the Supervisory Authority. Therefore, if the judge does revoke and sentence to the Supervisory Authority, that case goes directly to LC status, and per Sentencing Guidelines, will serve a period of PPS. For data entry purposes, this means you would follow the previously outlined Probation Revocation scenario and admit to Local Control.

15.8.4 Revoked Probations with no PPS Ordered:

137.550 of the Oregon Criminal Code definitely allows the judge the discretion to discharge, continue, or extend an offender while on felony probation. The Oregon Sentencing Guidelines Manual also states in OAR 213-05-010 that the 'sentencing judge may shorten or terminate a probationary sentence or transfer supervision to bench probation upon a finding that supervision is no longer necessary to accomplish the purposes of the imposed sentence'. However, the Oregon Sentencing Guidelines Manual also states in OAR 213-05-002 that 'A term of community supervision is part of the sentence for any felony offender who is sentenced to the legal and physical custody of the Department or to the supervisory authority. This term of community supervision shall be described as post-prison supervision. Departures on the duration of post-prison supervision shall not be allowed'.

For application purposes, what this means is that if a judge REVOKES and SENTENCES a felony probationer to DOC or the LSA, the offender SHOULD serve PPS. If no PPS is ordered, the procedure is to request an amended order prescribing the correct amount of post-prison supervision (OISC sends the request for sentences greater than one year; the LSA sends the request for sentences equal to or less than one year).

If the Court sends an amended order prescribing the length of PPS supervision, admit to POST and add the appropriate 'O' sentence. If the judge responds with a continued desire to REVOKE and SENTENCE the offender to DOC or Local Control, with no PPS to be served, admit the offender to LC (the institution will admit to IN), add the appropriate sentence, close the sentence to EXPI when it has been completed, and do not add an 'O' line. If no response is received from the Court, the offender will be admitted to Local Control, add the 'L' sentence, then close to EXPI. The State Board's policy is no PPS will be served unless so ordered on the Court order.

PLEASE NOTE: The Gaynor decision on 4/3/2000 mandates that the Board of Parole & Post-Prison Supervision comply with any amount of PPS time the Court ordered, whether it be an incorrect amount, or no PPS time at all. This decision has been forwarded to the Attorney General's office for verification as to whether or not this also applies to offenders sentenced under the jurisdiction of the LSA. Check with your county

counsel to see if Gaynor applies to cases under the jurisdiction of the LSA until it is made formal.

PLEASE ALSO NOTE: As previously mentioned, the judge may TERMINATE, CONTINUE, or EXTEND a felony probation at his/her discretion. One of the ways of stating this intent on an order could be something like ...find John Doe in violation...probation continued and ordered to 30 days in jail...probation to be terminated at completion...In this case, you would close the felony probation sentence to RTNS, with no admission to LC.

Felony offenses sentenced to “straight” jail time, not local control, and no post-prison supervision: The following OAR 213-005-0007 would apply and may or may not be on the judgment:

OAR 213-005-0007 Presumptive Probation Sentences

- (1) Except as provided by OAR 213-009-0001, or otherwise established by ORS 137.717 or 137.719, if the offense is classified in a grid block below the dispositional line, the presumptive sentence shall be:
 - (a) A term of probation which may include custody and conditions of supervision;*
 - or*
 - (b) Straight jail subject to the limits in OAR 213-005-0013.**
- (2) Each grid block below the dispositional line of the grid includes two components of a presumptive probationary sentence. The top number in each grid block is the number of sanction units that may be imposed as part of the presumptive probationary sentence. The bottom number in each grid block is the maximum number of sanction units that may be imposed as a jail term.*

There should be some language on the judgment that indicates it is a “straight jail” sentence, either the phrase “straight jail” or the OAR number above. If these are new sentences, they would not be entered in CIS/DOC400. If they are existing felony probation cases, they would be closed to RTNS. If a judgment is received where there is any question as to the Judge’s intention, follow your County policy for clarification.

15.8.5 Data Entry Responsibility for LC Cases With DOC Cases:

DOC is responsible for data entry of any conviction of 12 months or less (local control) that is sentenced at the same time to a conviction of more than 12 months (DOC), where one or the other is consecutive. In the case where the Local sentence, started prior to transportation to DOC, the county would enter the ‘L’ sentence, and upon receipt at the Intake Center, a Prison Term Analyst would close the ‘L’ sentence to INST, and open an ‘I’ sentence for the remainder of the time. In the case where a local sentence is concurrent to another local sentence that is consecutive to a DOC sentence, DOC would enter the data on all three, unless the local sentences began first as stated above. If a PTA from OISC calls and asks you to delete an L line that you’ve entered, do so; it is likely you entered it in error.

The County is responsible for data entry of any local case(s) that run concurrently with a DOC case(s) (the local sentence could begin prior to, or during the DOC sentence).

In addition, if the Institution admits your offender before you have done your LC data entry, and the offender served part of the LC sentence in your “L” location, a ticket would be submitted to the Help Desk for CCSUN to insert your local control admission to your “L” location, after you do your entry in the offense screen. CCSUN will notify OISC SUN of the work done. If the offender did not serve any part of the local control sentence in your “L” location, you would skip this step and simply add the “L” line to the offense screen.

If you are unsure as to whether or not you should enter a Local Control sentence when there are also DOC sentences, you can email the OISC TPS workers and send them a copy of the judgment and ask. They’re very helpful and can save a lot of time and confusion trying to figure out whether the community agency enters the sentence or not. If an error is made contact Help Desk for CCSUN to remove the movement to the L location.

15.8.6 Inmate Escapes

Inmate ‘Escapes’ Prior to Start of Local Control Sentence:

The scenario: Offender is sentenced to a Local Control sentence at some future date, but does not show up to serve it.

The solution: There has been confusion on how to enter ‘delayed’ sentences. The answer is you do not. The Court, the LSA or designee (check with your county) will request a warrant, and the offender is not added into CIS/DOC400 until he actually begins to serve the sentence. For data entry purposes, the admission to Local Control would not be done until the offender begins to serve the sentence. For probation revocations, use the original revocation date to close the ‘P’ sentence to VIOL.

Inmate Escapes from custody while serving Local Control Sentence:

The scenario: Offender escapes from custody while serving a local control sentence. This is closed in CIS/DOC400 to ESCA just like any other outcount (ABSC, etc.) – please refer to OPS manual chapter 8 for release instructions if needed. The EPR should also be modified to RTP/ABS. Upon the offender’s apprehension, the community agency will admit the offender back to the L location on the date the warrant was served and add INOP time to the L line, using the ESCA reason. INOP is calculated from the date the warrant was issued to the date the warrant was served. See Chapter 16 – Work with INOP for more information and instruction.

IMPORTANT NOTE: The data on the w/w housing movement screen will not automatically update the SB1145 housing line when you move an offender to ESCA. You will need to enter this manually, which can be done one of two ways: (1) by

accessing the county inmate movement screen by doing an F11-3-J from the housing movement screen; put a 2 on the line that should have a stop date/time but does not and enter the missing data. The stop date and time should match exactly to the start date and time of the ESCA movement. Check the w/w housing movement screen to see the data entered properly and do an F21. ~OR~ (2) from the w/w housing movement screen, put your cursor on the SB1145 line that did not close automatically and do an F18; on the screen that pops up (county inmate movement screen), enter the stop date and time, which must match exactly to the ESCA start date and time; press enter; check the w/w housing movement to see it took properly and do an F21.

15.8.7 Auto Revoke:

ORS 144.345 Revocation of parole; effect of conviction for crime. (1) Except as provided in subsection (2) of this section, whenever the State Board of Parole and Post-Prison Supervision considers an alleged parole violator and finds such person has violated one or more conditions of parole and evidence offered in mitigation does not excuse or justify the violation, the board may revoke parole.

(2) When a person released on parole or post-prison supervision is convicted of a crime and sentenced to a term of imprisonment at any institution of the Department of Corrections or its counterpart under the laws of the United States or any other state, such conviction and sentence shall automatically auto-revoke the person's parole or post-prison supervision as of the date of the sentence order. Notwithstanding any other provision of law, the person shall not be entitled to a hearing under ORS 144.343 and shall have a re-release date set as provided by rule.

DOC's interpretation of this statute is that a DOC prison sentence auto revokes any type of PPS (including PPS from a Local sentence); but that a Local Control sentence does not auto revoke any type of PPS. This is because statute clearly states the conviction that auto revokes the existing Parole/PPS results in a term of imprisonment at any DOC institution.

The scenario: How is a PPS or parole auto-revoke entered in CIS/DOC400?

The solution: There is no entry in CIS/DOC400 for an auto-revoked case.

The term "auto-revoke" in this scenario is basically an administrative term used by the Board and the DOC to indicate that the offender's PPS time will simply continue to run while they are incarcerated. When an offender becomes an inmate, they are under the control and authority of the institution and no longer under the authority of the Board (while incarcerated). If the PPS has expired while the offender is in prison, upon release from the institution and admission to your office, you can close that line(s) to EXPI. If the PPS is still running after release from the institution and admission to your community office, check to be sure it is included in the current Board PPS order and supervise the same as any other PPS line.

Admitting the Local Inmate to Local Control status when sentencing guidelines is entered as “N” rather than the correct entry of “Y”

The above screen illustrates what happens when a local inmate is admitted to local control status and "Sent Guide Y/N" is incorrectly entered as "N" when "Y" is the correct entry.

15.10 UNCOMMON SCENARIOS

Scenario: An offender is sentenced to a less than 12 month sentence that was ordered to run concurrent to another less than 12 month sentence that was ordered to run consecutive to an over 12 month sentence. Who enters the concurrent less than 12 month sentence?

Scenario: An offender is sentenced to local control and probation, months later the Judge stops the local control time and releases offender from jail due to a medical

condition. At the time of release the offender is advised to return to jail on a given date to resume his/her local control sentence.

Data Solution: You will keep the offender on LC status. Determine who will have authority over the inmate while he is out on medical leave. If it is the jail, then keep the offender in your L location and just do supervision status movements as described earlier in section 15.1.4 (F11-3-J choose MEDI status). If the community corrections agency will be responsible for the offender while on medical leave, then admit to your community location and change supv. status to MEDI, following the directions described above in 15.1.3. When the offender returns to JAIL from medical leave admit and change supv status as appropriate.

* * * * *

Scenario: An offender is sentenced in Oregon to incarceration, with PPS, consecutive to its own Oregon sentences and served concurrently to other state or federal sentences in another state or federal institution. When those Oregon sentences are considered, sentence served, PPS will begin even while the offender remains in the non-Oregon facility. PPS may be completed while remaining in custody or may continue after release.

Data Solution: When the Oregon incarceration sentences reach their sentence served date, either the institution or the LSA will close those incarceration lines to POST and release the body to POST as well. Community will admit to PO status and add the O lines which begin on the admission to PO date and close them to EXPI when time concludes. FYI while an AIC is serving Oregon sentences concurrently elsewhere, they will be admitted by the institution as a CCGHOST and released to POST when all their Oregon sentences have been completed.

* * * * *

Scenario: An offender is sentenced in Oregon to incarceration, with PPS, consecutively to out-of-state or federal sentences.

Data Solution: The offender will either be returned to Oregon to serve the consecutive sentence(s) after their other sentences are complete or may serve the Oregon sentences in the out-of-state or federal facility. If they serve those Oregon consecutive sentences elsewhere, the institution admits them as a CSGHOST to track their time and will release to POST when the sentences are complete. All PPS begins together after release to POST. Admit to PO status and add the O lines which begin on the admission date.

* * * * *

Scenario: Offender was sentenced to LC and DOC on the same day, concurrently. Offender entered LC for his/her sentence. Offender never left custody after serving the LC sentence but was not picked up by institution until days after completion of the LC

sentence. Technically, the offender completed his/her concurrent LC sentence before being picked up by the institution. Should Offender be released to POST for the time between ending of LC sentence and pick up by the institution?

Data Solution: Because the sentencing date was the same for the LC and DOC sentences, offender should not be released to POST. There may have been circumstances which interfered with the offender pick up by the institution. The institution will prepare the Release Plan and create the PPS order. If the sentencing dates had been different for LC and DOC sentences, you would have released to POST, done the Release Plan and created the PPS order because the offender would actually have started POST prior to being sentenced to DOC.

* * * * *

Scenario: Offender is sentenced to a block of jail time but the judge allows the offender to serve his time on weekends.

Data Solution: Admit the offender to jail on the Saturday the sentence begins, and move back and forth between the “L” location and the Community Corrections office until the sentence is served.

15.11 FREQUENTLY ASKED QUESTIONS

Q. What causes an Auto-Revoke?

A. When an offender is on PPS (either BRD or LC) and receives a new DOC conviction. As interpreted from ORS 144.345, only a conviction to DOC (crimes of more than 12 months), either State or Local Control. A new Local Control (12 months or less) conviction does not auto-revoke any PPS case.

Q. What is the Local Control Population?

A. Felony offenders sentenced to jail for 12 months or less since January 1, 1997. This includes all post-prison supervision revocations of 12 months or less, all parole revocations of 12 months or less, and all revoked probationers whose original presumed sentence was probation.

Q. Are revocations of Felony Treated as Misdemeanor cases Local Control?

A. No. Offenders sentenced under 151.705 are considered misdemeanors. Misdemeanor cases are not eligible to serve PPS.

Q. Can FMP cases then be closed to CRTR?

A. Yes.

Q. Which sentences get abscond/inop/revo time entered and who enters the time?

A. All Post-Prison Supervision and Parole sentences. Be sure to note whether the offender's status is Post-Prison/BRD or Post-Prison/LC. The Board enters INOP for all sentences when the offender is under the jurisdiction of the Board and the community corrections agency enters it for sentences when the offender is under the jurisdiction of

the LSA. Refer to the OPS Data Entry Manual, Chapter 16, w/w INOP instructions on how to enter this information. *NOTE: If a local control sentence is found significantly after the conviction and added to CIS/DOC400 after the Board has issued a warrant and that warrant was served (a warrant that would apply to this case as well), the community corrections agency will have to add the INOP manually to that local sentence PPS line. If you find and enter an old LC conviction after the Board has issued a warrant, but PRIOR to that warrant being served, it is likely the Board will be able to get the INOP for that case added. Be sure to send your found judgment to the Board immediately so they can add it to their system. You will not get a new PPS order until after the warrant is served, but if you get it to them right away, they can add it while the warrant is active so the INOP will get added by the Board as appropriate.

Q. Is a local sentence part of a prison term?

A. If the local sentence is either a presumptive incarcerative sentence of 12 months or less (as opposed to a presumptive or optional probation sentence) for a felony offense(s) or is a probation revocation sentence imposed for a felony offense(s). Under the “one in prison, all in prison” rule, if the local felony probation revocation sentence is ordered consecutive to another felony sentence that exceeds 12 months in length, both the local felony probation revocation sentence AND the other felony sentence that exceeds 12 months in length are to be served in a state correctional facility (ORS 137.124).

Q. Is there any scenario in which another state’s prison sentence will affect the begin date of PPS in Oregon for a local sentence?

A. Only if the local Oregon sentence is consecutive to the other state’s sentence.

Q. If an offender is sentenced to a local sentence and a DOC sentence at the same time, and the offender completes the local sentence prior to beginning the DOC sentence, does the local PPS start?

A. No. When these sentence are convicted at the same time, they are considered concurrent; therefore, the concept that all PPS begins together regardless of the date that each sentence is served as complete is in effect. “The feet have to hit the street” in order for all PPS to begin.

Q. If an offender is sentenced to a local sentence and a DOC sentence at the same time, offender completes the local sentence and prior to beginning the DOC sentence, the offender is deported, does the local PPS start and who enters the warrant?

A. PPS cannot begin until the DOC sentence is completed, which won’t happen if the offender has been deported; DOC will enter the warrant.

Q. If an order revoking probation to jail is received but LC staff have not admitted offender to LC status in CIS/DOC400, what do I do?

A. If it is felony probation revoked to jail for 12 months or less, follow your county’s procedure for getting the judgment entered into CIS/DOC400. For felony probation, close the line to VIOL using the date of revocation. If it is misdemeanor probation, close

the line to CRTR per CIS/DOC400 User Manual. Local control does not supervise misdemeanors.

Q. I am entering PPS in CIS/DOC400 for an out-of-county PPS case. Do I need to do anything special with the order?

A. Yes. Follow your county's procedure for processing new Local Control cases. This initiates preparation of the Local Control file and notifies LC of an out-of-county case.

Q. I am waiting for a PPS expiration certificate from Local Control to close an out-of-county case, but have not received one, nor see anything in my county's shared LC Expi folder. What do I do?

A. Contact the person in your county who prepares those certificates to request an expiration certificate. For counties who do not produce EXPI certificates, follow your county's procedure to close the sentence without.

Q. I am waiting for a PPS expiration certificate to close a PPS case, but Local Control has not issued one. What do I do?

A. Check CIS/DOC400 to make sure there is not an overlapping Board case (cases with I lines). If the PPS on a Board case overlapped with the LC case, the Board maintains jurisdiction. The CIS/DOC400 status will show as "PostPrison/BRD."

If there are no overlapping or open Board cases, contact Local Control to request an expiration certificate. You do not need to fax or send an electronic copy of the PPS order if it was issued by Multnomah County, as Local Control maintains a copy on file.

Q. The offender has already been released from custody, but Local Control has not released them in CIS/DOC400. Can I add the PPS line yet?

A. No. Wait until the "L" line has been closed to POST before entering an "O" line.

Q. What do you do when the jail max date on an LC sentence is one day longer than the CIS/DOC400 calculated max date on the LC sentence (this happens because the jail calculates days differently than the CIS/DOC400).

A. Adjust the dates so the LC sentence max date matches the jail max date. And add an F8 note to explain the discrepancy from the sentencing order and the data in CIS/DOC400.

Q. If an offender is serving a local control sentence in County A and picks up another local control sentence and transfers to County B to start serving that local sentence (prior to completing County A sentence) how do I transfer the record to County B?

A. You do not need to transfer the record at all. County B will simply do a regular admission to their L location on the date of their judgment (start date of County B's local sentence) and the transfer data will automatically fill in the housing movement screen. No release or transfer data entry is required on your part (County A) at all. Close your L line to POST when it is sentence served.

Q. If an offender is on abscond when they receive a local control sentence, can I just

admit them directly into local control or do I have to return from abscond first?

A. If an offender is on abscond immediately prior to entering local control, **YOU MUST RETURN FROM ABSCOND FIRST**. If you are not the supervising county, please contact the supervising county immediately and request they return from abscond on the date the warrant was served, prior to your admitting to local control.

Q. If an offender as abscond time, do we modify the ASR date on the LC PPS order?

A. No. We mirror the Board regarding ASR dates, which means they only change if/when a new sentence is added. They never change based on abscond. The concept of when an offender becomes eligible for inactive PPS status does change based on lots of factors, abscond included, but the actual date on the PPS order never changes because it is set by Oregon Administrative Rules (OAR 255-94). If the offender is not eligible at the occurrence of the ASR date, they may become eligible at a later date and that's okay. But the original ASR date doesn't change.

Q. Can I add an O line before I receive a PPS Order?

A. It is okay to add the PPS (O) line prior to receiving the LC PPS order. This is not preferred, because it is easier to forget to follow up that you have received a PPS order, but could be necessary at times for many reasons. Remember – without an active running sentence line, you have no sentences showing on your public information screen, and no supervision fees running, etc.

15.12 Local Post-Prison (SB156)

15.12.1 Inactive Status (UNSU):

Per ORS 144.085, prior to September 1, 2009; only offenders sentenced to prison for more than 12 months were eligible for Inactive status. As of September 1, 2009; offenders sentenced to serve less than 12 months under local supervision became eligible for inactive status.

15.12.2 State Board Authority Reverts to the Local Supervisory Authority:

Division 75 of the Parole Board Rules states: “If the Board issued the order of post-prison supervision for an offender whose only sentence was 12 months or less, jurisdiction will remain with the Board until petition by the supervisory authority to assume jurisdiction OR upon re-release following revocation of the post-prison supervision for that sentence; whichever comes first.”

Scenario: The Local Control offender is on PPS for a Local Control sentence only (no prison sentences any more) under the jurisdiction of the State Board. He receives a revocation sentence with no new DOC charges. Who does the new order, and what date is used? **(Note: this means revocation of PPS, not a probation revocation)**

Solution: The State Board notifies the county of the re-release date, and that it has no more interest in the case. The County would do the new order, with the re-release date provided, and use the information from the order in place at the time of revocation, plus any new crimes/conditions from the new release plan. Because authority shifts from the Parole Board to the LSA, it is the community corrections agency who will add the REVO INOP to the open PPS lines.

15.12.3 Waiver of Residency

OACCD has approved the use of the Waiver of Residency for local control offenders just like Board offenders. When the LSA manual is updated (currently under review and in the process of modification), more specific policies and procedures will be outlined regarding Waivers. Until then, mirror the practice of Board Waivers as a temporary guideline.

15.13 Offender Information Sentence Calculation (OISC) formerly (and casually still) known as Central Records

Remember that copies of all felony convictions, including Local Control convictions, must be sent to OISC - Central Records according to their official file material retention. File material is to be sent all at once at the closing of a custody cycle and as more specifically outlined in OPS Manual Chapter 21 – OISC.

15.14 Extraditions

The decision to extradite is within the discretion of the state in which the crime was committed. There exists no constitutional or statutory requirement to seek extradition (except in interstate compact cases). In Oregon, the Governor generally relies on the district attorneys to consider the practicality and the costs of their decisions to seek a fugitive's return.

The current State of Oregon Director of Extradition Services is Nicole Townsend. Ms. Townsend administers the Arrest & Return Budget which funds extradition costs. She reviews, authorizes and approves the cost of the return of fugitives from other states to Oregon and has been entrusted by the Governor with discretion to authorize the method of return, approve one officer, two officers, or to deny funding. Extradition requests and the requested funding are not automatically approved just because an agency seeks the return of a fugitive. The requesting agency must obtain Governor's office approval before any commitment to return an individual from the asylum state is finalized. If state funding is denied, this does not preclude the requesting district attorney and/or the sheriff from proceeding with the extradition by funding it from their respective budgets.

Extradition guidelines have been developed by the Legislature and the Governor's Office.

Extradition of untried Class A & B felons will be extended to nationwide. Extradition requests for parole and probation violators of Class A or B felons will be determined on a case-by-case basis since there is little likelihood of incarceration. Class C felons are approved for extradition when the shuttle system can be used for transport. However, there are always exceptions. Class C felony extraditions from outside the shuttle area will be considered on a case-by-case basis in the following circumstances: Sex crimes; Criminal Nonsupport offenses; The fugitive has a substantial prior criminal record including Class A or B felonies (a lengthy record of Class C felonies will not in itself be sufficient to justify the extradition, the criminal record should reflect a history of more serious offenses); The fugitive's criminal conduct is such that he/she could have been charged with a Class A or B felony, even though the pending charge is a Class C. This would include cases in which the fugitive pleaded down from a Class A or B, or cases in which the charge will likely be increased to a Class A or B if the fugitive is returned; The fugitive is likely to make substantial restitution for the crime if extradited; The fugitive's offense was extraordinary, and the fugitive will likely be incarcerated for a substantial length of time if he/she is returned.

Even though Interstate Agreement on Detainers (IAD) involves untried charges and speedy right to trial issues, approval is on a case-by-case basis. IAD cases require three separate transports and because of this, tend to be more costly.

The new Interstate Compact for Adult Offender Supervision requires that compacted individuals who violate their supervision MUST be returned regardless of where they may have fled. This mandatory retaking combined with minimum sanctions imposed upon the offenders when returned, necessitates the need for more stringent application review by the parole/probation officers before the compact application is forwarded to the Compact Office at the Oregon Department of Corrections.

The Extradition policy sets the transport method: (1) Shuttle Transport; (2) Special Arrangement States; (3) Agency Automobile; (4) US Marshal Service; (5) Commercial Airlines; (6) Private Plans and (7) Private Transport Companies. True shuttle States are WA, ID, MT, and OR only. Special arrangement States include NV, CO, UT, SD, ND, MN, WY, WI and CA.

The Governor's office did not deal directly with county parole/probation officers in extradition matters prior to the passage of SB1145. Since the implementation of SB1145, county Local Control Authority Boards need to assume a similar role that county district attorneys currently do regarding extradition matters. This means that Local Control Authority Boards need to comply with the current extradition guidelines.

For more information, contact Ms. Nicole Townsend- 900 Court Steet NE, Suite 254 Salem, OR 97301 503-373-0140 Nicole.Townsend@oregon.gov

15.15 Old PPS Stop/Start Practice

NOTE: The following two paragraphs explain an old practice. These are for historical informational purposes only and do not reflect current data entry practices.

From 10/1/99 to 02/25/04 it was the policy of the Board and the Department of Corrections to make reasonable efforts to require felony offenders sentenced under the sentencing guidelines to serve their term of post-prison supervision in the community and subject to community supervision. This practice affected offenders who were released directly to a detainer for more than 30 continuous days from a DOC or Local Control sentence on or after 10/1/99. The start of the offender's post-prison supervision would then be calculated to begin the date the offender was released from the detainer.

The data entry practice was for the institution/LSA to release the inmate to POST. If the community staff knew the offender was to be serving over 30 days on a detainer at the time of release, they then would admit the offender to the status "HOLD." The location would be the county office that would be supervising the offender upon completion of the detainer. If the community staff did not know that the offender would be serving over 30 days on a detainer at the time of release, they would admit the offender to status "POST" and the 'O' sentence would be added. Once the community staff learned the offender has been detained for over 30 days, the admission of "POST" would be changed to "HOLD," and the 'O' sentence deleted. When the offender had completed all detainer time, the offender would be admitted back from "HOLD" to "POST" and the 'O' sentence added. This practice was stopped on 2/25/04, but historical records of "HOLD" cases remain.

15.16: LC PPS Offenders that have Absconded

If the LSA chooses to recall the warrant past their expiration date, and lets the case close without adding INOP time, the ABEX code would be best to close the file.

ABEX definition:

Movement Code.....ABEX

Description.... ABSC EXPI/DISM BY COURT OR LSA- DOC REQ-

Comment.....ABSC Prob term/dism by Court Order or LC PPS term/dism by LSA. Probation warrant recalled by court order or LC PPS warrant recalled by LSA. O closed to ABSC, sentences past max date, Judge or LSA has lifted the warrant, and allowed the sentence to terminate. Not for use on Board Parole/PPS; or probations w/out ABSC.

15.17: County inmate movement codes:

Cour: Out to court

MEDI: Medical Leave

CSWK: Work program during Day/home at night.

NLHA: Non-Elec. House arrest

Offender Profile System (OPS) Training Manual

DAYR: Day Reporting	OUTC: Outcount/other code
ELHA: Electronic house arrest	REST: Restitution/Work center
INTX: Inpatient A/D treatment	STND: Standard supervision
JAIL: Housed in Jail	WKRL: Work Release

OPS CHAPTER 16 – Work With INOP Instructions

16.1 W/W INOP Instruction Manual

Maintain Community Corrections Inop Days screen is where we will be entering the amounts of INOP (inoperative) time for abscond, escape and PPS revocation sanctions. This only applies to Parole Board and Local Control sentences.

POST NOTE: Clarification about which date is used to admit an offender to a PPSV Sanction, and what the sentence begin date would be: The admit and begin date are both the "decision date". Credit for time served would be given for the amount of time between the arrest date and the admit/begin date. See OPS 15 SB1145 Data Entry for complete instructions.

Offender Profile System (OPS) Training Manual

Step 2 – Print this screen by pressing F10=Print. Once you have printed the above you will need to compare the total INOP days with what has been entered on the 'Work with Offenses' screen. Press enter twice to return to the 'Work with Offenses' screen. Put a 2 on the option line beside the appropriate sentence, press enter.

Example: If there is an entry on the 'W/W INOP/Institution & Community Corrections' screen dated 03/27/1997 but the offense you are checking didn't start until 09/03/1997, then those INOP days would not be added to this offense.

Before July 1, 2004 the Community Corrections Offices could only enter the INOP days as a note on the offense screen so you have to check this location also.

OPS CHAPTER 17 – DNA Data Entry in CIS & Report

This chapter is intended to walk you through entering DNA information in CIS on offenders requiring buccal swabs as a result of HB2664. Programming currently includes all offenders in custody or under supervision with felony convictions on January 1, 2002, as well as those offenders convicted after January 1, 2002. This also includes any conspiracy or attempt to commit a felony, and selected misdemeanors as follows:

- Sex Abuse III
- Public Indecency
- Conspiracy/Attempted Rape III
- Conspiracy/Attempted Sodomy III
- Conspiracy/Attempted Sex Abuse II
- Conspiracy/Attempted Burglary II
- Conspiracy/Attempted Promoting Prostitution

Again, the requirement to obtain DNA is not based on whether the judge has ordered it or not; it is based on HB2664 and ORS 137.076. Felonies treated as misdemeanors (FMP), felony diversions (FDV), and felony conditional discharges (FCD) are excluded.

OSP DNA practice has changed. Used to be that if someone was convicted of a felony that was then reduced to a misdemeanor, we would notify OSP and they would destroy the DNA record. They have recently received a legal opinion that says they don't have to do that anymore.

Incoming Compact offenders do not need a DNA test unless the sending state requires it. If the sending state requests DNA, we do the swab and send it back to the sending state. It does not go into our database. Out of state offenders are not swabbed and recorded unless the offender has or receives Oregon offenses that require it.

17.1 DNA Collection Information Screen (CCSUPPORT)

The DNA Collection Offender Information screen can be accessed from the following processes (if using the menu bar within the process, it is F11, 3, Q):

- Admission Process, immediately following the W/W Offenses screen.
- CC Court Orders Process, immediately following the W/W Offenses screen.
- CC Support Data Entry/Update, immediately following the W/W Offenses screen.

17.2 DNA FLAG

A 'flag' has been added in CIS denoting those AOSs who meet the above listed criteria for the DNA sample on the Offender Public Information screen, the Work With Offenses screen, and the Edit Offender Data screens.

Please note the flag is activated by the offense and/or status of the AOS. Once the flag is flipped to “DNA Required”, it remains that way until collection data is entered into CIS. This does not necessarily mean the sample has not been taken but could mean the collection data has not been entered in CIS yet. Please check all available resources, i.e., jail and the CCH to determine if the sample has been taken and submitted to Oregon State Police. The DNA requirement does not go away just because a cycle has closed. If the AOS returns to active supervision from discharge status or moves to another location and the DNA collection entry has not been done, the data entry authority to enter collection information transfers with the AOS to the current status and location.

On the Offender Public Information screen, the flag is located on the upper right-hand side of the screen, above the ‘Field admission date’.

When programming determines an AOS requires a DNA sample, but has not been entered, the flag will show ‘DNA Collection Required’.

17.3 DNA Collection Entry

A screen has been created for the entry of DNA collection data. It can be accessed through either the CCPPO or CCSUPPORT menus.

17.3.1 CCPPO Data Entry:

At the Work with Offenders Summary screen, locate the column at the far right of the screen entitled 'DNA'. It will either show REQ for required or it will be blank. The blank can denote if it's not required, if it's required and the data has already been entered, or if the override feature was used.

F3=Exit	F4=Prompt	F5=Refresh
F11=Menu bar	F12=Cancel	
Record Changed.		

Notice that using the override feature changes the Collection status to 'N', for DNA Collection not Required, and automatically enters your UserID in the Override user field.

You may also access the DNA Collection Offender Information screen from within your Edit Offender Data screen on any AOS, by using your menu bar (F11) and (4) for InfoWindows. Choose the DNA Collection Data option (Q) and follow the instructions above.

Collection data **must** be removed if OSP has contacted your agency and indicated that the sample was not submitted correctly and needs to be resubmitted. Remove the Collection date and Collection location by spacing over that information and hit enter to save your changes. If there is an override reason or comments, you should remove those as well and press enter to save. Once that has been done, the DNA Required flag will be reactivated. The only time you might see an Override reason is if that reason is REQ=User Override to required. The other two Override reasons would mean a DNA sample was never submitted. Follow up by notifying the Probation Officer that the DNA must be collected again and the reason why. It would be a good idea to make a chrono in CIS stating the DNA had to be resubmitted at the request of OSP and the reason why. Be sure to check the chrono history to see what has automatically generated and append to reflect why the DNA collection data was removed and that a new sample needs to be submitted.

17.4 DNA Sample Collection Report

A report has been created, entitled DNA Sample Collection Report. This is accessible as option #23 DNA Report from the Total Office Report menu (CCRPTSTO), the More CC Reports menu (CCRPTS), and the Management Statistics menu (CCREPORTSM).

SNT501BP	Corrections Information Systems (TEST)	17:11:44
CUMMINSL	DNA Sample Collection Report	1/02/02

Type choices, press Enter.

DNA collection status. . .	R	R=Required, *ALL, F4=list
Location	POLK	*ALL, location
Primary caseload	*ALL	*ALL, caseload
Secondary/PTA caseload . .	*ALL	*ALL, caseload
Comm.Corr. Outcount. . . .	NONE	*ALL, NONE, ONLY, F4 to prompt

F4=Prompt F12=Cancel Enter=Print

The default is 'R' in the DNA collection status field for those who still require a sample to be taken, or the collection data has not yet been entered. Use the F4 prompt for additional valid codes. Currently, these are:

- C – DNA Collected
- N – DNA Collection not Required
- R – DNA Collection Required

Choosing *ALL provides a list of all the above, with the collection status, and collection date if status is 'Collected'.

Location automatically defaults to your location, however, please note that choosing *ALL here will run a report for the entire State. Please use this option only if absolutely necessary as it will create quite a drain on system resources.

Outcount Reason field has been included so you can determine which AOSs not on the active caseload require collection, have been collected, or are not required to be collected. This may come in handy when policy is clarified for Compact AOSs, as well as other AOSs not readily available for DNA collection. The default is NONE, however you may subset for *ALL = all outcounts, ONLY = only outcounts (no active cases will display) or use F4 prompt for specific outcount valid codes.

17.5 DNA Collection and the Compact AOS

DNA samples are not taken on incoming compact AOSs, unless the sending state has asked you to collect one on their behalf. In which case we would take the sample and send it back to the sending state. These samples are not to be forwarded to the Oregon State Police, unless the AOS has obtained additional convictions which require collection. In that case, you would need to collect 2 separate samples, sending one to OSP and one to the sending state (again, only if requested by the sending state).

Oregon State Police ORAL SWAB INSTRUCTIONS

LABEL

- Verify offender's identity card and qualifying crime.
- Open kit and confirm all components are present. Wear gloves.
- Fill in submission card completely with offender's information. Print neatly, within the red boxes, using BLACK or BLUE ink. **DO NOT USE RED INK.**
- Fill in collector's information and sign the form.
- Apply offender's thumbprints to appropriate space on submission card.
- On the lines provided, label the FTA paper with the offender's name and SID.

OBTAIN

- The swabbing should be done by the agency personal, not the offender.
- Swab the area between the lower gum line and cheek by twirling the sterile cotton-tipped swab and rubbing back and forth. Do this for ~15 seconds.
- Make sure you are rubbing the surface and not just wetting it with saliva. We need the epithelial cells from the cheek & gum line.

TRANSFER

- Place cotton-tipped swab on FTA circle.
- Roll cotton tip back and forth, within the FTA circle, until a color change is seen (pink to white). *If no color change is observed, Re-Swab.*
- NOTE: If color change is faint, carefully outline the area where the swab was rolled with a pen. This will aid the analyst in finding approximately where the DNA is located within the FTA circle, or Re-Swab.
- Repeat process with the second swab to obtain and transfer cells to the other FTA circle. Discard swabs.

SEND

- Confirm that the information on the submission card and the FTA paper is **CORRECT** and **COMPLETE**.
- Place FTA paper within the fold of the submission card and put inside return envelope.
- Seal envelope with safety seal; date, initial the seal.
- Send in shuttle, or apply postage and mail to OSP Portland Forensic Lab.

Correct Sample:

Collecting Thumbprints for DNA submission cards

When a DNA sample is collected for the convicted offender program two thumbprints are taken at the time of collection. These thumbprints are used to verify the identity of the individual listed on the submission card. Poor quality prints make it extremely difficult to perform the verification and most of the time no identification can be made.

Please aid the Technician identifying the individual in question by utilizing the suggestions below:

1. Place the offender's inked thumbprints in the designated areas on the submission card. Remember to collect both a right and left thumbprint (when available).
2. Make sure the inked print has clear ridge detail. (See examples below).
3. For best results, ink entire finger pattern area from nail edge to nail edge and roll finger from one side to the other. It is okay if the ridge detail extends beyond the boxes provided.

Smudged ridge detail

Clear Ridge Detail

4. If the print appears smudged (no clear ridge detail), a second inked impression should be obtained and placed on the back of the card.

Keep these further contributors to poor quality fingerprints in mind:

- Too much ink used for the thumbprint
- Too little ink used
- Too much finger pressure
- Individuals who purposely attempt to leave poor quality prints.

A quality inked print is critical in providing an investigative lead.

If you have any questions or concerns, please contact ID services at 503-378-3070

OPS CHAPTER 18 – Conditions & Tracking

18.1 INTRODUCTION

The Condition Tracking Module came about as a result of the Community Corrections System Goals for 2003-2005. The goals were developed by the Oregon Association of Community Corrections Directors, in conjunction with the Department of Corrections. Of the five goals, one is 'Provide Reparation to Victims.' The indicators of reaching this goal are restitution/compensatory fines collected, and community service hours provided. County directors agreed to report out the percentage of dollars ordered that are paid at case closure toward restitution and compensatory fines, and percentage of hours ordered that are completed at case closure for community service hours. At a minimum, this data is to be entered into CIS at case closure. However, the module has been designed to allow entry of payments and/or hours/days at any time.

As a result of these requirements, ISSD Development staff has completed programming to facilitate the tracking of the following conditions: Restitution (REST); Special Condition 7 (SC7); Compensatory Fine (CMPF); Community Service Work (CSWK). Programming also gives the county offices the ability to track other 'trackable' conditions if they so choose. Condition Tracking affects cases that close on or after July 1, 2003.

'Trackable' conditions refer to those conditions where money, hours or days are owed to the court. All other monetary conditions that are paid directly to the Community Corrections office are entered and tracked in the Supervision Fee Module. Currently, 'trackable' conditions in CIS are as follows;

CMPF	COMPENSATORY FINE	\$
COFO	COURT ORDERD FINANCE OBL	\$
CSWK	COMMUNITY SERVICE WORK	H
JAIL	JAIL DAYS	D
REST	RESTITUTION	\$
WKCR	WORK CREW	D
GC01	PAY COURT ORDERED FEES, FINES	\$
GCA	PAY COURT ORDERED FEES, FINES	\$
SC7	RESTITUTION	\$
LV7	RESTITUTION	\$
ST7	RESTITUTION	\$

\$=Dollars; H=Hours; D=Days; M=Months

Note: The default code for conditions tracked in days or hours can be changed; they can be tracked in days, hours, or months according to the language in the judgment or your county practice.

This manual is designed to walk you through tracking conditions and entering payments in the Conditions Tracking Module. Again, the conditions that must be tracked currently are REST, SC7, ST7, LV7, CMPF and CSWK, with minimum entry at case closure.

The condition must also be marked as trackable to be able to make the payment entry. Restitution/compensatory fine original balance can be obtained from the court order or eCourt. Any discrepancies between eCourt and the court order should be checked with court personnel or as per your county policy. For PPS cases, track only on one count, use the longest running case. You should still add the condition to other counts, but be sure to mark them as non-trackable with a note indicating which offense it's tracked.

IMPORTANT INFORMATION:

DO NOT DELETE conditions on cases that close on or after July 1, 2003, or the new Condition Tracking Module will not work. Option 4=**Delete** should **ONLY** be used if a condition was entered in error, or on cases that closed prior to July 1, 2003. Cases that closed prior to July 1, 2003, can also be changed to trackable, per your county policy. Trackable conditions will be moved automatically to an Expired Conditions table when a Termination Date and Code is entered on the offense. If old conditions are showing on an offense closed after July 1, 2003, re-open and close the case. The conditions will move to the Expired Conditions table.

Note: General Conditions may be deleted if not your county practice.

18.2 FREQUENTLY ASKED QUESTIONS:

Q: Unable to close a sentence line – Receiving error message, “Cannot terminate w/zero amount for a trackable condition.”

A: Although there are no conditions attached to an “L” line, if you get the error message while trying to close an “L” line it means there’s a problem with a condition in the Expired Conditions file (F18).

If you get the error while trying to close an “O” line, you need to check the outcome measure conditions attached to the “O” line and/or conditions in the Expired Conditions file (F18). Please remember to check the Expired Conditions file and update outcome measure conditions when terminating a docket with multiple sentences. This is especially important if your “P” line is closed to VIOL by OISC when an offender has been revoked to DOC. The edit will not stop OISC from closing the sentence, but you still need to update the conditions in the Expired Conditions file.

If you try to close any sentence line it will require you to have an amount entered for any outcome measure trackable conditions. Research the file or eCourt to find the correct amount and update the condition. You will also be prevented from completing a body closure if a prior sentence with a zero amount for a trackable condition was closed and not corrected before February 24, 2015, when new edits went into production.

Q: What should I do if I mistakenly delete a condition?

A: You will need to manually re-enter the deleted condition. Once you use the 4=Delete option, the condition is gone.

Q: Can I enter a probation condition on a PPS case?

A: Typically, no. We should only be using conditions that correspond with the status of the offense (probation conditions on probation cases, PPS conditions on PPS cases, etc.) The only exception is the CMPF condition, which should be used on any offense where payment of a compensatory fine is required, regardless of the status of the offense. Incoming compact, whether it's probation or parole, will use probation conditions. Second Look, even though it comes out of the institution, will use probation conditions.

Q: What should I do if I mistakenly terminate the wrong offense?

A: Simply remove the Termination Date and Code. The offense line will be active again, and all the discontinued conditions will also return to the active W/W Conditions screen.

Q: What should I do if I mistakenly “complete” a condition?

A: Use Option 2=Change on the condition in question and remove the Completed date.

Q: Do counties need to track payment of Compensatory Fines, or just Restitution?

A: Per the Community Corrections System Goals for 2003-2005, collection of both Restitution and Compensatory Fines will be reported. Because tracking of both ordered amounts are required, the Compensatory Fine (CMPF) code was added to the conditions table in CIS.

Q: When does the information have to be entered into the Conditions Tracking Module?

A: At the start of whatever type of supervision, the applicable conditions: REST, SC7, ST7, LV7, CMPF, and CSWK must be entered with an amount ordered. Each time the type of supervision changes, you must go make the previous matching condition non-trackable. Example: probation to LC to PPS, REST on probation was entered with an amount, then when PPS begins SC7 is entered with an amount; you must go change the REST from probation to non-trackable at the time you enter the SC7.

At the minimum level, all payment information pertaining to REST, SC7, ST7, LV7, CMPF, and CSWK must be entered at the time of case closure. However, payments may be entered at any time over the course of supervision. Per your county policy, you may also enter data at sentence closure rather than body closure.

Q: Who does the entry?

A: This will be a county-by-county decision. Some offices may want support staff to enter the amounts ordered, and POs to enter payments. Other offices may have POs

be responsible for all entry, or support staff may be responsible for all entry. Others have chosen to assign this task to another entity. Check with your Director or supervisor for your office policy.

Note: The Amount/Units Ordered can only be entered when the condition has been accessed from the W/W Offense Screen. It is a “display” only field on the Conditions Payment screen (where a PPO would normally enter a payment). This may impact the decision as to what staff sets up the initial condition tracking information.

Q: What does it mean if the “Balance” shows a negative amount after entry of a payment?

A: There are a few reasons why this might occur. Either the Amount/Units Ordered has not been entered correctly or hasn't been entered at all, or the payment amounts have been entered incorrectly, or the offender has overpaid (not very likely!). Make sure the Amount/Units have been entered correctly, and/or check with the Court Records Office to see if you've duplicated a payment entry. If there is a discrepancy between what the Court shows as having been paid and what CIS is showing, go with the Court's figures. They are the ones who have physically taken the money and are responsible for an accurate accounting. You don't have to enter payments to correct a balance, you can simply type over the balance shown with the correct balance number and hit enter.

NOTE: New programming was implemented to prevent entries that will result in negative balances, so we should only see negative balances on older records.

Q: What happens if an hourly condition is converted to dollars, or vice versa?

A: If, for example, the offender completes 50 of his 100 ordered community service hours, and the Judge gives him the option to pay off the rest, entry for CSWK would be changed from the original 100 hours to 50 hours, with 50 hours completed. The new money portion would not be tracked. **In this case, we are only concerned with the percentage of hours completed.** If full hours ordered are converted before any hours have been completed, change original amount to zero with balance of zero and change 'Trackable' to N, with a note on the condition as to what happened.

Q: What if the Judge or Board waives the originally ordered REST, SC7, CMPF, or CSWK?

A: If you receive an amended order from the Court or Board waiving all or part of the REST, SC7, CMPF, or CSWK, you will need to change the information in the Conditions Tracking Module to reflect the new amounts per the amended order. The same would be true if the Judge or Board amends the original order by increasing the amount of REST, SC7, CMPF, or CSWK.

Q: What should I do if I receive a judgment that says “Restitution- to be determined?”

A: Often court orders are issued when an amount for restitution has not yet been determined; they typically say something to the effect of “Restitution to be determined within 90 days”. This is done so those impacted by the offense have time to get

estimates and/or repairs done. Enter the condition of REST with the amount left blank, and leave it with the default of “trackable – Y.”

SOON reps will receive a monthly report from research that shows all dockets with trackable restitution and no amount ordered; we can check eCourt after the waiting period has passed to find out if an amount was ordered and update the condition accordingly.

Q: What if I can't find that any REST amount was ever ordered after ordered as TBD?

A: If a check in eCourt reveals that no restitution was ordered, DO NOT DELETE THE CONDITION! The condition should be marked as “trackable – N” so the amount field is not visible, and a comment of “none ordered per eCourt, <date checked>” should be entered. Be sure that the date you are checking is after the court's deadline to order REST.

The only time a trackable condition should be deleted is when it was entered in error and there are no court orders ever referencing it.

Q: What happens if I close the offender record and the entry of dollars paid or hours completed were not made?

A: The Conditions Tracking Module allows entry of data even after the record has been closed. (Refer to section 18.4.3 or 18.5.3 for instructions) Please only enter amounts that were paid or served DURING the course of supervision.

Q: What if the system does not allow me to make changes to a condition?

A: This should only happen if you are trying to make changes to the condition while in the ‘payment’ screen. The ‘payment’ option should only be used for entering payment information. Any changes to the condition itself must be made using Option 2=Change.

Q: Is there a Restitution/Compensatory fine payment history in CIS? If I make a mistake is it listed somewhere that needs to be fixed?

A: There is no payment history file attached to the condition tracking module. Entering a payment in the ‘Amount this month’ field updates the Balance and creates an auto chrono, but that's all, because entering individual payments was never required.

Whenever a ‘payment’ entry is made, you can either enter the ‘Amount this month’ or you can simply change the Balance. As long as the Balance is equal to or less than the Amount/Unit Ordered, the system is happy, and as long as the Balance in our system matches eCourt's records at discharge, everyone else is happy.

To fix a payment entry error, you have two options. 1- You can just change the Balance to the correct amount, then enter, or 2- You can enter the error amount with a negative sign at the end in the “Amount this month” field to subtract that amount from the balance, then enter. And then you can use the Append function on the previous auto chrono to note the correction.

18.3 DATA ENTRY PRACTICES REGARDING TRACKABLE CONDITIONS & PPS

- When a probation has been revoked with PPS ordered, go back into the expired conditions to check if REST, CMPF, or CSW were ordered. CSW cannot be brought forward to PPS, so the amount completed at the time of revocation is the final amount; make sure the final balance is correct. If REST and/or CMPF were not paid in full prior to revocation, these conditions will generally be brought forward as conditions of PPS. To prevent the research reports from pulling the same data twice (once from the P line and once from the O line), it is necessary to change the expired probation conditions for REST and/or CMPF to “trackable - N.”
- When adding the SC7 or CMPF condition to the O line, use the original amount ordered. It is a county-by-county decision to either enter all previously made payments at this time, or to enter them all at the time of case closure.
- For offenders coming out on Leave, change the expired probation conditions of REST and/or CMPF to “trackable - N” at the time of admission to Leave, and add the leave conditions of ST07 or LV07 and/or CMPF. When leave ends and you admit the offender to PPS, you will then need to also change the expired Leave conditions of ST07 or LV07 and/or CMPF to “trackable – N” and bring them forward into PPS as SC7 and/or CMPF.
- All current cases appearing on a PPS order that have a REST or CMPF balance should have an SC7 or SC10/CMPF condition listed on the order and should be tracked properly. If there is an offense listed on the PPS order that has an unpaid REST or CMPF balance but the SC7 or SC10/CMPF condition is not listed on the PPS order, please contact (or have the PO contact) the Board or LSA to have the condition added to the PPS order.
- If for some reason the Board or LSA did not opt to bring forward a REST or CMPF (on a past offense that is no longer supervised) that was not paid in full, then leave the expired probation condition as “trackable – Y” and continue to apply payments to that condition (whether on an ongoing basis or at the time of case closure).
- SOON reps will receive a monthly report from research that shows all active offenders with P lines closed to VIOL, which still have REST or CMPF marked as “trackable – Y.” This will help counties to identify records that need to be cleaned up, generally because admission to PPS was done prior to the implementation of these data entry practices.
- When an offender has multiple O lines, continue to put all REST amounts together as one number and track as SC7 on the longest running O line. SC7

should be added to all of the other O lines, but set the others as “trackable - N” with a note as to which offense the amount is being tracked on.

- When a DOC release plan is created, release counselors are checking all dockets that will have PPS to see if REST or CMPF were ordered; this includes PPS running prior to DOC admission, all institution cases, and all local control cases. Release counselors are putting the original amount ordered on the release plan in both the “financials” and “notable issues” sections. If you find a release plan with a SC7 or CMPF condition recommended but no dollar amount listed, please contact Melanie Reischke:
Melanie.A.REISCHKE@doc.oregon.gov
- To determine eligibility for UNSU, the Board suggests that community agencies confirm zero balances on CMPF and restitution by contacting the court.
- The Board has statutory authority to impose old REST balances from cases that are no longer current, but they do so RARELY. If the Board chooses to do this, they will notify the community corrections agency of the case # and dollar amount.
- LSA practices mirror the Board’s, so a LSA can also choose to order SC7 or CMPF on LC PPS orders in regard to balances owed on expired cases that are not currently supervised.

18.4 CONDITION TRACKING: ACCESS AND DATA ENTRY FROM THE W/W OFFENSES SCREEN

Payment entries can be made at any time, but at a minimum, will be done at time of file closure. Community Corrections System Goals for 2003-2005 includes “Provide Reparation to Victims”. All offices should track REST, SC7, CMPF, and CSWK. Tracking of any other condition is optional.

18.4.1 ACCESSING THE CONDITION TRACKING MODULE:

1 – Go to your W/W Offenses Screen using menu #5 from the CCSUPPORT menu, enter the SID # of the offender you will be working with, press enter. Put an 8=Conditions on the option line beside the appropriate offense line and press enter.

NOTE: Outcome Measure conditions REST, SC7, CMPF, and CSWK should **only** be changed to Trackable N if one of the following occurs:

- Multiple counts on a case and you are only tracking the condition on one count;
- Multiple dockets listed on Parole/Post Prison Orders and you are only tracking the condition on the longest running count;
- Court ordered condition, but eventually determined that no amount was ordered;
- When Court or Board converts entire amount ordered prior to completion of any portion of the condition (see FAQ's above).

Note: If the court orders Rest to be determined at a later date, leave it as trackable with no amount entered until you are past the pending timeframe or an amount has been ordered so it will show up on the monthly restitution report.

4 – Enter again to return to W/W Conditions screen.

18.4.2 PAYMENT ENTRY IN THE CONDITION TRACKING MODULE:

Offender Profile System (OPS) Training Manual

1 – From the w/w conditions screen, use Option 8=Payment Entry on the condition for which you have received payment. Press enter.

F16=Review/copy all conditions F17		CONDITION record updated.	

NOTE: If you make a mistake in the amount you entered, **do not** retype the amount on the 'Amount This Month' field again. This field adds all amounts you enter on the line to the amount already entered. You will need to enter the error amount with the negative sign at the end to subtract that amount from the balance. You will need to be very careful with the amount you type in this field.

3 – The payment amount will be recorded, and the Balance automatically recalculates the amount still owing. The "Last pay activity" field will also show the date the payment was entered into the system. Enter again to return to the W/W Conditions screen.

18.4.3 PAYMENT ENTRY ON A TERMINATED OFFENSE:

If a payment needs to be entered after the offense has been terminated, the condition will not show on the W/W Conditions screen. From the W/W Conditions screen, select F18=Expired conditions and follow the steps in 18.3.2.

NOTE: The only difference will be that you are now on the W/W Expired Conditions screen instead of the original W/W Conditions screen.

Note: Do not enter payments on records once the cycle has closed. The purpose of the condition outcome measure reports is to track what occurred DURING the course of supervision.

18.5 CONDITION TRACKING: ACCESS AND DATA ENTRY FROM THE W/W CASELOADS MENU OPTION

18.5.1 ACCESSING THE CONDITION TRACKING MODULE:

- From the W/W Offenders Summary screen, enter Option 12=Conditions tracking on the appropriate offender. OR
- From the W/W Offenders Summary screen, enter Option 2=Change on the appropriate offender, then F11-4-G for Supervision Conditions.
- Place your cursor on the appropriate condition and press enter for the payment entry screen. **Note:** The screen will not open unless the condition has been marked "Y" for trackable.

18.5.2 PAYMENT ENTRY IN THE CONDITION TRACKING MODULE:

Offender Profile System (OPS) Training Manual

1 – From the W/W Offenders Summary screen, use Option 12=Condition tracking on the appropriate offender and press enter. This opens the Conditions window. Place your cursor next to (or on) the Court case and Condition you need to work with and press enter.

```

3 – The “Balance” will automatically recalculate the amount still owing, and the “Last pay activity” field will show the date you entered the payment. You can also change the “Monthly amount” from this screen, if necessary. The “Completed date” can be manually entered, but it is not necessary. This field will auto fill when the offense is terminated. The “Expiration date” cannot be changed here as it auto fills from the Max Date on the offense line. If this date is incorrect, it should be changed by support staff from the W/W Offenses screen.

NOTE: If the condition is completed prior to the offense expiring, you may manually enter the ‘Completed date’ field with the date of completion. This will remove the condition from the Edit Offender Data screen, and it will no longer be highlighted on the conditions screen, but it will still show on the Kardex.

NEVER change Trackable ‘Y’ to ‘N’ on Outcome Measure conditions REST, SC7, CMPF, and CSWK after the condition has been completed. CMIS is unable to report on the Outcome Measure data if the Trackable field has been changed to N.

4 – Pressing enter again will return you to the main Conditions screen. You can either select another condition or return to the W/W Offenders Summary screen by pressing enter again or using F12=Cancel.

18.5.3 PAYMENT ENTRY ON A DISCHARGED RECORD:

Do not enter payments on records once the cycle has closed. The purpose of the condition outcome measure reports is to track what occurred DURING the course of supervision.

18.6 CONDITION DESCRIPTIONS

18.6.1 PROBATION SPECIAL CONDITIONS:

These conditions are to be used **ONLY** for cases that are under the jurisdiction of a county court. That includes Second Look cases, as they are also accountable to a court.

	Special conditions may be imposed that are not listed above when the Board of Parole and Post-Prison Supervision determines that such conditions are necessary. See examples listed on BOPPP's List of All General and Special Conditions paper.	
ST11	NO CONTACT WITH LISTED PEOPLE	NO CNTCT OTH
	Offender shall have no contact direct or indirect with those listed below:	
ST12	SEARCH PC/ELECTRONIC EQUIP	SRCH PC/EQU
	Consent to search of computer or other electronic equipment upon the request of the PO or their representative, if the PO has reasonable grounds to believe that evidence of a violation will be found.	

18.6.5 GENERAL CONDITIONS:

All offenders on all types of supervision are subject to Oregon's general conditions, with a few noted distinctions.

NOTE: The court can remove some general conditions, so the defendant is not obligated to those specific generals. If the court has language that states, "defendant is subject to the following general conditions" and then provides a list – please count the conditions to ensure ALL (15) generals were ordered; otherwise, you'll have to do some data entry practice to ensure the concept that not ALL generals were imposed so the PO doesn't violate on conditions not imposed.

Oregon's general conditions were updated in 2022. The following is a list of the general conditions that were in place prior to the passing of SB 1510. They remain in effect for:

- Probation sentences, conditional discharges, and diversions with a start date prior to 3/23/2022

Offender Profile System (OPS) Training Manual

- Incoming Compact cases with an Oregon supervision begin date prior to 3/23/2022
- PPS, STTL, and AIP sentences that began prior to 6/1/2022 (unless updated orders have been issued after 6/1/2022)

GC01	PAY COURT ORDERED FEES, FINES	PAY FEE/FINE
	Pay supervision fees, fines, restitution or other fees ordered by the court or the Board.	
GC02	NO USE OR POSSESS CONTROL SUBS	NO CONT SUBS
	Not use or possess controlled substances except pursuant to a medical prescription.	
GC03	SUBMIT TO BREATH/URINE TESTS	SUBMIT TESTS
	Submit to testing for controlled substance, cannabis or alcohol use if the offender has a history of substance abuse or if there is a reasonable suspicion that the offender has illegally used alcohol or controlled substances.	
GC04	PARTICIPATE SUB ABUSE EVAL	SUB ABUSE EV
	Participate in a substance abuse evaluation/TX/aftercare as directed by the supervising officer and follow the recommendations of the evaluator/TX provider if there are reasonable grounds to believe there is history of substance abuse.	
GC05	REMAIN IN OREGON	REMAIN OR
	Remain in the State of Oregon until written permission to leave is granted by the Department of Corrections or a county community corrections agency.	
	***BOPPPS- Offender automatically waives extradition if O absconds and leaves the State.	
GC06	FIND/MAINTAIN GAINFUL EMPLMT	GAINFUL EMPL
	If physically able, find and maintain gainful full-time employment, approved schooling, or a full-time combination of both.	
	Probation (Additional language) Waiver of requirement must be based on a finding by the court stating the reasons for the waiver.	
GC07	NO CHANGE EMPLOYMENT/ADDRESS	NO CHG EM/AD
	Change neither employment nor residence without prior permission from the Department of Corrections or a county community corrections agency.	
GC08	PERMIT VISIT WORK OR HOME	VST WRK/HOME
	Permit the supervising officer to visit the offender or the offender's residence or work site, and to conduct a walk-through of the common areas and of the rooms in the residence occupied by or under the control of the offender.	
GC09	SEARCH CLAUSE	SEARCH CLAUS
	Consent to search person/vehicle/premises at request of PO or representative if PO has reasonable grounds to believe evidence of violation will be found, submit to fingerprinting or photographing when requested for supervision purposes.	
GC10	OBEY ALL LAWS	OBEY LAWS
	Obey all laws, municipal, county, state, and federal.	
GC11	ANSWER ALL QUESTIONS TRUTHFUL	ANSWER QUEST
	Promptly and truthfully answer all reasonable inquiries by the Department of Corrections or a county community corrections agency.	

Offender Profile System (OPS) Training Manual

GC12	NO WEAPONS POSSESSION	NO WEAPONS
	Not possess weapons, firearms or dangerous animals.	
GC13	REPORT/ABIDE BY DIRECTION PO	RPT TO PO
	Probation Report as required and abide by the direction of the supervising officer. ***Board/LC PPS, AIP, & STTL*** Report as directed. (Effective on Orders of supervision or release to leave issued on or after 12/1/18.)	
GC14	SEX OFFENDER TREATMENT/POLY	SEX OFF TX
	Probation only If recommended by PO, successfully complete sex offender TX approved by PO and submit to polygraph if currently under supervision or previously convicted of sex crimes ORS 163.305-163.467 or like crime committed in another jurisdiction.	
GC15	MENTAL HEALTH EVALUATION	MENTAL HLTH
	Probation only Participate in a mental health evaluation as directed by the supervising officer and follow the recommendation of the evaluator.	
GC16	SEX OFF REPORTING INSTRUCTIONS	SEX OFF RPT
	Probation only If required to report as SO under ORS 163A.015, report with State/city/county police or supervising agency: When supervision begins; w/in 10 days of residence change; w/in 10 days of DOB; w/in 10 days working/attending higher education.	
GC17	SUBMIT TO RISK/NEEDS ASSESSMNT	RISK/NEEDS A
	Submit to a risk and needs assessment as directed by the supervising officer and follow reasonable recommendations resulting from the assessment.	
GC18	ABIDE BY DIRECTIVE/COUNSEL	ABIDE DIRECT
	Board/LC PPS, AIP, & STTL Only (Effective on Orders of Supervision or releases to Leave on/after 12/1/18) Be under supervision of the DOC and its representatives or other supervisory authority and abide by their direction and counsel.	

The following updated general conditions are in effect for:

- Probation sentences, conditional discharges, and diversions with a start date on or after 3/23/2022
- Incoming Compact cases with an Oregon supervision begin date on or after 3/23/2022
- PPS, STTL, and AIP sentences that began on or after 6/1/2022
- PPS, STTL, and AIP sentences that began prior to 6/1/2022, but updated orders were issued after 6/1/2022

GCa	PAY COURT ORDERED FEES/FINES	PAY FEE/FINE
	Pay fines, restitution or others ordered by the court or the Board.	
GCb	SUBMIT TO BREATH/URINE TEST	SUBMIT TEST
	Submit to testing for controlled substance, cannabis or alcohol use if the offender has a history of substance abuse or if there is a reasonable suspicion that the offender has illegally used alcohol or controlled substances.	
GCc	PARTICIPATE IN SUB ABUSE EVAL	SUB EVAL
	Participate in a substance abuse evaluation/TX/aftercare as directed by the supervising officer and follow the recommendations of the evaluator/TX provider if there are	

Offender Profile System (OPS) Training Manual

	reasonable grounds to believe there is history of substance abuse.
GCd	REMAIN IN OREGON REMAIN OR
	Remain in the State of Oregon until written permission to leave is granted by the Department of Corrections or a county community corrections agency.
	BOPPPS- Offender automatically waives extradition if O absconds and leaves the State.
GCe	NOT CHANGE RESIDENCE NOT CHN RES
	Not change residence without prior permission from the Department of Corrections or a county community corrections agency and inform the parole and probation officer of any change in employment.
GCf	PERMIT VISIT WORK OR HOME VISIT WRK/HM
	Permit the parole and probation officer to visit the offender or the offender's residence or work site, and to conduct a walk-through of the common areas and of the rooms in the residence occupied by or under the control of the offender.
GCg	SEARCH CLAUSE SEARCH CLAUS
	Consent to search of person/vehicle/premises at request of PO or rep if PO has reasonable grounds to believe evidence of violation will be found, submit to fingerprinting or photographing when requested for supervision purposes.
GCh	OBEY ALL LAWS OBEY ALL LAW
	Obey all laws, municipal, county, state, and federal, and in circumstances in which state and federal law conflict, obey state law.
GCI	ANSWER ALL QUESTIONS TRUTHFUL ANSWER QUEST
	Promptly and truthfully answer all reasonable inquiries by the Department of Corrections or a county community corrections agency.
GCj	NO WEAPONS POSSESSION NO WEAPONS
	Not possess weapons, firearms or dangerous animals.

	If recommended by PO, successfully complete sex offender TX approved by PO and submit to polygraph if currently under supervision or previously convicted of sex crimes ORS 163.305-163.467 or like crime committed in another jurisdiction.
GCM	MENTAL HEALTH EVALUATION MENTAL HLTH
	Participate in a mental health evaluation as directed by the supervising officer and follow the recommendation of the evaluator.
GCn	SEX OFF REPORTING INSTRUCTIONS SEX OFF RPT
	If required to report as SO under ORS 163A.015, report with State/city/county police or supervising agency: When supervision begins; w/in 10 days of residence change; w/in 10 days of DOB; w/in 10 days working/attending higher education.
GCo	SUBMIT TO RISK/NEEDS ASSESSMEN RISK/NEEDS
	Submit to a risk and needs assessment as directed by the supervising officer and follow reasonable recommendations resulting from the assessment.
GCp	ABIDE BY DIRECTIVE/COUNSEL ABIDE DIRECT
	Board/LC PPS, AIP, & STTL Only (Effective on Orders of Supervision or releases to

Offender Profile System (OPS) Training Manual

	Leave on/after 12/1/18) Be under supervision of the DOC and its representatives or other supervisory authority and abide by their direction and counsel.

Note: The language in the condition descriptions above is taken from the long descriptions for each condition in CIS. For the exact statutory language for General Conditions, refer to ORS 137.540 for probation and ORS 144.102 for PPS.

OPS CHAPTER 19 – Substance Abuse Tracking

The Substance Abuse Tracking Module replaced the previous UA log in order to expand it to include all forms of substance abuse tracking and includes information gathering.

19.1 Creating a New Record

This module is accessed using option 9 (SAT log) from your caseload, (Work With Offenders Summary).

```

Enter the appropriate Reason, Type and Status Codes

These are the options available for each code type that can be accessed using F4. To obtain the long description, choose a code and F4 again.

Reason	Type	Status
ADMI Offender Admission	BLD Blood	DILU Dilute
BASE Base Line	BRTN Breathalyzer	EXCU Excused
COND Condition of Supervision	N/A Not Applicable	HELD Sample held
HIST History Prior to Supervision	SWAB Swab	INVL Invalid
PROG Program requirement	UA Urinalysis	LEAK Leaked
PROX Professional Collateral	UAIN UA Instant	LOST Lost
SUSP Suspicion		MEDI Medical Abnormal
		N/A Not Applicable
		REFU Refused
		SUBM Submitted
		XNOS No Show

Below are examples of the type and status codes to be used with the listed reason codes:

Reason	Type	Status
ADMI Offender Admission	N/A	N/A
<u>Comments-</u> Client admits to using selected substances while on supervision. No sample was taken with no status.		
BASE Base Line	choose appropriate	choose appropriate
<u>Comments-</u> Initial test from which future tests are compared to.		

COND Condition of Supervision	choose appropriate	choose appropriate
<u>Comments-</u> Sample taken as a condition of supervision.		
HIST History Prior to Supervision	N/A	N/A
<u>Comments-</u> Reported history prior to current supervision.		
PROG Program requirement	choose appropriate	choose appropriate
<u>Comments-</u> As a condition of treatment requirements or treatment provider directive.		
PROX Professional Collateral	N/A	N/A
<u>Comments-</u> Information from a professional collateral source that illustrates or provides evidence of substance abuse.		
Example: receiving a police report illustrating that client was under the influence of a particular substance.		
Example: receiving a call from police, reporting that client is under the influence of a particular substance.		
Example: receiving information from DHS that client tested positive for a particular substance.		
Example: Received information from a treatment provider that client has used a particular substance.		
SUSP Suspicion	choose appropriate	choose appropriate
<u>Comments-</u> Testing for reasonable suspicion of substance use.		

Enter results:

Put a 2 or 3 near each drug type that was tested, and result returned (2 positive) (3 negative). Enter any comment on the comment line that is appropriate. Examples: presumptive; confirmed 123 ng/mL, etc., For those drugs not tested, skip over, and do not enter anything. Hit enter.

CHAPTER 20 – REPORTS

This chapter has a brief explanation on the purpose of each report listed under the 'Total Office Reports' menu. For specific details on how to use each report to extrapolate the information/statistics you need, you can access the complete 'CIS Reports Manual' on the Oregon Association of Community Corrections Directors website: <https://oaccd.net/> under 'OACCD Charters & Minutes'.

Once there, scroll down the screen to 'Other Minutes, Manuals, & Documentation' and select '+Corrections Information System (CIS)'. Then chose 'CIS Reports Manual'.

If you are interested in reports related to the Fee System, on the same OACCD website mentioned above and still under 'OACCD Charters & Minutes', under 'Charters' select '+Fee Supervision Network (FSN)'.

Then click on 'Fee Manual'.

20.1 How to access the 'Total Office Reports' menu.

Step 1 –From the CC Support Menu type a 23 on Selection line for 'CC Reports Menu', press enter.

```
CCSUPPORT          Corrections Information Systems      14:09:48
SCOTTVL           CC Support Menu                    2/13/23
Select one of the following:

13. W/W Sanctions
14. Offender Remarks (old CF9)
15. PSI Menu
16. W/W Supervision Fees
17. Kardex/Face Sheet Print Option
18. Employee Maintenance Changes
19. ID#/Caseload Maintenance

21. W/W Housing History
22. W/W Caseloads
23. CC Reports Menu

24. Office Calendar
25. W/W Offender Designators

```

20.2 Parole/Probation Expiration

Report shows those AOSs that have expired or will expire during a specified date range; may sort by caseload.

20.3 Parole Officer Listing

Report shows names of current employees with their assigned caseload number.

20.4 Expected Arr/Rel Not Admitted

****Report should be run frequently to avoid delays in data entry****

Expected arrivals shows those AOSs who have been released/transferred to your location from the institutions and other counties, but have not yet been admitted to your location.

Released but not admitted shows those AOSs who you have transferred to another location who have not yet been admitted by that location.

NOTE: When 'Display' is used, you have an Option 2=Movement History which will take you to the Movement/History Maintenance screen for the AOS selected. DO NOT make changes to the Movement/History Maintenance screen from the report display. This is for VIEW ONLY.

20.5 Temporary SID Number Report

Report shows those AOSs who still have a temporary SID or "Block Number." Check LEDS to see if a SID has since been issued, if not the individual should be fingerprinted. If a SID has been issued, [refer to Chapter 12.1-Block Numbers, Change to SID Numbers](#).

20.6 Alpha Office List

Report shows active and/or outcount AOSs in alphabetical order that are assigned to your location.

20.7 PA/LV Released to Office/Cnty

Report shows the total number of AOSs released and admitted to PA/PO/PS/LV status to your location from all institutions for a desired month/year.

20.8 Parole Officer Caseload Report

Report shows the total number of AOSs by caseload for your location by specific desired subsets.

NOTE: If Discharged (DI Status) AOSs appear on this report, it may mean that an offense is still open. Be sure to check offenses for all cycles to make sure they contain a Termination Date and Code. Once the offenses are closed, the AOS will no longer show on the report.

20.9 Total Office Caseload Report

Report shows the total number of AOSs supervised by your location by specific desired subsets.

NOTE: If Discharged (DI Status) AOSs appear on this report, it may mean that an offense is still open. Be sure to check offenses for all cycles to make sure they contain a Termination Date and Code. Once the offenses are closed, the AOS will no longer show on the report.

20.10 Parole Officer Data Sheet

Report shows detailed information by AOS per caseload supervised in your location by specific desired subsets.

NOTE: If Discharged (DI Status) AOSs appear on this report, it may mean that an offense is still open. Be sure to check offenses for all cycles to make sure they contain a Termination Date and Code. Once the offenses are closed, the AOS will no longer show on the report.

20.11 Office Supv/Distribution Rpts

Report shows all active AOSs for your location by supervising officer name and classification.

20.12 Sex Offenders by Name/City/Zip

Report shows AOSs currently supervised on a sex offense by name, city and zip.

20.13 DNA Report

Report shows AOSs who require a DNA sample at your location by caseload number.

20.14 Compact Reports

Report shows AOSs who have been released to other states and those AOSs who have been received from other states.

The Detailed Report gives you a list of AOSs for your specific selection and breaks down by sentence type. The Summary Report provides a break down by sentence type without listing AOSs.

20.15 Transitional Leave Report

Report shows AOSs on transitional leave whose leave end date falls within the default date range.

Note: This report is good to run to see AIP AOSs who have completed their leave.

20.16 Second Look Offender Report

Report shows Second Look AOSs for your location and provides the Second Look date, projected release date, and max date.

Second Look Defined: For crimes committed on or after June 30, 1995, AICs under 18 years of age at the time of committing an offense and sentenced to the Department of Corrections for a term of imprisonment of at least 24 months may be eligible for conditional release following completion of half of the imposed DOC sentence and approval by the sentencing court.
[OAR 291-052- 0110(6)]

20.17 Offender Condition Report

Report shows AOSs who have not completed their trackable conditions for a desired date range.

NOTE: This report will not coincide with CMIS Outcome Measure Reports or reports by generated by Research. The reason is that this report pulls by sentence closure, not body closure and it reports on all sentences/offenses, felony and misdemeanor, and trackable flag can be set to 'Y' or 'N'. CMIS and Research only report on discharged cases (full body closure) on felonies only and only if condition remains marked trackable 'Y'.

20.18 Measure 57 Elg/Conv Reports – this report is not currently functional

20.19 W/W Merge Records Report –

This report is run when you have a pair of duplicate records that need to be merged. It will tell you what data is merged through automation, so you know what data needs to be re-entered manually after the merge process is complete.

20.20 Designator Reports

Under this section, you have 3 report options:

1. All Designator Reports – Gives you the option to see all designators based on specific criteria, caseload, offender status, supervision level, type of designator, etc.
NOTE: data is gathered in a nightly job, so is not live data
2. Domestic Violence Designator Reports – Report shows AOSs with a 'DV' designator using specific parameters such as a caseload, location, or status.
3. Family Sentencing Alternative Pgm Designator Reports – Report shows AOSs with an FSAP designator using specific parameters such as a caseload, location, or status.

20.21 M57 Treatment Funding Report

Provides a list of AOSs who were marked 'Y' in the treatment module, inside a specific treatment program in the "M57Tx:" field.

20.22 ODARA Report

Lists all AOSs who have had an ODARA (Ontario Domestic Assault Risk Assessment).

20.23 Transitional Leave Elig Report

Shows which AICs are eligible for Transitional Leave.

20.24 W/W Departure Tracking

Shows all AOSs with cases that have been entered as departures. The default list shows ALL departures, whether discharged, active, upward, downward, or durational. You will need to subset (F17) to enter the parameters you need for your report.

20.25 Department of Corrections Reports

The reports mentioned in 20.25 are either generated by the Oregon Dept. of Corrections, Office of Research, Data & Decision Support or the Offender Information and Sentence Computation Unit. They are then emailed to the DL SOON Reps on a regular basis (generally monthly). All are for your information and are meant to assist you in keeping your data entry current and accurate.

20.25.1 1510 O Line Sentences

All Board/LSA sentences released onto post-prison supervision or leave on or after 6/1/22, fall under the new general conditions of supervision (SB1510). The new general conditions are labeled with letters, e.g. "GCa" versus the old general conditions which used numbers, e.g. "GC1".

IT is in the process of developing programming that will automatically assign the new general conditions to eligible PPS cases in CIS (Phase II), but until that is completed, the user will need to manually "flag" the case as subject to "N=New GC" or "O=Old GC" conditions.

```

OPS208I                      Corrections Information Systems          11:21:57
SCOTTVL                      Work With Conditions                  2/14/25

Offender..... 9999966        TESTING, SNOOPY DOGGIE
Status..... AIC(COUR)         IBRO Institution Based Records Office
Court case number. 123456/TEST TEST Judge..... SMITH
SB1510 General Conditions.. N (N=New GC, O=Old GC)
Enter option...
2=Change  4=Delete  5=Display  8=Payment Entry  I=Description
  
```

This report identifies new releases to PPS (Board or LSA) on or after 6/1/22, including those released to PPS from LV or a revocation. It does not capture those released previously and supervised under the old conditions who have an eligible action.

This report may be used to identify individuals who need the "SB1510 General Conditions" field entered. Before any programming had been started in CIS, counties identified eligible SB 1510 cases by putting an "*" at the end of the docket number. This report will also show dockets that still have the "*" at the end. For these, you should be going to the offense screen and removing the "*".

20.25.2 AIC Deaths in Prior Month

This information is simply to advise you of AIC's that died while at the Dept. of Corrections. If someone on this list was on supervision in your county prior to being sentenced to prison, you can now follow the procedures for closing that file.

20.25.3 Community List Contact Info

An informational list containing the addresses, phone numbers and email addresses for those on supervision.

20.25.4 Discontinued Restitution Conditions Marked as Trackable

This report will help ensure you are moving restitution forward from probation (leave if applicable) to PPS. If restitution is moving forward, your discontinued restitution conditions should be made non-trackable, so they aren't counted double for the same offense.

To make the discontinued restitution non-trackable, go to the Work With Conditions screen and select F18=Expired Conditions:

```

OPS208I                      Corrections Information Systems          11:47:01
SCOTTVL                      Work With Conditions                    2/14/25

Offender..... 9999966        TESTING, SNOOPY DOGGIE
Status..... AIC(COUR)        IBRO Institution Based Records Office
Court case number. 123456/TEST TEST Judge..... SMITH
SB1510 General Conditions.. N (N=New GC, O=Old GC)
Enter option...
  2=Change  4=Delete  5=Display  8=Payment Entry  I=Description

F3=Exit F4=Prompt F5=Refresh F7=Browse backward	
F8=Browse forward F11=Menu bar F12=Cancel	

20.25.5 Offender File Purge Report

This report is used to help track the minimum requirements for discharged files. Per OAR 166-150-0025(4), the minimum retention period for felony case files is 2 years, all other case files are 1 year after the case has closed. Once a file has reached the minimum retention period, follow your office policy for retention.

20.25.6 Outcounted Clients

A listing of individuals at your location that have been moved to an outcount. This report may help your office with not “losing track” of those that are not actively being supervised.

20.25.7 PPS Revocation Report

This report lists individuals who may have been given a PPS revocation sentence. Use this report information as a starting point to review records for accurate and complete data entry. When a PPS revocation sentence has been imposed, data entry includes admission to LC status, entry of an offense line (PPSVSanc), and entry of INOP.

Refer to 15.3 for more information on Parole and PPS Revocation Sentences.

20.25.8 Restitution Track no Amount Ordered

This report is used to track your restitution “to be determined” orders. Once the court has ordered restitution (after it had earlier been labeled TBD), you’ll go back in and add the amount ordered. If the court does not order restitution by the time it is due, change the restitution condition to non-trackable and enter a comment to indicate you’ve confirmed no restitution was ordered by ____ date.

20.25.9 RSNT, USAP, and PVPD Sentences with no Subsequent Sentence

This report lists sentences/cases that are in “limbo”, waiting for the court to order make the next decision. It may be helpful to research these sentences, checking to make sure judgments/orders haven’t been issued that you did not receive a copy of.

RSNT – Resentence of Conviction and/or Sentence. Refer to Chapter 30.

USAP – Unsupervised During Appeal – Preadjudication of Appeal. Refer to Chapter 30.

PVPD – Probation Violation is Pending (body OR sentence). Refer to 7.11.

20.25.10 Unclassified Community Risk Report

This report lists those AOS’s who are more than 60 days past their admission date without a PSC or Proxy assessment. Once these AOS’s are more than 60 days past their admission date they fall out of the Community Caseload pool which affects statistical reports and funding.

20.25.11 Unknown Sentence Type

This report is a list of clients that have no open sentences but the body remains open so the State cannot determine whether they’re a felony or misdemeanor body. This also potentially has budget impacts for your county. The only outcount cases that should have no open sentences are the USAP cases; all others should have open cases regardless of their outcount status.

20.25.12 USAP Clients

If an AOS files an appeal and PRIOR to the appeal being heard/adjudicated, the Circuit Court may order the AOS not be supervised while their appeal is pending (refer to 30.7). This report is to assist you in keeping track of these cases, perhaps doing follow-up in eCourts and going to the appellate case management system: <https://trportal.courts.oregon.gov/portal/home> to ensure you weren’t missed in receiving orders/judgments.

20.25.13 Use of the Proxy Risk Assessment Tool

When the Public Safety Checklist (PSC) was rolled out, the Proxy Risk Assessment tool was also rolled out as an alternative. The intent is that the PSC is the primary tool to be used. If the Proxy generates a risk level that is equal to or less than the PSC, the PSC should be used.

There are 4 reasons to use the Proxy: when the AOS has out of state criminal history and no PSC score (because there exists no LEDS arrest data and no Oregon conviction data in CIS), the AOS has significant enough juvenile arrest data that the Proxy generates a higher risk level than the PSC, no out of state history and no LEDS arrest data & no Oregon conviction data in CIS, or the AOS may have some Oregon criminal

history but also have significant enough out of state criminal history that the Proxy generates a higher risk level than the PSC.

This report has 2 separate tabs:

- PSC Lvl Matches Exceeds Proxy: This tab lists AOS's where the Proxy is the risk tool being used; however, the PSC level generating in the background either matches or exceeds the Proxy level. A new PSC needs to be completed.
- NPSC with PSC Score: This tab reflects AOS's who at the time the Proxy was generated, the PSC score was zero but there is a PSC score calculating in the background now. Most of these will generally be because a PSC was done before the sentencing information was available in CIS (i.e., need to wait until at least the next day after case information is entered). A new PSC needs to be completed.

NOTE: Be aware that in some cases, the PO may have already completed a WRNA or LS/CMI on cases within this report or the new PSC may in fact lower the risk level. Before you complete a PSC where a WRNA or LS/CMI has been completed, you may want to check with the supervising officer.

OPS CHAPTER 21 –

Offender Information and Sentence Computation (OISC) / Central Records

21.1 CONTACT INFORMATION

Managers

Tasha Peterson, Administrator: PH 503-570-6944

Email: Tasha.D.PETERSEN@doc.oregon.gov

Miscellaneous

PTA DL (DLOISCPTA@doc.oregon.gov) for requests to close an I line and questions for current prison sentence calculations.

TPS DL (DLOISCTPSWORKERS-OISCTPSWORKERS@doc.oregon.gov) for superuser type questions along with due dates or if the request is urgent and also for questions about commutations. For policy questions, please send to **Policy Manager**.

Closing packets & block to SID changes: OISC@doc.oregon.gov

Sending Sealed Documents: OISCSealings@doc.oregon.gov

Public Records Requests (non-medical documents): OISCInfo@doc.oregon.gov

Physical Address:

OISC (Bldg Z)
24499 SW Grahams Ferry Road
Wilsonville, OR 97070

21.2 STEPS TO LOCATE THE CASELOAD PRISON TERM ANALYST (PTA) BY AIC

From the CCSUPPORT Menu:

1. Select menu option 1. Offender Information
2. Enter the SID#
3. Choose F6= All Caseloads

21.3 WEBSITE ADDRESS FOR LOCATING DIVISION 70 RECORDS MANAGEMENT (AIC AND AOS) AND DIVISION 150 COUNTY AND SPECIFIC DISTRICT RETENTION SCHEDULE

Division 70 [Oregon Secretary of State Administrative Rules](#)

Division 150 [Oregon Secretary of State Administrative Rules](#)

21.4 TYPES OF CASES ACCEPTED

OISC will accept documents for these types of cases:

- Felony
- Felony changed to misdemeanor (successfully completes condition(s) of probation)
- Felony treated as misdemeanor
- Misdemeanor sex offenses
- Misdemeanor supervised with felony case(s)

21.5 TEMPORARY SID (BLOCK) NUMBER TO PERMANENT SID NUMBER

If documents were previously received by OISC under a temporary SID number (block number) but the AOS has now been assigned a permanent SID number, please notify OISC via the email address listed on [page one](#). To clarify, if they are in CIS, we could have documents sent from the courts that would need updated.

21.6 SEALED RECORDS

Sealed records can also be called expunged or set aside. Upon receipt of a directive from the court ordering records be expunged, sealed or set aside, all material (electronic files, microfiche, paper) referred to in the directive must be removed from all files, tracking systems, software, and databases to be secured and stored.

On the **1st** of each month (or the first business day thereafter), the Sealing Coordinator will send out an email to the SOON distribution with a list of AOSs that OISC plans to seal. Please check with your manager to determine whether your office can act based on the Sealing Coordinator's email or if you must have a certified copy of the original order. If you can act based on the email, please review the list of pending AOSs for your county and ensure everything related to the sealing court order is either mailed to OISC and/or destroyed.

Additionally, you will need to check to see if the AOS was ever on Interstate Compact with another state for the case listed on the court order or the email from the Sealing Coordinator. If the AOS was on compact supervision, then:

- Send the AOS information/order to the Oregon Interstate Compact Unit's email mailbox (Oregon.Interstate@doc.oregon.gov)
 - The Interstate Compact Unit will notify the other state to seal their records and will send a copy of the notification to the OISC Sealing Coordinator
 - The Interstate Compact Unit will seal the applicable records located in ICOTS.

When sending sealed material to OISC, only include that material which is usually sent with a closing summary. If you have already sent a closing summary file (because the AOS's cycle is closed), you do not have to send it again. Any other document or other references to that AOS's case such as logs, etc., should be destroyed.

If you are mailing documents to OISC, attach the email or the sealing order to the top of the sealed information and address to the Sealing Coordinator's attention. If you send it

electronically, send it to the secure OISC “Sealing” mailbox. The address is OISCSealings@doc.oregon.gov.

If you receive a sealing order for an AOS who is not in CIS, please do not forward it to OISC unless the case is an older case from 1979 and earlier. Send your response back to the appropriate Circuit Court, if applicable.

21.7 SENDING RECORDS TO OISC TO BE SCANNED/MAINTAINED

OISC’s preference is that file material be forwarded all at once when the AOS is discharged (see [miscellaneous section on page one](#) for email and physical addresses). It’s important that the closing summary be located on the top of the packet and that all sex offender registration documents are included with the other material.

If the file material is sent electronically, please use the AOSs SID number in the file name.

If the AOS died while on supervision, please remember to include the proof of death, if applicable, with the file material. The proof of death document needs to be from an official source and in writing (verbal is not acceptable). Examples of acceptable documents are:

- Death Certificate
- Health Department official memo/letter
- Obituary published by funeral home
- Social Security website
- Police Report
- Court order to close
- DMV LEDS

Effective, January 9, 2013, OISC will no longer accept conditional discharge case files. Since conditional discharged AOSs do not have a conviction, OISC will not archive these documents. *Exception:* If you receive an order setting aside conviction/arrest for a conditional discharge case, OISC will accept these documents to be sealed. Please [refer to section 21.5](#), Sealed Records, for this process.

- 21.7.1** Depending on the document received, OISC will place the document into Archives for either 75 years, or for 3 years. (See [section 21.9.1](#) for OISC Retention Schedule Cheat Sheet). When you scan and email closed files to OISC, please be sure to place a sheet similar to the one below between the 75-Year and 3-Year sections. This will help OISC clearly identify which section is which.

21.8 MPR SEX OFFENDERS

When closing a file for sex offenders supervised as misdemeanors, please send a copy of all the material that you want included in the packet to OISC for archiving. A closing summary should be the first page. Please mark in bold letters MPR SEX OFFENDER and send to OISC. The packet should also include the Notification of Obligation to Register Form. Please do not submit any file material on misdemeanor sex offenders until the case is closed.

NOTE: Do not send psychological reports or mental health evaluations.

21.9 DOCUMENTS MAINTAINED BY OISC

After Sentences Report (found in older files 1979 and earlier)

Appellate Judgments

Compact Closing Documents

Conditions of Probation

Death Certificate (or other acceptable proof of death)

Discharge of Parole/Post-Prison Supervision

Disciplinary Reports from the Institution

Earned Discharged Closing Report

Judgments/Orders

Notification of Sentence Expiration

Parole/PPS Violation Reports

Parole Orders

Post Sentence Reports

Post Prison Supervision Orders

Pre-Sentence Investigations (PSI)

Revocation Recommendations
Revocation Judgments
Structured Sanction Reporting Forms (with Notice of Rights)
Sex Offender Registration Form
Temporary Judgments
Weapons Notices

Additionally, please send any document which you believe would be important to retain as official file material.

NOTE: Structured Sanctions are to be sent because if an offender has the case sealed, the sanctions are deleted from CIS. Sanctions can only be deleted and not sealed.

21.9.1

DOCUMENTS MAINTAINED BY OISC CHEAT SHEET

75 YEARS

OISC will retain these documents permanently and transfer them to state archives 75 years after discharge of custody cycle:

- Closing Summary (**ALWAYS ON TOP**)
- Certificates of Discharge from Parole Board/Local Supervisory Authority (AKA: *Certificate of Supervision Expiration or Notification of Sentence Expiration and File Closure*)
- Death Certificate
- **Compact Case Closure Notice**
- Appellate Judgments
- Temporary Judgments
- Judgments/Orders
- Conditions of Probation (*only if included with judgment*)
- Revocation Judgments
- Pre-Sentence Investigations (PSIs)
- Photos/Mug shots (includes photos of tattoos)
- Earned Discharged Closing Report
- Violation Reports
- Revocation Recommendations
- Structured Sanction Reporting Form (with Notice of Rights)

Please add a divider page between the 75-year & 3-year sections when sending files to OISC to make it easier for OISC to identify the sections.

3 YEARS

OISC will retain these documents for 3 years after discharge of custody cycle:

- After Sentences Report (found in older files 1979 and earlier)
- Compact Closing Documents (*other than Case Closure Notice*)
- Conditions of Probation (*if separate document from judgment*)
- Proof of death other than Death Certificate
- Parole Orders
- Post-Prison Supervision Orders
- Sex Offender Registration Notification Form
- Weapons Notices

Additionally, please send any document which you believe would be important to retain as official file material. Include any such info in the **3-Year** section.

21.9.2 IMMEDIATE RELEASES FROM DOC CUSTODY

A DOC immediate release is based on new or existing documentation, court order, amended documents, BPPPS action or a file review correction that changes the projected release date to the current date or a date in the past.

An immediate release notification (OISC Form 480) will be sent to the director and SOON rep for the releasing county. Once the physical release date is determined, an Adjusted Inception of Post-Prison Supervision form OISC Form 477 will be sent to the SOON rep. This will show the physical and adjusted calculated release dates.

21.9.3 DOC RETENTION SCHEDULE

Official AIC File (ODOC 2010-0003)

- 1) **Assignment Record:** *Specific record documenting information including, but not limited to, housing, programming, court trips and similar information.*

Classification: Level 3

Retention Process:

Retain permanently, transfer to State Archives 75 years after discharge of custody cycle.

***Custodian of Record** will be the Transitional Services Division, Offender Information Sentence and Computation (OISC).*

Information Owner: Transitional Services Division, OISC.

- 2) **Authorizations:** *Records associated with authorizations signed by the AIC for release of information purposes to include Shared information system release form, Media release form and general releases of information.*

Classification: Level 2

Retention Process:

Retain 3 years after discharge of custody cycle, destroy.

***Custodian of Record** will be the Transitional Services Division, OISC.*

Information Owner: Transitional Services Division, OISC.

- 3) **Case History:** *Records associated with Case History to include Assessments (Ex.Static-99, LSCMI, A/D questionnaire), Police Reports (including incident reports, evidence reports, etc.), PSI's, LEDS Criminal History and Other Agency Criminal History Documentation.*

Classification: Level 3

Retention Process:

- (a) Retain PSI permanently, transfer to the State Archives 75 years after discharge of custody cycle;*
- (b) Retain all other records 3 years after discharge of custody cycle, destroy.*

Custodian of Record will be the Transitional Services Division, OISC.

Information Owner: Transitional Services Division, OISC.

- 4) **Classification:** *Records associate with AIC classification to include Classification Summary Scoring Forms, Classification Worksheets and Administrative Review.*

Classification: Level 3

Retention Process:

Retain 3 years after discharge of custody cycle, destroy.

Custodian of Record will be the Transitional Services Division, OISC.

Information Owner: Transitional Services Division, OISC.

- 5) **County Misconduct:** *Records associated with county misconduct prior to entering DOC custody to include reports and Misconduct conversion worksheets.*

Classification: Level 3

Retention Process:

Retain 3 years after discharge of custody cycle, destroy.

Custodian of Record will be the Transitional Services Division, OISC.

Information Owner: Transitional Services Division, OISC.

- 6) **Detainers:** *Records associated Detainers, including Transport Order, Judgments, IAD Forms, Waivers of Extradition, Cite to Appear Documents, and Statements of Imprisonment to include detainer calculation information.*

Classification: Level 3

Retention Process:

(a) Retain Judgments permanently, transfer to State Archives 75 years after discharge of custody cycle;

(b) Retain all other records 3 years after discharge of custody cycle, destroy.

Custodian of Record will be the Transitional Services Division, OISC.

Information Owner: Transitional Services Division, OISC.

- 7) **Disciplinary:** *Records associated with AIC disciplinary issues to include misconduct reports, Findings of Fact, conclusions and orders, Administrative Reviews, Disciplinary Log, Other Agency Misconduct From OYA, OSH, other county, state or federal placement during service of DOC sentence.*

Classification: Level 3

Retention Process:

Retain permanently, transfer to State Archives 75 years after discharge of custody cycle.

Custodian of Record will be the Transitional Services Division, OISC.

Information Owner: Transitional Services Division, OISC.

- 8) **Escapes:** *Records associated with escape incidents to include unusual incident reports, police reports, Order for arrest of escaped prisoner, LEDS warrant documentation, Fugitive tracking forms and Arrest documentation.*

Classification: Level 3

Retention Process:

Retain permanently, transfer to State Archives 75 years after discharge of custody cycle.

Custodian of Record will be the Transitional Services Division, OISC.

Information Owner: Transitional Services Division, OISC.

- 9) **Facesheets:** *Records serving the function of an AIC facesheet, to include CIS and cardstock facesheets.*

Classification: Level 3

Retention Process:

- (a) Retain first and last facesheet permanently, transfer to State Archives 75 years after discharge of custody cycle;*
- (b) Retain all other records 3 years after discharge of custody cycle, destroy.*

Custodian of Record will be the Transitional Services Division, OISC.

Information Owner: Transitional Services Division, OISC.

- 10) **General Correspondence:** *Correspondence related to AIC issues that are not specific to a subject captured elsewhere in the official AIC file. Correspondence relating to a particular program record may be filed with the associated record. Identified as “Correspondence (Significant)” in ODOC 2010-003.*

Classification: Level 3

Retention Process:

Retain 3 years after discharge of custody cycle, destroy.

Custodian of Record will be the Transitional Services Division, OISC.

Information Owner: Transitional Services Division, OISC.

- 11) Health Status Reports:** *Records created during intake and review screening processes, other than those records maintained in the AIC Health Records.*

Classification: Level 3

Retention Process:

Retain 3 years after discharge of custody cycle, destroy.

Custodian of Record will be the Transitional Services Division, OISC.

Information Owner: Transitional Services Division, OISC.

- 12) Identification Documents:** *Records associated with offender identification to include photos (includes mug shots, tattoos, etc.) and Fingerprint cards.*

Classification: **Level 1:** AIC identification photos (i.e. mugshots and intake photos used for AIC identification cards)

Level 3: All other, including photos taken for the purpose of documenting tattoos.

Retention Process:

(a) Retain photographs, mugshots and tattoos permanently, transfer to State Archives 75 years after discharge of custody cycle;

(b) Retain all other records 3 years after discharge of custody cycle, destroy.

Custodian of Record will be the Transitional Services Division, OISC.

Information Owner: Transitional Services Division, OISC.

- 13) Leaves/Transfers:** *Records associated with leaves from supervised custody and transfers within the agency to include 1206 requests, Emergency leave forms (includes Projected calculations for the BPPPS), Special housing placement forms, 30-day non-AIP transitional leave forms and Transport authorizations.*

Classification: Level 3

Retention Process:

Retain 3 years after discharge of custody cycle, destroy.

Custodian of Record will be the Transitional Services Division, OISC.

Information Owner: Transitional Services Division, OISC.

- 14) Legal:** *Records associated with legal issues related to the AICs incarceration including Judgments (Includes amended, final, temporary, supplemental, appellate, etc.), Statements of Imprisonment, Post-Sentencing Litigation (Including Petitions, notices, orders, affidavits and motions related to post-sentencing court proceedings, torts, etc.) and Charging instruments (including Indictments, informations).*

Classification: Level 3

Retention Process:

- (a) *Retain Judgments permanently, transfer to State Archives 75 years after discharge of the custody cycle;*
- (b) *Retain all other records 3 years after discharge of the custody cycle, destroy.*

Custodian of Record will be the Transitional Services Division, OISC.

Information Owner: Transitional Services Division, OISC.

- 15) Notifiers:** *Records associated with notifiers to include requests and notification letters.*

Classification: Level 3

Retention Process:

Retain 3 years after discharge of custody cycle, destroy.

Custodian of Record will be the Transitional Services Division, OISC.

Information Owner: Transitional Services Division, OISC.

- 16) Other:** *Miscellaneous records including, but not limited to, marriage licenses, Conflict forms (includes AIC-AIC or AIC-Staff), Property records, Emergency data notices, Administrative action sheets, and Firearm acknowledgement form.*

Classification: Level 3

Retention Process:

Retain 3 years after discharge of custody cycle, destroy.

Custodian of Record will be the Transitional Services Division, OISC.

Information Owner: Transitional Services Division, OISC.

- 17) Parole Documents:** *Records associated with Parole Documents to include Judgments, Revocation Orders, Administrative Reviews, Teletypes, Parole/PPS Orders, Order of Supervision Conditions, Reporting Instructions, Authorization for release from DOC, Release plans (including planning forms and check lists), Interstate Compact Documents, Violation Reports, Sex Offender Obligation Form, Evaluations, Certificates of Discharge (includes closing summaries), Waivers of Extradition, Suspension Order.*

Classification: Level 3

Retention Process:

- (a) *Retain Certificates of Discharge and closing summary permanently, transfer to State Archives 75 years after discharge of the custody cycle;*
- (b) *Retain all other records 3 years after discharge of the custody cycle, destroy.*

Custodian of Record will be the Transitional Services Division, OISC.

Information Owner: Transitional Services Division, OISC.

- 18) Prison Term Modification:** *Records associated with prison term modifications including earned time forms (includes old program planning forms), Extra good time*

calculations (Includes supporting documentation of days worked), Projected calculations for the BPPPS and Administrative Review.

Classification: Level 3

Retention Process:

Retain 3 years after discharge of custody cycle, destroy.

Custodian of Record will be the Transitional Services Division, OISC.

Information Owner: Transitional Services Division, OISC.

- 19) Probationary Case History:** *Records associated with Probationary Case History to include Judgments, Violation Reports, Sanctions, Supervision conditions, Certificates of Discharge (including Closing summaries) and Evaluations (ex. Sex offender).*

Classification: Level 3

Retention Process:

(a) Retain Certificates of Discharge and Judgments permanently, transfer to State Archives 75 years after discharge of custody cycle;

(b) Retain all other records 3 years after discharge of custody cycle, destroy.

Custodian of Record will be the Transitional Services Division, OISC.

Information Owner: Transitional Services Division, OISC.

- 20) Programming (AIC Participation) Records:** *Records associated with participation in identified programs including AIP, Education, WBE and other similar programs. Records include, but are not limited to certificates of completion and transcripts.*

Classification: Level 3

Retention Process:

Retain 3 years after discharge of custody cycle, destroy.

Custodian of Record will be the Transitional Services Division, OISC.

Information Owner: Transitional Services Division, OISC.

- 21) Visiting:** *Records associated with AIC visiting process to include Visiting request forms, Visiting denials, Visiting approvals, Custodial consent letters, Administrative Reviews and Visiting removals.*

Classification: Level 3

Retention Process:

Retain 3 years after discharge of custody cycle, destroy.

Custodian of Record will be the Transitional Services Division, OISC.

Information Owner: Transitional Services Division, OISC.

- 22) Work records:** *Records associated with work records used as supporting documentation for extra good time calculations. Records include AIC performance reports and meritorious pay awards.*

Classification: Level 3

Retention Process:

Retain 3 years after discharge of custody cycle, destroy.

Custodian of Record *will be the Transitional Services Division, OISC.*

Information Owner: Transitional Services Division, OISC

OPS CHAPTER 22 – Board of Parole

22.1 Short Term Transitional Leave

STTL AOSs are not under the Board's authority until they have reached their parole release date (PRD). Any violations, questions or concerns while the AOS is on STTL should be addressed to the STTL team at DOC for further advisement. Do not submit sanctions or warrant requests for STTL AOSs to the Board.

AOSs must sign the Order of Supervision form when they reach their PRD. Please submit that form to the Board by email at Orders.BOPPPS@doc.state.or.us. In the subject line of the email, write: SIGNED PPS ORDERS - "SID"/"NAME"

22.2 Supervision Orders

The Board issues Orders of Supervision approximately 3-4 weeks prior to an AIC's DOC physical release date. If an AIC is approved for a leave program (ex: STTL, AIP), the Board will issue their order approximately 3-4 weeks prior to the AIC's specific release date for that program.

Conditions of Supervision

When the release plan is being investigated by the field, the PO should provide feedback for implementing additional conditions appropriate for the AOS while the AOS is on community supervision. Enter any information received into appropriate fields in the release plan and then prepare the plan for approval or denial.

Modifications to Conditions

Once the Board establishes supervision conditions, the Board may consider a requested modification administratively. When a supervisory authority requests amended conditions before the AIC is released on parole or post-prison supervision, the supervisory authority shall submit the request in writing to the Board prior to the release date. If the Board approves the request, the Order will be changed accordingly.

If the PO wants to modify conditions after an AOS is released from DOC (either adding or removing) the AOS must sign a "consent to modify" form. Once the AOS has accepted the recommended changes, the PO should submit the signed form to the Orders desk at Orders.BOPPPS@doc.state.or.us with the subject line: CONSENT TO MODIFY - "SID"/ "NAME".

If the AOS objects to the modifications recommended by the PO, a hearings officer must hold an "out of custody" hearing. The Hearings Officer shall send notice of the amendment to the Board.

Unless the Board overrides the Hearings Officer or supervising officer's recommendation of amended conditions, an amended order of conditions will be issued. The condition is in effect from the date the supervising officer or Hearings Officer orders it.

If the AOS is being sanctioned for recent violations and the modification to the existing conditions is related to the violations, the PO can request for a modification in the sanction report. The AOS still needs to be notified of the modification request and can request a hearing. If the Board approves the modification request, the Board will issue an amended order of conditions.

New Local Control Sentence

The plan must be submitted electronically through CIS, and a hard copy must be faxed or emailed to the Board along with a copy of any new judgments, and the last Board Action Form. Send the email to Orders.BOPPPS@doc.state.or.us with the subject line: NEW LC - "SID"/ "NAME".

Following Revocation

Once an AOS's supervision has been revoked, a new release plan must be submitted to the Board for new supervision orders to be issued. The plan must be submitted electronically through CIS, and a hard copy faxed or emailed to the Board along with a copy of any new judgments, and the last Board Action Form, at least 30-45 days prior to the AOS's revocation release date. Send the email to Orders.BOPPPS@doc.state.or.us with the subject line: REVO RP- "SID"/ "NAME."

22.3 Active Supervision/ Inactive Supervision /Extending Supervision

To review the entire rules please see [OAR 255 Division 94](#).

When an AOS is released from prison and the supervision order is issued, the Board will set the active supervision review date (ASR/SSR) or the tentative parole discharge date (TPD).

Community corrections offices receive a monthly report from DOC listing all AOSs whose active supervision review date is within 60 days.

The counties review their list and make a decision to extend the AOS's supervision or move the AOS to inactive. The Board should be provided either a request to extend active supervision or a copy of the letter placing the AOS on inactive supervision. The requests can be faxed or emailed to the Parole Board Warrants desk ParoleBoardWarrants@doc.state.or.us.

Any request submitted greater than 60 days prior to ASR/SSR review date will have to be resubmitted within 60 days of the ASR/SSR date.

Inactive Supervision

The supervising officer is the best judge in determining whether an AOS has complied with supervision conditions and should move to inactive supervision. Once the supervising officer decides to move the AOS to inactive supervision, a copy of the letter that they submit to the AOS should be sent to the Board. The Board does **not** automatically place an AOS on inactive supervision.

If the Board determines that the AOS does not qualify for inactive status, the Board will contact the PO and provide follow up procedures.

Extending Supervision

To extend supervision, the parole officer must provide evidence that the AOS has not “substantially fulfilled” the supervision conditions or has failed to complete payment of restitution. It is important to note that continuing supervision is at the discretion of the Board, and the Local Supervisory Authority (LSA). Oregon Revised Statutes 144.085(3)-(4) states *“the supervisory authority may request the board to extend the active supervision period or to return the offender to active supervision status * * *.”* The board may extend, etc., *“if it finds the offender has not substantially fulfilled the supervision conditions or has failed to complete payment of restitution.”*

A request to extend supervision must provide:

- Request date,
- AOS name,
- AOS SID,
- Crimes,
- Employment status,
- AOS address,
- Areas of non-compliance with adequate substantiation showing how the AOS has not substantially fulfilled the supervision conditions,
- Documented violations or non-compliant behavior that has occurred in the 6 months prior to the active supervision review date,
- Signature of the parole officer.

Requests that wish to include violations or behaviors that occurred more than 6 months prior to the review date, must contain compelling substantiation showing a lack of substantial progress or compliance since the violations occurred.

Monetary Non-Compliance: Requests documenting non-compliance due to fees must state which type of fee has not been paid. The Board will extend supervision for non-payment or outstanding balance of compensatory fines or restitution only.

The Board **will not** extend supervision for non-payment or outstanding balances on supervision fees, court fees, or extradition fees.

Deported AOSs: AOSs who have been deported do not need to be extended. The issue is not that they haven't done any of the conditions of supervision, but rather that there is no evidence that the individual has violated any conditions. Therefore, based on the statutory language, *"* * * when an offender has served the active period of parole or post-prison supervision established under subsection (1)(a) or (b) of this section, the supervisory authority shall place the offender on inactive supervision status"* (ORS 144.095(2), emphasis added.). Parole Officers overseeing deported caseloads should leave these AOSs at IMMI status.

AOSs are required to report until deportation. If they fail to report as directed, they are in violation of supervision and action is required on the part of the LSA and the Board. A request to move to inactive supervision is not required on these AOSs.

Compact AOSs: AOSs supervised under the Interstate Compact are not eligible to be placed on unsupervised status. The PO must submit a request for extension stating the AOS is a compact offender.

Treatment: This includes all types of treatment programs. The PO must substantiate how the AOS has not fulfilled the treatment requirements, i.e., still attending treatment, has not completed treatment, has failed treatment, has failed to attend treatment, has not completed aftercare, etc.

Probation or other open cases: The Board will not extend on the sole basis that the AOS has active probation cases.

Employment: Must substantiate what about this category makes the AOS substantially non-compliant. Merely being unemployed is not adequate. The request must substantiate how the AOS has failed to perform a job search, or failed to apply for jobs etc.

Drug Courts/Other Probation Conditions: An AOS who is participating in a drug court program or court ordered community service is not enough to substantiate active supervision.

Substance Abuse/Alcohol Use: Continued use or recent use of prohibited substances is acceptable substantiation for keeping an AOS on active supervision.

Warrants/Abscond Status: An active warrant is adequate substantiation for requesting an extension of active supervision. However, stating the AOS has absconded when there has been no request for a warrant requires additional information as to the lack of compliance.

New Criminal Activity: Must substantiate or describe the actual behavior. **An arrest is not enough substantiation** to show substantial non-compliance with supervision.

22.4 Returning AOSs To Local Control Authority (LSA)

AOSs who have both Board cases and local control cases fall under the authority of the Board. Upon expiration of the Board cases, the LSA can submit a petition to the Board requesting that authority be returned to the county.

If an AOS is on post-prison supervision for multiple sentences which include a sentence that exceeds twelve (12) months ("Board case") and a sentence of twelve (12)-months or less ("Local Supervisory Authority case"), the Board will maintain jurisdiction of the post-prison supervision of the Local Supervisory Authority case until the Board's active involvement in the Board case expires. Following expiration of the Board's case, the Board will maintain jurisdiction over the post-prison supervision of the Local Supervisory Authority case until an AOS is re-released following revocation of the post-prison supervision for the Local Supervisory Authority case, or until the Local Supervisory Authority petitions to assume jurisdiction, whichever comes first. Once the LSA petitions the Board and the Board approves the request, the jurisdiction will fall under the Local Supervisory Authority.

To request jurisdiction over the LC case, send an email to the Board at bppps.webmaster@doc.state.or.us with the AOS's name, SID number, the cases which are local control cases, and request that the Board return authority to the LSA.

22.5 Sanction / Revocation Topics

The Board allows credit for time served starting the day of arrest, even if the AOS was arrested on the 5th at 11:58 p.m., the AOS will receive credit for a full day. That arrest date should be entered as the sanction's custody "begin" date.

Returned Sanctions

If a sanction is returned to the field, the Board will enter a note under the "Board Notes" tab in the sanction. The supervising officer should review the notes to see what needs to be added or removed and after making any needed corrections, resubmit the sanction to the Board. If the supervising officer has a question about why a sanction was returned, email or call the Board's Revocation Specialist.

Deferments

The hearings officer may request a deferral of a Morrissey hearing. This is often done because the AOS has new criminal charges pending. In order to defer a Morrissey hearing, the Hearings Officer should submit the request to the Board's Revocation Specialist in writing, via email or TTY. The request must contain the AOS's name, SID number, and a brief summary explaining the need for a deferral. At the time the deferral is requested, the Board must have a hold on the AOS via a warrant or suspend/detain, and a sanction must have been created and at "pending" status. If there is no warrant or suspend/detain issued at this time, the Hearings Officer must notify the PO to submit one immediately.

The maximum time allowed for a deferment is 120 days from the date of arrest. If the AOS is still pending adjudication on pending charges but is at day 120, the Board will lift their hold, put the sanction in return status, and notify the hearings officer that an out of custody hearing will need to be held upon adjudication of the charges.

Auto-Revokes

To have the Board consider an auto-revoke, no action can be taken on the new criminal violations and the AOS must be sentenced to a state or federal facility. For out of state convictions, the PO will need to get a copy of the sentencing documents showing that the AOS is serving the time in a state or federal facility. Those documents, with a request for the auto-revoke, should be submitted to either the bppps.webmaster@doc.state.or.us or ParoleBoardWarrants@doc.state.or.us emails for consideration.

Compact Auto-Revokes

If a Compact AOS receives a new conviction in the receiving state that is greater than the remaining time left on Oregon supervision, the PO may request that the Board consider an auto-revoke. The PO can submit the request for an auto-revoke if:

- The request is submitted on or after the current expiration date (not before),
- The conviction date is on or after March 1, 2016,
- The AOS is sentenced to a state or federal facility,
- The incarceration period exceeds the remaining length of supervision owed to Oregon.

These requests should be submitted to either the bppps.webmaster@doc.state.or.us or ParoleBoardWarrants@doc.state.or.us email with a copy of the sentencing document(s) for the new conviction.

22.6 Warrant Topics

Requesting a warrant or suspend/detain (S&D)

All requests must be received electronically through CIS. Requests should be clear and concise and should substantiate the need (violation) for a warrant.

The type of request is determined by the situation. If the AOS is not currently in custody, the PO must submit a warrant request (WREQ). If the AOS is in custody at the time of request, the PO must submit an S&D warrant request (SUSD). The S&D request must include the date the AOS was arrested, where the AOS is currently being held, and then the substantiation for the hold that shows violation.

Example: "AOS was arrested on 01/01/1901 and is currently in custody at XXXX jail".

If the AOS is arrested on a Board issued warrant, the PO does not need to submit a suspend/detain request.

Lift Requests

The PO must submit all warrant lift requests to the Board in writing either by TTY or email to ParoleBoardWarrants@doc.state.or.us explaining why the warrant is no longer needed. All INOP applied will remain.

Returned Warrants

If a warrant fails to substantiate a violation, the Board will return it to the field with a note. Please review the note, make the corrections, and resubmit to the Board. If you have a question about the note, call or email the Board's Warrant Specialist.

If a PO determines the warrant is no longer needed, prior to it being issued by the Board, they should contact the Board's Warrant Specialist to ask for it to be returned. Once the request is in REVI status in CIS, the PO must delete the request. Failing to delete the request will prevent the officer from submitting any new requests for that AOS.

Withdraw Warrants

The PO must submit all warrant withdraw requests to the Board in writing either by TTY or email to ParoleBoardWarrants@doc.state.or.us explaining why the Board should withdraw the warrant. If the AOS has been arrested on the Board warrant, the INOP applied will remain. If the AOS has not been arrested on the Board warrant, no INOP will be applied.

New Local Control Sentence/INOP on Local Control Sentence

If the Board has issued a warrant and an AOS gets arrested on that warrant and has received a new Local Control Sentence, a copy of the new judgment must be submitted to the Board. Following this AOS's arrest on the Board issued warrant, the new supervision order will not be created until the sanction is submitted and processed by the Board. If the LC case was not added to the parole order before the INOP time generated, the board may not get the INOP time added to the LC case. If this happens, OISC will have to manually add the INOP time to that specific LC case.

Upgrade Requests

To request an upgrade on a warrant, a request must be submitted to ParoleBoardWarrants@doc.state.or.us. The request must contain the AOS's name,

SID number, and a brief explanation of what information has been obtained supporting the knowledge that the AOS is in another state and substantiate an upgrade of the existing warrant's extradition limitations. If the supervising officer just has a guess or thinks that is where the AOS will go because they have in the past, the request will be returned with a request for more information.

22.7 Extradition/ Morrissey Process

[See also Chapter 7 Extradition / CNPO](#)

An AOS on abscond that is arrested out of state on a Board issued warrant may be extradited back to Oregon. The inoperative (INOP) time continues to run until the AOS is returned to Oregon. Extradition AOSs are returned to CCIC where their admission will be processed into CIS. A teletype and email is sent to the supervising county, county jail and Parole Board advising that the AOS has returned and will be transported back to the supervising county's local jail within 3 days. That admission date is the true arrest date for purposes of the sanction and inoperative time. Once the AOS is transported to the county jail, the PO must initiate the sanctioning process.

22.8 Deceased AOSs

The Board must receive notice of the death of any AOS under its authority or about to be released under the Board's authority. This allows the Board to clear any pending warrants or actions, and close and archive the file. For verification of death, the Board will accept a death certificate, county ME report, police report, social security index report, state police criminal history notice (LEDS CCH inquiry return stating deceased), obituary, or other official documents used by law enforcement or public safety offices. The Board will not accept newspaper articles covering the incident, or other similar non-official documents.

Death verification may be sent to the Board, via email at bppps.webmaster@doc.state.or.us, by fax or by mail. Include a cover sheet with your verification document indicating the AOS's SID number, and a brief message advising that the AOS has died, and you are requesting that the file be closed.

22.9 Discharge AOSs

The Board supervises AOSs up **to** the date of expiration, not through the date. If an AOS expires on the 5th, the Board recognizes their expiration effective on the 5th at 12:01 a.m. There are a few exceptions; however, those would require the AOS being a Parolee (matrix) and not a Post-Prison (sentence guidelines) AOS and new law violations or charges. Contact the Board for more information.

New Oregon Convictions

If an AOS receives a new Oregon conviction **prior** to the expiration date of their existing cases, it is considered the same custody cycle in CIS and the Board does not provide an expiration certificate. When the AOS is released from DOC the order at the time of release will only reflect the remaining active cases.

1. OPS CHAPTER 23 – Employee Maintenance

To find an employee's telephone number, refer to OPS 12, Section 12.19.1.

23.1 STEPS TO EMPLOYEE MAINTENANCE CHANGES

Do not forget to remove User ID's from active caseload numbers when that user is no longer responsible for a caseload. Any and all User ID's can be deleted from a caseload. Caseload numbers must remain on the system for the integrity of the historical data, cannot be deleted, can only be used one time, and must be within the location's caseload range. Caseload numbers must be numeric values. Community caseload numbers are formatted as 4-digits (9999) with space at far right. Caseload numbers must be within the location's caseload range. The "99" caseload "Description" field can only be changed by a Super User, cannot be discontinued, and are locked down for Release Plans.

Caseload numbers become part of the new historical data once they have been saved for a location. You cannot type "Discontinued" in the "Description field" but you must use Option 6-Discontinued. When reactivating a "Discontinued" caseload number (one or more User ID's are added), the "Description" field must be updated.

If a new caseload is created in error or with an incorrect number, contact the HELP DESK before adding User ID's or assigning offenders to the number and request it be deleted. The ticket would be assigned to Development or FAST (Field Automation Services Team). *Note: The FAST Team originally was made up of 5 people but for the past several years the team is now Judy Bell and Michelle Mooney.*

Only Support Staff or those with SUPPISIS authority are able to create a new caseload number or modify/discontinue an existing number.

Do not create a caseload number for another county. Authority is location specific.

When making changes to an existing caseload, and a UserID is added or changed, be sure there remains at least one user designated as Primary.

When using Option 6=Discontinue, the program automatically removes UserID's attached to the number and changes the "Description" field to "Discontinued."

Any caseload not in current use should be discontinued. These numbers can be put back into use for your location at any time.

It is suggested each county utilize the caseload designated and tied to their "L" location, rather than one attached to the community location. On the W/W Caseload Definitions screen, change your community location to your "L" location to show the caseload number attached to it.

Step 1 – From the Main Menu, type '18=Employee Maintenance Changes' on the selection line, press enter.

```

Secondary User: From the “Work with Caseload Definitions” screen, tab to the “opt” line beside the employee’s record to be changed. Put a “2=change” on “opt” line and press enter.

This will bring you to the “Caseload Definition” screen. Tab to the area to be updated/changed and make appropriate changes. Press enter to change record. First example is adding a secondary user; second example is changing phone number of existing user; and third example is changing description of existing caseload number.

Example 1:

CMS101I	Corrections Information Systems (TEST)	15:16:38
BALLARDD	Caseload Definition	1/13/16
CHANGE		
Location..... JACB Jackson County Community Justice		
Caseload number..... 6806		
Description..... LEREW,TIRA		
Caseload type..... C Community		
Add/chg User IDs: P/S:		
Enter option: 4=Delete A=Audit Stamp		
Opt	User Name	Phone Number Extn P/S
	BALLARDD Diane Ballard	541-774-4962 S
	LEREWTL Tira Lerew	541-774-4914 P
Bottom		
F3=Exit F4=Prompt F5=Refresh F12=Cancel F13=Repeat		
BALLARDD record added.		

Example 2:

CMS101I	Corrections Information Systems	16:45:12
BALLARDD	Caseload Definition	1/13/16
CHANGE		
Location..... JACB Jackson County Community Justice		
Caseload number..... 6862		
Description..... DO NOT USE-DIANE'S NUMBER		
Caseload type..... C Community		
Add/chg User IDs: P/S:		
Enter option: 4=Delete A=Audit Stamp		
Opt	User Name	Phone Number Extn P/S
	BALLARDD Diane Ballard	541-774-4962 P

The phone number above fills in from the User E-mail address and Work Phone screen.

If the phone number is incorrect, go to this screen by using F11,2,E. Type a "2" next to the name of the person whose phone is to be changed, and press "enter."

The following screen will appear:

Example 3:

SYS1011	Corrections Information Systems	16:52:53
BALLARDD	Maintain Work Phone	1/13/16
	CHANGE	
User ID.....	BALLARDD	Ballard, Diane M
AS400 location.....	DOC400	
User location.....	JACB	
Phone number.....	541)774-4962	
Email Address.....	ballardm@jacksoncounty.org	
User Type.....	SS Support Staff	Code, F4=Prompt
Note: If user name, AS400 location or user location is not correct, call the ISU Help Desk at 1-866-531-9600 to modify information.		

Make the appropriate change and hit enter. This will automatically change/correct the phone number in the Caseload Definition table.

Step 3 – Press enter to return to “Work With Caseload Definition” screen. Press 12=Cancel to return to Main Menu.

To Discontinue an Existing Caseload Number:

READ THIS BEFORE YOU BEGIN: Do Not Discontinue an existing caseload number until you have made certain all P=Primary offenders have been moved to a new caseload. Option 6=Discontinue will be blocked if there are any offenders assigned to the number as Primary. You must move the “Primary” offenders to a new, valid caseload number first. If all remaining assignments to the caseload are S=Secondary offenders, there will be a warning. Press enter again and the program will automatically remove all Secondary offenders and the number will be “Discontinued.” To ensure all offenders have been accounted for, compare the Parole Officer Caseload Report (including all outcounts) with the F10=Print from the Offender Caseload Summary screen (F17=Subset first to include all outcounts and Primary case assignment). You can also subset this report by Secondary case assignment to remove those offenders first, then subset again for all outcounts and Primary to make sure everyone is moved.

From the “Work with Caseload Definition” screen, tab to the “opt” line beside the existing caseload number to be discontinued, put a 6=discontinue on the line, press enter.

23.3 How to assign a user type to an existing employee:

Designating a user type is optional in CIS, but it is a mandatory field in the new fee system and will draw the user type from the field in CIS (SS, PO, CT, etc). If these are left blank in CIS, the fee system will assign a generic default user type.

If you want the user type to display the actual position/title in the fee system, CIS needs to be updated with the correct user type.

Step 1 – From the Main Menu, type “F11-2-E” this will take you to the “User E-Mail Address and Work Phone” screen.

F11=Menu bar	F12=Cancel	
SHUMWAYP record updated.		

Step 6 – Select “F3” to exit back to the “User E-Mail Address and Work Phone” screen.

Step 7 – Select “F3” to exit back to the Main Menu

OPS CHAPTER 24 – Checklists and Forms

This chapter of the manual contains a few sample checklists to help walk you through the steps of various processes and file maintenance. Keep in mind that processes **may vary slightly from county to county**, but the following checklists will give you a general guideline and are **not updated as processes in this manual change**.

There are also some samples of forms that are frequently used by all counties and again, these **may vary slightly from county to county**.

24.1 OPENING A NEW PROBATION FILE

When a new case is received, you must have a court order before entering anything into the CIS. The only exception to this rule is if you have a Temporary Uniform Criminal Judgment (UCJ) and you know your court is slow about issuing the final UCJ.

Follow these steps for opening a new probation file:

- ☐ 1. Search CIS and OIS for existence of record
- ☐ 2. Run QWHD and CCH in LEDS
- ☐ 3. Order a police report
- ☐ 4. Admit using admission process
- ☐ 5. Enter all pertinent information in all admission screens, including offenses and conditions
- ☐ 6. Print Kardex after all offenses and conditions have been entered
- ☐ 7. Enter EPR
- ☐ 8. Create file based on your county policy – please use statewide guidelines for which side of the file documents belong
- ☐ 10. If AOS is a resident of a different county,
 - a. obtain reporting instructions
 - b. release the body of the record to that county
 - c. transfer EPR to receiving county
 - d. send all file material to receiving county

*******If AOS is already on supervision in another county and this is an additional offense, enter the court order with conditions, send the judgment and police report (or indication it's been ordered) to the supervising county.**

24.2 CLOSING A PROBATION FILE

Permanent Closures

An AOS is only discharged when all sentences are closed in the current custody cycle. Follow these steps for closing the file (this may vary by county):

- ☐ 1. Review outcome measure conditions
- ☐ 2. Do necessary steps regarding fees
- ☐ 3. Close the offense lines and the body of the record
- ☐ 4. Be sure the EPR is gone, cancel if necessary
- ☐ 5. Send file material to OISC, if appropriate

Temporary File Closures

When an AOS is to be closed to a temporary outcount (ABSC, CMPO, IMMI, INAC, UNSU, etc), follow these steps for closing the file:

- ☐ 1. Be sure there is a current PSC
- ☐ 2. Release to outcount using release process
- ☐ 3. Modify EPR

24.3 OUTGOING TRANSFER CASES

Follow these steps for transferring a case to another county:

- ☐ 1. Update outcome measure conditions
- ☐ 2. Check the fee module
- ☐ 3. Release the body of the record in CIS
- ☐ 5. Transfer the EPR in LEDS
- ☐ 6. Per your county practice, attach a "Transfer Memo" to the file (not required)
- ☐ 7. Per your county practice, you can enter a note, an Informational Remark, or a chrono regarding the transfer (not required)

24.4 INCOMING TRANSFER CASES

- ☐ 1. Admit record in CIS using the exact date and time of release
- ☐ 2. Run a QWHD and confirm or update EPR as necessary
- ☐ 3. Create file based on your county policy – please use statewide guidelines for which side of the file documents belong

24.5 FILE ORGANIZATION GUIDELINES

Side 1

- Kardex
- All court orders, amendments & modifications
- Orders of Parole/Post-Prison Supervision
- Parole/Post Prison Supervision Facesheet
- Conditions of Probation
- Orders to Show Cause
- Board Action Forms
- Sex Offender Registration
- Discharge of Parole/Post-Prison Supervision
- Weapons Notice
- Photographs

Side 2

- Initial Intake Form
- PSI/Post-Sentence Reports
- Personal History Form (If on PSI)
- Notification of AIC Release
- Parole/PPS Supervision Planning Form
- Medical/Dental/Psychological Reports
- All Formal and Short Form Reports
- Letter in Lieu of Reports
- Detainers/Affidavits/Warrants
- Investigation Requests (Field/In-State/Out-of-State)
- Investigation Acceptances/Rejections
- Compact Packets (except orders and conditions)
- Initial Risk Assessments/Reassessments
- Treatment Completion Certificates/Notices/Reports
- Release of Information Authorizations (behind treatment tab)
- Polygraph Reports
- CSW completion reports/forms
- Hearings Documents
- Structured Sanction Forms
- EPR Entry Form (place on bottom of section)
- Closing summary

Side 3

- Chronos
- EPR Hits/Criminal History/FBI Record/Driving Records (all LEDS)

Side 4

- Police Reports
- Military/School Records
- Grievance Form
- Payment Schedules, Client Money reports, Payment Receipts
- Action Plans
- Employment Contact Forms
- AA Attendance Forms
- Correspondence
- All other miscellaneous material

24.6 FILE ORGANIZATION CHECKLIST

NAME: _____ CASELOAD: _____ TYPE: _____

Side 1 (in order from top to bottom)

- ☐ KARDEX
- ☐ ALL COURT ORDERS, PPS ORDERS
- ☐ SENTENCING GUIDELINES, FELONY ONLY
- ☐ ECOURT CASE REPORT (Behind appropriate circuit court order.)
- ☐ SIGNED CONDITIONS
- ☐ SIGNED WEAPONS NOTIFICATION
- ☐ SEX OFFENDER REGISTRATION OBLIGATION NOTIFICATION, if applicable
- ☐ PHOTO

Side 2 (in order from top to bottom)

- ☐ CONDITIONS CHECKLIST
- ☐ INITIAL RISK ASSESSMENT ☐ STATIC 99 ☐ OSORA
- ☐ INCOMING COMPACT PACKETS (except court order, conditions- they go on side1)
- ☐ PPS/PAROLE RELEASE PLAN PACKET
- ☐ TABS FOR TRACKABLE SPECIAL CONDITIONS WITH ALL MATERIAL FILED BEHIND (Treatment, CSW, etc)

- ☐ COMPLETED INTAKE PAPERS OR PSI REPORT
- ☐ EPR ENTRY (bottom, tabbed)

Side 3 (in order from top to bottom)

- ☐ CHRONO HISTORY (if printed for file)
- ☐ CURRENT CCH, FBI, DMV (ALL LEDS)

Side 4 (in order from top to bottom)

- ☐ OUTGOING COMPACT PACKETS
- ☐ WRITTEN REPORTING INSTRUCTIONS / ACTION PLAN
- ☐ SIGNED COURT FINE PAYMENT SCHEDULE (if full amount due to court can not be paid within 30 days)
- ☐ OJIN CASE FINANCIAL REPORT
- ☐ POLICE REPORTS (bottom, tabbed)

PLACE THIS FORM ON BOTTOM OF SIDE 3 WHEN ALL FILE MATERIAL HAS BEEN
OBTAINED

24.7 NOTIFICATION OF FILE CLOSURE

NOTE: You can alter the middle section (in red) but the top and bottom sections of this form should remain as shown.

24.8 FIELD INVESTIGATIONS from IN or LC

- ☐ Assign PO in OMS release planning module
- ☐ Run QWHD and RR in LEDS
- ☐ Create file or retrieve old file
- ☐ Per county practice, enter information on FI log
- ☐ Per county practice, mark file with investigation due date
- ☐ Per county practice, add the physical release date to the PO or team release calendar
- ☐ Give file to assigned PO
- ☐ If field investigation is denied
 - a. PO enters denial in OMS
 - b. Per county practice, make note of rejection
 - c. It's okay to shred release packet material (do not shred previous file)

25.4 MISC. REFERENCE MATERIALS

HOW TO USE THE TUTORIALS

From your Main Menu, on the 'selection' line type MENUCCTRAIN, press enter. This will take you to the Computer Based Tutorial Main Menu screen.

At this screen, on the 'selection' line, type the number of the desired tutorial you want to view, press enter. This will take you to the beginning of the desired tutorial.

From here you can read the storyline of the tutorial by using the page down key until you come to the end. At the end you will press enter to continue so you can view the tutorial. The playback of the tutorial can be controlled using the following keys:

F3=Stop F5=Play F6=Pause F7=Rewind

F8=Fast Forward F10=Display This Page Enter=To Go To Next Page

If you use the F3=Stop key, you will get a message asking if you would like to place a bookmark before exiting. Placing a bookmark will allow you to return to the tutorial and start in the same exact spot that you left off, so you don't have to view something you already viewed.

If you don't want to place a bookmark, type 'N' on the desired line, press enter. This will take you back to the computer-based tutorial main menu screen. You can either select another tutorial to view or you can press F12 to exit back to your Main Menu.

NOTE: If you use the F7=Rewind to go back a screen or two, you will need to F6 to Pause or F3 to Stop the rewind function at the desired screen. Then you will need to press F5=Play to start the tutorial moving again.

Sexually Violent Dangerous Offender

ORS 144.635 – 144.637

144.635 Intensive supervision; duration. (1) As used in this section and ORS 144.637:

(a) "History of sexual assault" means that a person has engaged in unlawful sexual conduct that:

(A) Is not related to the crime for which the person is currently on parole or post-prison supervision; and

(B) Seriously endangered the life or safety of another person or involved a victim under 12 years of age.

(b) "Sexually violent dangerous offender" means a person who has psychopathic personality features, sexually deviant arousal patterns or interests and a history of sexual assault, and who the State Board of Parole and Post-Prison Supervision or local supervisory authority finds presents a substantial probability of committing an offense listed in subsection (3) of this section.

(2) When a person is released from custody after serving a sentence of incarceration as a result of conviction for an offense listed in subsection (3) of this section, the board or local supervisory authority shall subject the person to intensive supervision for the full period of the person's parole or post-prison supervision if:

(a) The person was 18 years of age or older at the time the person committed the offense; and

(b) The board or local supervisory authority finds that the person is a sexually violent dangerous offender.

(3) The crimes to which subsection (2) of this section applies are:

(a) Rape in the first degree and sodomy in the first degree if the victim was:

(A) Subjected to forcible compulsion by the person;

(B) Under 12 years of age; or

(C) Incapable of consent by reason of mental defect, mental incapacitation or physical helplessness;

(b) Unlawful sexual penetration in the first degree; and

(c) An attempt to commit a crime listed in paragraph (a) or (b) of this subsection. [1999 c.924 §1]

Note: 144.635, 144.637 and 144.639 were enacted into law by the Legislative Assembly but were not added to or made a part of ORS chapter 144 or any series therein by legislative action. See Preface to Oregon Revised Statutes for further explanation.

144.637 Rulemaking. The Department of Corrections and the State Board of Parole and Post-Prison Supervision, in consultation with local supervisory authorities, shall jointly adopt rules establishing:

(1) Procedures for identifying sexually violent dangerous offenders; and

(2) Methods of intensive supervision for sexually violent dangerous offenders. [1999 c.924 §2]

Note: See note under 144.635.

OPS CHAPTER 26 – Glossary and Terminology

26.1 GLOSSARY

A

A&D: Alcohol and Drug Treatment.

AA: Alcoholics Anonymous.

ABSCOND: AOS left without permission of supervising officer; whereabouts unknown.

ACRS: Automated Criminal Risk Score.

ACTION PLAN: A plan (directive) the supervising officer expects AOS to accomplish; a legal document that can be used in Court; AOS is given a copy; a copy goes in the file. Also called a Change Contract.

ACTIVE SUPERVISION REVIEW DATE: A review date based on crime severity, good days, and guideline category. Applies to sentencing guidelines cases under the supervision of the Board of Parole & Post Prison Supervision.

AD SEG: Administrative Segregation.

ADA: Americans Disability Act.

ADDENDUM: Additional information submitted to the Court on a report that was submitted earlier.

ADJUDICATION: A judicial decision or sentence.

AFAMIS: Accounting Financial Automated Management Information System. A program in CIS for ordering equipment and supplies for state offices.

AFFIDAVIT: A notarized document submitted to the Court with a Revocation Recommendation or Special Report of Violation that affirms the information in the report is true.

AIC: Adult in Custody

AIP: Alternative Incarceration Program.

AKA: Also known as; not true name.

AM: Administrative Message. A miscellaneous message being sent via LEDS.

AMENDED SENTENCE ORDER: A Court order that changes the original sentence order. Can also add or delete former conditions of the original sentence order.

ANTABUSE: A chemical/medication that makes a person ill if they consume alcohol.

AOS: Adult on Supervision.

ARRAIGN: Arraignment of a defendant consists of calling upon them by name, and reading to them the indictment, and demanding of them whether they are guilty or not guilty, and entering their plea.

ARRAIGNMENT: First appearance in Court, time defendant is formally charged with offense.

ARREST WARRANT:

1) A document granting authority to any agency authorized to arrest, detain, and hold a DOC escapee or Board of Parole and Post-Prison Supervision absconder in custody until arrangements can be made to return individual to the custody of the DOC.

2) A written Court Order issued and signed by the Court commanding a peace officer or other specified person to arrest an individual who is accused of an offense, or who has absconded supervision while on probation.

AS/400: OUTDATED term, only left in for historical purposes. (Application Systems/400) An IBM Mini-Computer that allows many users to access the computer at the same time from a terminal or PC. Also referred to as: ISIS, DOC/400, CIS.

AUTO REVOKE: An administrative process that occurs when a defendant violates parole/post-prison supervision as a result of a conviction of a new crime and the court orders a prison term.

B

BAF: Board Action Form (issued by Board of Parole and Post-Prison Supervision and/or Local Supervisory Authority).

BALLOT MEASURE 10 CASES: Crimes committed after December 4, 1986 but before November 1, 1989. Parolees cannot be discharged until they have served three years inactive supervision after serving the Board ordered formal supervision period. (See [“INACTIVE PAROLE”](#).) (Also refer to the section in the manual that discusses [Ballot Measure 10 cases](#).)

BCP: Behavioral Change Plan

BCT: Behavioral Cognitive Therapy.

BENCH PROBATION: Probation to the Court, not formal probation.

BENCH WARRANT: A warrant issued by the Court for a person's arrest.

BLOCK NUMBER: A temporary 8-digit ID number assigned when a new AOS is admitted and they have not been assigned a State Identification Number (SID). You cannot enter an EPR until you have a SID number.

BPPPS: Board of Parole & Post-Prison Supervision, (Also known as 'The Board').

BREATHALYZER: A test of breath for alcohol consumption. Breathalyzer uses a glass ampule for testing with a calibrated dial; the digital type test is an intoxilyzer.

C

CAR: Compact Action Request.

CASELOAD: A county's or parole/probation officer's caseload consists of the AOS under supervision who are felony or misdemeanor AOSs; can be probationers, parolees, post-prison, or interstate compact AOSs, or a combination.

CASE PLAN: Goals set by supervising officer and the AOS to establish long-range planning, signed by AOS and supervising officer; copy to AOS and copy to file.

CC: An abbreviation used for concurrent sentences and/or community corrections.

CCCF: Coffee Creek Correctional Facility.

CCH: Computerized Criminal History; AOS records obtained from LEDS, NCIC, and FBI.

CCIC: Coffee Creek Intake Center.

CENTRAL RECORDS: Part of OISC (Offender Information and Sentence Computation). Depository for the Official File Material on all felony AOSs. Responsible for records archiving, sealing, and expunging of records. The purpose of Central Records is to maintain, in accordance to statutes and administrative rules, the official file documents pertaining to AOSs committed to the supervision of the DOC, individuals and agencies in the use of records for research and evaluation.

CHRONOS: Electronic chronology of supervision of AOS. These are traditionally kept in section 3 of files. A User ID Stamp with date, time, and user level is automatically generated. Handwritten versions may be found in old files.

CI: Confidential Informant.

CIS: Corrections Information System. Computer System with information about AOSs in prison and on probation, parole, and post-prison supervision.

CJIS: Criminal Justice Information Services.

CLASSIFICATION: The process of evaluating the supervision level needed for each AOS being supervised in the field.

CLOSED CASE: A case that is closed to all supervision, regardless of reason. This does not include abscond (case is suspended, in limbo), or transfer cases (supervision changed to another location).

CLOSING SUMMARY AND NOTIFICATION OF SUMMARY REPORT: Form used when file is permanently closed to Discharge status and official file material is sent to Central Records.

CLOSING SUMMARY REPORT: A report to the Court, Parole Board, or Interstate Compact requesting closure of case.

CMI: Case Management for Institution.

CMIS: Corrections Management Information System.

CO: Correctional Officer.

COGNITIVE SKILLS: Skills used to identify irrational and inappropriate thoughts in order to pursue rational thinking and appropriate behavior.

COLLATERAL CONTACT: Contact with anyone other than the AOS who can provide information relevant to the supervision of the case.

COMMUNITY CORRECTIONS (CC): System of supervision for people living in the community who are on probation, parole, or post-prison supervision. By using classification tools, treatment and support programs, community corrections professionals help preserve public safety while helping AOSs make the transition to useful citizenship.

COMMUNITY SERVICE: Programs to which AOSs may be court-ordered or sanctioned by a PO to be assigned to work for government or private non-profit agencies.

COMMUNITY SERVICE WORK: Hours of work to be performed in the community as part of sentence. Can be in lieu of fine, attorney fees, or victim's assessment (not restitution) imposed by the Court, if ordered as such.

COMMUNITY SUPERVISION: Supervision provided by community corrections agencies for AOSs on probation, parole or post-prison supervision.

COMMUNITY WORK CREWS: Crews composed of AOSs working in a group to provide community service. Crews typically clear trails, maintain parks, paint buildings, collect litter or perform other types of manual labor. May be ordered as a condition of probation and/or used as a structured sanction imposed by a PO.

COMPACT: (Also called Interstate Compact) This unit is responsible for all Oregon AOSs being supervised in other states and other state's AOSs being supervised in Oregon.

COMPENSATORY DAMAGES: A sum of money awarded by a court to indemnify a person for the particular loss, detriment, or injury suffered as a result of the unlawful conduct of another.

CONCURRENT SENTENCE: A sentence running for same period of time as another sentence. Can be same or different docket number.

CONDITIONAL DISCHARGE: A form of deferred adjudication in which the sentence is served with probationary conditions attached, under which the full penalty may be reinstated upon a violation of the terms of probation during the stated probationary period.

CONDITIONAL RELEASE: A defendant is granted release subject to performance of certain conditions required by the Court.

CONDITIONS OF PAROLE/POST-PRISON SUPERVISION: Conditions that a supervised AOS must abide by that have been set forth by the Board of Parole or Local Supervisory Authority. A Parole/Post-Prison Supervision order may contain special as well as general conditions.

CONDITIONS OF PROBATION: Conditions set forth by the Court that probationers must abide by. Conditions of Probation (sometimes called Conditions of Supervision) generally include Special as well as General Conditions.

CONTROLLED SUBSTANCES: Drugs or narcotics that are controlled by the Federal Government. These are listed as Schedule I, II, III, IV, or V controlled substances.

CONSECUTIVE SENTENCE: Sentence that runs after completion of another sentence. Court order must state consecutive.

CORRECTIONAL FACILITY:

- 1) A place used for confinement of person charged with and convicted of a felony crime (an institution)
- 2) A place used for Court-ordered confinement of a person convicted of a felony or misdemeanor a county jail.

COUNTS: The separate alleged crimes, known as “counts”, relating to a single docket number. (Ex. Docket: 10C12345/01 POS Meth, 10C12345/02 Delivery Meth, etc)

COURTESY SUPERVISION: Supervision of an AOS as a courtesy to another county, but not having actual legal authority to supervise the AOS. Generally done when AOS is temporarily residing in another county and will be returning or when AOS’s case is soon to expire.

COURT ORDER: A legal document ordered by the Judge. Most common are sentence orders that sentence an AOS for a crime of which they has been convicted. An Order may modify or change the original order, or order a Presentence Investigation.

COURT PROBATION: [See “BENCH PROBATION”.](#)

COURTS: Various Courts in the State of Oregon are as follows:

CIRCUIT COURT: Circuit Courts are state trial courts of general jurisdiction which sentence both felony and misdemeanor crimes, and in civil cases over \$10,000, in both adult and juvenile cases. They have adoption and juvenile jurisdiction in all counties except Cook, Gilliam, Harney, Jefferson, Morrow, Sherman, and Wheeler, where the county court exercises juvenile jurisdiction except for Termination of parental rights proceedings, over which the circuit court has exclusive jurisdiction. The circuit court also exercises jurisdiction in probate, guardianship and conservatorship cases in most counties. Judges are elected for six-year terms.

COURT OF APPEALS: The Court of Appeals is a court made up of 10 Judges. It has jurisdiction over civil and criminal appeal cases (except death penalty cases), appeals from the Tax Court, and for review of most state administrative agency actions.

DISTRICT COURT: District Courts are trial courts with jurisdiction over civil cases limited to \$10,000, and to misdemeanor criminal cases, including traffic offenses, where conviction is punishable by a fine of up to \$3,000, imprisonment of one year or less, or both. District Courts may conduct preliminary hearings in felony matters, but may not try cases involving title to real property. District Courts have small claims departments, which have jurisdiction over the recovery of money or damages where the amount claimed does not exceed \$2,500. District Court Judges are elected for six-year terms.

JUSTICE COURT: The Justice Court has civil jurisdiction where the amount does not exceed \$2,500, except in actions involving title to real property, false imprisonment, libel, slander, malicious prosecution, criminal conversation, seduction or upon a promise to marry. Justice Courts have small claims department where actions for recovery do not exceed \$1,500. Justice Court has criminal jurisdiction in all misdemeanor crimes punishable by imprisonment for no more than one year. They also have jurisdiction over traffic and other violations.

Justice Court is held by a justice of the peace within the district for which they are elected.

MUNICIPAL COURT: Municipal Courts have jurisdiction over violations of city ordinances and criminal cases occurring within the city limits or on city owned or controlled property. The types of cases are criminal misdemeanors, criminal traffic crimes where maximum penalty does not exceed a \$2,500 fine or one year in jail, or both; other minor traffic infractions; certain minor liquor and drug violations; parking violations; and municipal code violations such as animal and fire violations. Municipal Judges can perform weddings within their jurisdictions. Municipal courts are controlled by State statute and similar in procedure to District Courts, particularly to the introduction of evidence and the conduct of jury trials. Some cases can be removed on motion to District Court. Appeals from Municipal Court are to District Court. Judges are appointed by City Council; although in some counties they are elected.

OREGON SUPREME COURT: Composed of seven elected Judges who serve six-year terms who must be U.S. citizens and members of the Oregon Bar Association, and must have resided in Oregon for at least three years. It is primarily a Court of review; that is, reviews the decisions of the Court of Appeals in selected cases. It also decides which cases to review, selecting those with significant legal issues which call for interpretation of the laws which affect many citizens. The Court may affirm, reverse, or modify a decision of the Court of Appeals. This Court also has responsibility for admitting attorneys to practice in Oregon, and for the discipline of attorneys or Judges. The Chief Justice of the Oregon Supreme Court is elected from among the seven elected Judges. The Chief Justice Judge also assigns Judges to serve temporarily in Circuit Court when necessary.

TAX COURT: Has exclusive jurisdiction over all questions of law or fact under the state laws regarding income, inheritance, real property, personal property, timber taxes, cigarette taxes and local budget law. The Court has two divisions 1) Regular 2) Small claims. All trials are before a Judge, no jury. Appeal from this court is directly to the Oregon Supreme Court. In small claims, the courts decision is final. The Judge is elected to a six-year term.

CRCI: Columbia River Correctional Institution.

CRIMINAL CODE: The portion of the Oregon Revised Statutes that pertains to crimes and punishment.

CRIMINAL JUSTICE SYSTEM: System by which society identifies, accuses, convicts, and punishes AOSs who have broken rules of society as expressed by the law.

CRIME SEVERITY: Value given to a specific crime category based on severity of offense.

CS: An abbreviation used for community service and/or consecutive sentences.

CTP: Correctional Treatment Program.

CTS: Credit for time served during incarceration.

CUSTODY: The detainer of a person by virtue of lawful process or authority.

CUSTODY UNITS: A sanction that is used by the Court or supervising agency. Oregon law states a jail sentence is an alternative to a probation violation or post-prison violation or in part, determined when the AOS is convicted. A two-dimensional grid system uses the seriousness of a crime and the criminal history of the AOS at the time of sentencing. Following conviction, the Court can reserve custody units that can be used during period of probation. Each unit equals one day of jail or confinement in a release program. Sixteen hours of community service equals one custody unit.

D

DANGEROUS OFFENDER: This is a classification to require an extended period of incarceration to protect the public. It is determined by a sentencing judge following a psychological examination that shows a severe personality disorder suggesting a tendency toward crimes that seriously endanger others. Subject to a 30-year indeterminate sentence, the dangerous offender must serve up to twice the presumptive guidelines sentence before becoming eligible for release to post-prison supervision.

DAY REPORTING: Requires an offender to report to a central location every day. There, he/she files a written daily schedule showing how each hour of the day will be spent – at work, in treatment, in school, etc. A case manager spot checks to see whether the offender is where they are supposed to be. The offender must obey a curfew, perform community service, and submit to random drug testing. Day reporting is often program-intensive, offering such services as alcohol and drug group therapy, employment readiness, and job training.

DEPARTURE: There are two kinds of departures in Sentencing Guidelines; dispositional and durational. Both departures can be the result of aggravating and/or mitigating factors triggered by the criminal history or crime severity. The dispositional departure means the sentence imposed was probation or prison when the presumptive sentence was contrary. The durational departure means the sentence imposed was inconsistent with the presumptive sentence as to the term imposed, either the time of incarceration, the term of post-prison supervision, the length of probation or the number of custody units ordered.

DEPORTATION: Process of removal of a Non-US citizen and is under the control of the Department of Immigration & Naturalization Services (INS).

DETAINER: A document that is presented to the jail giving them authority to hold someone in custody. These can be placed by parole and probation officers or the Parole Board to authorize detention to the jail. A legal request from a jurisdiction that a person be held in custody until transfer to another jurisdiction for criminal proceedings.

DHS: Department of Human Services.

DISCHARGE OF PAROLE: When an AOS is released from the institution, they are put on parole for a specific period of time. At the end of the required time, they are discharged from parole.

DISMISSAL WITH PREJUDICE: Adjudication and final disposition barring the right to bring or maintain an action on the same claim or cause.

DISMISSAL WITHOUT PREJUDICE: Dismissal of a complaint without prejudice to the right of the plaintiff to sue again on the same cause of action. The effect of the words without prejudice is to prevent the decree of dismissal from operating as a bar to subsequent suit.

DISMISSAL: An order disposing of an action, suit, etc. without trial.

DISPOSITION: Determination of a charge.

DISTRICT ATTORNEY: (Also known as “DA”) The prosecuting attorney for the State or Federal Government in a specified district. The public officer who is appointed to conduct the criminal prosecution (on behalf of the state) within each county.

DIVERSON: Diversion refers to diverting a defendant out of the criminal justice system by having them complete a diversion program rather than be incarcerated or serve another alternative sentence. Criminal charges are typically dropped when a defendant successfully completes a diversion program. The defendant therefore avoids the stigma of a criminal conviction.

DOC- Department of Corrections: A department in state government that is responsible for the supervision of inmates, parolees, probationers, and Interstate Compact AICs/AOSs. All penitentiaries in Oregon are under the Department of Corrections. The Director of the Department of Corrections reports directly to the Governor. They are responsible for all of Corrections, Community Corrections and all the institutions. The Assistant Director of the Community Corrections Branch reports to the Director. They are responsible for all of Community Corrections.

DOC/400: Computer System with information about AOSs in prison and on probation, parole, and post-prison supervision. Technically an outdated name for the current CIS system but still widely used. Also referred to as ISIS & CIS.

DOC: Department of Corrections.

DOCKET NUMBER: A number that is assigned by the Court when a person has allegedly committed a crime. This identifying number is assigned as soon as one is charged with a crime. The number is found on arraignment and sentence orders (all Court documents pertaining to specific crime(s)).

DOCKET: A formal record of judicial proceedings.

DOJ: Department of Justice.

DPSST: Department of Public Safety Standards and Training.

DRCI: Deer Ridge Correctional Institution.

DUII: (Driving Under the Influence of Intoxicants) Driving a vehicle while impaired by the influence of alcohol, illegal drugs, prescription drugs, or some combination of the above.

DV: Domestic Violence.

E

EARLY TERMINATION REPORT: A report to the Court that requests an early termination from active supervision on an AOS. This report is requested when an AOS has met all terms and conditions of probation, and at least half of probation period is complete.

EARNED TIME: Allows a prison term to be reduced, depending on an AIC's behavior and participation in programs. Only AICs sentenced under sentencing guidelines are eligible for earned time.

EBP: Evidence Based Practices.

E-COURT: Oregon eCourt Case Information (This program has replaced OJIN statewide).

ELECTRONIC MONITORING: Requires the AOS to spend most of his time at home and work with a small transmitter attached to their ankle. A very specific schedule is required, and a computer notifies the corrections office by phone whenever the AOS leaves or enters his home.

EOCI: Eastern Oregon Correctional Institution.

EPR: Entry parole/probation record. A record of the Law Enforcement Data System (LEDS) which identifies an AOS who is in the community on parole, probation, post-prison, or interstate compact supervision. Information in the LEDS records on our AOSs

also lists name and telephone number of the supervising parole/probation officer. The EPR record allows police agencies to know who to contact when making contact with one of the AOSs.

ESCAPE: Unauthorized departure of a person from a correctional facility or alternative custody.

EXECUTION SUSPENDED, PROBATION: Suspending Court's judgment and ordering probation. If probation is not satisfactorily completed, the Court can impose, or execute the judgment.

EXPIRATION: When the Court ordered or parole ordered period of time has expired for an AOS on supervision.

EXPUNGE: The act of physically removing information including criminal records, in files, computers and other depositories.

EXPUNGMENT OF RECORD: Destroy all records in the office, as if they never existed; requires a Court Order. Central Records also expunges their records so a Court Order must be sent to them.

EXTRADITION: The surrender of a person by one authority to another. The surrender by one state to another of an individual accused or convicted of an offense outside its own territory and within the territorial jurisdiction of the other, which, being competent to try and punish him, demands the surrender.

F

FACESHEET: A document initiated by the institution that gives personal and offense data on an AOS in the institution.

FAUG: Field Automated Users Group.

FCD: Felony Conditional Discharge.

FEDERAL PRISON: An institution run by the Federal Government that houses AOSs sentenced to prison in Federal Court.

FELONY: A crime punishable by a prison sentence of longer than one year. A felon is someone who has been convicted of a felony. A serious crime; one declared a felony by statute because of the punishment imposed. Generally, a crime of a more serious nature than those designated as misdemeanors. Usually an offense punishable by imprisonment in a penitentiary for a year or more, rather than for a few months in a county or city jail as in the case of misdemeanors.

FIDUCIARY: A trustee; one who has the duty to act primarily for the benefit of another with respect to the subject matter of a trust.

FIELD: A term used when parole/probation officers are making AOS contacts outside the office.

FINES: An amount of money that the Court imposes at sentencing, listed in the sentence order. The sum of money paid as part of a penalty of conviction for a particular offense.

FINGERPRINT CARD: A card used to record data and fingerprints so a SID number can be assigned by the Oregon State Police ID Bureau. Applicant cards are used for employee purposes.

FMP: Felony treated as misdemeanor probation at time of sentencing.

FPA: Felony Parole.

FPAC: Felony Parole case being supervised in Oregon through Interstate Compact agreement from another state.

FPO: Felony Post-Prison Supervision.

FPR: Felony Probation.

FPRC: Felony Probation case being supervised in Oregon through Interstate Compact agreement from another state.

FSN: Fee System Network.

FTEP: Field Training and Evaluation Program.

FTO: Field Training Officer.

FVSN: Family Violence Support Network.

G

GHOST: A Department of Corrections AIC who is serving their Oregon sentence and a sentence from another jurisdiction in another county, state or federal prison.

GOOD TIME CREDIT: A reduction in sentence given under the pre-1989 matrix system for good behavior (one-third off) and participation in work programs (meritorious good time).

H

HEARINGS OFFICER: A person designated to administer for purpose of hearing evidence, sometimes making dispositional recommendations.

HISTORY RISK SCORE: Numerical score compiled based upon prior criminal history.

HIT: Word used when a direct contact is made on an AOS (EPR system). After an AOS has been entered into EPR on LEDS, anyone running an inquiry on LEDS will generate a hit or near hit (Soundex) from the LEDS terminal in that particular office. (Also see [“NEAR HIT”](#).)

HX: History.

I

ICE: Immigration and Customs Enforcement.

ICOTS: Interstate Compact Offender Tracking System.

IN LIEU OF: Instead of; in place of; in substitution of.

INACTIVE PAROLE CASES: Ballot Measure 10 cases; after serving three years on supervision, parolees are placed on inactive parole supervision status until their maximum expiration date. These cases are put on inactive parole supervision status until their maximum expiration date. These cases are put on inactive if they have complied with all conditions of parole, but can be put back on active status if they violate. Use outcount code UNSU.

INACTIVE BOARD POST PRISON SUPERVISION: (1) The minimum periods of active parole and post-prison supervision shall be:

(a) Six (6) months for offenders whose crimes were committed on or after November 1, 1989, and whose crimes fall within sentencing guidelines crime categories 1, 2 and 3;

(b) Twelve (12) months for offenders whose crimes were committed on or after November 1, 1989, and whose crimes fall within sentencing guidelines crime categories 4, 5, 6, 7, 8, 9 and 10;

(c) For offenders whose crimes were committed after December 4, 1986, but prior to November 1, 1989, the period of active supervision shall be set by determining the equivalent sentencing guidelines crime category and applying sub-section (a) and (b) above, subject to the exceptions in section (2) below;

(d) For offenders whose crimes were committed prior to December 4, 1986, the Releasing Authority shall apply the rules in effect at the time the crime was committed.

(2) The following minimum periods of active parole and post-prison supervision are exceptions to section (1) of this rule:

- (a) Three (3) years for offenders sentenced as dangerous offenders under ORS 161.725 to 161.737;
- (b) Three (3) years for offenders sentenced for murder under ORS 163.115;
- (c) Three (3) years for offenders sentenced for aggravated murder under ORS 163.105;
- (d) Offenders sentenced for Rape I, Sodomy I, Sexual Penetration I, Sexual Penetration 2, Sex Abuse 2, and Attempts of these which occurred on or after September 29, 1991, shall serve active supervision to the expiration of the indeterminate sentence;
- (e) Offenders sentenced for Sex Abuse I or Attempted Sex Abuse I for crimes occurring on or after November 4, 1993, shall serve active supervision to the expiration of the indeterminate sentence;
- (f) Offenders sentenced for Sodomy II or Rape II for crimes occurring on or after October 23, 1999, shall serve active supervision to the expiration of the indeterminate sentence.
- (g) Offenders sentenced for Sex Abuse I or Attempted Sex Abuse I, for crimes which occurred on or after November 1, 1989, and prior to November 4, 1993, will serve active supervision in accordance with the period of post-prison supervision set by the sentencing court and the sentencing guidelines grid;
- (h) Offenders sentenced for Rape I, Sodomy I, Sexual Penetration I, Sexual Penetration 2, or Sexual Abuse I, which occurred on or after December 4, 1986, and prior to November 1, 1989, shall serve a minimum of 36 months active supervision or to expiration of the sentence which ever comes first;
- (i) Offenders sentenced for Robbery in the First Degree under ORS 164.415 which occurred on or after June 30, 1995, shall serve a minimum period of 36 months active supervision; and
- (j) Offenders sentenced for Arson in the First Degree under ORS 164.325 which occurred on or after June 30, 1995, shall serve minimum period of 36 months active supervision; and
- (k) Offenders sentenced as sexually violent dangerous offenders pursuant to Chapter 163 (1999 OR Laws) for crimes committed on or after October 23, 1999, shall serve active supervision for life.
- (3) Upon completion of the specified period of active parole or post-prison supervision, the supervisory authority shall place the offender on inactive supervision status subject to the exceptions in OAR 255-094-0010, and notify the Releasing Authority of the status change.
- (4) Upon revocation of supervision and rerelease to the community, the period of active supervision shall be as provided in OAR 255-094-0001(1) & (2) provided that the period of active supervision does not exceed the sentence expiration date.

(5) After a rereleased offender has completed the minimum active supervision period as provided in OAR 255-094-0001(1)(2) and has substantially fulfilled the conditions of supervision, the supervising officer may place the offender on inactive supervision.

(6) Inmate/offenders found to be sexually violent dangerous offenders pursuant to OAR 255-060-0008(6) shall be subject to intensive supervision for the full period of parole or post-prison supervision as defined in OAR 255-005. Use outcount code UNSU.

INACTIVE LOCAL CONTROL (LC) POST-PRISON SUPERVISION: Effective August 2009, pursuant to HB 3508, Section 23, subsection (1) All persons sentenced to the legal and physical custody of the local supervisory authority under ORS 137.124 shall serve active periods of post-prison supervision as follows:

(a) Six months of active post-prison supervision for crimes in crime categories 1 to 3; and

(b) Twelve months of active post-prison supervision for crimes in crime categories 4 to 10.

(2) Except as authorized in subsections (3) and (4) of Section 23 HB 3508, when an offender has served the active period of post-prison supervision established under subsection (1) of this section, the supervisory authority shall place the offender on inactive supervision status.

(3) No sooner than 30 days prior to the expiration of an offender's active post-prison supervision period, the PPO may send a report to the LSA requesting they extend the active post-prison supervision period or to return the offender to active supervision status, not to exceed the supervision term imposed by the sentencing court. This would be done if the offender had not substantially fulfilled the supervision conditions. Use outcount code UNSU.

INACTIVE PROBATION CASES: Effective 02/24/2010, Division 206 (Administrative Rule) established a process whereby an offender convicted of a felony and sentenced to probation is eligible for a reduction in the period of active supervision for compliance with the conditions of probation and any applicable supervision plan as defined in the rule and in accordance with Oregon Laws 2009, chapter 660 (HB 3508). Refer to OAR 291-206-0010 thru 291-206-0030.

Upon completion of the minimum period of active supervision as authorized in OAR 291-206-0015, the supervising officer or designee shall review the offender's file and determine if the offender is in compliance, as defined in these rules. Use outcount code INPR.

SPECIAL NOTE: Under HB 3508, language specifically regarding Inactive Probation was allowed to sunset on July 1, 2011. However, those offenders sentenced prior to July 1, 2011 are still eligible for Inactive Probation per the provisions of HB 3508 at that time.

INACTIVE SUPERVISION: AOS on parole, PPS and/or probation and serving time in an out-of-state facility. Use outcount code INAC

INCARCERATED: When a person is lodged in the county jail or an institution; in custody.

INCARCERATION: Describes people confined to jail or prison. Imprisonment; confinement in a jail or penitentiary.

INCIDENT REPORT: These documented statistics are used by DOC in several different ways, including safety and security issues. Reports are generated when an arrest is made, a dog bite occurs, a threat to the community or supervising officer, and things of this nature. These are used for statistical purposes for the Legislature.

INDETERMINATE SENTENCING: A sentence wherein the court stipulates only a maximum term of imprisonment with the actual time served determined later by the Board of Parole and Post-Prison Supervision. The court may impose such sentences only for crimes committed before November 1989 and may not exceed the maximum term specified in the law.

INDEX CRIMES: The significant crimes selected by the FBI as indicative of the overall crime rate. They include such violent crimes as homicide, aggravated assault, rape and robbery and such property crimes as burglary, larceny and motor vehicle theft. In 1979, Congress mandated that arson be listed as a property index crime.

INS CASE: An immigration case that is under control and jurisdiction of the Department of Immigration and Naturalization Services (INS). (See [“DEPORTATION”](#).)

INS: Immigration & Naturalization Services.

INTAKE FORM: A form used by many offices, varies from office to office, and starts the file. Consists of AOS name, DOB, other identifying information, crime information, conditions, residence, employment, etc.

INTAKE: The process of informing the AOS of the conditions of their supervision, discussing expectations of the AOS regarding supervision (reporting, payments, etc.)

INTENSIVE SUPERVISION: Also called Special Supervision; the probation/parole officer may see an AOS up to five times per week and impose a curfew, check on employment status, require drug testing and/or make unannounced home visits.

INTERSTATE COMPACT: The unit responsible for all Oregon AOSs being supervised in other states, and other states' AOSs being supervised in Oregon. (See [“COMPACT”](#).)

IRT: (Inter-Regional Transfer) Process by which one county transfers an AOS's supervision to another county, usually because the AOS resides in the other county.

IRTR: Inter-Regional Transfer Response.

ISIS: Integrated Supervision Information System.

ISSD: Information Systems & Services Division (Now known as Information Technology System (ITS).

ITS: Information Technology Systems.

J

JAIL: Facility that confines persons accused of crimes and awaiting trial or persons convicted of a crime.

JAIL TIME: Credit allowed on sentence for time spent in jail awaiting trial, mandate, or appeal.

JII: Justice Involved Individual.

JUDGMENT: The official decision of a court upon the respective rights and claims of the parties to an action.

K

KARDEX: A document available in CIS for each AOS that lists AOS's name, DOB, SSN, SMT, height, weight, crime(s), sentence date(s), expiration date(s), SID number, coded special conditions and contact address and phone number.

KYTE: Inmate Communication.

L

LEDS: Law Enforcement Data System. A system which provides telecommunication and information services to all law enforcement and criminal justice agencies through the use of modern communications and information system technology network. The Department of Corrections enters supervised AOSs in EPR records in this system. Corrections also use LEDS to obtain FBI and NCIC records.

LEML: Law Enforcement Medical Liability. An assessment paid when a fine or forfeiture of bail is ordered.

LIFE WITHOUT PAROLE: Sentence imposed in certain aggravated cases where the AOS is not sentenced to death. Such a sentence provides no mechanism, whether

through executive clemency or otherwise, for making the AOS eligible for any kind of release program. AOSs so sentenced remain in prison until death.

LOCAL CONTROL (SB1145): After 01/01/1997, all AOSs convicted of a felony and sentenced to a prison term of twelve months or less are Local Control (SB 1145) AOSs. This includes all revoked from post prison supervision, since they can be revocation sanctioned to no more than 180 days, all parole revocations of 12 months or less, all revoked probationers whose original presumed sentence was felony probation, and all new-crime felony sentences of 12 months or less. Local Control (LC) AOSs are typically lodged in the county jail, but are technically serving a Prison Sentence.

LS-CMI: Level of Service Case Management Inventory.

LSI: Level of Service Inventory.

LTS: Less time served, means the same as CTS (credit for time served). Credit for time served during period of incarceration.

LWOP: Life Without Parole.

M

M11: Measure 11 (sets mandatory minimum sentences).

MATRIX CASES: Cases in which the crime was committed prior to November 1, 1989. Crimes committed after that date are called Guideline Cases.

MCCF: Mill Creek Correctional Facility.

MI: Motivational Interviewing.

MISDEMEANOR: A crime punishable by incarceration in a county jail for a period of not more than one year. A crime less than a felony as dictated by Oregon statutes. Offense lower than a felony and generally punishable by fine or imprisonment in county jail rather than in a penitentiary. Previously known as misdemeanor.

MODIFIED SENTENCE ORDER: A sentence order that changes the original order in some specific condition.

MONIKER: A nickname or street name (Ex. Tiger, Snitch, Boy Wonder).

MONTHLY REPORT: A report submitted each month by the AOS to their supervising officer.

MORRISSEY: Legal due process (a hearing) afforded to an alleged parole violator that stems from Supreme Courts decision of Morrissey vs Brewer.

MPA: Misdemeanor (Misdemeanant) Parole case.

MPAC: Misdemeanor (Misdemeanant) Parole Compact case.

MMPI: Minnesota Multiphasic Personality Inventory test.

MPR: Misdemeanor (Misdemeanant) Probation case.

MPRC: Misdemeanor (Misdemeanant) Probation Compact case.

MR: Monthly Report.

N

NA: Narcotics Anonymous.

NCIC: National Crime Information Center. A nationwide message switching system created to provide interstate exchange of criminal justice information which is operated by the Federal Bureau of Investigations in Washington, D.C.

NOA: Notice of Arrival.

NOD: Notice of Departure.

NOVA: National Organization for Victim Assistance.

NEAR HIT: A near hit in the EPR system on LEDS is when someone runs an inquiry on LEDS that results in a similar name, or close DOB, but not actually the AOS in question. (See also "[SOUNDEX](#)").

NEEDS ASSESSMENT: A tool used for AOS management.

NOTICE OF VIOLATION REPORT: A violation report to the Court when an AOS violates their General or Special Conditions of Supervision.

NUNC PRO TUNC: Something done in the present but which should have been done in the past. Court orders are sometimes signed "nunc pro tunc". A phrase applied to acts allowed to be done after the time when they should be done, with a retroactive effect, i.e. with the same effect as if originally done.

O

OACCD: Oregon Association Community Corrections Directors.

OAM: Oregon Accounting Manual.

OAR: Oregon Administrative Rule.

OCIC: OUTDATED term. Left for historical purposes. Oregon Corrections Intake Center. Now called CCIC.

OCJA: Oregon Criminal Justice Association.

OCMS: Oregon Case Management System. Replaced by the Public Safety Checklist (PSC) on 09.04.12.

OD: Officer of the Day. Handles other staff member's caseloads when they are not available.

ODARA (Ontario Domestic Assault Risk Assessment): A tool to assess risk in cases where a male has assaulted his female partner and can be used to predict the chances that the man will assault his partner again.

ODL: Oregon Driver's License.

ODOC: Oregon Department of Corrections.

OECl: Oregon eCourt Case Information.

OFFENDER NOTE: In CIS, a quick place to attach a comment about an AOS, much in the same manner that one would place a "Post-It" note on an AOS's file.

OFFENDER: A person under the supervision of the Department of Corrections who is on parole, probation, or post-prison supervision.

OFFENSE: The crime a person is charged with is called the offense. A breach of the criminal laws. Infractions, violations, and crimes are all offenses.

OIS WEBSITE: Oregon Corrections Information System. Available to users with CIS access.

OISC: Offender Information and Sentence Calculation. Maintains AOS paper records, provides information to the public and responsible for accurate release dates.

OJIN: OUTDATED term, left for historical purposes. Oregon Judicial Information Network. Ecourts replaced OJIN.

OOS AOS: Out Of State AOS; an AOS who was convicted in another state, but lives in Oregon and has been accepted for supervision by Oregon. A reciprocal agreement exists through Interstate Compact.

OOS WEBSITE: Oregon Offender Search. Limited DOC AIC information available to the public.

OPS: Offender Profile System. An AOS information system that integrates information from the Institution and Community Corrections.

ORDER: Every direction of a magistrate or judge to a person made or entered in writing and not included in a judgment.

OREGON PAROLE MATRIX: (Matrix System) A precursor to sentencing guidelines. It was established in the 1970s and offered greater latitude to judges in sentencing offenders than the current system.

ORI NUMBER: The number assigned by LEDS to identify an agency for access to LEDS.

ORS NUMBER: Oregon Revised Statutes number identifying Oregon laws and criminal codes definition.

ORS: Oregon Revised Statute.

OSCI: Oregon State Correctional Institution.

OSH: Oregon State Hospital.

OSP: Oregon State Penitentiary.

OSPBI: Oregon State Police Bureau of Identification.

OTTO: A program that can alert staff when an action is required. Initially, OTTO will be used in the Community to let staff know when a new risk assessment is required.

OVERRIDE: A term used in the classification system to indicate a change in the initial risk assessment/reassessment. The override can be either up or down, depending on the justification.

OYA: Oregon Youth Authority.

P

PARAPHERNALIA: A term, when used by DOC, describes drug, sex or gang-related evidence found to support allegations of criminal activity.

PAROLE BOARD: A three to five member Board, appointed by the Governor, having the authority to set release dates and impose conditions for AOSs on parole and/or post-prison supervision.

PAROLE/PROBATION OFFICER: (Often abbreviated “PO”.) Officer who supervises AOSs in the community. In some states, these officers receive a caseload that is either strictly parole or strictly probation. In Oregon the common practice is to assign a mixed caseload; hence the generic designation PO which can stand for either parole or probation officer.

PAROLE: Release from a term of imprisonment in an institution.

PAROLEE: An AOS released from a term of imprisonment in an institution.

PCS: Possession of a Controlled Substance.

PIO: Public Information Officer.

PLETHYSMOGRAPH: A test administered to men that measures sexual arousal or response to various stimuli. (Court often orders in sex offense cases).

POLYGRAPH: A test given to determine if person is telling the truth.

POST-PRISON SUPERVISION: The part of an AOS’s sentence which is served under community supervision by the Department of Corrections or a corrections agency designated by the department. A part of a Sentencing Guidelines sentence. A mandated period of supervision following release from an institution.

POST-SENTENCE REPORT: A report prepared by the supervising officer on an AOS who has already been convicted and sentenced to probation. Similar to Presentence report except Presentence reports are done after conviction but before sentencing,

PRCF: Powder River Correctional Facility.

PREA: Prison Rape Elimination Act.

PRESENTENCE INVESTIGATION REPORT: A report that is submitted to the Court by a probation officer, before the AOS is sentenced on a conviction, giving the Court background information, prior criminal records, substance abuse information/problems, scope of crime(s), and recommendation to help the Judge determine appropriate sentence.

PRESUMPTIVE SENTENCE: A presumptive sentence is the sentence normally imposed within the grid block when there are no departures.

PRISON: A state facility intended for felons, those who have been convicted of crimes punishable by incarceration of more than one year.

PRO TEM JUDGE: A member of the bar who does not regularly preside in a particular Court. i.e. a Circuit Court Judge presiding in District Court or as a fill-in for vacations and/or heavy workload.

PROBABLE CAUSE: Reasonable cause. Having more evidence *for* than *against*. A reasonable ground for belief in the existence of facts warranting the proceedings complained of.

PROBATION: When the Court sentences an AOS to supervision for a specific period of time they are on probation, this includes bench (informal) probation and formal probation.

PROBATIONER: An AOS who is serving a term under informal or formal supervision, living in the community, who is required to comply with terms of all conditions ordered by the Court.

PROGRESS REPORTS: A report sometimes required by a State other than Oregon on a Compact case to show AOSs progress while on supervision. Oregon Courts can also request these reports; however, this is seldom done.

PROPERTY CRIME: Crimes involving the theft or destruction of property without the AOS confronting the property owner.

PSC: Public Safety Checklist. Replaced OCMS as the risk assessment tool on 09.04.12.

PSI REFERRAL ORDER: An order from the Court requesting a Presentence Investigation.

PSI UPDATE: A shortened version of a PSI which is attached to the original PSI. The updates give only new information since last report and information regarding present crime.

PSI: [See "PRESENTENCE INVESTIGATION REPORT"](#).

PSRB: (Psychiatric Security Review Board) A Board that determines if a mentally ill AOS is to be committed to a State hospital, if a mentally ill AOS is ready to be released from a State hospital, and other issues of the mentally ill. The PSRB also orders the appropriate amount of time the mentally ill AOS is to serve on formal supervision. Also supervises AOSs admitted to OHS under guilty except for insanity.

PTA: Prison Term Analyst (OISC).

PUBLIC INFORMATION: Menu option in CIS that gives information regarding an AOS that is a matter of public record and therefore available to the public.

PURGE FILES: To destroy file material after scheduled retention policy.

PV: Parole Violation or Probation Violation.

Q

Quash: Reject or void, especially by legal procedure. “his conviction was quashed on appeal”

When a warrant is “quashed” that means it is removed completely and any reference to it should also be removed because it acts as though the warrant was never issued.

Quashed creates a scenario where one does NOT acknowledge the issuance and acts to pretend it was never issued. If an AOS has a warrant quashed, there would be no INOP time, no abscond movement, etc., because it’s as though the warrant did not exist.

R

RAP SHEET: Slang for an AOS’s record of arrest and convictions. A report of prior criminal records from the FBI, or LEDS/NCIC criminal records systems. Also known as CCH or Criminal Case History rap sheets.

REASSESSMENT: A tool parole/probation officers use to determine the level of supervision required by each AOS and the amount of risk an AOS is to community.

RECIDIVISM: The behavior of a repeat or habitual criminal. A measurement of the rate at which AOSs commit other crimes, either by arrest or conviction baselines, after being release from incarceration.

RECORDS EXPUNGED: All AOS records are sealed. All traces of records are removed from the branch office and Central Records. A copy of the Court Order to expunge record must be sent to Central Records.

RECORDS PURGED: [See “PURGE FILES”](#).

RECORDS SEALED: A record that is sealed cannot be used for Court purposes against AOSs unless the Court orders the record unsealed. All Sealing and Unsealing must be done by Court order. A copy of the Court order to Seal record must be sent to Central Records.

RELEASE OF INFORMATION FORMS: AOS must sign this form before confidential information regarding medical problems, treatment progress, doctors, schools, and military activities/records is shared with anyone outside the branch office.

RELEASE PLANS: Plans jointly developed by releasing authority and Parole/Probation Officer. They set forth programs and resources available in the community. The plan recommends the conditions necessary for supervision which will protect the community

and help the inmate make positive changes. The Board of Parole and Post-Prison and the Local Supervisory Authority has final approval of all release plans.

REMAND: Sending a case back to the same court out of which it came, for purpose of having some action on it there.

REPEAT AOS: An AOS who repeats an offense or habitually breaks the law. (See [“RECIDIVISM”](#)).

RESTITUTION CENTER: Programs that house AOSs in a structured setting, allowing them to leave for work or other approved activities such as drug treatment. The purpose is to provide control and support for AOSs who are paying victim restitution or other costs from wages they earn while working in the community.

RESTITUTION: Court ordered financial obligation to repay victim for damages or losses.

REVOKE- RESENTENCE: When original sentence is revoked and given another sentence and/or conditions. Something to watch is maximum time person can be on formal probation (5 yrs unless financial obligations are unpaid, then maximum is 6 years).

REVOKE: (Revocation) An action taken to return an AOS to prison. The term also refers to action taken to commit probationers to prison. Such actions are usually in response to a recommendation by the AOSs supervising PO.

RISK ASSESSMENT: A tool parole/probation officers use to determine the level of supervision required for each AOS and the amount of risk an AOS is to community. The level can be adjusted at various intervals of supervision by using a Risk Reassessment.

S

SANCTION: Punishment imposed for technical violations of parole or probation conditions when no new crime has been committed. The intent of sanctions is to take active remedial action to correct AOS' behavior in order to keep them in the community and to avoid returning them to prison, if possible. Sanctions often include community service, day reporting, electronic monitoring, house arrest, or a short stay in the local jail.

SCCI: Shutter Creek Correctional Institution.

SCI: Santiam Correctional Institution.

SCWC: Shutter Creek Work Center.

SEALING OF RECORDS: Process of closing records from public use. All sealing or unsealing of records must be done by a Court order and Central Records must have a copy of the order sent to them so they can remove offender records from the CIS.

SEARCH CLAUSE: A clause or condition which gives parole/probation officers the right to search AOS' property, person, residence or vehicle without a warrant. Confiscated items recovered in the search are admissible in Court for parole/probation violations.

SENATE BILL 156 AOS: An AOS on post-prison status whose original felony sentence, imposed after 01/01/1997 by the Court was 12 months or less.

SENTENCE GUIDELINES CASES: Felony crimes committed on or after November 1, 1989, are Guidelines Cases. Crimes committed prior to that date are considered Matrix Cases. In Sentencing Guidelines, upon conviction, prison/probation terms are determined by a grid that uses criminal history risk and crime seriousness scale calculations.

SENTENCE ORDER: Legal document issued by the Court, generally signed by the Judge, which reflects disposition of crime(s).

SENTENCE: Following a conviction, the Court sets forth the penalty or sanction that is to be imposed as a consequence of the criminal act. The judgment formally pronounced by the court or judge upon the defendant after his conviction in a criminal prosecution.

SFFC: South Fork Forest Camp.

SHOW CAUSE: To "show cause" against a rule, an order, decree, execution, etc., is to appear as directed, and present to the court such reasons and consideration as one has to offer why it should not be confirmed, take effect, be executed, etc. (Ex. Show Cause why probation should not be revoked.)

SID: State Identification Number assigned by the Oregon State Police to persons who have been fingerprinted. (Older numbers are seven digits, new numbers are eight digits).

SIS: Shared Information System. AOS voluntarily provides Social Security number to Department of Corrections for use in maintaining information and records for research purposes.

SMT: Abbreviation for Scars, Marks, and/or Tattoos used in AOS identification.

SO: Sex Offender.

SOC: Social Security Number. Also known as SSN.

SOON: Statewide Office Operations Network.

SOSN: Sex Offender System Network.

SPECIAL INFORMATION REPORTS: Reports submitted to the releasing authority for informational purposes or violation of conditions of supervision but when revocation is not being recommended.

INFORMATIONAL ONLY: Used to inform Court/Board of Parole of new information, no recommendation.

PROGRAM MODIFICATION REPORTS: A report requesting modification of conditions of supervision, i.e. adding or deleting conditions of supervision.

REPORT OF VIOLATION: A report that informs the Court or Board of Parole of violations of the AOS's conditions of supervision. They can contain a recommendation.

SRCI: Snake River Correctional Institution.

SSN: Social Security Number.

Stable and Acute: Dynamic risk assessment completed on sex offenders.

Static-99: Sex offender evaluation tool.

STG: Security Threat Group.

STM: Security Threat Management.

STRUCTURED SANCTION: Under Sentencing Guidelines, a supervising PO may sanction an AOS for a violation of the special conditions of their probation. Sanctions include jail, community service work, electronic monitoring, etc.

STTL: Short-Term Transitional Leave.

SUBSET: To narrow a long list of elements to a smaller, more manageable list. For example, to limit the list of Treatment Programs to work with in "Work with Treatment Programs" to only those Treatment Programs in a particular county.

SUBSIDY CHECKS: Money available to AOSs for transitional needs, etc...

SUMMIT: Success Using Motivation, Morale, Intensity, and Treatment. AIP @ SCCI.

SUN: Super User Network; a group of "super users" who assist Field Office users and the Help Desk in resolving data entry issues.

SUPERVISION FEES: Fees paid by the AOS as dictated by Legislature for supervision in the community. Fees can be waived by the Court or by the supervising officer in cases of hardship.

SUSPEND AND DETAIN WARRANT: A warrant issued by the Parole Board on parolees. The warrant allows the AOS to be held if arrested.

SUSPENDED SENTENCE: A sentence which is not put into effect, although, since it may take effect at a later date, it is not considered vacated.

SVDO: Sexually Violent Dangerous Offender.

T

TELETYPE: Report from LEDS, NCIC, FBI, and DMV used to generate criminal history including warrant, driving record, vehicle information, stolen property, guns and cars, etc. Can be used to send or receive messages to/from other branches, agencies, DMV, LEDS in Oregon, or other states.

TEMP LEAVE: An AOS released from an institution before they are paroled is called a Temp Leave AOS. It is now called Transitional Leave (Trans Leave) or Alternative Incarceration Program (AIP).

TL or T/L: Transitional Leave.

TPDD: Tentative Parole Discharge Date. A date the Parole Board sets based on the crime sentence and good time as the soonest the AOS can be released from supervision on parole offenses.

TPS: Technical Program Specialist (OISC).

TRANSFER REQUEST: A request to transfer supervision from one branch to another on in-state or out-of-state cases; also known as IRT. Out-of-state requests are handled through Interstate Compact. (See “IRT” for In-State cases & “COMPACT” for OOS cases.)

TRANSITIONAL LEAVE: See “TEMP LEAVE”.

TRAVEL PERMIT: A document giving AOSs permission to travel out-of-state. Issued by supervising officer or other authorized staff.

TRCI: Two Rivers Correctional Institution.

TX: Treatment.

U

UA: (Also called Urinalysis.) Urine test used for detecting alcohol and/or drugs in AOS's urine.

UNSUPERVISED PAROLE: [See Inactive Parole.](#)

UNSUPERVISED POST PRISON: [See Inactive Post Prison.](#)

UNSUPERVISED PROBATION: [See Inactive Probation.](#)

URINALYSIS: [See "UA".](#)

V

VINE: (Victim Information & Notification Everyday). A resource for victims for information re: AOSs.

VINE Service Number : (877) 674-8463 TTY: (866) 847-1298

<https://www.vinelink.com>

VICTIM: A person who suffers injury or loss due to the commission of a crime.

VIOLATION: When a parolee/probationer has not abided by the conditions of supervision, they are in violation.

VISITING JUDGE: [See "PRO TEM JUDGE".](#)

W

WAIVER: To abandon or relinquish the right to enforce a condition for a specified period of time, such as waiver of residence, waiver of supervision fees, etc.

WARRANT BY BENCH: Process issued by the court itself, or from the bench, for the attachment or arrest of a person; either in case of contempt, or where an indictment has been found, or to bring in a witness who does not obey the subpoena. So called to distinguish it from a warrant issued by a justice of the peace.

WARRANT BY SEARCH: An order in writing, issued by a judge in the name of the state, directed to a sheriff, constable, or other officer commanding him to search a specified house, shop, or other premises, for personal property alleged to have been stolen, or for unlawful goods, and to bring the same, when found, before the judge, and usually also the body of the person occupying the premises to be dealt with according to law.

WARRANT OF ARREST: A written order issued and signed by the Court, commanding a peace officer or other specified person to arrest a person named who is accused of an offense.

WCCF: Warner Creek Correctional Facility.

WILOJ: Work in Lieu of Jail.

WORK RELEASE: When an AOS is lodged in the county jail or the work release center and gets released to go to their employment but must return after completing their day's work.

OPS CHAPTER 27 – FINGERPRINTING

****PLEASE READ ENTIRE SECTION BEFORE BEGINNING ANY WORK ****

27.1 EMPLOYEE FINGERPRINTING

27.1.1 FLOWCHART

27.1.2 CJIS – SECURITY CLEARANCE BACKGROUND REQUEST

See OPS 27, page 7 for request form sample.

27.1.3 EMPLOYEE FINGERPRINT CARD

See OPS 27, page 8 & 9 for fingerprint card sample.

27.2 AOS FINGERPRINTING

27.2.1 FINGERPRINT CARD INSTRUCTION GUIDE

The following is a brief description of data required when completing fingerprint cards.
See samples of completed forms in OPS 27, pages 10-16.

SID:	Unique seven or eight-digit State ID number for each person with a State CCH.
FBI:	Unique nine-digit FBI ID Division number for each person with a Federal Criminal Record. Enter if known.
ORI:	Unique nine-digit NCIC Originating Agency number assigned to the contributor. This must coincide with the contributor's name.
CONTRIBUTOR:	Enter type of agency & city where located. <u>Do not</u> use county designation.
NAME USED:	Enter as shown on a form, such as a judgment, including the first alias.
DOB:	Enter date of birth as month/day/year.
DOA:	Enter date of arrest as month/day/year.
SEX:	Enter M for male or F for female.
RACE:	Enter race using one letter: A = Asian or Pacific Islander; B = Black; I = American Indian or Alaskan Native; W = White (includes Latins and Hispanics).
HGT/WGT:	Enter as feet & inches (Example: 5'10" or 510). Enter weight as given.
EYES/HAIR:	Eye & hair color. Use standard NCIC two-letter codes.
POB:	Place of birth. Use standard NCIC two-letter codes.
SOC SECURITY:	Social Security numbers. Enter as given.
LAN:	Local Agency number. This is an optional number you assign to this person.
OCA:	Local Agency Case number. Also referred to as Incident number or Police Report Number.
ADDRESS:	Enter address information which includes City, State & zip code.
SMT:	Scars, marks & tattoos. Use standard NCIC codes.
ARREST CHRGS:	Write in the name of the charge. For multiple counts of the same charge, enter in parenthesis. For example: FORG I (2 cts). If more than four charges, enter on the back of the card as #5, and so on.

ORS: Enter Oregon Revised Statute number for each different charge, except Compact cases, which require four-digit NCIC code. (See [OPS Chapter 6](#) for NCIC codes.)

COURT ID: Check appropriate box indicating Circuit, District, Justice or Municipal Court and enter the ORI number assigned to that court. For compact cases, enter two letter state codes, no numbers.

DISPOSITION: Enter Charge At Disposition, which is the same as Arrest Charge, the ORS Number (or NCIC number for Compact cases), the sentence date and the Court Case number. See [sample titled Adult Probation Entry](#), page 13.

NOTE: Use back of fingerprint card to record additional arrests and identifier information.

27.2.2 REQUIRED INFORMATION ON CORRECTIONS DIVISION CARDS

All cards must have the upper portion entirely completed. Please use your own ORI numbers, not the ORI's used in the example forms. Only one fingerprint card and disposition is required per person.

If you have any questions regarding fingerprint issues, you can contact:

Laurie Riesterer at OSP.

Her email address is: Laurie.Riesterer@state.or.us

Mailing:

Laurie Riesterer

OSP-ID Services/Records Unit

3772 Portland Rd NE, Salem OR 97301

Phone: (503) 378-3070

Fax: (503) 378-2121

OUT OF STATE TRANSFERS

- Use the original arrest date for the Date of Arrest. If there is no arrest date, you may use the Date Cited into Court or Indictment Date instead.
- List the charges exactly as they appear on the sentencing order.
- Use NCIC codes in place of ORS numbers.
- For the Court Identification, enter the state for which you are supervising.
- The Sentence Date is required. Make sure the Sentence Date is **after** the Date of Arrest. If the charges were dismissed, they need to know the date of dismissal.
- The sentence must be filled in as completely as possible. Use the specific amount of time sentenced. (Example: Prison 2Y, Probation 5Y.) If the jail or prison time is suspended, they need the original jail or prison time, as well as the amount of time that is suspended.

- The Date of Parole is required if the sentence is prison that has not been suspended.
- The date that supervision was accepted by Oregon is required on all transfers from another state.

IN-STATE ARRESTS

- The Arrest Charges and ORS numbers must match.
- The Court Identification area must be completed. Mark the type of court and list the court ORI number.
- Sentence dates and case numbers are required.
- **The sentence is required.** Mark Jail, Prison or Probation and list the specific amount of time received. If jail or prison time is suspended, list the original jail or prison time as well as the amount of time that is suspended.

27.2.3 NCIC UNIFORM OFFENSE CLASSIFICATIONS

For a list of NCIC Codes, see [OPS Chapter 6](#). Use NCIC Codes for Out-of-State arrests. In the Arrest Charges area on the fingerprint card, list the charge as stated on the court judgments and use the NCIC Code for the category that best represents that charge.

27.2.4 PROCESSING DELAYS/REJECTIONS OF FINGERPRINT SUBMISSIONS

Paper fingerprint submissions must meet specific criteria to be converted into electronic format and processed by the Integrated Automated Fingerprint Identification System. (IAFIS). The following may cause a rejection or delay in processing:

- Low quality print by dot matrix printers
- Poor penmanship
- Use of dark highlighter in entry block
- Entry not within boundaries of entry block
- Labels applied to "Leave Blank" areas
- Use of pencil or ink other than black

Paper or electronic fingerprint submissions may also be rejected for the following reasons:

- Fingerprints submitted for a non-criterion offense
- Descriptive data not complete (Example: Name not shown at top of the card; incomplete date of birth.)
- Charge is incomplete or not given in literal form
- Missing Originating Agency Identifier (ORI)
- No attempt to print deformed or scarred fingers

- More than one fingerprint impression per block (It must be indicated if the individual has extra digits or split thumbs)
- Fingerprints not properly rolled or poor quality
- Fingerprints on back of fingerprint card
- Fingerprints out of sequence
- Finger(s) missing due to amputation not noted as “amp” in fingerprint block
- Missing fingerprints with no reason given

NOTE: The CJIS Division requires that all fingerprint images be present on fingerprint submissions. This includes ten rolled impressions and four plain impressions.

27.2.5 EXAMPLE OF GOOD/ACCEPTABLE QUALITY PRINTS

See OPS 27, page 17 for sample of good, acceptable quality prints.

27.3. ISSUES RELATING TO THE NATIONAL SEX OFFENDER REGISTRY (NSOR)

27.3.1 ISSUE #1 – SUBMITTING CRIMINAL FINGERPRINTS FOR VIOLATION OF SEX OFFENDER REGISTRATION (SOR) REQUIREMENTS.

It is often difficult to determine whether a fingerprint submission is for sex offender registration or violation of the registration requirements. Because sex offender registration is not a criterion offense, fingerprints submitted for this purpose will be returned. As such, it is imperative that the charge on a criminal fingerprint submission for violation of sex offender registration requirements is clearly identified. The following acceptable charges that will be processed as criterion offenses are:

- Failure to comply with sex offender registration.
- Failure to appear for sex offender registration.
- Sex offender registration violation

If a fingerprint submission contains a charge that is undeterminable, it will be returned. (Example: Violation SOR or SOR with a statute cited).

27.3.2 ISSUE #2 – INTERSTATE IDENTIFICATION INDEX (III) RECORD STATUS

When a sex offender notice is posted, the status of an individual's criminal history record changes from a single source (SSO) to a multiple source (MSO) if the record was maintained by one of the III participating states prior to the entry of the sex offender record. In this instance, the FBI will transmit a \$.A.MSO message to the state that maintained the single source record. Likewise, deletion of a sex offender notice causes the status of the record to change from MSO to SSO, and the FBI will transmit a \$.A.SSO message to the state maintaining the individual's record.

27.3.3 ISSUE #3 – DETERMINING THE FBI NUMBER

When contributors are unable to determine or verify an FBI Number, they should submit fingerprints with “Criminal Inquiry Only” in the charge field. Contributors should use the Local/Identification Reference Field (previously named Originating Agency Case Number [OCA] Field) to assist them in correlating non-identified responses with their submissions.

27.4 CJIS HELPDESK AND SWITCHBOARD

The CJIS Division’s Help Desk & Switchboard are now TTY accessible for hearing-impaired users that have system problems or questions related to the CJIS Division or any of its systems. Their telephone number is 304-625-3963

27.5 SAMPLE FORMS ON PAGES 7 THROUGH 17.

CRIMINAL JUSTICE INFORMATION SYSTEMS SECURITY CLEARANCE BACKGROUND REQUEST

(DO NOT MODIFY THIS FORM – PLEASE FILL IN ALL FIELDS)

I have been informed that in order to be allowed access into areas associated with or around Criminal Justice Information Systems (CJIS), a state and national fingerprint background check will be required.

I understand that the existence of a criminal record in itself would not disqualify me for employment, contract work, or being a volunteer, however may effect what locations I will be allowed access. Further, I understand if there is any question regarding the results of the fingerprint background check, I may contact the Oregon State Police CJIS Division directly for information regarding the results of the check.

Applicant Signature (REQUIRED) _____

FEDERAL BUREAU OF INVESTIGATION UNITED STATES DEPARTMENT OF JUSTICE CJIS DIVISION/CLARKSBURG, WV 26306

APPLICANT

1. LOOP

THIS CARD FOR USE BY:

1. LAW ENFORCEMENT AGENCIES IN FINGERPRINTING APPLICANTS FOR LAW ENFORCEMENT POSITIONS.*
2. OFFICIALS OF STATE AND LOCAL GOVERNMENTS FOR PURPOSES OF EMPLOYMENT, LICENSING, AND PERMITS, AS AUTHORIZED BY STATE STATUTES AND APPROVED BY THE ATTORNEY GENERAL OF THE UNITED STATES. LOCAL AND COUNTY ORDINANCES, UNLESS SPECIFICALLY BASED ON APPLICABLE STATE STATUTES DO NOT SATISFY THIS REQUIREMENT.*
3. U.S. GOVERNMENT AGENCIES AND OTHER ENTITIES REQUIRED BY FEDERAL LAW.**
4. OFFICIALS OF FEDERALLY CHARTERED OR INSURED BANKING INSTITUTIONS TO PROMOTE OR MAINTAIN THE SECURITY OF THOSE INSTITUTIONS.

Please review this helpful information to aid in the successful processing of hard copy criminal and civil fingerprint submissions in order to prevent delays or rejections. Hard copy fingerprint submissions must meet specific criteria for processing by the Federal Bureau of Investigation.

- Ensure all information is typed or legibly printed using blue or black ink.
- Ensure data within the boundaries of the designated field or block.
- Complete all required fields. If a required field is left blank, the fingerprint card may be immediately rejected without further processing.
- The required fields for hard copy fingerprint cards are: originating agency identifier number - date of birth - place of birth - name - sex - fingerprint impressions - any applicable state stamp - Other (race, height, weight, eye color, hair color)
- Criminal fingerprint cards also require an arrest charge and date of arrest.
- Civil fingerprint cards also require a reason fingerprinted and date fingerprinted.

2. WHORL

- Do not use highlighters on fingerprint cards.
- Do not enter data or labels within "Leave Blank" areas.
- Ensure the "Fingerprint" label is checked when applicable (criminal only).
- Ensure fingerprint impressions are rolled completely from nail to nail.
- Ensure fingerprint impressions are in the correct sequence.
- Ensure notations are made for any missing fingerprint impression (i.e. amputation).
- Do not use more than two ridges per fingerprint impression block.
- Ensure no stray marks are within the fingerprint impression blocks.

Training aids can be ordered online via the Internet by accessing the FBI's website at: bi.gov, click on "Fingerprints", then click on "Ordering Fingerprint Cards & Training Aids". Direct questions to the Identification and Investigative Services Section's Customer Service Group at (204) 625-5590 or by e-mail at clinton@foia.gov.

PRIVACY ACT STATEMENT

Authority: The FBI's acquisition, preservation, and exchange of information requested by this form is generally authorized under 28 U.S.C. 534. Depending on the nature of your application, supplemental authorities include numerous Federal statutes, hundreds of State statutes pursuant to Pub.L. 92-264, Presidential executive orders, regulations and/or orders of the Attorney General of the United States, or other authorized authorities. Examples include, but are not limited to: 5 U.S.C. 552a; Pub.L. 94-29; Pub.L. 101-604; and Executive Orders 10450 and 12958. Providing the requested information is voluntary; however, failure to furnish the information may affect timely completion or approval of your application.

Social Security Account Number (SSAN). Your SSAN is needed to keep records accurate because other people may have the same name and birth date. Pursuant to the Federal Privacy Act of 1974 (5 USC 552a), the requesting agency is responsible for informing you whether disclosure is mandatory or voluntary, by what statutory or other authority your SSAN is solicited, and what uses will be made of it. Executive Order 9397 also asks Federal agencies to use this number to help identify individuals in agency records.

Principal Purpose: Certain determinations, such as employment, security, licensing, and adoption, may be predicated on fingerprint-based checks. Your fingerprint and other information contained on (and along with) this form may be submitted to the requesting agency, the agency conducting the application investigation, and/or FBI for the purpose of comparing the submitted information to available records in order to identify other information that may be pertinent to the application. During the processing of this application, and for as long hereafter as may be relevant to the activity for which this application is being submitted, the FBI may disclose any potentially pertinent information to the requesting agency and/or to the agency conducting the investigation. The FBI may also retain the submitted information in the FBI's permanent collection of fingerprints and related information, where it will be subject to comparisons against other submissions received by the FBI. Depending on the nature of your application, the requesting agency and/or the agency conducting the application investigation may also retain the fingerprints and other submitted information for other authorized purposes of such agency(ies).

Routine Uses: The fingerprints and information reported on this form may be disclosed pursuant to your consent, and may also be disclosed by the FBI without your consent as permitted by the Federal Privacy Act of 1974 (5 USC 552a(b)) and all applicable routine uses as may be published at any time in the Federal Register, including the routine uses for the FBI Fingerprint Identification Records System (Justice/FBI-009) and the FBI's Biometric Routine Uses (Justice/FBI-BRU). Routine uses include, but are not limited to: disclosures to: appropriate governmental authorities responsible for civil or criminal law enforcement, counterintelligence, national security or public safety matters to which the information may be relevant; to State and local governmental agencies and nongovernmental entities for application processing as authorized by Federal and State legislation, executive order, or regulation, including employment, security, licensing, and adoption checks; and as otherwise authorized by law, treaty, executive order, regulation, or other lawful authority. If other agencies are involved in processing this application, they may have additional routine uses.

Additional Information: The requesting agency and/or the agency conducting the application investigation will provide you additional information pertinent to the specific circumstances of this application, which may include identification of other authorities, purposes, uses, and consequences of not providing requested information. In addition, any such agency in the Federal Executive Branch has also published notice in the Federal Register describing any system(s) of records in which that agency may also maintain your records, including the authorities, purposes, and routine uses for the system(s).

INSTRUCTIONS:

1. PRINTS MUST GENERALLY BE CHECKED THROUGH THE APPROPRIATE STATE IDENTIFICATION BUREAU, AND ONLY THOSE FINGERPRINTS FOR WHICH NO DISQUALIFYING RECORD HAS BEEN FOUND LOCALLY SHOULD BE SUBMITTED FOR FBI SEARCH.
2. IDENTITY OF PRIVATE CONTRACTORS SHOULD BE SHOWN IN SPACE "EMPLOYER AND ADDRESS". THE CONTRIBUTOR IS THE NAME OF THE AGENCY SUBMITTING THE FINGERPRINT CARD TO THE FBI.
3. FBI NUMBER, IF KNOWN, SHOULD ALWAYS BE FURNISHED IN THE APPROPRIATE SPACE.
4. MISCELLANEOUS NO. - RECORD: OTHER ARMED FORCES NO. PASSPORT NO. (HP) ALIEN REGISTRATION NO. (AR), PORT SECURITY CARD NO. (PS), SELECTIVE SERVICE NO. (SS) VETERANS' ADMINISTRATION CLAIM NO. (VA).

COMPACT EXAMPLE - ARREST/DISPOSITION CARD NOTES:

Note: For explanation of all blocks on fingerprint card, refer to the Reference Table in the Instruction Guide.

- 1. A. THE ARREST**
- DOA (DATE OF ARREST) IS REQUIRED. FOR COMPACTS, THE DATE OF ARREST IS THE DATE OF ARREST OR INCIDENT DATE FROM THE OTHER STATE. If you cannot locate the date of arrest/incident date from the other state, use the date of indictment.
 - WRITE IN NAME OF EACH CHARGE THE PERSON WAS CONVICTED OF AND IS BEING SUPERVISED FOR. DON'T INCLUDE DISMISSALS. DO NOT USE OREGON ORS NUMBERS FOR COMPACTS - USE NCIC CODES. IF YOU DON'T KNOW THE NCIC CODE, LEAVE BLANK (JUST BE SURE YOU HAVE WRITTEN IN THE NAME OF THE CHARGE).
 - MAKE NOTATIONS AS TO WHY FINGERPRINTS COULD NOT BE TAKEN (AMPUTATION, INJURY, CRIPPLED, ETC.)
- 2. L. THE DISPOSITION**
- DISPOSITION REQUIRED INFORMATION:
- NAME OF STATE COMPACT WAS ACCEPTED FROM (WRITE NAME OF STATE IN THE "ENTER COURT IDENTIFICATION HERE" AREA -- SEE ② IN THE SAMPLE)
 - DATE COMPACT CASE WAS ACCEPTED IN OREGON (SEE ③ IN THE SAMPLE)
 - TYPE OF SUPERVISION (PROBATION, PAROLE, POST PRISON SUPV). If probation, circle PROB on form; if parole or post prison supv write in on the OTHER line on form.
 - LENGTH OF SUPERVISION (months, etc.) or provide expiration Date - write in on the OTHER line on form. Example: Probation Exp: 01/25/2015

<i>Oregon Compact Disposition Form using Livescan</i>	15
<i>Oregon Compact Disposition Form</i>	16

Introduction:

This guide will provide to you some general information for preparing an out-of-state compact fingerprint card and compact disposition. Samples are also included to illustrate where the information is placed on the card and disposition.

To establish an Oregon SID number, fingerprints must be obtained and submitted to the CJIS Division to process. Along with fingerprints, the compact charge and disposition are required. The SID number is established when the fingerprints have been processed and the arrest and disposition is entered into LEDS computerized criminal history (CCH) record. The community corrections agency will be notified of the SID number. This fingerprint card entry notification is done by LEDS - AM message.

Compacts are processed by the CJIS Division with special instructions. Compacts are not processed like an Oregon arrest. For example, compacts are entered with NCIC codes - not with Oregon statutes. Fingerprints associated with a compact case are not sent to the FBI. At this point in time, all compacts are "processed manually". Processed manually means the compact fingerprints and disposition must be **mailed** to ID Services to process. Compacts cannot be sent electronically using a livescan device. Future programming changes may be made to the livescan automated system so a compact can be processed electronically.

Requirements for Compacts:

- Fingerprints (obtained by ink or a livescan device using).
- Individual's demographics.
- Charge Information.
- Date of Arrest (or incident from the other state).
- Disposition.

Fingerprinting:

Fingerprints can be obtained from the individual by ink or by a livescan device. Currently, there are some counties that use ink and others that use a livescan device at the sheriff's office to print the compact individual. Whether using ink or a livescan device, obtaining properly rolled prints is critical. The fingerprint tech at the CJIS Division that processes the fingerprints will have to reject fingerprints due to improper inking, out of sequence, no slaps, pattern/ridge details, etc. A reprint will be necessary when this occurs, causing delay in processing the compact paperwork and establishing the SID number

Fingerprint Card Types for Criminal Charges (compact or Oregon):

There isn't a specific fingerprint card created for a compact case. Therefore, there are only two types that can be used for a compact case or for an Oregon case. To better understand the blocks on the fingerprint cards, refer to the Reference Table (p. 6).

Fingerprint Card Types:

(1) Fingerprint Card Form 86

- Use for criminal charges and disposition.
- Form 86 is a fingerprint card packet for obtaining fingerprints, reporting criminal charges and disposition. *The disposition sheet contained in the Form 86 packet may be substituted for the Oregon Compact Disposition form (Rev 07/05/2013).*
- Form 86 is stocked and issued by the CJIS Division (no charge/fees for these cards).
- Referred to as the "black/white" card. The packet contains multiple sheets. The top sheet is the disposition sheet, the middle is the "local agency" copy, and then the actual fingerprint card where prints are taken. Carbon sheets are between the disposition form, local copy, and transfer written/typed information to the fingerprint card.
- Form 86 contain pre-printed control numbers. Fingerprint control numbers are required for criminal history entry by CJIS.

(2) Fingerprint Card Form 249

- Use for criminal charges.
- Form 249 cards are issued and supplied by the FBI (pink/white cards). Most agencies that use a livescan device have these contained within their livescan device so they can make a printout of the prints/booking info. Form 249 does not have pre-printed control number or an accompanying disposition sheet. If this card is used in place of form 86, a control number will need to be transferred to from form 86 to the FD 249 card. The form 86 card will then need to be shredded. can only assign a control number very minimally.

IMPORTANT NOTE:

An APPLICANT card (blue card; form #FD 258) CANNOT be used to fingerprint an individual for criminal charges. If this card is used for criminal charges (compact case or Oregon arrest), it will be rejected and a reprint of the individual on a criminal card will be necessary. The CJIS Division cannot transfer fingerprints for criminal charges from an applicant card to a criminal card.

Fingerprint Card Form 86 and Form 249 Reference.	
Note: If handwriting information using Form 86, print firmly and clearly so information transfers from top sheet to the fingerprint card.	
Block on Card	Notes
Control #	Form 86 has a pre-printed 8-digit number control numbers (located on the upper-left top of card). Form 249 do not have pre-printed control numbers. A livescan device should be able to generate a 13-digit fingerprint control number.
SID #	State Identification Number. Leave blank; this space is reserved for CJIS Division.
FBI #	Not required. If known, write-in.
ORI #	Required. This is your agency's ORI # (9-digit number).
Contributor	Required. This is the name of your agency. Example: Washington Co. Comm. Corr. <i>Note: The contributor is the actual arresting agency, not necessarily the agency completing the booking or filling out the card or disposition.</i>
Name	Required. Name of the individual being printed for the compact. Write name in this format: last, first, middle, suffix (Jr, Sr, II, etc.). Example: Brown, Charles John Jr.
AKA	Write in any known AKA/additional names. Use the same format as the name. If you need additional space, use back of card. If no known AKA's, leave blank.
DOB (Date of Birth)	Required. Enter DOB as month, day, year. <i>Example: 11/27/1952.</i>
DOA (Date of Arrest)	Required. For compacts, refer to the out-of-state paperwork. Use the date of incident or arrest date from other state. If you don't have either date, it is recommended you use the date of indictment. If date of arrest is left blank, the paperwork may be rejected by the CJIS Division.
Sex	Required. M= Male F = Female. Do not enter unknown.
Race	Required. Use one of the following:

Fingerprint Card Form 86 and Form 249 Reference.	
	A – Asian or Pacific Islander B -- Black I – American Indian or Alaskan Native W -- [includes Latins and Hispanics]
Hgt (Height)	Required. Enter as feet and inches.
Wgt (Weight)	Required.
Eyes (Eye Color)	Required. Enter eye color abbreviation: BLK – Black BLU -- Blue BRO -- Brown GRN – Green HAZ – Hazel
Hair (Color)	Required. Enter hair color abbreviation: BLD – Bald BLU -- Blue BRO – Brown BLN – Blonde or Strawberry BLK – Black GRY – Gray or partially gray RED – Red or auburn WHT – White

Fingerprint Card Form 86 and Form 249 Reference.	
	PNK -- Pink
POB (Place of Birth)	Not required. If known, enter 2-digit state or country code.
SOC	Not required; enter if known.
LAN (Local Agency Number)	Not required.
OCA (Local Agency Case Number)	Not required. For compacts, the person's block # may be used as the OCA.
Address	Not required.
Signature of Person Fingerprint	Should be signed.
Date/Signature of Printing Official	Should be dated.
Address	Not required; enter if known.
SMT (Scars, Marks, Tattoos)	Not required. If known, write-in using standard NCIC codes. Example: SC Abdom , TAT RF Arm , TAT Neck <i>If you need additional space, use back of card.</i>
Arrest Charges	Required. For compacts, refer to the out-of-state paperwork. • Write in the name of the charge as stated from the other state. • Only report the charge(s) that the individual was convicted on. You don't have to list the charges that were dismissed. • If you are using form 86 and there are more than 4 charges, use the back of the card.
ORS	For compacts, use NCIC code only -- do not use Oregon ORS numbers. Refer to NCIC classification codes. If you don't know the NCIC code, leave blank.
Fingerprints	Obtain inked prints using black ink only. If you can't roll prints due to injury, casts, bandages, please notate on card. Make notation for missing/amputated fingers.

Using a Livescan Device for Fingerprinting:

If your agency chooses to use a livescan device to take fingerprints at the jail or sheriff's office, **please note that there special instructions for livescan.** This is because the individual is not being processed for Oregon criminal charge(s). Special instructions will need to be given to the deputy or person doing the fingerprinting using livescan so they understand what needs to be done on their end. You may need to provide the person doing the fingerprinting some paperwork so they will have the information they will need to enter in livescan. It's suggested you talk to the jail staff so that a system can be worked out for printing compacts.

Livescan instructions:

1. Take fingerprints only using the livescan criminal screen – **not applicant.**
2. A fingerprint control number (TCN) should be generated.
3. Entry of individual's demographics.
4. Arresting Agency should be changed to Parole & Probation's ORI – not the sheriff's.
5. Do not select charge(s) from the livescan ORS table. If they have to select an ORS on the livescan, they should use **000.000 New Charge**. If they use 000.000 New Charge, a charge comment of COMPACT should be entered in the charge comment field.
6. **Important – DO NOT SEND the print card to OSP.** *If it was sent in error, it will be processed as an Oregon arrest and the criminal history will need to be corrected. Notify the CJIS Division ASAP (call Laurie @ 503.934.2353).*
7. A printout of the print card (print locally) preferably on form FD 249. Only one set of print card is needed; palm prints are not needed for compacts.
8. Once the print card is printed, it will need to be returned to the PO or other assigned staff.
9. Once the PO or other assigned staff receive the print card, it should be reviewed to make sure the card has the correct information on both sides of the print card (**demographics, DOA, ORI #, charge(s).** **Correct the information by lining-out and writing in correct information.**
10. **Add the charges for the compact. List the name of the charge(s) exactly as specified from the out-of-state paperwork. Note: Only report the crimes the person is being supervised on; do not report charges that were dismissed. .**
11. Complete the compact disposition form and attach to the print card.
12. Mail to the CJIS Division.

Disposition Forms:

The disposition of the charges is required for compacts. The disposition form is included in the form 86 packet or you may choose to use the Oregon Compact Disposition form that has been created by the CJIS Division specifically for a compact disposition. If you choose to use the compact disposition form instead of the form 86 disposition, shred the form 86 disposition sheet. Whichever the form you decide to use for disposition, the same information is needed. To keep things simple on the compact disposition, we do not need to know all of the sentencing information from the other state since this should be on the other state's criminal history record. The following is the information that will need to be reported on the disposition form:

- **Name of the charge(s) the person was convicted of.**
- **Convictions - determination (felony or misdemeanor) is required.**
- **Deferred Sentence, conditional discharge, diversion (adjudication withheld).**
- **Type of supervision (probation, parole, post prison supv).**
- **Length of supervision (months, years, etc.) or date supervision is set to expire.**
- **Name of the state compact is being accepted from.**
- **Date the compact was accepted in Oregon for supervision.**

If you choose to use the compact disposition form instead of the form 86 form, you will be filling out a form-fill Word document. To navigate forward in the form from one field to the next, press the Tab key. If you need to check a box, use the mouse and click in the box. If you tab over the field you need to complete, press Shift Tab or you can use the mouse to click in the field. Complete all fields. Once complete, print. Attach the disposition to the print card and mail to the CJIS Division.

The disposition form needs to be completed by your agency; please do not attach the out-of-state paperwork unless requested by the CJIS Division.

MISSING REQUIRED INFORMATION

If required information is missing on the arrest or disposition, the compact cannot be processed. The CJIS Division may call your agency to get the information needed. If we cannot contact you, the card & disposition will be mailed to your agency with a rejection form explaining the information that is missing or incomplete. If you receive, please provide the information that is needed and mail to the CJIS Division.

COMPACT SUPERVISION TERMINATED

When the compact case completes their supervision and ***is no longer under supervision for the compact charges***, it is advised that you notify the CJIS Division when the compact case is closed so that the compact entry on the CCH can be purged . Please prepare the request using your agency's letterhead and reference the Oregon SID number and compact information.

OSP/CJIS DIVISION CONTACT INFORMATION

If you need additional assistance with compacts or Oregon cases, please contact by phone or email:

Laurie Riesterer

OSP/CJIS Division, CCH/Records Unit

COMPACT EXAMPLE – ARREST/DISPOSITION CARD NOTES:

Note: For explanation of all blocks on fingerprint card, refer to the Reference Table in the Instruction Guide.kj

1. PL THUMB

➤ DOA (DATE OF ARREST) IS REQUIRED. FOR COMPACTS, THE DATE OF ARREST IS THE DATE OF ARREST OR INCIDENT DATE FROM THE OTHER STATE. If you cannot locate the date of arrest/incident date from the other state, use the date of indictment.

➤ WRITE-IN NAME OF EACH CHARGE THE PERSON WAS CONVICTED OF AND IS BEING SUPERVISED FOR. DON'T INCLUDE DISMISSALS. DO NOT USE OREGON ORS NUMBERS FOR COMPACTS - USE NCIC CODES. IF YOU DON'T KNOW THE NCIC CODE, LEAVE BLANK (JUST BE SURE YOU HAVE WRITTEN IN THE NAME OF THE CHARGE).

2. L THUMB

➤ MAKE NOTATIONS AS TO WHY FINGERPRINTS COULD NOT BE TAKEN (AMPUTATION, INJURY, CRIPPLED, ETC.)

DISPOSITION REQUIRED INFORMATION:

➤ NAME OF STATE COMPACT WAS ACCEPTED FROM (WRITE NAME OF STATE IN THE "ENTER COURT IDENTIFICATION HERE" AREA -- SEE ② IN THE SAMPLE)

➤ DATE COMPACT CASE WAS ACCEPTED IN OREGON (SEE ③ IN THE SAMPLE)

➤ TYPE OF SUPERVISION (PROBATION, PAROLE, POST PRISON SUPV). If probation, circle PROB on form; if parole or post prison supv write in on the OTHER line on form.

➤ LENGTH OF SUPERVISION (months, etc.) or provide expiration Date – write in on the OTHER line on form. Example: Probation Exp: 01/25/2015

E-COURTS

E-Court system provides information regarding court cases. Users can retrieve sentencing information, financial obligation information, etc from E-Courts.

28.1 ACCESSING THE E-COURT SYSTEM

All courts have now converted to E-COURTS.

- Using the internet, go to:
<https://publicaccess.courts.oregon.gov/PublicAccessLogin/Login.aspx>
- Login using the appropriate Username & Password
- Select the appropriate location from the Drop-Down menu
- Click on the type of search you would like to make
- Enter the appropriate information, then click on 'Search'
- If you need help, click the 'Help' link (top, right corner) or the 'Help – Quick Reference' link (bottom, left corner)

Chapter 29 - Transitional Leave

This chapter is designed to give you an overview of the two types of leave to which AICs can be released from the institution: AIP and STTL. Each has different contact persons, procedures for violations, forms for sanctioning, conditions, etc. Please be sure that you know which leave you are dealing with on a particular AIC and access instructions based on that type.

To determine what type of leave an AIC has been granted, on the w/w offenses screen do an F21. Under the column heading "TL Type" S = Short-Term Transitional Leave (STTL); A = Alternate Incarceration Program (AIP)

For the most part, this chapter does not contain data entry instructions. There are some general data instructions, but for detailed instructions, please refer to other appropriate chapters for data entry, ex: [Chapter 2](#) for admitting leave AICs, [Chapter 7](#) for transferring from leave to post, etc.

29.1 Contact Information

STTL: Email: ShortTermTransLeave@doc.state.or.us

Phone: 503-947-0997
503-945-0940

Staff names: Tracey Coffman, STTL Program Coordinator
Colin Rauenzahn, Program Support Specialist

AIP: For questions about a release plan, contact the AIC's Release Counselor

For questions about violations, contact the Correctional Rehabilitation Manager (CRM) of the appropriate institution:

Coffee Creek: Elizabeth LaCarney
Email: Elizabeth.AI.LaCarney@doc.state.or.us
Phone: 503-570-6800

Columbia River: James Hanley
Email: James.K.Hanley@doc.state.or.us Phone: 503-280-6646 x226

Powder River: Debi Geddes
Email: Debi.A.Geddes@doc.state.or.us
Phone: 541-523-6680 x222

Deer Ridge: Richard Ackley
Email: Richard.R.Ackley@doc.state.or.us
Phone: 541-325-5223

29.2 Investigating the Release Plan –

After the Release Counselor prepares the plan for an AIC to receive short-term transitional leave or AIP, it is sent to the county of record (unless a waiver has been requested). The release plan will then be assigned to a probation officer for investigation.

1. Field investigations must be completed within 45 days of receipt of the Release Plan.
2. AIC must have approved housing, STTL and AIP AICs may not be homeless.
3. Respond to release counselor via e-mail and explicitly state that the STTL is either accepted or denied. AIP does not require acceptance by the PO, but housing for AIP release does; program eligibility is determined in the institution.
4. Provide reporting instructions if accepted for STTL or AIP supervision.

29.3 Receives AIC for Supervision –

STTL and AIP AOSs should be supervised in accordance with local practice and using risk-based supervision. Consideration should be given to the short duration a person is on STTL or AIP and that they are still considered an AIC of the Oregon Department of Corrections. Any AIP AIC who fails leave, will be returned to DOC and serve the remainder of their sentence incarcerated.

29.4 Conditions/Leave orders

If you are admitting an AIC to leave and you have not received the Leave Orders outlining the AIC's conditions, check with your PO first. If they have not received them, please contact the following:

STTL: ShortTermTransLeave@doc.state.or.us

AIP: The institution release counselor

These conditions/orders are typically finalized two weeks prior to the AIC's release and should go to the supervising PO. Sometimes there is a delay and conditions may not be ready until shortly before the AIC's release from custody.

If you find there are conditions on the Parole Board Order that do not appear in the STTL or AIP conditions, for STTL, please contact either the STTL team (email shown above), and for AIP, please contact the release counselor.

29.5 Conditions data entry in CIS

STTL: For conditions signed prior to 12/1/2018, use ST01 – ST12, and TS01-TS06.
For conditions signed after 12/1/2018, use ST01-ST12.

AIP: For conditions signed prior to 12/1/2018, use TL01 – TL09, and TS01-TS06.
For conditions signed after 12/1/2018, use LV01-LV12.

29.6 Warrants and Escape - STTL

Requesting a Warrant

When a leave AIC absconds, a warrant can be requested as soon as all efforts to locate the AIC have been exhausted.

Please keep in mind when requesting a warrant that an STTL AIC cannot be sanctioned past or serving a sanction past their calculated PRD. Therefore, if a warrant is requested shortly before their STTL expires, once they are arrested, they will only be able to serve as many days as remains on their prison sentence.

A. PO instructions:

1. Request a warrant using the STTL Violation Report.
2. Describe actions taken to confirm the AIC has absconded. (All efforts to locate the AIC should be exhausted prior to requesting a warrant).
3. Submit the warrant request to: ShortTermTransLeave@doc.state.or.us
4. The STTL office will issue the warrant and suspend & detain and send to:
 - OISC
 - Release Counselors
 - Probation Officer
 - Probation Director
 - Board of Parole and Post-Prison Supervision
5. The Institution Records staff where the AIC was last housed will enter the warrant into LEDS.
6. The OISC Prison Term Analyst (PTA) will move the AIC to escape status in the CIS and notify the Institution Records staff.

For warrants between the hours of 4:00 p.m. and 7:30 a.m.:

7. The DOC Community Corrections Division staff will send a request to Santiam Correctional Institution (SCI) Master Control to enter the warrant in LEDS.

8. SCI Master Control will enter the warrant in LEDS and notify the SCI Institution Records staff.
9. The OISC PTA will move the inmate to escape status in CIS and notify the Institution Records staff.

B. Support staff instructions:

Once you've ensured OISC has moved the AIC to escape status, cancel the EPR. No further data or procedure is needed until the AIC is arrested and the warrant is cleared.

When the AIC is arrested, they will be lodged in the jail local to their arrest and may or may not be transported to your jail. Your PO will be notified by email regarding the AIC's arrest and location of lodging with one business day.

If the decision to return to prison is made, OISC will complete the data entry and the AIC will serve the remainder of their sentence in the institution and will come out on post-prison supervision. If the AIC is to remain in the community to serve their sanction, OISC will admit to your county location using the same caseload number the AIC was on prior to moving to escape status. Your county should receive notification that Leave will continue and this will be your cue to know the AIC will be admitted back to your location by OISC.

If the AIC requests a hearing, they will be returned to Coffee Creek for that hearing.

INOP for the AIC's escape time is calculated by OISC and their sentences adjusted accordingly.

29.7 Warrants and Escape – AIP (Non-Prison Leave)

A. PO instructions during business hours:

1. PO contacts Correctional Rehabilitation Manager (CRM) at the DOC institution where AIC released by either phone or email.
2. PO describes actions taken to confirm the AIC absconded. (All efforts to locate the AIC should be exhausted prior to requesting a warrant.)
3. PO submits violation report to DOC institution regarding incident.
4. DOC CRM completes Suspend and Detain Order (CD1431).
5. The Institution Records staff where the AIC was last housed will enter the warrant into LEDS.

6. The OISC Prison Term Analyst (PTA) will move the AIC to escape status in CIS and notify the Institution Records staff.

For warrants between the hours of 4:00 p.m. and 7:30 a.m.:

7. PO contacts Correctional Rehabilitation Manager (CRM), or their after-hours coverage at the DOC institution where AIC released by either phone or email.
8. SCI Master Control will enter the warrant in LEDS and notify the SCI Institution Records staff.
9. The OISC PTA will move the AIC to escape status in CIS and notify the Institution Records staff, usually the next business day.

B. Support staff instructions:

Once you've ensured OISC has moved the AIC to escape status, cancel the EPR. No further data or procedure is needed until the AIC is arrested and the warrant is cleared.

When the AIC is arrested, they will be lodged in the jail local to their arrest and may or may not be transported to your jail. Your PO will be notified by email regarding the AIC's arrest and location of lodging with one business day.

If the decision to return to prison is made, OISC will complete the data entry and the AIC will serve the remainder of their sentence in custody and will come out on post-prison supervision. If the AIC is to remain in the community to serve his sanction, you will need to admit to your location with the same date and time the institution released the AIC from escape status.

If the AIC requests a hearing, they will be returned to Coffee Creek for that hearing.

INOP for the AIC's escape time is calculated by OISC and their sentences adjusted accordingly.

29.8 Sanctioning STTL Violators

STTL AICs can be sanctioned using the sanction options and standards in place for each county and in accordance with the grid for structured sanctioning.

1. Report violations using the STTL Violation Report.
2. Include signed STTL Notice of Rights (CD 1497).
3. Only custody sanctions must be submitted to the STTL office for approval.

4. All STTL correspondence including violation reports and warrant requests need to be submitted to ShortTermTransLeave@doc.state.or.us.
5. All violations should be reported to the Short-Term Transitional Leave office within 5 days of the discovery of the violation(s).
6. Please keep in mind that an STTL AIC cannot be sanctioned past their calculated PRD.

29.9 Sanctioning AIP Violators –

Non-prison Leave (AIP) AICs can be sanctioned using the sanction options and standards in place in accordance with OAR 291-058-0047 and OAR 291-062-0165. Essentially, the PO shall:

1. Contact the release counselor, by either email or phone, at the institution where the AIC was last housed to discuss the violation and whether the inmate needs to be returned to DOC. If the release counselor is unavailable, contact the CRM at the releasing institution.
2. All violations should be reported to the institution where the AIC was last housed within five (5) days of the discovery of the violation(s).
3. Use of jail sanctions for AICs on non-prison leave must be agreed upon by both DOC and the county.
4. If the decision is made to revoke non-prison leave and return the AIC to CCIC, the PO will submit a violation report to DOC via email to the CRM.

29.10 Recommending Return to the Oregon Department of Corrections (STTL):

The Short-Term Transitional Leave office, in conjunction with OACCD recommendations, uses the following general guidelines when making the decision to return a short-term transitional leave AIC to the Department of Corrections to serve the remainder of their sentence:

- New crime
- Absconded for a significant amount of time.
- Lack of approved housing
- Renewed public safety concerns (such as contact with a victim)
- Continued non-compliance (two or more previous sanctions while on STTL)

If it is recommended an AIC be returned to the Department of Corrections the following process should be followed:

1. Meet with and interview AIC, have AIC sign Notice of Rights (CD 1497).
2. Complete a Short-Term Transitional Leave Violation Report.
3. Submit the Notice of Rights, Short-Term Transitional Leave Violation Report, and any supporting documentation such as police reports to ShortTermTransLeave@doc.state.or.us.
4. Once all documentation has been received, and if the Short-Term Transitional Leave office agrees with the recommendation, notification will be sent out to the following parties notifying them of the decision to fail STTL and return the AIC to the custody of the Oregon Department of Corrections:
 - County Jail
 - OISC
 - CCCF Intake/Return
 - Release Counselors
 - Probation Officer
 - Probation Director
 - Board of Parole and Post-Prison Supervision
 - ODOC Benefits Coordinator
5. OISC will calculate a new projected release date (PRD) and will notify the County Jail via teletype.

NOTE: If the AIC is returned to the institution, the county should receive a new release plan; there may be adjustments made to Earned Time, if applicable, and possible addition of INOP time, if applicable; and after serving their time, will release to POST (PPS).

29.11 Recommending Return to the Oregon Department of Corrections (AIP):

Discussions between the CRM and the PO will determine the course of action with an AIC. Typically, the following general guidelines are used when making the decision to return a non-prison leave AIC to the Department of Corrections to serve the remainder of their sentence:

- New crime
- Absconded for a significant amount of time.
- Lack of approved housing
- Renewed public safety concerns (such as contact with a victim)
- Non-compliance with leave conditions

If it is recommended an AIC be returned to the Department of Corrections, the following process should be followed:

1. Complete a Violation Report and send to the institution CRM.
2. CRM will complete a Suspend and Detain Order (CD1431) and a Findings and Recommendation (CD1428).
3. CRM will collect all relevant documentation and forward to the following parties notifying them of the decision to fail non-prison leave and return the offender to the custody of the Oregon Department of Corrections.
 - OISC
 - CCCF Intake/Return
 - Probation Officer
 - Board of Parole and Post-Prison Supervision

NOTE: If the AIC is returned to the institution, the county should receive a new release plan; there may be adjustments made to Earned Time, if applicable, and possible addition of INOP time, if applicable, and after serving their time, will release to POST (PPS).

29.12 Successful Completions –

1. Once the AIC reaches their STTL or AIP end date/physical release date (PRD), OISC will close out the “I” line(s) to POST or AIP as applicable.
2. Community corrections support staff then needs to transfer the AIC from Leave to Post status according to instructions in [OPS manual Chapter 7, section 7.4](#), as well as open the “O” line(s).

Transitional Leave Notice of Rights/Decision About Rights

Offender Name:	SID:

Right to Violation Hearing

You have been provided with a violation report describing alleged violation behavior. You are entitled to a hearing on the alleged violation(s) if you so request. The purpose of the hearing is to determine if there is probable cause to believe you have violated one or more conditions listed on the Violation Report. The hearing will be conducted by an impartial institution hearings officer who will make findings, conclusions, and recommendations to the superintendent of the institution. **You will be returned to a Department of Corrections facility for the disciplinary hearing to be conducted.**

Structured Sanctioning Process

Instead of a violation hearing before an institution hearings officer, you may choose to participate in the structured sanctioning process where your supervising officer will continue your transitional leave and impose a structured sanction(s) based upon your violation behavior, your criminal history, and your level of supervision. Structured sanctions may include one or more of the following: community service; work crew; house arrest; confinement in a work release/restitution center; or jail. If you choose to participate in the structured sanctioning process your supervising officer may not terminate your transitional leave for this violation. The releasing authority may override whatever sanction is imposed by the supervising officer and impose whatever sanction deemed appropriate, up to and including termination of your transitional leave and your return to Department of Corrections custody.

Waiver of Violation Hearing

You have the right to waive your violation hearing by checking the appropriate box and signing this form. If you waive your right to a violation hearing, you admit violating the conditions of supervision as alleged and accept the sanction offered by your supervising officer.

Sanction(s)/Intervention(s) to be imposed:

I understand the rights contained in this notice and I:

- ☐ **do** want a hearing. I understand I will be returned to the Department of Corrections and the hearing will be conducted while in the custody of the Department of Corrections.
- ☐ **do not** want a hearing.
- ☐ I admit, or do not contest, the violations as alleged by my supervising officer.
- ☐ I accept the structured sanction offered by my supervising officer.
- ☐ Having waived my right to a hearing, I consent to the modification of conditions and/or the structured sanction(s) to be imposed as listed above. I understand that the Department of Corrections' may receive a copy of this violation and can take actions separate of sanctions imposed at this time up to, and including ordering my return to a Department of Corrections facility.

Indicate your choice above by checking the appropriate box(es) and writing your initials on the line.

I have read, or had read to me, and fully understand and acknowledge this Notice of Rights and my decisions about those rights.

Alternative Incarceration Programs (AIP)

Program	Type	Institution	Description	Target Population	Type & Length of Leave	Sanction Options for PO	Designated Contact
Living in Freedom Today (LIFT)	Women's Cognitive Restructuring AIP	Coffee Creek Correctional Facility - Minimum	Focuses on personal responsibility and accountability while addressing pro-social skill development. Outpatient-level alcohol & drug treatment as well as individual case management are integral components of the program.	Mod/high-risk substance abusers and/or cognitive need	<u>Nonprison</u> Leave (NPL) Up to 90 days	1. Impose administrative sanctions and interventions for Level I and II behaviors only. 2. Jail sanctions are limited to 3 days for offenders on AIP nonprison leave. 3. The PO must forward the completed sanction report and Notice of Rights to the designated contact at the releasing institution each time a sanction is imposed. 4. Any Level III behavior could be grounds for revocation. Contact the releasing housing institution for consultation on next steps. 5. Offenders should never be automatically returned to DOC without a discussion with the releasing institution. 6. A completed sanction report and Notice of Rights must be sent to the designated contact at the releasing institution for any offender returning to DOC.	Christine Popoff 503-570-6800
Turning Point	Women's Alcohol and Drug Treatment AIP	Coffee Creek Correctional Facility - Minimum	Provides intensive addiction treatment in a learning environment. A strong emphasis is placed on preparing for gainful employment and successful living in the community.	Mod/high-risk substance abusers	<u>Nonprison</u> Leave (NPL) Up to 90 days		Christine Popoff 503-570-6800
Recovery in Progress (RIP)	Men's Cognitive Restructuring AIP	Columbia River Correctional Institution	Focuses on cognitive skills, outpatient-level alcohol and drug treatment, work skills, and ethics.	Mod/high-risk substance abusers and/or cognitive need	<u>Nonprison</u> Leave (NPL) Up to 90 days		Elizabeth LaCarney 503-280-6646 x226
New Directions	Men's Alcohol and Drug Treatment AIP	Powder River Correctional Facility	An intensive residential treatment program focusing on developing personal accountability and responsibility. Participants also learn to identify and change criminal thinking errors, prepare for gainful employment, maintain pro-social relationships, and develop healthy decision-making skills and habits for successful community living.	Mod/high-risk substance abusers	<u>Nonprison</u> Leave (NPL) Up to 90 days		Debi Geddes 541-523-6680 x222
Low-ACRS AIP	Women's Low Risk AIP	Coffee Creek Correctional Facility - Minimum	These programs serve offenders who are AIP eligible and have low Automated Criminal Risk Scores (ACRS).	Low-risk and does not meet all requirements for treatment programs	Nonprison Leave (NPL) Up to 90 days		Christine Popoff 503-570-6800
	Men's Low Risk AIP	Deer Ridge Correctional Institution					Richard Ackley 541-325-5223

If otherwise eligible under Oregon law, any person sentenced for a crime committed on or after December 5, 1996 and prior to January 1, 2009, may be considered for alternative incarceration programs only upon order of the sentencing court as directed in the judgment pursuant to ORS 137.750. For a crime committed on or after January 1, 2009, the court must order in the judgment that "the Department of Corrections may release the defendant on post-prison supervision under ORS 421.508 (4)" for the person to be considered eligible for alternative incarceration programs.

Short-Term Transitional Leave (STTL) for DOC

Program	Type	Institution	Description	Target Population	Type & Length of Leave	Sanction Options for PO	Designated Contact
Short-term Transitional Leave (STTL)	N/A	All DOC Facilities	Provides offenders with an opportunity to secure appropriate transitional support for successful reintegration into the community prior to beginning post-prison supervision.	Statutorily eligible offenders who meet the requirements outlined in OAR 291-063.	Short-Term Transitional Leave (STTL) Sentenced prior to 8/1/2013, eligible for 30 days STTL. If sentenced on or after 8/1/2013, eligible for up to 90 days. If sentenced on or after 1/1/2018, eligible for up to 120 days.	1. Offenders on STTL may be given similar sanctions for levels I, II and III behaviors to those offenders on probation, parole, post-prison supervision. 2. Custodial sanctions and Notice of Rights must be sent to the STTL office for approval. Non-custodial sanctions do not need to be forwarded. 3. If the offender does not consent to a sanction, the PO will report the violation to the STTL Office within five days of the violation to process a revocation. 4. All revocation requests must be sent to STTL office using the STTL violation report. The criteria used in assessing requests for returns are: a. Offender does not agree to sanction b. Homeless with no viable housing options c. On-going non-compliance on STTL with previous sanctions (on STTL) d. Renewed public safety concerns (ex. contacting victim)	Tracey Coffman STTL Coordinator 503-947-0997 Larry Bennett CC Administrator 503-945-7101 For all Short-Term Transitional Leave issues, violations, and questions, please use the following e-mail address: ShortTermTransLeave@doc.state.or.us

If otherwise eligible under Oregon law, any person sentenced for a crime committed on or after December 5, 1996 may be considered for short-term transitional leave only upon order of the sentencing court as directed in the judgment pursuant to ORS 137.750.

CHAPTER 30 – APPEALS

NOTE: All information in this chapter does NOT constitute legal advice. If you have any questions or doubts as to how to interpret a court order, your agency may want to seek the advice of your county counsel.

Appeals Website: New Appellate Case Management System

APPELLATE JUDGMENT

Supreme Court judgment – this is an order that has been issued by the Oregon Supreme Court; could be pursuant to appeal; could overturn or in some other way change the original Circuit Court and/or Appeal judgment; could come after the case has been heard by the Oregon Appeal Court.

IN THE SUPREME COURT OF THE STATE OF OREGON
STATE OF OREGON, Plaintiff-Respondent, Respondent on Review,
v.
Defendant-Appellant, Petitioner on Review.
A166020 (Control), A166021
S066990
APPELLATE JUDGMENT

30.2 Notify the Board

If you receive an appeal order and it affects Board-controlled supervision, i.e. warrant needs recalled, some cases are no longer supervised, etc., please send a copy of the appeal order to the Board (via email to orders desk and/or warrants desk) and the recommended action you believe the Board should take (recall warrant, change PPS order).

30.3 Appeal orders

When you receive an appeal order, first determine if the record of the AOS has already been closed appropriately. If the AOS has been discharged appropriately, you can add the appeal order to the hard file if you still have it, add an F8 note that an appeal order was received on ____ date with a ____ effective date, and no other data entry changes need to occur. Have someone in your office track the case for resentencing. F8 note the resentencing information as well. Please keep the appeal order until resentencing occurs and then send both the appeal order and the Circuit Court resentencing order to Central Records with a note that either the record remains closed and these are supplement documents or that the custody cycle will have to reopen because they are coming back on supervision.

When you receive an appeal order for an AOS who you currently supervise, review the order and the CIS record to determine which offenses are affected. Add appropriate closure codes or movement to the CIS record.

How appeal orders are interpreted is determined by your Director. Your Director may assign this type of responsibility to another manager in your agency, so please follow your agency's practice in this area.

There are common interpretations for some language found on appeal orders, but each order's interpretation could be based on a number of factors and should be reviewed on a case-by-case basis.

The common interpretations listed below do NOT constitute legal advice; these interpretations are here as a general guide and in no way indicate this is the way all judgments containing these phrases should be interpreted. When in doubt, check with Director. Your Director may choose to seek advice from your county counsel for proper interpretations, including whether the client should be supervised.

NOTE: the broad guideline below is NOT legal advice and should be used cautiously.

Reversed and remanded – typically this means the conviction or order of the Circuit Court has been reversed (overturned) and the case is remanded back to the Circuit Court for further proceedings. Further proceedings could be resentencing or dismissal. It could also mean a PV judgment was reversed and remanded back to Circuit Court for further proceedings/resentencing.

Reversed and remanded for resentencing; otherwise affirmed - typically this means the conviction or order of the Circuit Court has been reversed (overturned) and the case is remanded back to the Circuit Court for further proceedings. Further proceedings could be resentencing or dismissal. It could also mean a PV judgment was reversed and remanded back to Circuit Court for further proceedings/resentencing.

Vacated and remanded - typically this means the conviction or order of the Circuit Court has been vacated (overturned) and the case is remanded back to the Circuit Court for further proceedings. Further proceedings could be resentencing or dismissal. It could also mean a PV judgment was reversed and remanded back to Circuit Court for further proceedings/resentencing.

Vacated and remanded; remanded for resentencing - typically this means the conviction or order of the Circuit Court has been vacated (overturned) and the case is remanded back to the Circuit Court for further proceedings. Further proceedings could be resentencing or dismissal. It could also mean a PV judgment was reversed and remanded back to Circuit Court for further proceedings/resentencing.

30.4 DOC's policy on appellate judgments -

Based on DOC policy and statute [ORS 138.257(4)(a)(A), if an order from the **Appeal Court** specifies counts that are reversed, but includes language that says "remand" or "remand for resentencing" that all counts will be resentenced; thusly all counts should be closed to RSNT (which could mean you don't supervise until resentencing occurs) and we expect the Circuit Court to resentence on all counts. If the Circuit Court does not resentence on all counts, please contact the convicting court and ask them to correct that. If your court disagrees with your request to issue a judgment resentencing all counts, please contact your county counsel for assistance.

If the **Supreme Court** specifies counts on an appeal, we are to only close those specific counts to RSNT and expect the court will resentence only on those counts.

An agency is only responsible to make data changes to records currently under their control; example - for the institution it applies to those adults who are currently in institution custody; for community it applies to those adults who are currently under your supervision. This means if the AOS has been appropriately discharged from supervision, you do not have an obligation to update the data entry on that record, as the data accurately reflects what occurred during supervision. Please make an F8 note that an appeal and/or resentencing occurred.

30.5 Dates to use for resentencing orders -

Probation: The proceeding date shall be used for the begin date of probation, and the length of probation is determined by the language in the Circuit Court order. If the intent of the Circuit Court is for the AOS to have credit for previously served probation, they must clearly indicate that in the judgment – some examples could include language stating "probation begins on the original conviction date," "probation begins July 1, 2020," judgment signed with "nunc pro tunc June 13, 2019," "defendant to receive credit for time previously served on probation" or some other similar language that clearly defines the sentence length and/or beginning of probation.

If no such language exists, the probation begins on the proceeding date of the resentence order and runs the full length ordered. If there is a discrepancy between the narrative in eCourt and the language in the judgment, contact your court and request an amended order that outlines their intent in the judgment. We cannot make assumptions about the court's intent, nor decide the probation is already served without the Circuit Court order clearly stating as such.

Post-Prison: This also, in part, is determined by the language of the judgment and in part determined by the incarceration portion of the resentencing order. If the AIC is to be incarcerated for a length of time and the judgment is silent to credits for time served on PPS, then all PPS begins together upon release and runs for the amount of time ordered in the judgment. If the order allows for time credits for PPS, then adjust accordingly.

If adjusted inception is used to determine begin date of PPS, please [see Chapter 14, section 14.18](#) for more information about adjusted inception.

REMINDER: If the appeal or resentencing order affects Board-controlled PPS, be sure to send the orders to the Board with the recommended action needed. If the appeal affects PPS to the degree that there are no longer any open PPS offenses, the Board will issue a Certificate of Expiration. Due to programming constraints, the Board's EXPI order will likely have the wrong date. You will use the correct expiration date anyway and eventually the programming will allow the Certificate to be correct. Please F8 note the discrepancy and that it's due to programming constraints.

Appeal closure code date: Use the "effective date" of the appeal order for your temporary and/or permanent closure codes, both sentence and body.

30.6 Data entry when AOS is an AIC at the time of appeal

All offenses are appealed – the institution will close all I lines to RSNT and move the body to IBRO.

Some offenses are appealed – do not admit to your location until you've determined if there is PPS to be served at the time of admission. There are a variety of factors to determine whether PPS should run on offenses that are closed to POST and not part of the appeal. OISC will determine if there is PPS ordered, and the Board will determine whether PPS should run or wait for the appealed cases to be resentenced first.

When one or more offenses are closed to RSNT, but some are closed to POST and PPS should run prior to the appealed case(s) being resolved:

When non-appeal cases have PPS that now begins in the past because the appeal case "disappears" (reversed/vacated and remanded for further proceedings) and the PPS on the non-appealed case is considered complete prior to the appeal date:

- OISC does not create an adjusted inception letter (OISC Form 477) for these.
- OISC will request a release plan and release the non-appealed case lines to POST, body to POST.
- Board will produce a Board order, even if PPS was completed in the past.
- Community will enter O lines.
 - If they are completed prior to release date, community will close O lines to EXPI and contact TPS to change POST to TRAN/IBRO.
 - If they are still running after release date, community will admit to PO and supervise.

When non-appeal AND appeal cases have PPS that begins in the past after resentencing and all PPS is considered complete at or before the time of resentencing:

- OISC creates an adjusted inception letter for these (OISC Form 477), adjusted calculated release date only applies to the resentenced case(s).
- OISC will request a release plan and release all cases with PPS to POST, body to POST.
- Board will produce a Board order, even though PPS was completed in the past.
- Community will enter O lines.
 - If they are completed prior to release date, community will close O lines to EXPI and contact TPS to change POST to EXPI.
 - If they are still running after release date, community will admit to PO and supervise.

When non-appealed cases will NOT begin PPS until resentencing on appealed cases occurs:

- OISC does not create an adjusted inception letter (OISC Form 477) for these.
- OISC will move body to IBRO and track for resentencing, then process after resentencing accordingly.

When there is previous PPS running that has not reached its max date when appeal on unrelated case goes into effect:

- OISC does not create an adjusted inception letter (OISC Form 477) for these.
- Community will admit to PO and supervise off previous PPS order until max date or resentencing. If max date is reached prior to resentencing, community will move to outcount USAP.

30.7 Data entry when AOS is supervised by community at the time of appeal

If an appeal order only addresses conditions, fines, or fees do NOT close the line to RSNT nor add a second line, simply address the change in the conditions module. Add an F8 note.

USAP - If the AOS files an appeal and PRIOR to the appeal being heard/adjudicated, the Circuit Court orders the AOS should not be supervised while their appeal is pending, close the sentence line to USAP using the date of the Circuit Court order stating no supervision while pending appeal. If there are no other open lines for supervision, also close the body to the outcount USAP. (sentence and outcount)

RSNT - If the interpretation of the appeal order is such that the conviction was overturned, and the case is going to be resentenced – close sentence line to RSNT with the effective date of the appeal order. Add an F8 note. (sentence) (Working on getting RSNT outcount – when that's ready, if there are no other open lines for supervision, also close the body to outcount RSNT; until that is ready use USAP)

*Upon resentencing: if the sentence pursuant to appeal is for the same ORS, add another appropriate sentence line under the first (example: probation was appealed and resentencing puts the person back on probation – close the first P line to RSNT, open a second P line under the first.) Be sure to read the new

sentencing order carefully to ensure you are adding the correct type of sentence line.

*Upon resentencing: if the sentence pursuant to appeal, is for a different ORS, change the ORS on the original docket, add the new sentence line as appropriate (P, L, or O). Add an F8 note to memorialize the original ORS and the reason the ORS is changed. If the offense changes from felony to misdemeanor and there is no further sentence to community, close the line to VACA without changing the ORS.

APPE - If the interpretation is such that the conviction was overturned, and the case will NOT go back to the Circuit Court for further proceedings – close sentence to APPE with the effective date of the appeal order. These are rare. The Appeal Order must be clear that the conviction was overturned and will NOT be remanded back to the Circuit Court for further proceedings. If you see “remand,” “remand for resentencing,” “return to Circuit Court for further proceedings” or any similar language, that indicates a resentencing and does NOT constitute closing the line to APPE. If the last running sentence is closed to APPE, also close the body of the record with the same date and permanent body closure code APPE. (sentence and body)

ACQT - If the interpretation is such that the conviction was overturned and the case was acquitted upon resentencing – first remove the RSNT closure, F8 note to describe the code/date removed, and close the sentence line to ACQT with the proceeding date of the Circuit Court order. The Appeal or Supreme Court cannot acquit – only the original convicting Circuit Court will issue an acquittal. Acquittal is different than a conviction being vacated or dismissed. Look for language in the Circuit Court resentence order that specifically says “acquit” or “acquitted.” If the last running sentence is closed to ACQT, also close the body of the record with the same date and permanent body closure code ACQT. (sentence and body)

BNPB - If the interpretation is such that the conviction was overturned and the case was sentenced to bench upon resentencing - first remove the RSNT closure, F8 note to describe the code/date removed, and close the sentence line to BNPB with the proceeding date of the Circuit Court order. If upon resentencing, the court changes the ORS and orders it bench supervision, close the original docket to VACA and do not enter the second (bench) conviction. If the last running sentence is closed to BNPB, also close the body of the record with the same date and permanent body closure code BNPB. (sentence and body)

DISM - If the interpretation is such that the conviction was overturned and the case was dismissed upon resentencing - first remove the RSNT closure, F8 note to describe the code/date removed, and close the sentence line to DISM with the proceeding date of the Circuit Court dismissal order. The Appeal or Supreme Court will not dismiss charges, only the original convicting Circuit Court will order dismissal upon resentencing. If the last running sentence is closed to DISM, also close the body of the

record with the same date and permanent body closure code DISM. (sentence and body)

VACA – can be used even when there is no appeal.

Sentence - A conviction on a case/count is vacated by Circuit Court order and (1) no new trial occurs; (2) new trial occurs but the count is merged or disposed (vacated) w/no conviction; (3) new trial occurs but count is reduced to a misdemeanor and may or may not get jail.

When an appeal order says conviction is vacated AND REMANDED back to Circuit Court for resentencing, VACA is not used - use RSNT. If Circuit Court vacates the conviction, use VACA. If the Circuit Court resents to a NEW ORS, change the temporary code of RSNT to VACA on the original docket line and add a new docket line as long as the new sentence is formal supervision.

VACA is only used when the Circuit Court vacates a conviction. If the Appeals or Supreme Court overturns (vacates, reverses, etc.,) and does NOT remand back to Circuit Court for resentencing or further proceedings, then use APPE.

Body - If the last running sentence is closed to VACA, also close the body of the record with the same date and permanent body closure code VACA.

30.8 Data entry when appeals are adjudicated after discharge

When an AOS's CIS record was appropriately discharged and an appeal is handed down after discharge, no data (except for an F8 note memorializing appeal order) needs to occur until resentencing. If the person does not come back on supervision based on resentencing, no further data is required (except for F8 note memorializing resentence order).

30.9 Data entry and movement when appeals are adjudicated after discharge and resentencing places AOS back on supervision

If the person is ordered back onto supervision, we must have that supervision occur on the same custody cycle; therefore, we will create movement similar to returning bench cases, returning compact, etc.,

[See chapter 13, section 13.2](#) for data entry instructions.

30.10 AOSs with appeals who are compacted out

[See chapter 8, section 8.18](#) for data entry instructions.

30.11 ORS reference – (language below copied verbatim from ORS)

138.257 Determination on appeal. (1) Except as otherwise provided in this section, the appellate court may affirm, reverse, vacate or modify the judgment or order, or any part thereof, from which the appeal was taken.

(2) Subject to Article VII (Amended), section 3, Oregon Constitution, the appellate court shall not reverse, modify or vacate a trial court judgment or order if there is little likelihood that any error affected the outcome.

(3) Except as provided in subsection (4) of this section, if the court reverses, vacates or modifies a judgment or order, or any part thereof, the court may do so with or without remanding the case and with or without instructions.

(4)(a) The appellate court shall remand the case to the trial court:

(A) If the appellate court, in a case involving multiple convictions, reverses at least one conviction and affirms at least one other conviction.

(B) If the appellate court determines that the trial court, in imposing or failing to impose a sentence in the case, committed an error that requires resentencing.

(b) In a case remanded under this section, the trial court, after issuance of the appellate judgment, may impose a new sentence for any conviction.

(5) If the appellate court reverses a conviction without remanding, upon issuance of the appellate judgment, the trial court shall follow the procedures described in ORS 135.680 concerning the defendant's release. [2017 c.529 §15]

30.12 Regarding appeal orders and instructions sent approximately July 2021:

DOC has put a process in place (July 2021) to receive all appellate orders from the Oregon Appeals Court, so that they can forward those onto each affected community corrections office. DOC also received all appeal orders going back to the Ramos v. Louisiana decision and provided those to the affected counties. Along with sending those appeal orders, DOC sent what they believe should happen with the data entry based on their interpretation of the orders. Please ensure someone in your agency (or county counsel) reviews and agrees with those interpretations. Also please ensure the data entry matches what the workgroup has since determined to be appropriate. The decision on how to make data entry changes and/or changes to supervision based on these appeal orders should come from your agency's interpretation of the orders and the group's decisions regarding data practices.

Should your interpretations of any of the appeal orders differ from what DOC provided, please feel free to reach out to Judy Bell for data entry assistance based on your interpretation of the order.

Appeal orders will continue to be sent to counties, but data entry instructions or legal interpretations will not be included.
